Azalea Kaempferi—Torch Azalea

Better Gardens for 1940

BAY STATE NURSERIES, INC.
NORTH ABINGTON, MASSACHUSETTS

Ornamental Evergreens

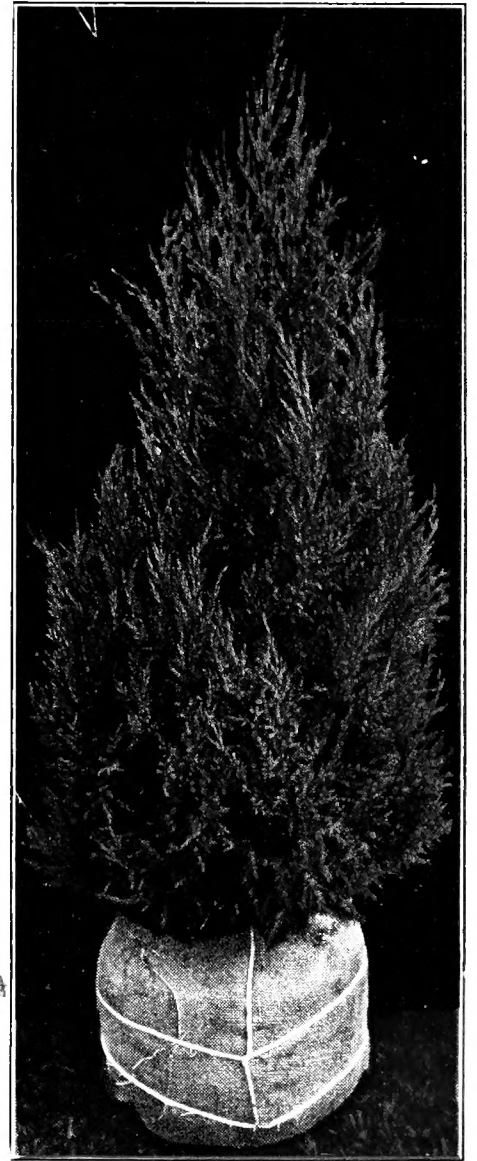

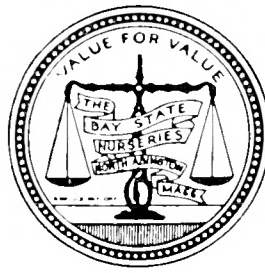

ROSE DAPHNE - Sweet-Scented Daphne Cneorum

Dwarf, cushion-like scented flowers during the spring and autumn.

Recommended for low edging along walks or massed in front of evergreens. Most effective in rock gardens where they are entirely at home.

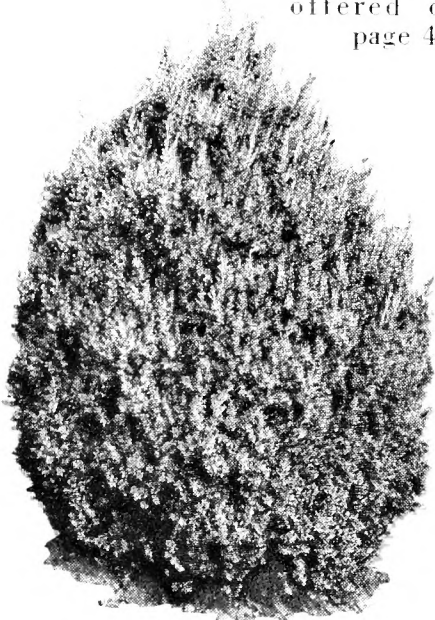

Price: 12-15 in., B&B, \$1.50 each; 5 for \$6.25.

See other sizes offered on page 46.

JUNIPERUS Virginica
(Red Cedar)

Prices: 3 to 4 ft., \$2.25 each; 5 for \$10.00.

SPINY GREEK JUNIPER
(Juniperus Excelsa Stricta)

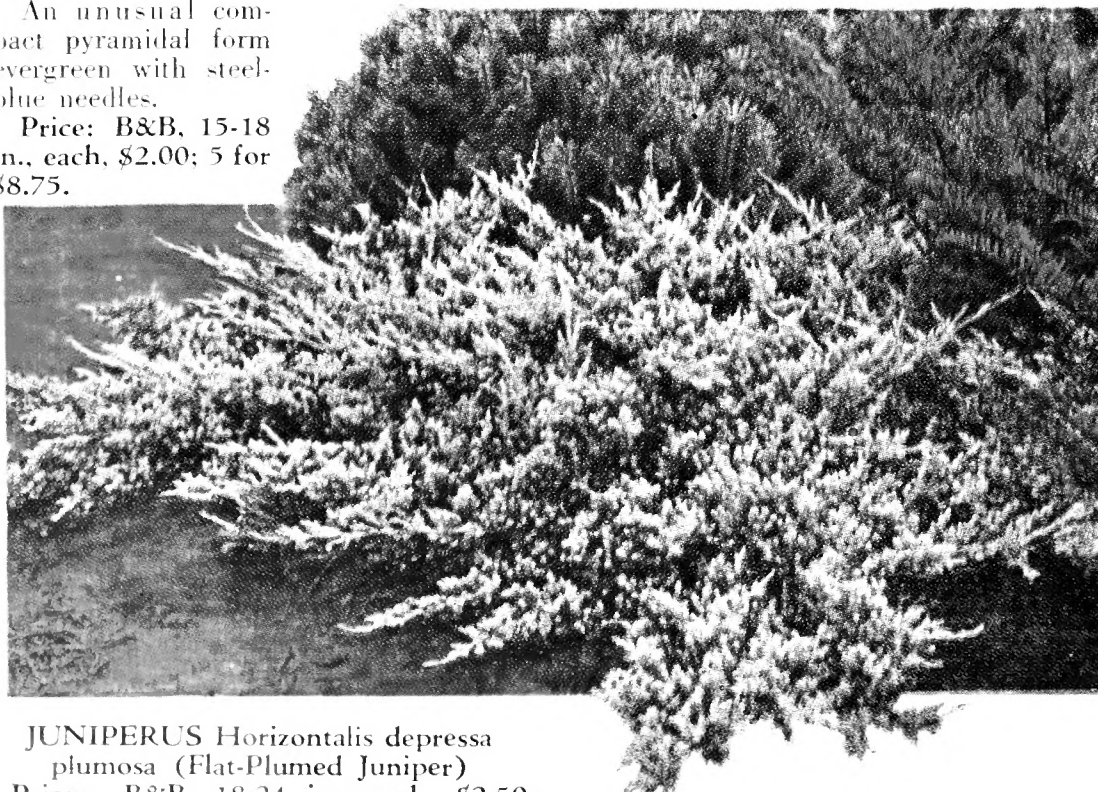

An unusual compact pyramidal form evergreen with steel-blue needles.

Price: B&B, 15-18 in., each, \$2.00; 5 for \$8.75.

DWARF SPREADING YEW
(Taxus Cuspidata Nana)

A very dwarf grower with rich, dark green foliage. Ideal for foundation plantings, low hedges where a rich effect is desired. 15 to 18 in., \$3.00; 5 for \$13.75.

JUNIPERUS Horizontalis depressa plumosa (Flat-Plumed Juniper)

Prices: B&B, 18-24 in., each, \$2.50; 5 for \$11.25.

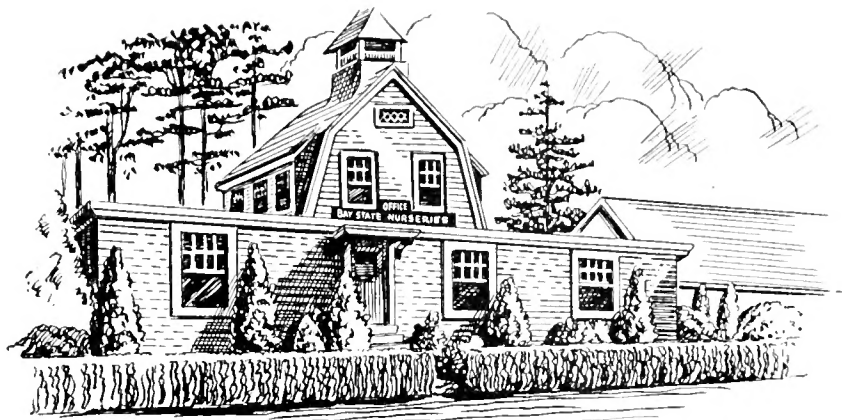

DOUGLAS FIR - Pseudotsuga douglasi
Grows to a lofty height. Price: B&B, 3-4 ft., each, \$4.00; 5 for \$18.75.

and Motor Route 58 to Cape Cod

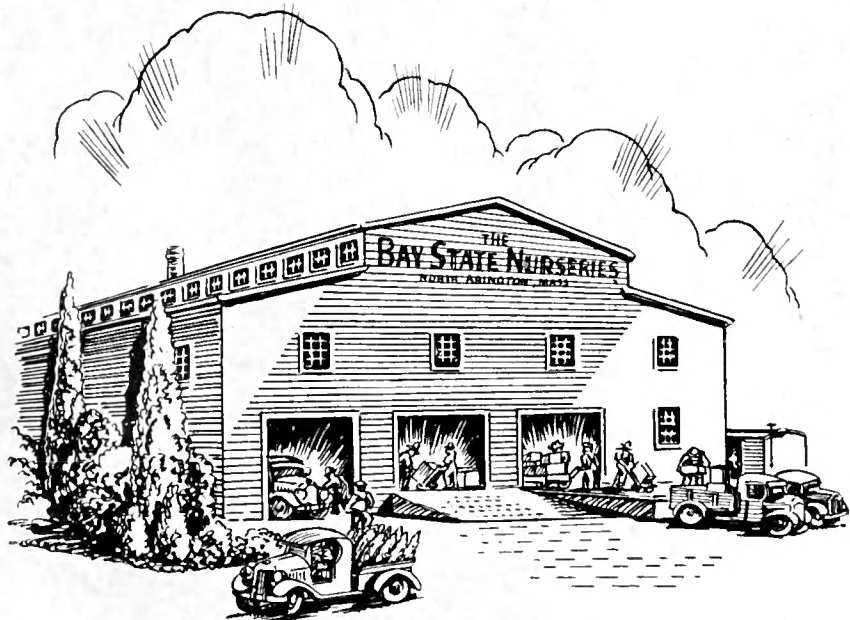

THE items offered in this catalog are objects of life that, with a few warm days in spring, burst forth in foliage and flower, and throughout the season surprise us with gay burdens of brightly colored fruit. The catalog is prepared with the purpose of helping a prospective customer buy intelligently by accurately describing the time of flowering, ultimate growth of tree, shrub, or hardy plant.

Let us help you to buy intelligently by giving you our experience regarding any items about which you may be in doubt, and if not adapted to your conditions or satisfactory for the effects you wish to obtain, we will quickly tell you so. Write or bring your questions to us.

You will find within the pages of this book the better of the recent introductions, together with the best of the old types which have already demonstrated their worth. There is nothing listed herein just because it is a novelty of perhaps doubtful merit.

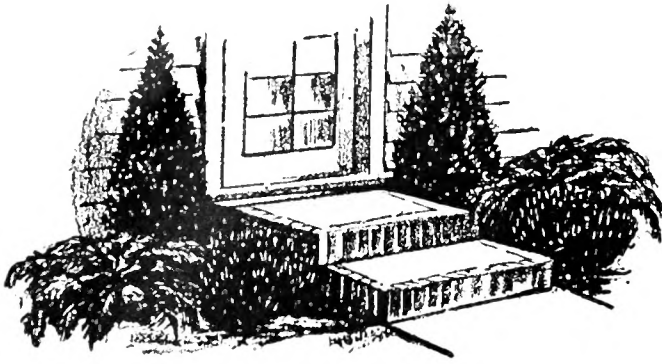

Visitors are Welcome

A welcome awaits the guest at our nursery office. Our sales yard displays freshly dug evergreens, trees and plants ready to transplant to your own garden.

Evergreen Leaders

Properly Grown by BAY STATE

There are no more beautiful things in nature than well-grown, well-cared-for Evergreen Trees. They are strong and bold, and have definitely pronounced form. Summer, winter, spring, and fall they provide constant color and form accent—neat and precise when young, sturdy and majestic at maturity.

ABBREVIATIONS

Denoting varieties for seashore planting: (+).
 Denoting rapidity of growth: r, rapid; m, medium; s, slow; v, vigorous.
 Denoting sizes: L, large; M, medium; S, small; D, dwarf; VD, very dwarf.
 80 ft. or other similar figure, following a plant name, means that this is the average normal maximum height and that the plant attains at maturity under general New England conditions.

Evergreens are dug Balled and Burlapped (B&B) at the prices quoted.

Prices: 5 or more plants of one kind and size will be furnished at the 10 rate.

Well Developed Trees - Easy to Transplant

In winter, their boughs bending beneath the weight of snow, furnish a temporary variation of form, and the most beautiful of color contrasts. We have always grown a great variety of Evergreens and have many acres devoted to them where they are carefully tended from seedlings and grafts to bushy, well-developed trees. In order to make them easy to handle when out of the ground, we transplant them frequently. This produces a ball of thread-like roots which will hold the soil firmly and allow them to be shipped and replanted with the least possible check and every assurance that they will live and prosper.

Evergreens for All Purposes

There is no end to their uses, just as there is no end to their infinite variety. Probably the owner of a small place will find best use for the dwarfer, slow-growing types in the foundation-planting, while larger places need them for fine foliage groups, for windbreaks, for enclosing private portions of the grounds, or for special formal treatment of various parts of the garden.

ABIES - Fir

Young or Old, The Fir is Always a Picture of Grandeur

A large family of shapely trees with beautiful, soft, flat foliage, usually growing to great height, and in the first twenty-five to thirty years are most ornamental, attaining great picturesqueness with age. First may be planted as individual specimens or as a screen, hedge, or windbreak. They should not be used in foundation plantings.

Abies concolor. White Fir. 80 ft. (Lm.) A very hardy tree from the Rocky Mountains, with dense foliage of varying shades of dark green and blue. It grows rapidly and withstands heat and drought. As a single specimen, it is one of the most graceful and perfect trees, and the showiest of all the firs.

	Each	10		Each	10
2 to 3 ft.	\$3.00	\$27.50	7 to 8 ft. ...	\$15.00	\$140.00
3 to 4 ft.	4.00	37.50	8 to 9 ft. ...	18.00	160.00
4 to 5 ft.	6.00	55.00	9 to 10 ft. ...	22.00	200.00
6 to 7 ft.	12.00	110.00			

For large, mature specimens, prices will be quoted on request.

A. fraseri. Fraser Fir. 40 ft. (Lr.) This splendid evergreen makes a trim, pyramidal tree with flat, richly verdant needles borne horizontally and tinted a lighter green on the under side. It is a rapid grower, doing best in cool, moist locations.

	Each	10		Each	10
18 to 24 in. ...	\$2.00	\$17.50	3 to 4 ft.	\$3.50	\$32.50
2 to 3 ft. ...	2.50	22.50	4 to 5 ft.	5.00	45.00

A. homolepis. Nikko Fir. 80 ft. (V.) This Fir, which comes from the mountains of Japan, makes a massive, bulky tree with a broad, rounded top. The outspreading branches are thickly crowded with long, lustrous needles which curl upward, revealing their silvery lower surfaces. It is a picturesque tree, well adapted to the eastern states.

	Each	10		Each	10
2 to 3 ft.	\$2.00	\$17.50	4 to 5 ft.	\$5.00	\$45.00
3 to 4 ft.	3.50	30.00			

VISITORS WELCOME

Visitors are welcome at all times to browse around our sales yard adjoining the nursery office. You will be surprised at the exceptionally low prices we have on garden plant material this year. Freshly dug Evergreens, trees, and plants are ready to transplant to your own garden. Come and make your selection.

Come to the Nursery and Pick Out Your Evergreens

Pfitzer Juniper (*Juniperus Pfitzeriana*) (See page 7)

ABIES - Fir (Continued)

Abies veitchi. Veitch Fir. 80 ft. (Lr.) The most rapid growing fir, making a tall, symmetrical tree with dark foliage, silvered on the under side. Very hardy and desirable for planting as a specimen.

Each 10		Each 10	
2 to 3 ft.	\$2.00 \$17.50	8 to 9 ft. ...	\$15.00 \$140.00
3 to 4 ft.	3.00 27.50	10 to 12 ft. ...	20.00 180.00
4 to 5 ft.	4.50 40.00	12 to 14 ft. ...	30.00 270.00
5 to 6 ft.	6.00 55.00		

For large, mature specimens, prices will be quoted on request.

CHAMAECYPARIS - Retinospora; False Cypress

The plants belonging to this group include many delightful shrubby evergreens, some dwarf, and some tall, yet all affording a generous variety of texture and foliage color. Assuming a dignity of form as they mature they make splendid backgrounds for other plants, or, if kept closely sheared, they will contribute dense, cone-shaped forms to the foundation planting. They thrive in both dry and moist soils, whether in full sun or partial shade.

Chamaecyparis obtusa compacta. Football Cypress.

5 ft. A round, little shrub with thickly ascending branchlets of rich, dark green, much used in foundation plantings or for formal accents.

Each 10	
3 to 4 ft.	\$4.50 \$40.00
4 to 5 ft.	6.00 55.00

C. obtusa gracilis. Slender Hinoki Cypress. 10 ft. (Ds.)

A compact, pyramidal form, with dark green fronds, tight and short, with slightly pendulous tips. A dwarf plant, excellent in foundation plantings. Tender further north.

Each 10	
15 to 18 in.	\$2.25 \$20.00
18 to 24 in.	3.00 27.50
2 to 2½ ft.	3.50 32.50

C. obtusa nana. Dwarf Hinoki Cypress. 6 ft. (Ds.)

A picturesque, dwarf evergreen of very slow growth, with short, curiously twisted, dark green fronds. This is excellent in the rock garden.

Each 10	
9 to 12 in.	\$1.75 \$16.00
12 to 15 in.	2.50 22.50

C. pisifera. Sawara Retinospora. 40 ft. (Lr.) An upright, graceful tree, slightly pendulous at the ends of the branches. In northern latitudes it should be planted in sheltered locations.

Each 10	
6 to 7 ft.	\$ 7.00 \$65.00
7 to 8 ft.	9.00 85.00
8 to 9 ft.	12.00 110.00
9 to 10 ft.	15.00 140.00
10 to 12 ft.	20.00 180.00

C. pisifera aurea. Golden Sawara Retinospora. 40 ft. (Lr.) Like the preceding, except for its beautiful golden foliage.

Each 10		Each 10	
6 to 7 ft.	\$7.00 \$65.00	8 to 9 ft.	\$12.00 \$110.00
7 to 8 ft.	9.00 85.00		

C. pisifera filifera aurea. Golden Thread Retinospora. 8 ft. (Ms.) An evergreen with thread-like, golden foliage, of slow growth and rounded, compact form which it presents for many years. The foliage is bright golden yellow, which makes a beautiful contrast with other evergreens.

Each 10		Each 10	
2 to 2½ ft. ...	\$4.50 \$40.00	3 to 4 ft.	\$7.00 \$65.00
2½ to 3 ft. ...	5.50 50.00	4 to 5 ft.	9.00 85.00

C. pisifera plumosa. Plume Cypress. 30 ft. (Ms.) Slender, almost erect branchlets of feathery appearance, with tiny, needle-like, bright green foliage. Of conical habit, forming specimens of dense texture when sheared into formal shape.

Each 10		Each 10	
2 to 3 ft.	\$2.50 \$22.50	7 to 8 ft.	\$10.00
3 to 4 ft.	3.50 32.50	8 to 9 ft.	14.00

C. pisifera plumosa aurea. Goldenplume Retinospora. 30 ft. (Ms.) A golden form of the preceding. It is one of the most popular evergreens, and particularly liked for its rich yellow foliage, which shows up well among the more somber greens and grays of other varieties.

Each 10		Each 10	
2 to 3 ft.	\$2.75 \$25.00	7 to 8 ft.	\$10.00 \$ 90.00
3 to 4 ft.	3.50 32.50	8 to 9 ft.	14.00 130.00

For large, mature specimens, prices will be quoted on request.

C. pisifera plumosa lutescens. Pale Retinospora. (VDs.) A dwarf, globe-shaped plant, with feathery foliage of pale, creamy yellow. It is valuable for its low growth and the extra color tone it brings to increase variety among the evergreens.

Each		Each	
3½ to 4 ft. spread	\$7.50	4 to 4½ ft. spread	\$ 9.00
		5 to 6 ft. spread	12.00

C. pisifera squarrosa veitchi. Moss Retinospora. 20 ft. (Ms.) An ornamental Japanese tree with feathery, bluish gray foliage. It should be planted in somewhat sheltered positions where its unusual beauty will repay the attention given.

Each 10		Each 10	
4 to 5 ft.	\$5.00 \$45.00	6 to 7 ft.	\$8.00 \$75.00

Siberian Arbor-Vitae (*Thuja*)

Goldenplume Cypress

Plume Cypress

Upright Japanese Yew (*Taxus*)

JUNIPERUS - Junipers; Cedars

The Erect Junipers — Tapering, Slim, Spirelike Beauties
 Feathery — Graceful

There is a wide variety of forms and textures presented among the Junipers. They are invaluable for formal effects as there are fine columnar forms, broad bushy shapes, and sharp, upright spires. The low spreading and creeping forms are excellent for informal planting or as ground covers for banks or rough slopes.

At least one Juniper variety should be included in every evergreen planting.

Juniperus chinensis. Chinese Juniper. 25 ft. A handsome, gray-green tree of loose, columnar form. Very hardy, easy to grow, and makes a fine neutral background for flowering shrubs and other low evergreens when planted in large groups.

Each	10	5 to 6 ft.	\$7.50	\$70.00
4 to 5 ft.	\$5.00	\$45.00	6 to 8 ft.	8.50 80.00

J. chinensis albo-variegata. Whiteleaf Chinese Juniper. 8 ft. Attractive creamy white branchlets interspersed among the gray-green foliage. Growing naturally into a dense, formal pyramid, it is useful for variety of color in low evergreen plantings.

Each	10	Each	10
3 to 4 ft.	\$4.00 \$37.50	5 to 6 ft.	\$6.50 \$60.00
4 to 5 ft.	5.00 45.00	6 to 7 ft.	9.00 85.00

†J. chinensis columnaris. Columnar Chinese Juniper. 15 ft. Compact, narrow tree, with steel-gray foliage. Very formal and useful for accent points or specimens.

Each	Each
10 to 12 ft.	\$18.00 12 to 14 ft. \$25.00

†J. chinensis pfitzeriana. Pfitzer Juniper. 15 ft. spread. (Ss.) A graceful, fan-shaped evergreen with horizontally spreading branches, as broad as tall, of rough grayish green. It is very hardy, will thrive under very unfavorable conditions, and is very well adapted to planting about foundations, entrances, and beside steps and in a multitude of places where something hardy, vigorous, and attractive is desired. We call special attention to the large sizes in which we can furnish this popular variety. These will produce a finished, established, long-planted effect the first season and grow finer year by year.

Each	10	Each	10
15 to 18 in. spr.	\$2.00 \$17.50	6 to 7 ft. spr.	\$15.00 \$140.00
18 to 24 in. spr.	2.75 25.00	7 to 8 ft. spr.	18.00 160.00
2 to 2½ ft. spr.	3.50 32.50	8 to 9 ft. spr.	20.00 180.00
		9 to 10 ft. spr.	25.00 225.00

J. chinensis sargentii. Sargent Juniper. 8 ft. spread. Trailing shrub, with erect branchlets, forming dense, silvery, gray-green mats, making a handsome ground cover and particularly useful on banks and in rock gardens.

Each	10
15 to 18 in. spread	\$2.75 \$25.00

†J. communis depressa. Spreading Field Juniper. 10 ft. spread. Light bluish foliage, turning dull purple in winter. It will live in light, sandy soil and withstand severe exposure.

Each	10	Each	10
18 to 24 in. spr.	\$2.25 \$20.00	2 to 2½ ft. spr.	\$3.00 \$27.50

J. communis hibernica. Irish Juniper. 10 ft. (Mm.) A slender, spirelike column with dark, bluish green foliage, making excellent formal accents in gardens or foundation plantings.

Each	10
3 to 4 ft.	\$3.00 \$27.00

J. excelsa stricta. Spiny Greek Juniper. 6 ft. A compact, erect, pyramidal form with stiff, steel-blue needles. It is a neat and formal accent for gardens, and is frequently used in tubs or pots to accentuate doorways or entrances to gardens. (Illustrated in color on inside front cover.)

Each	10	Each	10
15 to 18 in. ..	\$2.00 \$17.50	2 to 2½ ft. ...	\$3.00 \$27.50
18 to 24 in. ..	2.50 22.50		

†J. horizontalis. Creeping Juniper. 6 ft. spread. A splendid plant for banks, rocky slopes, and rock gardens, making a broad, dense, bright green mat on the ground.

Each	10	2½ to 3 ft. spr.	\$3.75 \$35.00
2 to 2½ ft. spr.	\$3.00 \$27.50	3 to 4 ft. spr.	4.50 40.00

†J. horizontalis depressa plumosa. Flat Plumed Juniper. 8 ft. spread. Exceedingly hardy, yet more dwarf and compact in habit than Pfitzer's Juniper. Its silvery green foliage becomes a rich plum-purple in the autumn and winter, affording an interesting color contrast among other evergreens. Excellent to cover rough slopes. (Illustrated in color on inside front cover.)

Each	10	Each	10
18 to 24 in. spr.	\$2.50 \$22.50	3 to 3½ ft. spr.	\$4.50 \$40.00
2 to 2½ ft. spr.	3.00 27.50	3½ to 4 ft. spr.	5.50 50.00
2½ to 3 ft. spr.	3.75 35.00	4 to 5 ft. spr.	7.00 65.00

J. horizontalis douglasii. Waukegan Juniper. 6 ft. spread. A distinctive prostrate type having long branches of steel-blue needles. Its unusual purple hue in winter renders it particularly desirable.

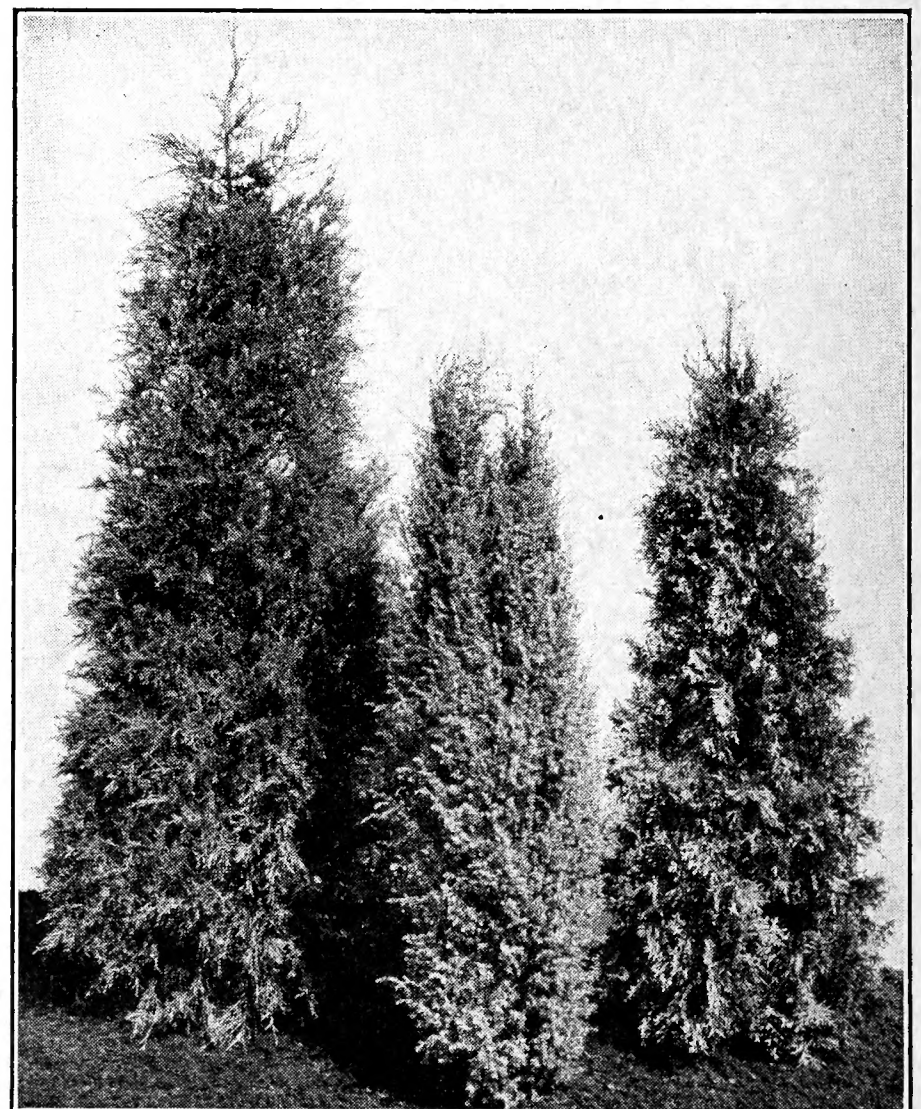

Each	Each
2½ to 3 ft. spread	\$4.00 3 to 3½ ft. spread

J. japonica. Japanese Juniper. 6 ft. spread. Low and shrubby, with bending branches of rich medium green needles. Very decorative and hardy.

Each	10	Each	10
18 to 24 in. spr.	\$2.75 \$25.00	2½ to 3 ft. spr.	\$5.00 \$45.00
2 to 2½ ft. spr.	4.00 37.50	3 to 4 ft. spr.	6.00 55.00

J. sabina. Savin Juniper. 5 ft. spread. Graceful, fine textured foliage and slightly arching branchlets of medium dark green, turning bronzy in winter.

Each	10	Each	10
18 to 24 in. spr.	\$2.75 \$25.00	2½ to 3 ft. spr.	\$4.50 \$40.00
2 to 2½ ft. spr.	3.50 32.50	3 to 4 ft. spr.	5.50 50.00

Red Cedar

Irish Juniper

Pyramidal Arbor-Vitae
(Thuja)

Variable are the Junipers in Form—Color—Foliage—and All are Beautiful

JUNIPERUS - Juniper (Continued)

†J. *virginialis*. Dwarf Chinese Juniper. 5 ft. spread. A dwarf, very hardy Chinese juniper with rich, light green foliage which keeps bright and fresh all season.

Each	10	Each	10
2 to 2½ ft. spr. \$3.75	\$35.00	3 to 3½ ft. spr. \$5.50	\$50.00
2½ to 3 ft. spr. 4.50	40.00	3½ to 4 ft. spr. 7.50	70.00

J. *virginiana*. Redcedar. 40 ft. (Mm.) The well known and well loved tree which is so characteristic of open landscapes throughout eastern North America. It is best employed as a tall columnar accent or planted closely in screen plantings. Because of the ease and hardiness with which it grows it can well be the backbone of all formal plantings in new gardens. Its bright, rich, blue-green foliage and its waxy blue berries make it particularly desirable as a specimen plant. (Illustrated in color on inside front cover.)

Each	10	Each	10
2 to 3 ft. \$1.75	\$16.00	6 to 7 ft. .. \$ 5.00	\$45.00
3 to 4 ft. 2.25	20.00	7 to 8 ft. .. 7.00	65.00
4 to 5 ft. 3.00	27.50	8 to 9 ft. .. 10.00	90.00
5 to 6 ft. 4.00	37.50	9 to 10 ft. .. 13.00	120.00
		10 to 12 ft. .. 18.00	160.00

Somewhere in your planting there may be a weak spot. Why not use a Red Cedar of good size? Its very presence of quiet dignity will impart a feeling of strength to your garden.

We can furnish specimen trees ranging from 18 ft. to 30 ft. in slender, symmetrical spires, broad cones, or shaggy, picturesque informal types. Prices gladly submitted. State type and size desired.

J. *virginiana elegantissima*. Goldtip Redcedar. 15 ft. A very ornamental variety, making a slender cone of bright green, glistening all over with bright yellow tips borne at the end of the branchlets and turning a handsome bronzy green in winter.

Each	10	Each	10
3 to 4 ft. \$5.00	\$45.00	5 to 6 ft. \$7.50	\$70.00
4 to 5 ft. 6.00	55.00	6 to 7 ft. 9.00	85.00

†J. *virginiana glauca*. Silver Redcedar 30 ft. (Mm.) A narrow, dense columnar form, covered from top to bottom with a mist of silvery, blue-gray foliage. Its frosty appearance affords an interesting relief when interplanted with the darker evergreens.

Each	10	Each	10
3 to 4 ft. \$3.25	\$30.00	5 to 6 ft. \$6.00	\$55.00
4 to 5 ft. 4.50	40.00	6 to 7 ft. 8.00	75.00

†J. *virginiana schottii*. Schott Redcedar. Differs from the Redcedar mainly in its lighter yellow-green color and more feathery texture. A dense narrow pyramid which stands shearing well and retains its color throughout the winter season.

Each	10	Each	10
3 to 4 ft. \$4.00	\$37.50	6 to 7 ft. ... \$ 9.00	\$ 85.00
4 to 5 ft. 5.00	45.00	7 to 8 ft. ... 12.00	110.00
5 to 6 ft. 7.00	65.00	8 to 10 ft. ... 15.00	

PICEA - Spruce

Magnificent in Groups — Effective Windbreaks

The beautiful spires of the Spruces are most effective in landscape and garden planting. They are similar to the Firs, making splendid avenue effects, magnificent groups, and grow rapidly into efficient windbreaks. There are, also, among the Spruce, true dwarfs and pygmies eminently suited to the foundation planting. The latter include some of the rarest and most desirable of dwarf evergreens.

The Spruces are of exceeding hardiness, withstanding severe growing conditions. Succeeding best in full sun, they prefer medium soils and will endure tremendous droughts or poor soils.

†Picea *canadensis*. White Spruce. 60 ft. (Lm.) One of the best North American conifers. It is a compact and upright tree of great longevity, with light, silvery green foliage. Makes a handsome specimen and is splendid for windbreaks, screen-planting, and large hedges. Any kind of soil suits it, and it will endure much clipping and pruning.

Each	10	Each	10
2 to 3 ft. \$1.50	\$13.50	4 to 5 ft. \$3.50	\$32.50
3 to 4 ft. 2.50	22.50	5 to 6 ft. 5.00	45.00

P. *engelmanni*. Engelmann Spruce. 75 ft. (Ls.) A noble, pyramidal tree making a handsome, compact specimen, with its outswEEPing lower branches resting on the ground. The foliage varies from strong blue to silvery gray-green and it has a strong, aromatic fragrance.

Each	10	Each	10
18 to 24 in ... \$2.50	\$22.50	2 to 3 ft. \$3.50	\$32.50

†P. *excelsa*. Norway Spruce. 100 ft. (Lr.) A hardy, rapid growing evergreen that adapts itself to almost any soil. Dense, dark green foliage. Very satisfactory for windbreaks and hedges. Plant small sizes 2½ feet apart for a dense hedge.

Each	10	Each	10
18 to 24 in. ... \$1.00	\$ 9.00	5 to 6 ft. \$6.00	\$55.00
2 to 3 ft. 1.50	13.50	6 to 7 ft. 7.50	70.00
3 to 4 ft. 2.50	22.50	7 to 8 ft. 10.00	90.00
4 to 5 ft. 4.00	37.50	8 to 10 ft. 15.00	140.00

For large, mature specimens, prices will be quoted on request.

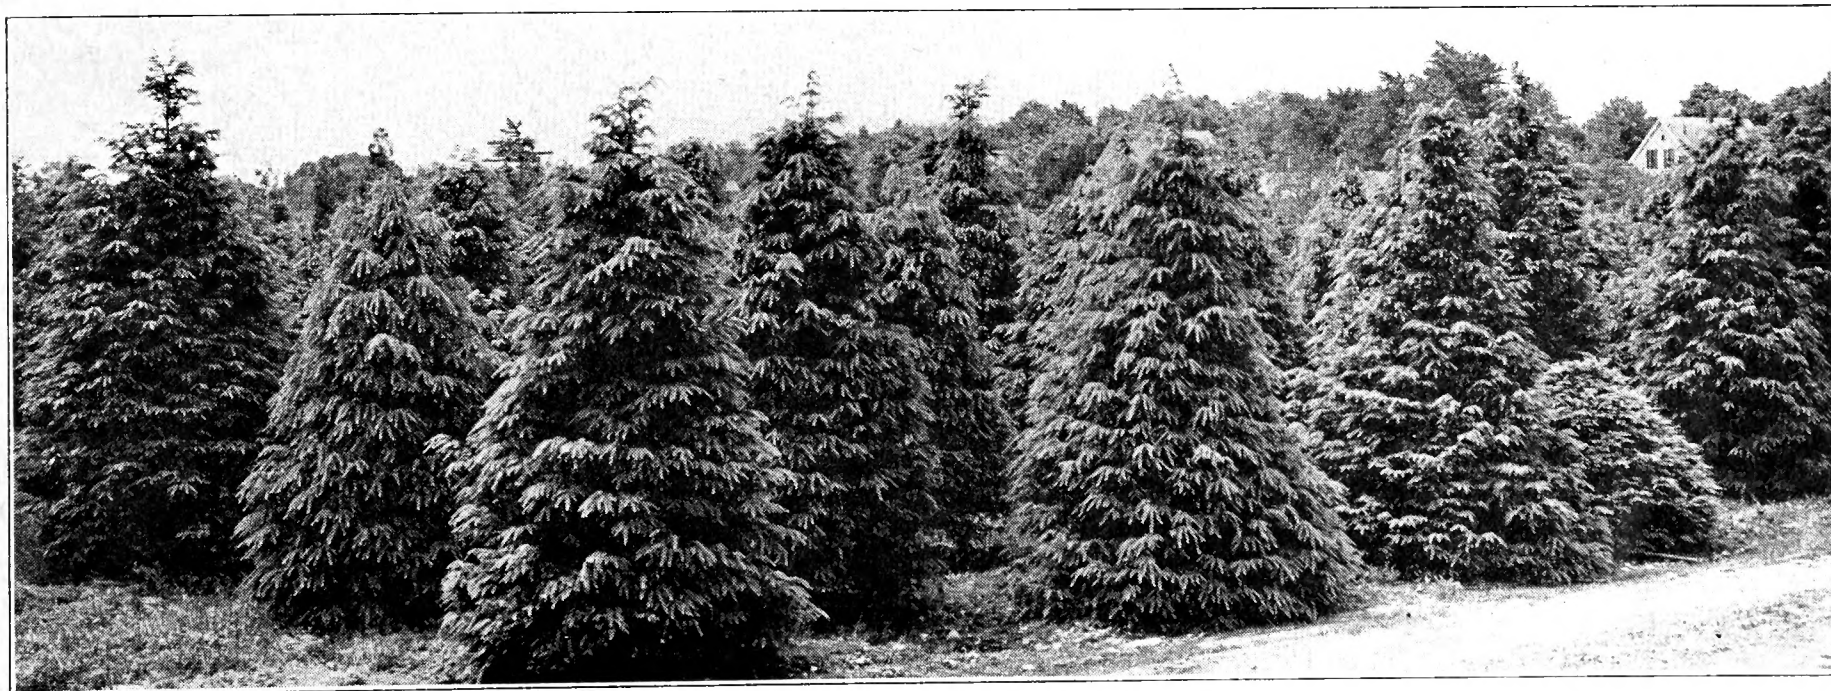

The four following varieties of Norway Spruce are extremely dwarf and compact, beautiful rare specimens, and are truly collection pieces.

P. *excelsa maxwelli*. Maxwell Spruce. 5 ft. spread. A dense hassock type pygmy with many tiny branchlets bearing needles of medium, gray-green. Very fine.

Each	Each
2 to 2½ ft. \$15.00	2½ to 3 ft. \$18.00

P. *excelsa procumbens*. Prostrate Spruce. 5 ft. spread. Another pygmy of hassock type. Dark, handsome green needles. Excellent.

Each	Each
2 to 2½ ft. spr. \$12.00	3 to 3½ ft. spr. \$20.00
2½ to 3 ft. spr. 15.00	

Canadian Hemlock (*Tsuga Canadensis*) See page 11.

PICEA - Spruce (Continued)

P. excelsa remonti. Remont Spruce. 14 ft. Dense, broad, cone-form, with very dark green foliage. An excellent, dwarf tree.

Each	10	Each	10
15 to 18 in. ...	\$6.00 \$55.00	2½ to 3 ft. ...	\$14.00 \$130.00
18 to 24 in. ...	8.00 75.00	3 to 3½ ft. ...	17.50 160.00
2 to 2½ ft. ...	10.00 90.00	3½ to 4 ft. ...	22.00 200.00

P. excelsa pumila. Dwarf Spruce. 4 ft. A low, globe-shaped evergreen, remarkably slow-growing. Its dense branches are crowded with short, lustrous, blue-green foliage.

Each	Each
15 to 18 in.	\$6.00
18 to 24 in.	9.00
2 to 2½ ft.	\$12.00
2½ to 3 ft.	15.00

P. glauca conica. Dwarf Alberta Spruce. An excellent dwarf Spruce, most distinctive of all Spruces. Its blue-green, slender needles are arranged in dense, radial manner around the thickly set branches. Of perfect conical form, and exceedingly slow growth, it eventually develops into a perfect miniature of tall forest trees, but only 6 to 8 feet tall. For the rock garden or permanent low plantings no finer evergreen could be chosen.

Each	10	Each	10
15 to 18 in. ...	\$3.00 \$27.00	18 to 24 in. ...	\$3.75 \$35.00

Extra Heavy Specimens

Each	Each

We have many very fine large specimens; prices on request.

PINUS - Pine

Perhaps the best-known and most popular of all the evergreens, these noble trees are adaptable to many purposes. In their earlier years, they are broadly conical, with rounded tops, but not stiffly symmetrical in outline. They develop a rugged strength with age that is comparable only to that of the Oaks. Their best use is as large specimens, either singly, in groups, or as large hedges, windbreaks and screens. There are one or two smaller varieties which may be used in foundation plantings but probably are best used as "facers" for group plantings of the larger sorts.

The Pines have a wider adaptability than other evergreens, growing under more variable conditions of soil and climate, yet they succeed best in the open country or near the shore, but cannot endure shade or smoke.

†**Pinus mughus. Mugho Pine.** 10 ft. spread. (Ds.) A very valuable broad, dense evergreen, with bright green foliage. Most useful for foundation plantings, for rock gardens, or covering gravelly or sandy slopes.

Each	10	Each	10

—As Sturdy as an Oak

PINUS - Pine (Continued)

Pinus resinosa. Red Pine. 70 ft. (Lr.) This useful and attractive evergreen is a rapid-growing, tall, fairly spreading tree. Its picturesque character and lustrous green color make it equally desirable for planting either in small groups or as a windbreak.

	Each	10		Each	10
2 to 3 ft.	\$3.00	\$27.50	8 to 10 ft. ...	\$16.00	\$140.00
P. strobus. White Pine. 100 ft. (Lr.) No one who has ever driven through New England can forget the majesty of the White Pine. When young its foliage, with a lovely green sheen, makes a compact and feathery tree, while at maturity its spectacularly picturesque, wide-spreading form stands out against the sky. Growing rapidly, it is the most adaptable, most useful, and most valuable of the pines.

Red Pine
(*Pinus resinosa*)

PSEUDOTSUGA - Fir

†**Pseudotsuga douglasii. Douglas Fir.** Native to the eastern Rockies, this westerner has by sheer merit made third place in importance of larger evergreens in New England; excelled only by White Pine and Canada Hemlock. A magnificent tree of medium conical habit when young; a majestic column gracefully tapering towards a sharp top at maturity. In color, usually medium to dark green, often with a grayish to bluish overlay. It grows in full sun, yet does exceedingly well in partial shade where other large conifers seldom flourish. (See inside front cover for color illustration.)

	Each	10		Each	10

TAXUS - Yew

For years Yews have been considered as diamonds in the evergreen group. Now that they are propagated more freely and in greater quantities, thus making them more readily available to our gardens, we find them, in their various forms, becoming one of the most commonly planted, as well as the most valuable of the evergreens.

There is no other hardy evergreen which adapts itself to as many purposes with such rich and dignified results. They can be recommended for foundation plantings, for vertical accents, either at doorways, or in formal gardens, or as lawn specimens, while as truly evergreen hedge plants there is nothing better. They are perfectly hardy and free from disease or insect pests. All will flourish in sun or shade with exception of the Canada Yew which turns yellow-brown in a sunny exposure.

Taxus baccata repandens. Spreading English Yew. 8 ft. spread. (Ds.)

Of a graceful, spreading form, with foliage of a beautiful shade of dull bluish green. Very hardy and desirable and especially useful in large rock gardens or for low masses or mounds on banks or in open lawns.

	Each	10
15 to 18 in. spr. ..	3.00	\$27.50
18 to 24 in. spr. ..	4.00	35.00
2 to 2½ ft. spr. .	5.00	45.00
2½ to 3 ft. spr. .	7.00	65.00

Planting Suggestions

All our evergreens are shipped with the roots in a ball of earth, securely wrapped in burlap. It is important not to let this ball of earth get dry. The hole should be made large and deep enough to enable the ball to be slipped into it without breaking or forcing; and the burlap should be removed before filled with good soil. If the ground is dry, the hole should be partly filled with well trodden earth and then filled with water. When it has drained away, it should be filled up again and more water put in, repeating the process until the job is completed. If a slight depression is left about the base of the plant, it will help in future waterings.

All newly planted evergreens should be made as firm as possible and staked or wired to prevent them from swaying, as the heavy tops are likely to do. In the autumn, the ground beneath them should be mulched for the first few years, until they begin to form a mulch of their own by their shed needles.

Pines are Rapid Growers—and the Sturdiest Evergreens of All

TAXUS - Yew (Continued)

Taxus baccata, Washingtoni. Washington Yew. 8 ft. This wide spreading evergreen, also known as the Golden Yew, has golden yellow foliage which is particularly brilliant on the under side, and which makes a decided contrast to the dark green Yews.

Each	10	Each	10

The Ten Rate Will Save You Money on Five or More of These Beauties

THUJA - Arbor-Vitae

Arbor-Vitae are formal yet attractive evergreens of greatly diversified form and coloring, varying in height from low, cushion-like plants to lofty trees, varying in color from dark green to golden yellow. Such variety adapts them for many positions in landscape planting; their narrow pyramidal, columnar or globosa forms making them invaluable in the foundation planting. Many types make dense green hedges either for tall screens or for outlining garden areas. Thriving in full sun or partial shade, in any good garden soil, they lend themselves to so many purposes that they really are indispensable in garden making.

†**Thuja occidentalis**. *American Arbor-Vitae*. 40 ft. (Mr.) The common, upright, flat-leaved evergreen so commonly used as single specimens and for hedges and windbreaks everywhere. May be kept at any height by shearing. It thrives on moist as well as dry land, and endures city conditions.

TSUGA - Hemlock

Many people will agree that the Hemlock is the most graceful and the best loved evergreen tree of eastern North America. Certainly, no evergreen tree can compare in dignity and beauty, one or several of them bending under the winter snow, creating a never-to-be-forgotten picture. They thrive well in full sun, partial shade, or dense shade, preferring plenty of moisture, and as they mature they assume a magnificent stateliness equaled by few other trees.

Tsuga canadensis. *Canada Hemlock*. 80 ft. (Lr.) The Hemlock is the finest North American evergreen, and is always a source of joy and satisfaction to those who plant it freely. It makes a broad pyramidal, medium-sized tree of dense growth, with rich green foliage and more or less drooping branches, giving a particularly graceful effect to the whole. It is excellent as a single lawn tree, for foundation plantings when it is young, for hedge purposes, while as a dark green background for Dogwoods or Hawthorns it is unsurpassed.

APPROVED SPECIMENS

for LAWNS, GROVES,
STREETS, PROPERTY
LINES, Etc.

*All prices listed are for bare-root dug, unless otherwise stated.
B&B means Balled and Burlapped.*

IN this classification we offer not only remarkable variety but plants of exceptionally fine quality, growing characteristics, and beauty.

There is a vast army of beautiful trees which shed their leaves in autumn. Among them are trees suitable for planting along streets and boundary lines, trees for woodlands and copses, for groves and for specimens, or merely to shade a corner of the back yard. Almost all of them are gorgeous when their leaves turn color in autumn and display an intricate and interesting pattern of bare branches against the winter sky.

Abbreviations

L, trees that attain a height of 50 feet or more; M, trees that attain a height of 25 to 50 feet; S, trees that attain a height of 10 to 25 feet; D, dwarf; VD, very dwarf.

Denoting Rapidity of Growth: r, rapid; m, medium; s, slow; v, vigorous; vs, very slow.

Denoting Varieties Suitable for Seashore Planting: (†).

The figures following the name denote the ultimate size of tree at maturity.

OUTSTANDING VARIETIES With Special Attractions

It will repay you to read descriptions carefully—each variety has some especial attraction for which it is noted. With some it is the color of the bark, as with the White Birch; with others it is the height; still others, the graceful shape; and then those with different colored flowers. From these listings it is possible to select trees which, in combination with other plantings, especially evergreens, present a scene of beauty utterly beyond description.

Every one listed has been selected, planted, and transplanted to meet our standards of quality; every one has a maximum expectancy of beautiful life which means so much to your lasting satisfaction.

These trees should be well watered the first season and firmly staked so that they will not sway in the wind.

ACER - Maple

The Maples are too familiar to need much introduction. They are all splendid trees, some of which are especially adapted to street planting.

Among its many varieties are found interesting, beautiful, and desirable shapes, leaves and fall colorings.

Acer dasycarpum. Silver Maple. 80 ft. (Lr.) Foliage light green, silvery beneath. A most rapid-growing Maple thriving best in rich, moist soil but succeeding almost anywhere except on dry ground. Each 10
10 to 12 ft.\$2.00 \$18.00

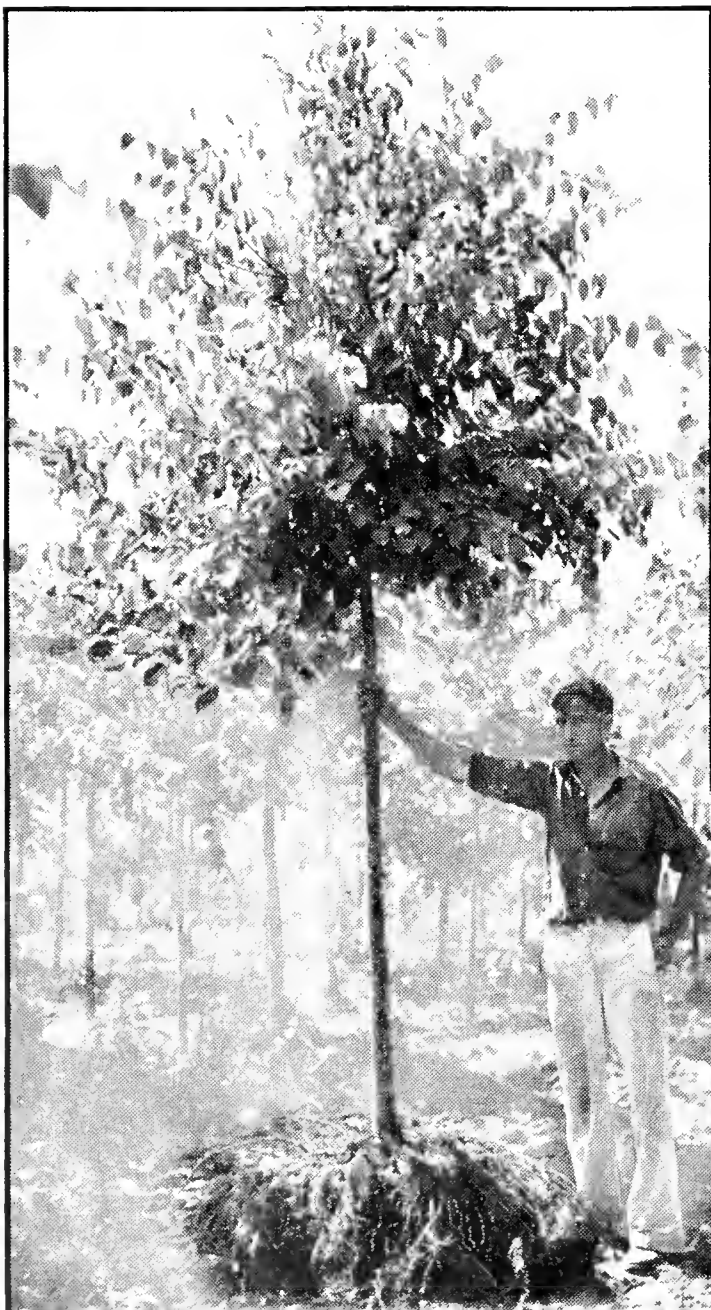

A. ginnala. Amur Maple. 18 ft. (Sm.) A small tree of bushy habit. Leaves turn to a bright pink in fall. Flowers small, white, May. Excellent for large hedges and screen plantings.

	Each	10		Each	10
5 to 6 ft.	\$1.50	\$13.50	8 to 10 ft.	\$3.00	\$27.50

BAY STATE FRESHLY DUG TREES

The two photographs below show a close-up and a sectional view of our Shade Trees growing in the nursery at North Abington.

Note the excellent fibrous root growth of the freshly dug European Linden—such handsome specimens as this are bound to grow into sturdy and strong trees, and “take hold” quickly when transplanted in a new location.

Five or More Plants of One Kind Take the Ten Rate

Flowering Trees

VIGOROUS, RAPID GROWING—
STRAIGHT TRUNKS, SHAPELY TOPS

ACER - Maple (Continued)

Acer negundo. Box Elder. 50 ft. (Mr.) A rapid growing tree of coarse, open habit. It has spreading branches and light green foliage that changes to yellow in the autumn.

Each	10	Each	10
6 to 8 ft.	\$1.25 \$10.00	8 to 10 ft.	\$1.50 \$12.50

A. platanoides. Norway Maple. 50 ft. (Lr.) The very best shade tree where deep shade is wanted. Withstands smoke and soot remarkably. Very broad, rounding head. Large, rich, dark green leaves—they stay fully two weeks longer in the fall than those of other Maples, finally dropping without much change in color.

Each	10
6 to 8 ft. ...	\$2.00 \$18.00
8 to 10 ft. ...	3.00 27.00
10 to 12 ft. ...	4.00 36.00

Ask For Prices On Larger
Sizes.

A. platanoides globosa. Globehead Norway Maple. Dense, globular heads 4 feet in diameter on stems 5 feet in height. A very unique tree for formal use.

Each	10
5-ft. stems, heads 4 ft. in diameter	\$10.00 \$75.00

A. platanoides schwedleri. Schwedler Maple. 50 ft. (R.) A form of Norway Maple. Leaves strong red in spring, later turning dark green above and lighter purple-tinged green beneath. Do not confuse this tree with the Red Maple, which has brilliant fall coloring of its leaves.

Each	10
6 to 8 ft.	\$2.50 \$22.50

A. palmatum atropurpureum. Blood-Leaved Japanese Maple. (Ds.) A very striking tree in spring when its leaves are blood-red; later they change to dark purple, retaining this attractive color throughout the season. This small tree is often used on lawns but is most effective when contrasted with evergreens. In New England it should be planted only in sheltered places.

Each	Each
3 to 4 ft., B&B	\$4.00 \$6.00
4 to 5 ft., B&B	\$6.00

A. rubrum. Red Maple. 80 ft. (Lr.) This is the tree which, more than any other single species, gives our New England landscape its brilliant autumn hues of red, crimson, scarlet. Roughly round-headed. Do not confuse this tree with the Schwedleri Maple, which has red leaves in late spring and early summer.

Each	10	Each	10
8 to 10 ft. ...	\$2.75 \$25.00	12 to 14 ft. ...	\$5.00 \$45.00
10 to 12 ft. ...	3.75 35.00	14 to 16 ft. ...	6.00 55.00

A. saccharum. Sugar Maple. 80 ft. (Lr.) A stately New England tree the sap of which is the source of maple syrup and sugar. A wonderful street and shade tree, somewhat higher-headed than the Norway Maple, with dense foliage that turns bright yellow and scarlet in autumn. Does well in almost any soil.

Each	10
6 to 8 ft. ...	\$2.00 \$18.00
8 to 10 ft. ...	3.00 27.00
10 to 12 ft. ...	4.00 36.00

BIG TREES

You Don't Have to Wait Years for Shade and Beauty

In many varieties we have larger specimens than those listed in this book. We can supply shade trees frequently up to 8 inches in caliper, and 25 to 30 or more feet in height. Let us quote on your requirements.

Acer saccharum—Sugar Maple
A Popular New England Favorite

Two Excellent Maples—Norway and Sugar—Bay State Grown

BETULA—The Birches

Colorful Bark—Graceful Branching and Dainty Trees

This is a small family of trees with a grace and charm all its own. Mostly used as lawn specimens or in effective positions upon the grounds; they are also splendid mingled with other varieties in an open woodland, and the light-barked kinds are beautiful grouped at the edge of a thicket or forest.

The Birches are among the groups that transplant with greatest difficulty. While we exercise every care in handling them, we sell them at the purchaser's risk. Careful watering after planting usually helps them to succeed.

†*Betula alba*. *European White Birch*. 50 ft. (Mr.) A tall, graceful tree with spraylike branches and snow-white bark that is effective in winter. It assumes an elegant, drooping habit.

Each 10		Each 10	
6 to 8 ft.	\$2.50 \$22.50	10 to 12 ft. ...	\$4.00 \$36.00
8 to 10 ft.	3.00 27.00		

B. lutea. *Yellow Birch*. 60 ft. (Lr.) Bark is light orange. A densely branched tree with foliage that is a blaze of golden yellow in the autumn.

Each 10		Each 10	
8 to 10 ft. ...	\$2.50 \$22.50	12 to 14 ft. ...	\$4.00 \$35.00
10 to 12 ft. ...	3.00 27.50	14 to 16 ft. ...	5.00 45.00

B. nigra. *River Birch*. 90 ft. (Lr.) This moisture-loving, graceful tree has slender, very numerous branches. It is remarkable for its torn, ragged bark which is reddish brown or silvery gray on the younger branches and separates into numerous thin, papery flakes.

Each 10	
12 to 14 ft.	\$3.00 \$27.00

B. papyrifera. *Canoe Birch*. 70 ft. (Lr.) When young, the stem is dark brown, which causes many people to question the variety, but as it develops, the trunk becomes white, with a loose graceful head and large handsome leaves.

Each 10	
8 to 10 ft.	\$4.00 \$37.50

B. pendula gracilis. *Cutleaf Weeping Birch*. 50 ft. (Mm.) An unusually graceful, drooping tree, particularly adapted to lawns. The foliage is deeply cut and the bark silvery white at maturity. (Color illustration on page 20.)

Each 10		Each 10	
6 to 8 ft.	\$3.00 \$27.00	8 to 10 ft.	\$4.00 \$37.50

B. populifolia. *Gray Birch*. 40 ft. (Mr.) A slender tree with smooth, grayish white bark and glossy leaves. It is a rapid grower.

Each 10		Each 10	
8 to 10 ft. ...	\$2.50 \$22.50	6 to 8 ft. clumps, B&B ..	\$6.50
10 to 12 ft. ...	3.00 27.50	8 to 10 ft. clumps, B&B ..	9.00

At the prices here given, all deciduous trees are dug bare-rooted, unless otherwise denoted by the letters "B&B". If other trees are wanted B&B, we shall be glad to quote for that service.

CARPINUS - Hornbeam

Carpinus betulus. *European Hornbeam*. 25 ft. (M.) A rare European tree. Excellent for high hedges or screens. Leaves remain until late winter. Can be sheared to any desired shape. Each 10

8 to 10 ft., B&B	\$10.00	\$95.00
10 to 12 ft., B&B	12.00	110.00

CATALPA - Indian Bean

Useful trees with very large leaves and extremely handsome flowers. They grow rapidly and quickly, making a grateful shade. Well adapted to avenue planting, and the first variety named is highly popular for certain formal effects.

Catalpa bignonioides nana (bungei). *Umbrella Catalpa*. (Dm.) A species from China that has large, glossy foliage on a bare trunk about 6 feet high.

Each 10		Each 10	
2-yr. heads ...	\$2.75 \$25.00	5-yr. heads ...	\$4.00 \$35.00

C. speciosa. *Western Catalpa*. (Lr.) This tall hardy variety is well adapted to forest and ornamental planting. White flowers in giant clusters in June.

Each 10		Each 10	
8 to 10 ft. ...	\$1.50 \$13.50	14 to 16 ft. ...	\$3.75 \$35.00
10 to 12 ft. ...	2.00 17.50	16 to 18 ft. ...	5.00 45.00
12 to 14 ft. ...	2.75 25.00	18 to 20 ft. ...	7.50 70.00

CELTIS

†*Celtis occidentalis*. *Hackberry*. 40 ft. (M.) Rare native tree with numerous slender branches and light green, shiny leaves forming a broad, spreading head. Resembles the Elm. Produces small, orange-red to dark purple fruit in fall.

Each 10		Each 10	
6 to 8 ft.	\$3.00	12 to 14 ft.	\$ 6.00
10 to 12 ft.	5.00	14 to 16 ft.	10.00

CERCIDIPHYLLUM

Cercidiphyllum japonicum. *Katsura Tree*. 50 ft. (Mr.) A hardy ornamental tree of pyramidal form that has been little known but is gradually becoming appreciated. It has heart-shaped, unpointed leaves, pink when unfolding; rich medium green in summer and brilliant shades of red in fall. An excellent screen tree in restricted areas; superior for this purpose to Poplars and Willows, but slower growing.

Each 10		Each 10	
6 to 8 ft., B&B ..	\$6.00 \$55.00	10 to 12 ft., B&B ..	\$10.00 \$95.00

CLADRASTIS

Cladrastis lutea. *Yellow-Wood.* 35 ft. (Mv.) A splendid tree of the locust family, with feathery leaves and clusters of fragrant white flowers, like pea-blossoms, in June.

Each	10	Each	10
4 to 5 ft.	\$2.75 \$25.00	6 to 8 ft.	\$4.25 \$40.00
5 to 6 ft.	3.50 32.50		

CORNUS - The Flowering Dogwoods

Thrive in low, moist, fertile soils, preferring semi-shaded locations

Small trees desirable from every point of view. In the spring they make a picture of unforgettable beauty with their drifts of showy flowers at the edge of a woodland or against a background of evergreens. The foliage turns dark red in autumn and brilliant red berries make it a decorative tree during the fall.

Cornus florida. *White-Flowering Dogwood.* 15 ft. (Sv.) The common Dogwood of eastern North America, which produces large, snowy white flowers in May before the leaves appear. In autumn its glittering red berries cluster in a nest of glossy foliage which turns various shades of pink, crimson, scarlet and maroon. During the winter the twiggy branches make a lacy pattern of intricate beauty. No other tree appears so attractive throughout all the seasons.

Each	10	Each	10
3 to 4 ft., B&B .	\$2.50 \$22.50	6 to 7 ft., B&B	\$6.00 \$55.00
4 to 5 ft., B&B .	3.25 30.00	7 to 8 ft., B&B	8.00 75.00
5 to 6 ft., B&B .	4.50 40.00	8 to 10 ft., B&B	11.00 100.00

C. florida rubra. *Red-Flowering Dogwood.* 15 ft. (Sv.) One of the finest flowering trees, producing deep rose colored flowers in the early spring. This tree is worthy of extensive culture and should have a place on every sizeable lawn. It is particularly effective when planted with the White-Flowering Dogwood.

Each	10	Each	10
3 to 4 ft., B&B .	\$4.00 \$37.50	6 to 7 ft., B&B\$10.00
4 to 5 ft., B&B .	5.50 50.00	7 to 8 ft., B&B 12.00

CRATAEGUS - Hawthorn

Abundant Deep Crimson Flowers in Spring, Followed by Colorful Fruits in Autumn

The Thorns are small, shrubby trees, charming alike when bare, in flower, in foliage, or in fruit. They are fine for masses in the corners or at boundaries, and look well in hollows or along streams, fitting into almost any scheme of naturalistic or formal plantings. Most varieties make dense impenetrable hedges.

†**Crataegus arkansana.** *Arkansas Hawthorn.* 20 ft. (Ss.) A spreading broad-crowned tree with white flowers in May and large, bright red fruit ripening in mid-October.

Each	10	Each	10
4 to 5 ft., B&B .	\$2.75 \$25.00	5 to 6 ft., B&B .	\$4.00 \$37.50

†**C. arnoldiana.** *Arnold Hawthorn.* 15 ft. A small, broad-crowned tree, with ascending and spreading branches. White flowers in May and abundant, bright crimson fruit in fall.

Each	10	Each	10
4 to 5 ft., B&B .	\$2.75 \$25.00	6 to 7 ft., B&B .	\$5.00 \$45.00
5 to 6 ft., B&B .	4.00 37.50		

†**C. coccinea.** *Thicket Hawthorn.* 20 ft. (Ss.) A fine native variety with large foliage and white blossoms in May, succeeded by clusters of scarlet fruit in autumn.

Each	10	Each	10
4 to 5 ft., B&B .	\$3.00 \$27.50	7 to 8 ft., B&B	\$6.50 \$60.00

FAGUS - Beech

The Noblest Trees of Creation

Beeches are long-lived, symmetrical, and beautiful at all seasons of the year. They make excellent, mature specimens casting a dense shade. The colored leaf forms are among the finest ornamentals for lawns or avenues. Beeches are best moved in the spring, when we ship them with the roots carefully balled and burlapped.

Fagus americana. American Beech. 80 ft. (Lv.) Large, spreading tree of symmetrical habit. Its rich yellow autumn foliage and smooth, gray bark add to its attractiveness.

Each 10

Each

5 to 6 ft., B&B . \$7.00 \$65.00 8 to 10 ft., B&B \$15.00

6 to 7 ft., B&B . 9.00 85.00 10 to 12 ft., B&B 20.00

7 to 8 ft., B&B. 12.00 110.00

For larger specimens we will quote prices on request.

F. sylvatica. European Beech. 80 ft. (Lm.) Choice symmetrical trees branching close to the ground. They have smaller leaves than the American Beech which are retained into the late winter. Excellent for screens, clipped hedges or specimen trees.

Each 10

Each 10

3 to 4 ft., B&B . \$3.50 \$32.50 8 to 10 ft., B&B \$15.00 \$140.00

GINKGO

Ginkgo biloba. Maidenhair Tree. (Mr.) This beautiful tree is of upright habit, with a clean, straight trunk and spreading branches. The leaves are fan-shaped, resembling the Maidenhair Fern, and in the fall become rich golden yellow. An excellent lawn and avenue tree, very satisfactory in cities. Insects avoid it.

8 to 10 ft. \$6.00

Fagus sylvatica—European Beech

GLEDITSIA

†*Gleditsia triacanthos. Common Honey Locust.* 80 ft. (Lv.) A fast growing tree with compound, much-divided foliage, and fragrant, pea-like flowers. It can be used as a thorny, impenetrable hedge or allowed to grow into a splendid specimen tree of moderate size and irregular habit. It will thrive along the ocean in defiance of spray and gales, and seems to enjoy the rough, barren, sandy soil of Cape Cod and similar localities. We can highly recommend it for both beauty and endurance under the most difficult growing conditions.

Each

5 to 6 ft. \$2.25 6 to 8 ft. \$2.75

At the Prices Here Given All Deciduous Trees are Dug Bare-Rooted, Unless Otherwise Denoted by the Letters "B&B"—
 If Other Trees are Wanted "B&B" We Shall be Glad to Quote for That Service

LABURNUM

Laburnum vulgare. Golden Chain. 30 ft. (Mm.) A small tree with smooth foliage, deriving its name from the long racemes of golden yellow blossoms, like Wisteria, produced in June. It does best in a cool, partially shady spot and ought to be given shelter from the most severe winter winds. We continually urge that this tree be planted more widely because few people realize how beautiful it is.

Flowering Trees from the Orient— The Lovely MALUS - Flowering Crab

The Crab Apples are small, round-headed trees with irregular branches forming a rugged, picturesque framework. Literally covered with blossoms in May, they compare favorably with the Japanese Cherries. In the fall they bear heavy clusters of showy, waxy fruits, varying from pale green to orange-red. They are fine planted either singly or in mixed groups of several varieties.

We offer semi-matured specimens of these Crabs, several times transplanted and heavy enough to create an immediate decorative effect. The degree of heaviness of each sort is indicated by the letter X.

Malus arnoldiana. Arnold Crab. 10 ft. (Sm.) Semi-double pink blossoms in early spring, followed by yellow fruit, and attractive foliage. Makes a dense mound of shrub-like growth.

For Substantial Savings Buy Five Plants of One Kind—They Carry the Ten Rate!

Ornamental Trees

for Effective Landscaping

Paul's Double Scarlet Hawthorn

(*Crataegus oxyacantha
splendens*)

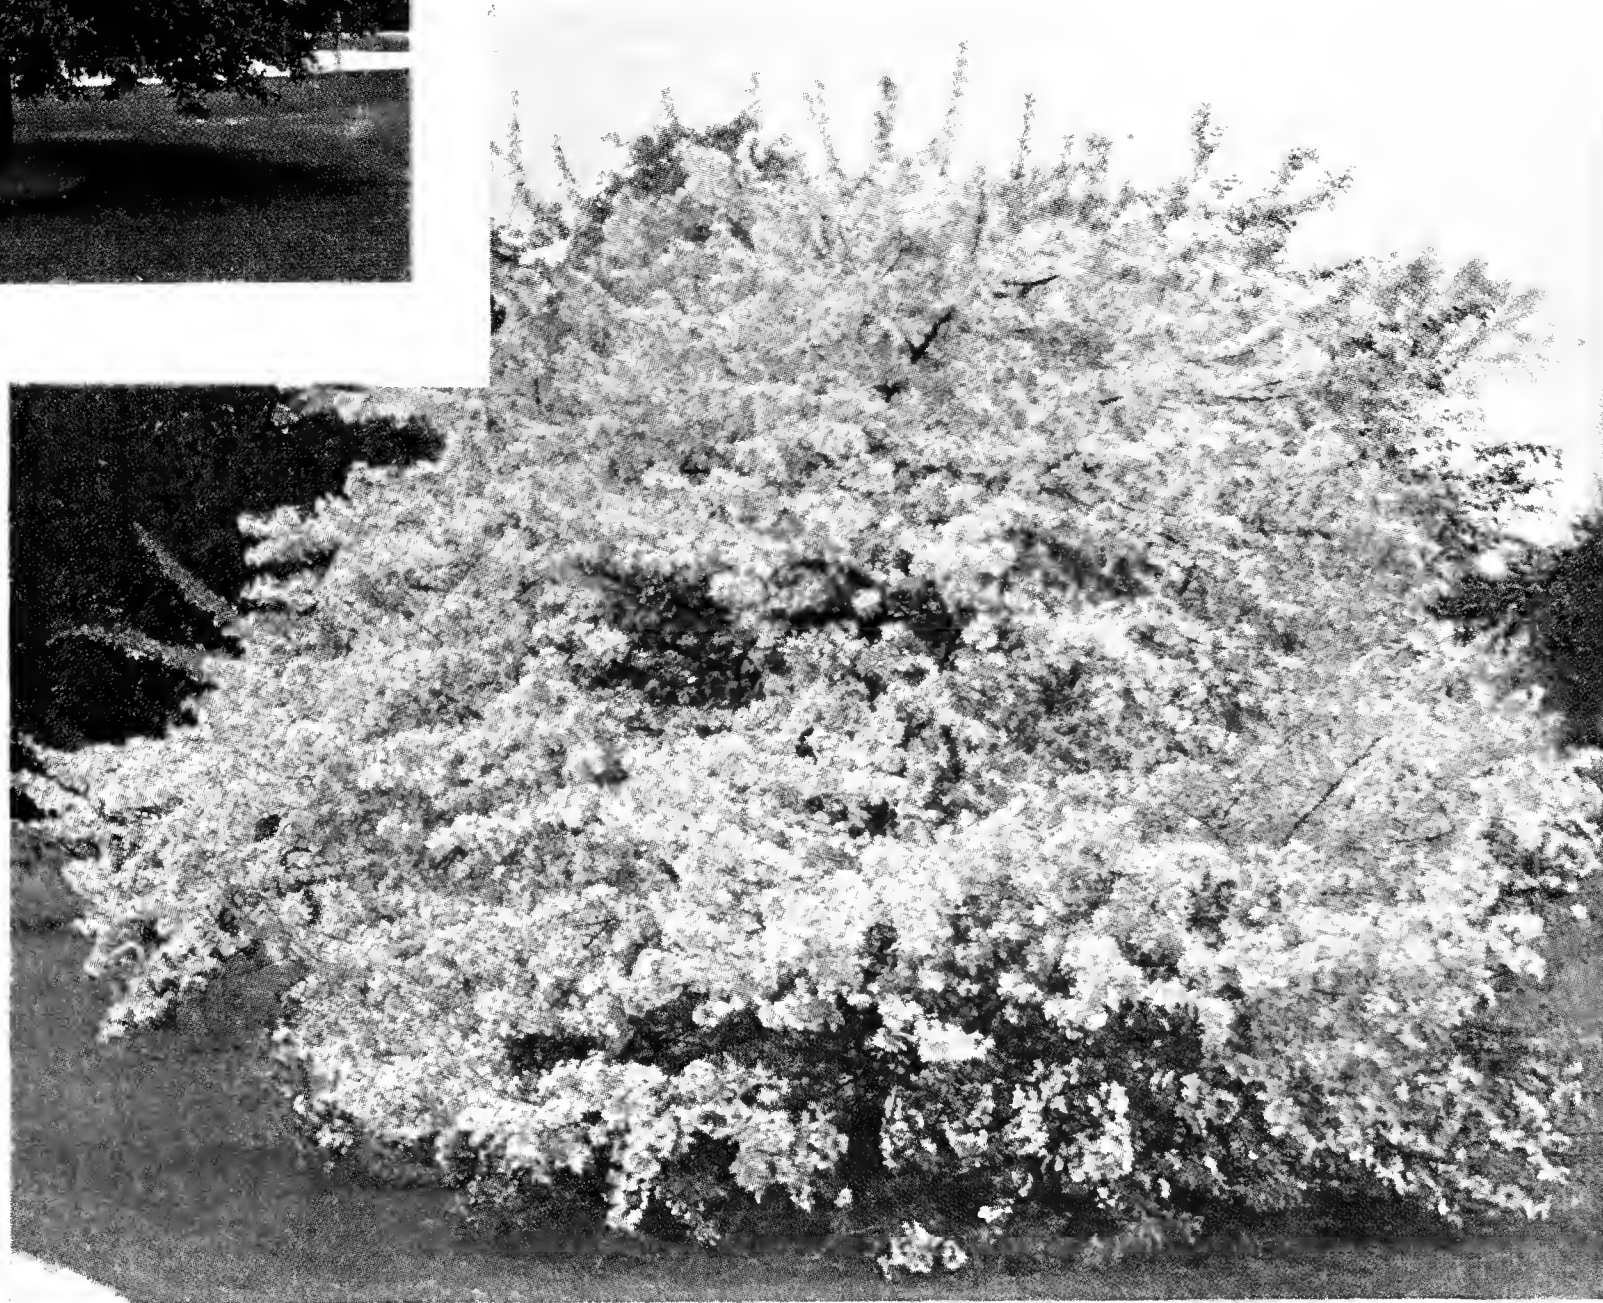

Has the same color and characteristics as the famous Hawthorn that grows in England. The tree is decorative with an abundance of carmine-red flowers in late May followed by bright red berries attractive to birds; very hardy. Grows about 20 feet tall. Price: 5-6 ft., B&B, \$5.00 each.

Pin Oak

(*Quercus palustris*)

"The Monarch of Shade Trees." The deeply cut, bright green, glossy leaves turn to yellow and red colors in the fall. Note pin-like points of its magnificent dark lustrous leaves. A fine shade tree for the lawn. Price: 6-8 ft., each \$3.00.

Japanese Flowering Crab

(*Malus floribunda*.) A floral sensation in May. Once established, this tree will burst forth into bloom every year and literally cover the tree in a bewildering profusion later to be followed by showy red, pea-size fruit. 5 to 6 ft., \$4.00 each.

4 Fine Decorative Deciduous Trees

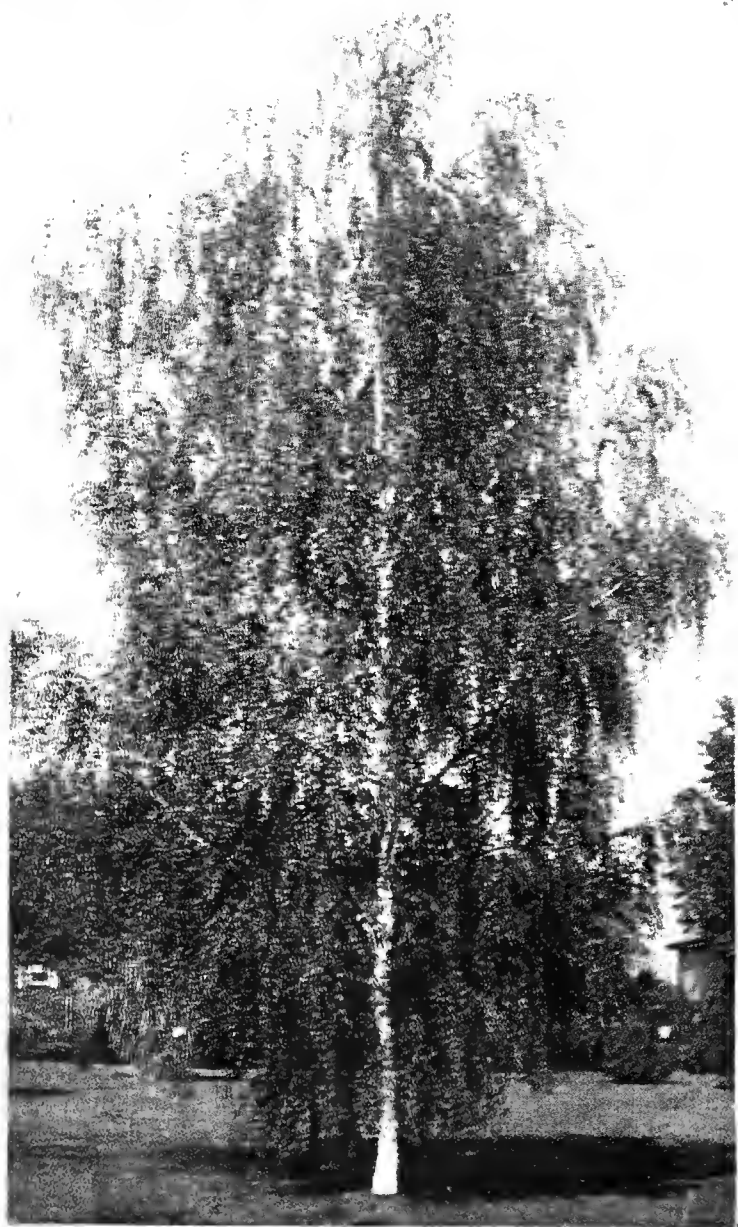

LOVELY LAWN SPECIMENS

REDBUD or JUDAS TREE - *Cercis canadensis*
The lovely red pea-shaped blossoms bloom before the leaves appear. 3-4 ft., \$2.00 each; \$18.50 for 10.

NEWPORT PURPLE-LEAF PLUM - *Prunus cerasifera*
Attractive bright purple-red foliage with deep pink flowers in May. 4-5 ft., \$1.50 each.

CUTLEAF WEEPING BIRCH - *Betula pendula gracilis*
Very graceful, with silvery white bark and lacy foliage. 6-8 ft., \$3.00 each.

GOLDEN WEEPING WILLOW - *Salix Niobe*
Grows very rapidly, preferring moist soil. 8 to 10 ft., \$2.75 each; 5 for \$12.50.

NYSSA

Nyssa sylvatica. Sour Gum; Tupelo. 40 ft. (Ms.) A slender, horizontally-branched tree; with glossy, oval leaves which turn blazing scarlet in autumn. Fruit blue-black. Very graceful and attractive at all seasons. Best moved in the spring. Withstands city conditions.

	Each	10		Each	10
3 to 4 ft. B&B	\$3.00	\$27.50	5 to 6 ft. B&B	\$5.50	\$50.00
4 to 5 ft. B&B	4.00	37.50	6 to 8 ft. B&B	7.00	65.00

OSTRYA

Ostrya virginiana. American Hophornbeam. 35 ft. Small tree with scaly bark. Flowers in small catkins, and hop-like clusters of fruits.

	Each	10		Each	10
6 to 8 ft. B&B	\$6.00	\$55.00	8 to 10 ft. B&B	\$7.50	\$70.00

OXYDENDRUM

Oxydendrum arboreum. Sourwood. 25 ft. (Sm.) Slender and graceful as a Birch, this tree will fill a narrow corner or fit in with the shrubs. The flowers are its crowning glory, coming in long, curving racemes, like drooping bouquets of Lily-of-the-Valley, in July and August. It is the first tree in autumn from which to pick a spray of scarlet foliage.

	Each	10		Each	10
2 to 3 ft. B&B	\$1.75	\$15.00	4 to 5 ft. B&B	\$3.00	\$27.50
3 to 4 ft. B&B	2.25	20.00	5 to 6 ft. B&B	5.00	45.00

POPULUS - Poplar

These are very fast growing trees; some of loose, open, spreading habit; others of narrow columnar form. The former are best used for quick temporary effects; the latter are excellent for screens, also for vertical accent in the landscape. Poplars thrive in any soil. They are such voracious feeders that they rob the soil and starve themselves, unless fertilized occasionally.

†*P. balsamifera. Balsam Poplar.* 50 ft. (Lr.) A tall, upright, symmetrical tree of rapid, luxuriant growth, with large, glossy leaves which are retained late in autumn. The buds exhale an agreeable odor, and are used for medicinal purposes.

	Each	10		Each	10
6 to 8 ft.	\$1.20	\$10.00	8 to 10 ft.	\$1.70	\$15.00

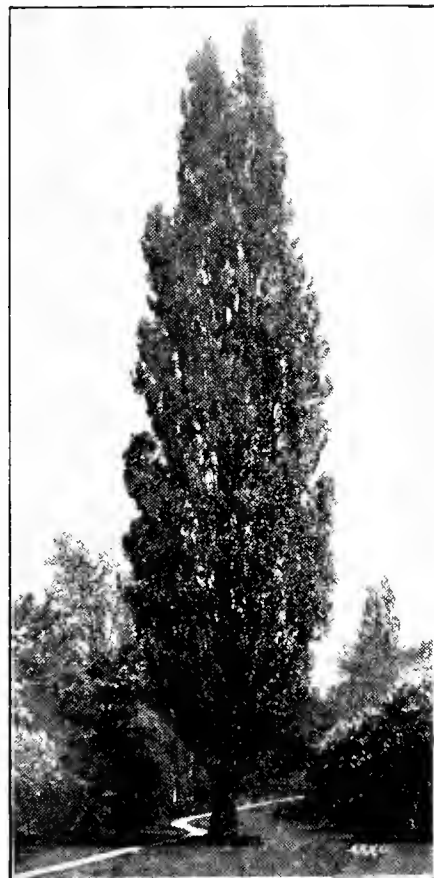

†*P. eugenei. Carolina Poplar.* (Mr.) A popular tree where shade is wanted quickly. It grows rapidly in almost any soil, is of spreading form, with gray-green bark, and heart-shaped, bright green foliage.

	Each
6 to 8 ft.	\$1.50
10 to 12 ft.	2.00

P. nigra italica. Lombardy Poplar. 60 ft. (Lr.) This well-known, upright, and extremely rapid-growing tree has bright, pale green leaves, lighter beneath, and branches down to the ground. It is used very satisfactorily for screen purposes. 6 to 8 ft., \$1.25 each; \$11.00 per 10; \$100.00 per 100. 8 to 10 ft., \$1.75 each; \$15.00 per 10; \$135.00 per 100. 10 to 12 ft., \$2.00 each; \$18.00 per 10; \$160.00 per 100.

Lombardy Poplar

A leader for quick growth—Succeeds even in dry places, on almost any soil.

PRUNUS - Plum; Cherry

Charming small trees with dark-colored foliage and pink flowers, suitable for specimens or groups on the lawn and among shrubbery, where they are particularly effective.

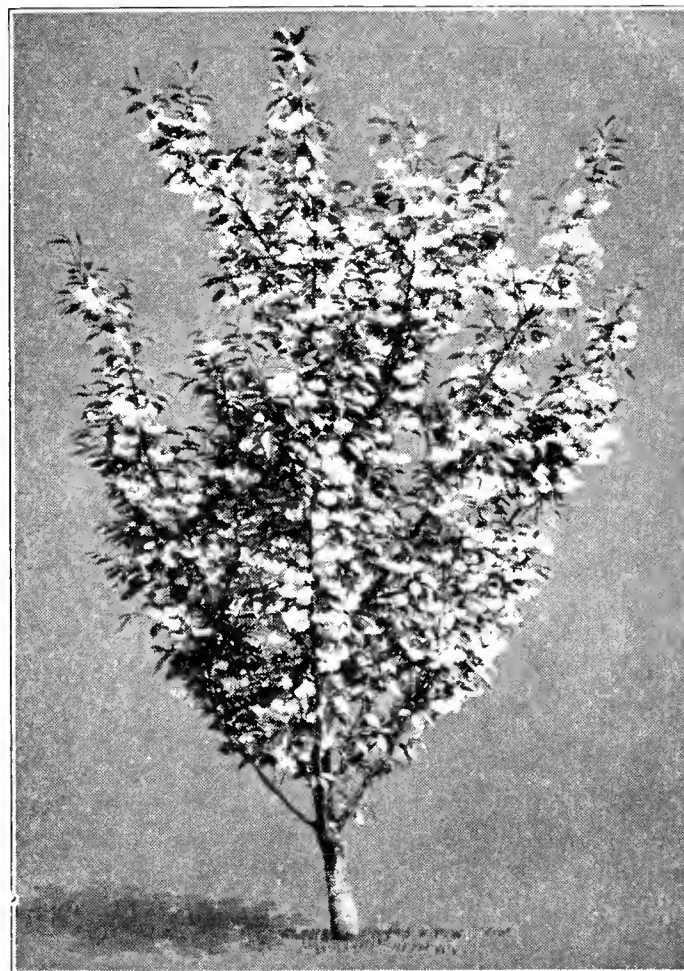

Prunus blireana. 15 ft. New. Purple-leaf variety, with semi-double light pink flowers in May. Each 4 to 5 ft. \$1.75

P. cerasifera, Newport. Newport Purple-Leaf Plum. (Improved Pissardi). 12 ft. Leaves bright purple, with deep pink flowers in May. (Color illustration, page 20.) Each 10

4 to 5 ft.	\$1.50	\$13.50

P. subhirtella. Higan Cherry. 20 ft. Large pale pink flowers borne in abundance on slender branches in May.

	Each		Each
6 to 7 ft. B&B	\$5.00	8 to 10 ft. B&B	\$10.00
7 to 8 ft. B&B	7.00	10 to 12 ft. B&B	12.00

Flowering Cherry, Naden

Japanese Flowering Cherries

They include many varieties that grow in Potomac Park, Washington

Small trees seldom growing over 30 feet. Very beautiful in flower, some double, some single, white to deep pink, in late May. In acid soils, fair applications of lime at least every second year are needed; otherwise the Japanese Cherries may prove tender in the North.

We list a choice selection of these famous Cherry trees of Japan, celebrated in this country because of the wonderful collection in Potomac Park at Washington, D. C., which attracts thousands of visitors every spring.

Amanogawa. 15 ft. Slender columnar habit with fragrant semi-double, pink flowers. Each 4 to 5 ft. B&B \$4.50 5 to 6 ft. B&B \$6.00

Autumnalis. Single, pale pink flowers. Each 4 to 5 ft. B&B \$4.50

Avium Plena. A handsome, decorative tree with charming, double, white flowers. Each 10 to 12 ft. B&B \$9.00 14 to 16 ft. B&B \$14.00

At the prices here given all deciduous trees are dug bare-rooted, unless otherwise denoted by the letters B&B. If other trees are wanted B&B we shall be glad to quote for that service.

QUERCUS - Oak

Splendid trees, rather slow growing at first, but when once established develop amazingly within a few years. They are of noble proportions and give an impression of boundless strength and vigor. They make pleasing and inexpensive trees for boulevard or street planting and they cast a welcome shade as lawn specimens. Oaks hold their richly colored foliage well into the winter.

Quercus alba. White Oak. 100 ft. (Lm.) Lofty and dignified tree which attains great age and nobility. One of our noblest forest trees and a fairly rapid grower when once established. This is the true Ship Oak, used extensively in olden times for the construction of the famous clipper ships, and fishing vessels. Each 6 to 8 ft. \$4.00

Q. bicolor. Swamp White Oak. 100 ft. (Lr.) Thrives in wet locations, but does equally well in well drained soils. It has a round-topped, open head and is one of the fastest growing Oaks.

Each	Each
10 to 12 ft.	\$5.00
12 to 14 ft.	6.00
16 to 18 ft.	\$11.00
18 to 20 ft.	15.00

Q. coccinea. Scarlet Oak. 100 ft. A large, handsome tree especially valued for brilliant scarlet foliage in autumn.

Each	Each
6 to 8 ft.	\$4.00
8 to 10 ft.	5.50
10 to 12 ft.	\$6.00
	45.00

Q. palustris. Pin Oak. (Lr.) This very handsome tree is particularly adapted to lawn and avenue planting. It has drooping branches and finely divided dark green leaves which turn red in fall. A rapid grower that prefers moist soil, and, as it is fibrous-rooted, transplants well. (See illustration in color on page 19.)

SORBUS - Mountain Ash

Brilliant Clusters of Red Berries in Autumn

Small trees bearing large, flat heads of white flowers in May and June; best known for their broad, flat clusters of scarlet berries in late summer and fall.

Sorbus americana. *American Mountain Ash*. 30 ft. (Mm.) A very decorative, native tree, which is extremely showy when covered with large bunches of scarlet-orange fruits.

	Each	10
5 to 6 ft.	\$2.50	\$22.50

S. aucuparia. *European Mountain Ash*. 30 ft. (Mm.) The clusters of scarlet berries, borne in abundance from July to winter, make this a very attractive small lawn tree.

	Each	10		Each	10
6 to 8 ft.	\$3.00	\$27.50	8 to 10 ft.	\$4.00	\$37.50

SYRINGA

Syringa japonica. *Japanese Tree Lilac*. 25 ft. This Lilac grows as a large shrub or narrow-headed, small tree, splendid to vary the height of the shrub border. It is an excellent specimen for planting at summer places as it is one of the last trees of the late spring to flower. In late June and early July it produces large, ten-inch panicles of creamy white to light yellow flowers, which give off a heavy fragrance.

ULMUS - Elm

It Excels Everywhere in New England

The Elms are famous trees and have a rural, pastoral air that fits admirably into landscape planting schemes. They almost always look best in a wide-spaced row, or isolated in a field or on a hillside, and some of the finest of our New England villages owe their beauty to their Elm-bordered streets. Even in winter the Elms are interesting and attractive because of their maze of interlaced branches studded with tiny buds ready for the burst of spring. There is scarcely any purpose for which they are not almost always first choice, because of their grace, and rapid growth.

Ulmus americana. *American Elm*. 120 ft. (Lr.) The most beautiful of the Elms, and the glory of our old New England towns. It is lofty and spreading, with drooping branches and is very hardy. At maturity it attains great character and individual beauty.

	Each	10		Each	10
6 to 8 ft. ...	\$1.25	\$11.00	12 to 14 ft. ...	\$3.25	\$30.00

ULMUS PUMILA— Siberian or Chinese Elm

A Rapid Growing Variety From China

60 ft. A handsome, large tree comparable to the American Elm in size and beauty, but surpassing it in its extremely rapid growth. It is just the thing for planting on a new place, for within the time it takes an ordinary tree to establish itself, the Chinese Elm matures into a large tree.

	Each	10		Each	10
6 to 8 ft.	\$1.50	\$12.50	10 to 12 ft.	\$3.00	\$27.00

The addition of one or more trees planted around a house immediately transforms it into a home

Decorative Deciduous Shrubs

GORGEOUS BLOSSOMS BRIGHT BERRIES HANDSOME FOLIAGE

THERE are a tremendous number of beautiful shrubs which embrace flowering forms of every conceivable variety. While some are admired for their fruits, or for their foliage, others are admired for their interesting forms or texture.

Groups or Borders

They should always be planted in groups or borders; rarely as single specimens, unless very large. A good arrangement invariably provides open stretches of lawn bordered with irregular masses of shrubs against the boundary line or building. Their outline and habits differ so very much that best effects always come from planting large restful colonies of one kind or closely related sorts.

A Shrub for Every Purpose

Their various shrubby forms contrast to the more set forms of the accent plants, and their bare stems in winter give agreeable contrast form, and lend accent to the evergreen trees. Among the shrubs are found varieties with wide divergencies in their ultimate heights. Obviously, the larger sorts should be planted in the larger spaces and in the back rows; the medium ones in the middle rows. The small ones should be used as facers in the front rows of a planting.

Read Cultural Suggestions Carefully

There are in this list several sorts of very beautiful shrubs which, under local conditions, are none too hardy. These we have attempted to call attention to, with some cultural suggestions which may help to make them endure rigorous climates and adverse soils.

SHRUBS B & B

Balled and Burlapped at Additional Prices

Excepting those varieties specifically marked "B&B", all deciduous shrubs are regularly dug bare-rooted at the prices given. If desired, we will dig other sorts B&B, making the following charges for this service:

	Each
12 to 18 in shrubs	\$0.15
18 to 24 in.20
2 to 3 ft.25
3 to 4 ft.30
4 to 5 ft.40
5 to 6 ft.50

For extra heavy specimens in the above sizes, as well as for large shrubs B&B service charges will be quoted on request.

ABBREVIATIONS

Denoting Size: L, large; M, medium; S, small; D, dwarf; VD, very dwarf.

Denoting Varieties Suitable for Seashore Planting: (†.)

Denoting Varieties Producing Fruit which Attracts Birds: (§.)

Figures following the name denote the ultimate size of shrub at maturity.

REMEMBER! 5 or more plants of one kind will be furnished at rate for 10.

BAY STATE SELECTED SHRUBS

ACANTHOPANAX

†*Acanthopanax pentaphyllum*. *Fiveleaf Aralia*. 8 ft. (M.) An upright shrub, with arching, spiny branches and bright green, shining foliage. Excellent in shady places, on rocky banks and slopes and in smoky city areas. Especially good for prickly hedges.

Each	10
2 to 3 ft.	\$0.75 \$ 6.50
5 to 6 ft., bushy	1.50 12.50

A. melanocarpa grandiflora. *Great Black Chokeberry*. 10 ft. Large, shiny black fruit produced in great profusion.

Each	10
2 to 3 ft.	\$1.00 \$8.50

Five plants or more of one kind take the 10 rate

THE COLORFUL AZALEA

Just as the Rhododendron is the King of the Evergreen Shrubs, so are its cousins, the Azaleas, the aristocrats of the Deciduous Shrubs. In color, the Azaleas give an assortment of hues in much wider range than in the Rhododendrons—and flowering periods from mid-April to early July. While classed as acid soil plants they thrive in soils of considerable range, particularly the Asiatic sorts, which even prefer some lime in the soil.

The opportunities for using deciduous Azaleas are almost unlimited. Their graceful habit appears to good advantage in informal plantings either in wooded areas or in shrub borders, while many are most decorative used in the foundation planting where evergreens create a dark background for their vivid colors. They succeed equally well in sun or shade, preferring a moderately moist soil or a mulch of leafmold.

All Azaleas will be balled and burlapped (B&B) without extra charge.

A. arborescens. Sweet Azalea. 5 ft. (M.) The charm of this Azalea lies not in its pinkish white flowers, but in their intense and delicious fragrance which is wafted through the open windows during its flowering season, mid-June. The plants are low, broad and dense, and particularly desirable for mass effects.

	Each	10
15 to 18 in., B&B	\$2.00	\$17.50
18 to 24 in., B&B	2.75	25.00
2 to 2½ ft., B&B	3.50	32.50

A. calendulacea. Flame Azalea. 8 ft. (M.) The most showy Azalea, and one of the most beautiful flowering shrubs. Blooms several weeks in June, bearing a profusion of orange-yellow or flame-red flowers before the leaves appear.

	Each	10
12 to 15 in., B&B	\$1.75	\$16.00
15 to 18 in., B&B	2.25	20.00

BERBERIS - Barberry

Protective Thorny Branches — Beautiful Foliage and Fruits

Berberis amurensis. Amur Barberry. 8 ft. A vigorous, upright shrub with hanging clusters of scarlet fruit and arching branches of bright green leaves which color well in the fall. Excellent either as a specimen in the shrub border or for immediate, large protective hedges.

	Each	10
3 to 4 ft.	\$0.60	\$5.00
4 to 5 ft.80	7.00

B. ilicifolia. Holly Barberry. 2 to 3 ft., B&B \$2.00 \$17.50

Mongolian Azalea—Azalea mucronulata

*Berberis thunbergi*—Japanese Barberry**BERBERIS - Barberry (Continued)**

§*B. thunbergi*. *Japanese Barberry*. 5 ft. (M.) We know of no better hedge plant and slow-growing shrub for New England and other northern states than the Japanese Barberry. The plant is not only hardy but also graceful and attractive. Its foliage is of a rich green color in the summer, and in the autumn is very brightly colored. The fruit is equally showy and remains on the plants from the last of the summer until mid-winter. Like other hedge plants, the Barberry should be planted at the rate of one plant to one foot of ground—in other words, a space of 75 feet will require 75 plants. Our plants are well grown and very bushy, and our prices are reasonable for stock of this quality.

Remember that we allow the 100 rate on 25 or more plants of one kind.

	Each	10	100
12 to 15 in., Seedlings		\$1.20	\$ 7.00
12 to 15 in., Transplanted Stock20	1.70	12.00

2 to 2½ ft.40	3.50	24.00

§†*B. thunbergi atropurpurea*. *Red-Leaved Japanese Barberry*. Illustrated in color on page 37. 5 ft. Exactly like the Japanese Barberry, except the foliage is a dark red and maintains this color throughout the season. This makes a splendid plant for a situation where something bright and cheery is desired, and one that needs no coddling or special care, beyond ordinary soil and unobstructed sunshine.

	Each	10	100
18 to 24 in.	\$0.50	\$4.50	\$35.00
2 to 3 ft.75	6.50	55.00

*Truehedge Columnberry*

B. thunbergi erecta. *Truehedge Columnberry*. (Plant Patent No. 110.) A wonderful recent improvement of the old dependable Japanese Barberry, having every good point of its parent type—its hardiness and its adaptability to wide variations of soils and exposures. Besides this, *Truehedge Columnberry* has darker foliage than the Japanese Barberry, remaining dark in spite of severe drought; its fall color is even richer and deeper; and its scarlet berries are borne with still greater profusion. But most important of all the advantages of *Truehedge Columnberry* is its dense, erect, bushy, columnar shape, which makes a perfect hedge the instant it is planted, and needs little pruning to keep it perfect.

	Each	10	100

2 to 2½ ft.55	4.50	35.00

§†*B. verna*. *Verna Barberry*. 5 ft. A desirable rather arching variety with a more open habit. Its foliage is small and attractive, and its wiry, spiny branches are beautifully bespangled in autumn with clusters of pink berries which remain in attractive condition almost until spring.

	Each	10	Each	10
18 to 24 in.	\$0.70	\$6.00	3 to 4 ft.	\$1.00 \$ 9.00
2 to 3 ft.85	8.00		

§†*B. vulgaris*. *European Barberry*. 7 ft. (M.) A handsome variety in the spring, with its golden yellow flowers and light green foliage, and in fall the bright scarlet berries make it very attractive. The branches are upright, arching and thorny.

	Each	10	Each	10
2 to 3 ft.	\$0.60	\$5.00	3 to 4 ft.	\$0.75 \$6.00

B. vulgaris atropurpurea. *Purple Barberry*. 6 ft. (M.) Similar to *B. vulgaris*, with beautiful violet-purple foliage and fruit. Very effective in groups and masses.

	Each	10	Each	10
3 to 4 ft.	\$0.75	\$6.50	4 to 5 ft.	\$1.00 \$9.00

BUDDLEIA - Butterflybush**Attracts Butterflies**

A beautiful group of flowering shrubs with gray-green foliage. Flowers are large spikes or panicles, usually in some shade of pink, purple or lavender, from July to September. Buddleias are partially tender, most varieties winter-killing to the ground; mostly the roots survive and send up new tops each year. Buddleias decidedly prefer the sun.

Buddleia alternifolia. *Chinese Butterflybush*. 8 ft. Big, arching shrubs with bold, woolly gray foliage and clusters of lilac-purple flowers. This is a hardy variety, withstanding rigorous climates.

	Each	10
2 to 3 ft.	\$0.60	\$5.00

B., Charming. (See color illustration on page 38.) 6 ft. A glorious new shrub bearing throughout the late summer and autumn, elegant long sprays covered with lovely blooms which, compared with other Buddleias introduced up to date, are distinctly pink. For September and October flowers we suggest pinching off the first flower spikes which develop in July to aid in the development of side branches which will bring a greater abundance of flowers during the autumn months. Like other Buddleias, this new variety attracts a great many colorful butterflies—a feature which accounts for the popular name of this showy, hardy shrub. *Charming* gives a wonderful effect in the garden and has exceptional value for house decoration. These will flower this year.

	Each	10
2 yrs.	\$0.75	\$6.50

B. davidi magnifica. *Oxeye Butterflybush*. 6 ft. (M.) An attractive shrub which produces an abundance of fragrant, showy, rosy purple flowers with orange-yellow centers, from August on.

	Each	10
3 yrs.	\$0.60	\$5.00

B., Ile de France. 5 ft. Fragrant, brilliant rosy purple flowers in August and September. One of the most vivid.

	Each	10
2 yrs.	\$0.60	\$5.00

CALLICARPA

Callicarpa purpurea. *Chinese Beautyberry*. 5 ft. Small, pale pink flowers on arching stems followed by violet fruit. Rather tender, but if killed back to ground will flower and fruit on new wood following season.

	Each	Each
2 to 3 ft.	\$0.60	3 to 4 ft. \$0.75

AUTUMN FRUITS

Along with the spring-flowering shrubs select others for their autumn fruits and brightly colored foliage. You will find the fruits as colorful as flowers and frequently they remain much longer.

Shrubs play an important part in the development of the residential lot

CALYCANTHUS

Calycanthus floridus. Sweetshrub. 6 ft. (M.) A favorite shrub found in old-fashioned gardens everywhere; will thrive in partial shade. It has fine glossy foliage and pineapple scented, chocolate colored flowers that last far into the summer.

Each	10	Each	10
2 to 3 ft.	\$0.50 \$4.00	4 to 5 ft.	\$0.75 \$6.50
3 to 4 ft.60 5.00		

CARAGANA

Caragana arborescens. Siberian Pea-Tree. 12 ft. (L.) A hardy, tree-like shrub with dark green wood, and branches of delicate light green leaves. The tiny, pea-like yellow flowers cover the tree in May and June, hanging in graceful clusters. It flourishes in light sandy soil.

Each	10	Each	10
2 to 3 ft.	\$0.60 \$5.00	6 to 7 ft.	\$1.75 \$15.00
3 to 4 ft.80 7.00	7 to 8 ft.	2.50 22.50

CEPHALANTHUS

Cephalanthus occidentalis. Buttonbush. 5 ft. (M.) An excellent shrub for waterside planting, as it thrives best in moist, loamy soil. Its creamy white, fragrant flowers are borne in dense round heads in July.

Each	10	Each	10
2 to 3 ft.	\$0.60 \$5.00	3 to 4 ft.	\$0.75 \$6.50

CHIONANTHUS

Chionanthus virginica. White Fringe Tree. 15 ft. (Sv.) This beautiful, tree-like shrub is, in our opinion, one of the best of the ornamental shrubs. It has large, glossy dark green foliage that forms a superb background for the delicate sprays of white fringy flowers in early summer. Delicately fragrant. Fruit dark blue.

Each	10	Each	10
3 to 4 ft.	\$1.00 \$8.50	5 to 6 ft.	\$2.25 \$20.00
4 to 5 ft.	1.50 12.50	6 to 7 ft.	3.00 25.00

CLETHRA

†*Clethra alnifolia*. Summersweet; Sweet Pepper Bush. 6 ft. (M.) A native shrub with spikes of creamy white, fragrant flowers throughout July and August. It thrives in shady, damp places, where many shrubs will not grow, yet succeeds in dry locations as well. It is particularly valuable on account of its mid-summer period of showy blooms.

Each	10	Each	10
2 to 3 ft.	\$0.65 \$5.50	3 to 4 ft.	\$0.80 \$7.00
		4 to 5 ft.	1.00 9.00

Cornus mas—Cornelian Cherry

COMPTONIA

Comptonia asplenifolia. Sweet Fern. 2½ ft. Low clumps of dark, narrow, aromatic foliage. Thrives in dry soils.

18 to 24 in. B&B90 7.50

CORNUS - Dogwood; Cornel

Attractive to Birds—Lovely in Naturalistic Plantings

Prominent among the hardiest and showiest of shrubs are the twiggy Dogwoods. They present a continual display of beauty in flower, leaf, foliage, fruit, and twig that is hard to equal in any other family of shrubs. In this group are several species with graceful and brilliantly colored branches and twigs which enliven the winter landscape and bring cheer into the garden and distant view. All are hardy and easy to grow. Birds eat their fruits.

‡*Cornus alba*. Tartarian Dogwood. 10 ft. (L.) An erect-stemmed shrub with good, clean foliage and bright blood-red branches and blue-white berries, making it very showy in shrubberies, especially in winter.

Each	10	Each	10
2 to 3 ft.	\$0.60 \$5.00	3 to 4 ft.	\$0.75 \$6.00

C. florida. Flowering Dogwood. Listed among the Flowering Trees.

C. kousa. Korean Dogwood. 20 ft. A small tree with very large white flowers, similar to the Flowering Dogwood, but last nearly a month, turning pink with age. The handsome foliage becomes purplish in autumn, making a perfect foil for the large, handsome red fruits.

Each	10	Each	10
3 to 4 ft. B&B \$2.00	\$17.50	5 to 6 ft. B&B \$4.00	\$35.00
4 to 5 ft. B&B 3.00	27.50	6 to 8 ft. B&B 6.00	55.00

C. mas. Cornelian Cherry. 20 ft. (L.) Handsome shrub-like tree with yellow flowers before the leaves, and studded in autumn with immense quantities of scarlet fruits. It makes a stunning display of autumn color in the landscape, yet is most valuable for its early spring flowers which rival Forsythia in color.

Each	10	Each	10
3 to 4 ft.	\$1.25 \$11.00	5 to 6 ft.	\$2.50 \$22.50
4 to 5 ft.	1.75 15.00		

C. paniculata. Gray Dogwood. 10 ft. (M.) One of the most handsome, white-flowering native shrubs of excellent habit. Its white fruits and red stems are most showy in the fall.

Each	10	Each	10
2 to 3 ft.	\$0.60 \$5.00	5 to 6 ft.	\$1.50 \$12.00
3 to 4 ft.80 7.00		

‡*C. sanguinea*. Bloodtwig Dogwood. 12 ft. (L.) Red or purplish red branches and greenish white flowers, followed by black fruit. This is one of the showiest of the shrubby Dogwoods, its bright red color adding color to the winter landscape, making a remarkable contrast to the more somber, bare branches of other shrubs.

Each	10	Each	10
2 to 3 ft.	\$0.60 \$5.00	4 to 5 ft.	\$0.80 \$7.00
3 to 4 ft.70 6.00		

‡*C. stolonifera*. Red-Osier Dogwood. 8 ft. (M.) Dark blood-red branches and prostrate stem. White flowers in dense, flat heads, followed by white berries.

Each	10	Each	10
2 to 3 ft.	\$0.60 \$5.00	3 to 4 ft.	\$0.75 \$6.50

‡*C. stolonifera flaviramea*. Goldentwig Dogwood. 8 ft. (S.) Branches yellow, making a striking contrast with the red-barked sort just mentioned. Very attractive in winter.

Each	10	Each	10
2 to 3 ft.	\$0.60 \$5.00	3 to 4 ft.	\$0.90 \$8.00

CORYLUS - Filbert

Corylus americana. American Hazelnut. 8 ft. (L.) While the nuts produced by this variety are smaller than those of the European Filbert, they are of fine, sweet flavor. Very hardy.

Each	10	Each	10
4 to 5 ft. . \$0.85	\$7.50	6 to 8 ft.	\$1.50 \$12.50
5 to 6 ft. . 1.00	9.00	6 to 8 ft., extra heavy	3.00 27.50

C. avellana. Filbert. The European Filbert of commerce. An attractive shrub about 15 feet high, which bears its nuts abundantly in autumn.

Each	10	Each	10
6 to 8 ft.	\$1.50 \$12.50	8 to 10 ft., heavy	\$4.00 \$37.50

COTONEASTER

Known for Their Beautiful Red and Black Fruits

This large Asiatic family has many members of high value for landscape planting. They vary tremendously in habit, yet all are attractive, and especially decorative when covered with their brilliant or glossy fruits. The larger types make excellent specimen shrubs while the low, prostrate forms are fine for use in the rock garden or against walls.

Cotoneaster acutifolia villosula. 10 ft. A spreading shrub 12 feet high with especially attractive foliage, hairy on the under side. The decorative fruits are black.

Each	10	Each	10
4 to 5 ft., B&B	\$1.50	5 to 6 ft., B&B	\$2.00
	\$12.50		\$18.00

C. apiculata. Pointleaf Cotoneaster. 5 ft. (M.) Small leaves along arching, spray-like branches, and gem-like pink flowers followed by large, showy scarlet fruit. Most attractive.

Each	10	Each	10
9 to 12 in. 5-in. pots	\$2.00	15 to 18 in. B&B	2.50
	\$17.50		22.50

C. dielsiana. Diel's Cotoneaster. 8 ft. A handsome specimen shrub with branches arching to the ground. The small, glossy foliage sparkles in the sunlight, and in the summer gives an almost evergreen effect. The pinkish flowers in June and bright scarlet fruits in September add to its beauty.

Each	10	Each	10
3 to 4 ft., B&B	\$1.50	4 to 5 ft., B&B	\$1.75
	\$12.50		\$15.00

C. divaricata. Spreading Cotoneaster. 6 ft. Best suited for planting in groups or as an individual specimen in the open. Long arching branches studded with tiny rose-pink flowers in June, followed by brilliant scarlet fruits, which persist into the winter.

Each	10	Each	10
2 to 3 ft. B&B	\$1.50	3 to 4 ft. B&B	1.75
	\$12.50		15.00
4 to 5 ft. B&B	2.25		20.00

C. foveolata. 10 ft. (L.) Tall, spreading shrub with large glossy leaves which become shining red and orange in autumn. Clusters of pink flowers appear in early summer, followed by glossy black fruits along the branches.

Each	10	Each	10
3 to 4 ft. B&B	\$1.75	4 to 5 ft. B&B	2.25
	\$15.00		20.00

C. horizontalis. Rock Cotoneaster. (D.) This prostrate shrub, with its almost horizontal branches and small glossy green leaves, is being used more each year. The flowers are pinkish white and the fruit bright red. While it is one of the very best shrubs for use in a rock garden, it is equally attractive in other spots and for use as a ground cover. No shrub in the garden produces more attractive bright red berries in the autumn than the Rock Cotoneaster.

Each	10	Each	10
5-in. pots, 12-15 in.	\$1.50	5-in. pots, 15-18 in.	2.00
	\$13.50		17.50

C. lucida. Inky Cotoneaster. 8 ft. (L.) Dense, big shrub with dark, intensely green foliage which retains its color until winter. Note-worthy for the profusion of its inky black fruit.

Each	10	Each	10
2 to 3 ft. B&B	\$1.25	3 to 4 ft. B&B	\$1.50
	\$11.00		\$13.50

CYDONIA - Flowering Quince

The fruits make excellent jelly and delicately perfume clothes, closets, drawers, etc.

6 ft. (M.) One of the first shrubs to bloom in the spring, and very showy because of its glossy leaves and flowers that vary in color from orange to vermilion, followed by quince-shaped, fragrant, golden yellow fruit. It has spreading, spiny branches, and makes a handsome and impenetrable flowering hedge. (See page 38 for illustration in color.)

Each	10	Each	10
12 to 18 in....	\$0.40	2 to 3 ft.	\$0.60
	\$3.00		\$5.00
18 to 24 in....	.50	3 to 4 ft.90
	4.00		8.00

DAPHNE

Daphne mezereum. February Daphne. 3 ft. (D.) This is not to be confused with the evergreen *Daphne cneorum*. It derives its name because it flowers very early in the spring. This small shrub is of upright habit and is covered with hundreds of rosy purple flowers, at a time when almost nothing else is in bloom. Each 10 15 to 18 in. \$1.00 \$9.00

DEUTZIA

Few shrubs are of such easy culture and give such universal satisfaction. The dazzling white and soft pink of their myriad bell-shaped flowers yield many handsome effects in garden or border arrangements. They prefer medium to dry soils and full sun. In acid soils they like occasional applications of lime.

Deutzia gracilis. Slender Deutzia. 3 ft. (D.) A small, compact shrub whose slender, arching branches are profusely covered by pure white flowers in early summer.

Each	10	Each	10
15 to 18 in. ..	\$0.50	18 to 24 in. ..	\$0.60
	\$4.00		\$5.00

D. lemoinei. Lemoine Deutzia. 4 ft. (M.) An early-blooming, vigorous, floriferous shrub, with pure white flowers in great sprays along its stout branches. A row of these graceful bushes makes a desirable flowering hedge.

Each	10	Each	10
2 to 3 ft.	\$0.60		\$5.00

D. scabra crenata. Fuzzy Deutzia. 6 ft. Flowers double, white, sometimes blush-pink, profusely borne in June.

Each	10	Each	10
2 to 3 ft.	\$0.50	4 to 5 ft.	\$0.80
	\$4.00		\$6.00
3 to 4 ft.60	5 to 6 ft.	1.00
	5.00		9.00

D. scabra, Pride of Rochester. 10 ft. Perhaps the best known and most popular of all the Deutzias. It makes a tall, wide-spreading bush, covered with a cloud of large, double and fringed pink and white flowers in June.

Each	10	Each	10
2 to 3 ft.	\$0.50	4 to 5 ft.	\$0.75
	\$4.00		\$6.50
3 to 4 ft.60	5 to 6 ft.	1.00
	5.00		9.00

DIERVILLA

Diervilla trifida. Dwarf Bush Honeysuckle. 3 ft. (D.) An excellent shrub for low masses. Bears a profusion of loose, yellow flowers in June, and during summer its foliage carries the colorful shadings of the autumn tint, giving a gay and festive effect throughout the season.

Each	10	Each	10
3 to 4 ft.	\$0.90		\$8.00

ELAEAGNUS - Oleaster

Known for its Silvery Leaves and Branches

†**Elaeagnus angustifolia. Russian Olive.** 15 ft. (L.) A spreading, somewhat spiny bush with gray, almost woolly leaves and fragrant yellow flowers. Especially good for the seashore. Very attractive when in fruit.

Each	10	Each	10
18 to 24 in. ...	\$0.70	3 to 4 ft.	\$1.00
	\$6.00		\$9.00

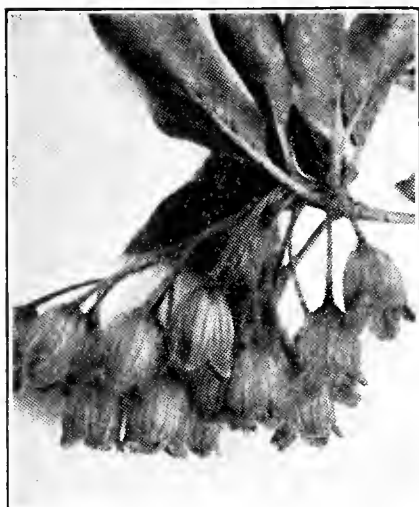

†**E. longipes. Cherry Elaeagnus.** 6 ft. (M.) This very desirable shrub has reddish brown branchlets, foliage dark green above, silvery beneath, and yellowish white, fragrant flowers followed by edible scarlet fruit. It is showy and attractive at all times, particularly when in fruit, and is one of the comparatively few decorative shrubs which really thrives near salt water.

Each	10	Each	10
2 to 3 ft.	\$0.80	4 to 5 ft.	\$1.25
	\$7.00		\$11.00
3 to 4 ft.	1.00		9.00

†**E. umbellata. Autumn Elaeagnus.** 12 ft. Of spreading habit with fragrant yellow and white flowers in May and June, followed by a profusion of scarlet fruits the size of wild cherries, in September.

Each	10	Each	10
5 to 6 ft.	\$1.50	6 to 8 ft.	\$2.00
	\$12.50		\$17.50

It's thrifty to buy 5 plants or more at the 10 rate

Enkianthus campanulatus

\$4.00 each; \$35.00 per 10. 3 1/2 to 4 ft., B&B, \$5.00 each; \$45.00 per 10.

ENKIANTHUS

Enkianthus campanulatus. *Red-vein Enkianthus.* 8 ft. A neat tree-like shrub with branches in whorls like a series of umbrellas. The pinkish striped flowers are like large Lilies-of-the-Valley hanging in clusters in May. The foliage is its greatest attraction, turning to brilliant shades of pink, red, scarlet, orange, and yellow in the fall. Although a cousin to the Azalea, it tolerates a fair amount of lime. Very fine. 2 to 2 1/2 ft., B&B, \$2.25 each; \$20.00 per 10. 2 1/2 to 3 ft., B&B, \$3.00 each; \$27.50 per 10. 3 to 3 1/2 ft., B&B,

EUONYMUS

Gorgeous Fall Coloring and Fruits

The evergreen varieties of Euonymus are listed under Evergreen Shrubs. Here are listed the upright, deciduous shrub types whose decorative value lies in their brilliantly colored foliage and attractive fruits of autumn.

†**Euonymus alatus.** *Winged Euonymus.* 10 ft. (M.) Most desirable shrub of densely branched, compact habit, with yellowish flowers, followed by red fruit. The foliage turns a brilliant red in autumn. Twigs have four corky wings. Useful for thick screens or showy masses of foliage.

Each	10	Each	10
2 to 3 ft.	\$0.70 \$6.00	4 to 5 ft.	\$1.25 \$11.00
3 to 4 ft.	1.00 9.00	5 to 6 ft.	2.00 17.50

†**E. alatus compacta.** *Dwarf Winged Euonymus.* 6 ft. A dwarf type of the above, forming an extremely dense, slow growing shrub whose foliage in autumn is even more brilliant than E. alatus, and in the Arnold Arboretum it has caused as much comment for its brilliancy as any shrub growing there. Its dense habit of growth makes it an ideal shrub for use in much the same manner as the Evergreen Boxwood is used, either as specimens or accents in a garden. It is also ideal for use as a low growing dense hedge.

Each	10	Each	10
2 to 2 1/2 ft. ...	\$1.25 \$11.00	3 to 3 1/2 ft. ...	\$2.00 \$18.00
2 1/2 to 3 ft. ...	1.50 13.50		

The Corky-Branched Shrub—Euonymus alatus

†**E. europaeus.** *European Burning-bush.* 4 ft. (L.) An erect shrub which sometimes makes a small compact tree. Its foliage is dark green, turning crimson in the fall, and its flowers yellowish, followed by decorative sprays of orange-scarlet fruit.

Each	10
2 to 3 ft.	\$0.70 \$6.00
3 to 4 ft.90 8.00
4 to 5 ft.	1.00 9.00
6 to 7 ft.	1.50 12.50

E. maackii. 7 ft. Small, tree-like shrub from the Orient with tiny yellow flowers and pink fruits. A hardy and delightful ornamental plant.

Each	10
2 to 3 ft.	\$0.70 \$6.00
3 to 4 ft.90 8.00

Fruit of Euonymus europaeus

E. yedoensis. *Yeddo Euonymus.* 8 ft. The showiest of all the bush Euonymus family. Leaves brilliant red in fall. Scarlet berries surrounded by pink husks are produced in great profusion.

Each	10	Each	10
5 to 6 ft.	\$1.25 \$11.00	6 to 8 ft.	\$1.50 \$12.50

EXOCHORDA

Exochorda grandiflora. *Pearl Bush.* 10 ft. (L.) This is a Chinese shrub of robust, tree-like growth, producing loose clusters of pure white flowers in May, somewhat like large, translucent orange blossoms and very attractive.

Each	10	Each	10
3 to 4 ft.	\$0.70 \$6.00	5 to 6 ft.	\$1.10 \$10.00
4 to 5 ft.80 7.00		

FORSYTHIA - Goldenbell

The Most Welcome of All Spring Bloom

Spring is really spring when the Forsythias bloom! Somehow they are the most welcome of the early shrubs because their tender yellow blossoms so definitely belong to that season and no other; and while they seem no stronger than a cloud of yellow butterflies, they defy and defeat winter at the door of spring! One Forsythia shining against a clump of evergreens is a pretty sight, but a clump of them, a border, or a hedge of them is a miracle of loveliness, from mid-April to early May. In acid soils, Forsythias benefit from fair applications of lime.

†**Forsythia intermedia.** *Border Forsythia.* 8 ft. (L.) An erect-growing shrub, but when full grown the branches arch gracefully, and bear clouds of deep yellow flowers.

Each	10	Each	10
2 to 3 ft.	\$0.40 \$3.20	4 to 5 ft.	\$0.60 \$5.00
3 to 4 ft.50 4.00	5 to 6 ft.75 6.00

†**F. intermedia spectabilis.** *Showy Border Forsythia.* 8 ft. Much more profuse-flowering than the original type, and several shades richer in its glorious deep yellow. Plants vigorous and compact. Regarded by the Arnold Arboretum and all others who have grown it as the finest member of the family.

Each	10	Each	10
2 to 3 ft.	\$0.50 \$4.00	3 to 4 ft.	\$0.60 \$5.00

†**F. suspensa.** *Weeping Forsythia.* 8 ft. (L.) This variety has long, drooping branches, with bright yellow flowers early in April.

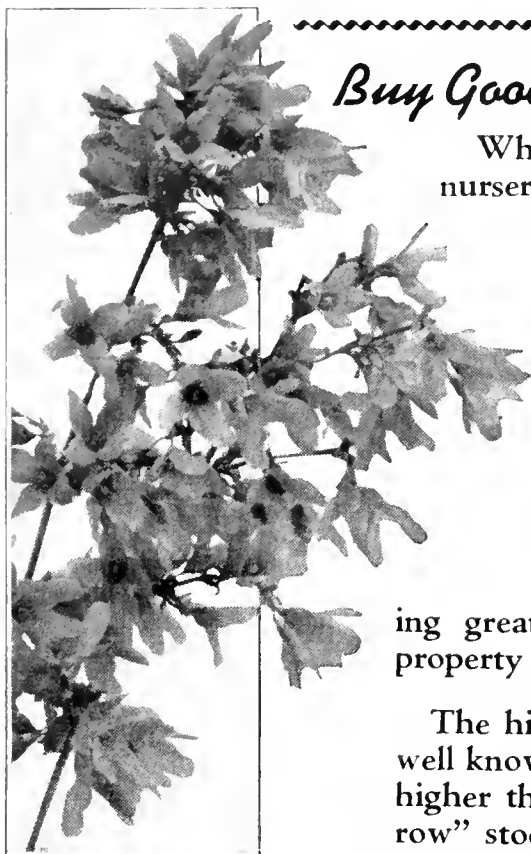

Each	10	Each	10
2 to 3 ft.	\$0.50 \$4.00	4 to 5 ft.	\$0.75 \$6.50
3 to 4 ft.60 5.00	5 to 6 ft.90 8.00

†**F. suspensa fortunei.** *Fortune Forsythia.* 8 ft. (L.) (See page 30 for illustration.) The upright branches of this shrub are covered with a profusion of rich yellow flowers and later by broad, deep green foliage.

Each	10	Each	10
2 to 3 ft.	\$0.50 \$4.00	4 to 5 ft.	\$0.75 \$6.00
3 to 4 ft.60 5.00		

F. viridissima. *Greenstem Forsythia.* 8 ft. Of upright arching habit with conspicuous light green bark and pale yellow flowers in late April.

Each	10
3 to 4 ft.	\$0.75 \$6.50

Forsythia Expresses
the Spirit of Spring

Buy Good Nursery Stock

When it comes to planting nursery stock, seeds, etc., the best is none too good. Inferior trees are bound to be disappointing; they may stagger along for a while, but they will never come up to expectations. The right kind of stock, on the contrary, will become more valuable each succeeding year, adding greatly to the value of the property on which it is planted.

The high quality of our trees is well known—and the prices are no higher than for usual “run-of-the-row” stock.

FOTHERGILLA

Unique and Extremely Rare

This beautiful little shrub is a jewel of the rarest merit. Little known, extremely scarce, its charm lays in its bushy, compact habit of growth. A profusion of creamy white flowers in May borne like buttons on the ends of the stem lend it unusual distinction.

Fothergilla major. *Large Fothergilla.* 8 ft. An ornamental shrub conspicuous in spring with its numerous spikes of white flowers. The leaves turn orange-yellow in autumn.

	Each	10
2 to 3 ft.	\$2.50	\$22.50

F. monticola. *Alabama Fothergilla.* 6 ft. Of spreading habit with flowers slightly larger than F. major.

	Each	10		Each	10
2 to 3 ft.	\$2.50	\$20.00	3 to 4 ft.	\$3.50	\$30.00

GENISTA

†**Genista tinctoria.** *Woadwaxen.* 5 ft. (M.) The pealike golden yellow blossoms come in June and attract much attention when the plants are grown in masses. It is a very good shrub for rockeries and dry hills or where nothing else will ordinarily grow.

	Each	10		Each	10
18 to 24 in. ...	\$0.60	\$5.00	3 to 4 ft.	\$0.90	\$7.50
2 to 3 ft.75	6.50			

HAMAMELIS - Witch-Hazel

Excellent for Screen Effects

Hamamelis vernalis. *Vernal Witch-Hazel.* 6 ft. Attractive winter-blooming shrub with bright yellow flowers in January, February or March, which are not injured by zero weather. Of interest for its curious flowers and unusual blooming season.

	Each	10		Each	10
2 to 3 ft.	\$1.00	\$9.00	3 to 4 ft.	\$1.50	\$12.50

H. virginiana. *Common Witch-Hazel.* 15 ft. (L.) A treelike shrub useful for large borders, especially in moist places. Producing its fringy yellow flowers late in November after the leaves have fallen, it creates a unique and attractive effect.

	Each	10		Each	10
3 to 4 ft.	\$0.90	\$ 8.00	6 to 7 ft.	\$1.75	\$16.00
4 to 5 ft.	1.25	11.00	7 to 8 ft.	2.00	18.00
5 to 6 ft.	1.50	14.50	8 to 10 ft.	2.50	22.00

HIBISCUS - Rose of Sharon

An erect, sturdy, treelike shrub 10 to 12 feet high, with a broad head and rather formal appearance. It produces large, showy flowers in August at a time when few other shrubs are in bloom. It is excellent for specimen or screen plantings, and succeeds well in all soils. The use of lime will somewhat overcome its slight tenderness in northern New England.

Hibiscus syriacus. <i>Rose of Sharon; Althea.</i>	Each	10
Prices	\$0.75	\$6.50

Double Pink. 3 to 4 ft.	Double White. 2 to 3 ft.
Double Purple. 3 to 4 ft.	Single Blue. 2 to 3 ft.
Double Red. 3 to 4 ft.	Single White. 2 to 3 ft.

HYDRANGEA

Woody shrubs with coarse, heavy leaves, blooming in late summer, their showy white flowers changing to pinkish brown. They succeed in most situations and are indifferent to soil or climate. Pruning should be done in early spring if necessary, as *Hydrangeas* differ from most shrubs in producing their flowers on new wood.

†**Hydrangea arborescens grandiflora.** *Snowhill Hydrangea.* 5 ft. Its large clusters of pure snow-white flowers, averaging 4 to 5 inches in diameter, appear from June to the middle of September. Suitable for shady or sunny positions. Few plants will bloom as well in shade.

	Each	10		Each	10
18 to 24 in. ...	\$0.50	\$4.00	2 to 3 ft.	\$0.60	\$5.00

†**H. paniculata.** *Panicked Hydrangea.* 8 ft. (L.) This is a form of the preceding with single flowers, and in many respects is a much more pleasing shrub, particularly for its gracefulness. Highly recommended in landscape planting. It blooms in September, in upright panicles; flowers creamy white, turning to shades of rose and purple.

	Each	10		Each	10
2 to 3 ft.	\$0.60	\$5.00	3 to 4 ft.	\$0.75	\$6.50

†**H. paniculata grandiflora.** *Peegee Hydrangea.* 12 ft. (L.) This variety is exceedingly well known, being in almost every garden. Its large, conical heads of white flowers become pink and red with age. It should have plenty of water, and be severely pruned every spring to produce large flowers. We offer both bush and tree form.

	Each	10		Each	10
3 to 4 ft.	\$0.75	\$6.50	4 to 5 ft.	\$0.90	\$8.00

†**H. radiata.** *Silverleaf Hydrangea.* 6 ft. (M.) The large, heart-shaped bright green foliage of this variety is silvery beneath, and the contrasting colors are decidedly pleasing. The white flowers are borne in flat clusters.

	Each	10
3 to 4 ft.	\$0.75	\$6.50
4 to 5 ft.90	8.00

Hydrangea arborescens grandiflora—Snowhill Hydrangea

Hypericum aureum—Golden St. Johnswort

HYPERICUM - St. Johnswort

Attractive, dwarf shrubs of dense habit, useful in sunny positions. They adorn themselves with showy, brilliant yellow flowers in mid-summer and early fall, thus making a valuable addition to the garden.

Hypericum aureum. *Golden St. Johnswort.* 3 ft. (S.) A showy shrub of stiff, dense habit. The golden yellow flowers are produced from August to October.

Each	10	Each	10
18 to 24 in.	\$0.70 \$6.00	2 to 3 ft.	\$0.85 \$7.50
H. densiflorum. 4 ft. (M.) A larger variety than the above, with bright yellow flowers from July to September.			
Each	10	Each	10
18 to 24 in.	\$0.70 \$6.00	3 to 4 ft.	\$1.00 \$9.00
2 to 3 ft.85 7.50	4 to 5 ft.	1.25 11.00

ILEX

Ilex verticillata. *Winterberry.* 8 ft. Spectacularly beautiful in fruit, which often covers the bush, remains well into the winter—brilliant scarlet. HOWEVER, each plant has but one sex to its flowers. Only the female bears fruit, but a male must be near by—so never plant this species singly. A good proportion is one male to two female plants.

Female plants:

Each	10	Each	10
3 to 4 ft.	\$0.85 \$ 7.50	5 to 6 ft.	\$1.50 \$12.50
4 to 5 ft.	1.10 10.00		

Male plants:

2 to 3 ft.60 5.00	4 to 5 ft.90 8.00
3 to 4 ft.75 6.50	5 to 6 ft.	1.25 11.00

We have a block of mixed plants of which the sex has not yet been determined. These we offer with the sex unlabeled.

Each	10	Each	10
2 to 3 ft.	\$0.50 \$4.00	4 to 5 ft.	\$0.75 \$6.50
3 to 4 ft.60 5.00	5 to 6 ft.90 7.50

For other shrubs of the Ilex family, see Evergreen Shrubs.

INDIGOFERA

Indigofera kirilowi. *Kirilow Indigo.* 4 ft. Lavender-pink, pealike flowers borne in dense racemes on arching branches. Although it winterkills back to ground, new shoots will usually produce both flower and fruit the next season.

Each	10
3 years	\$1.50 \$12.50

KERRIA

Kerria japonica flore pleno. *Double Kerria.* (D.) 5 ft. Very double flowers which look like little balls of gold. It blooms constantly from June to September. Its stems are bright green. (Illustrated in color on page 38.)

Each	10
18 to 24 in.	\$0.75 \$7.00

KOLKWITZIA

Kolkwitzia amabilis. *Beauty Bush.* 8 ft. A handsome shrub from Korea, hardy in New England, making long sprays of graceful foliage and completely buried in delicate pink flowers like tiny Weigela blossoms, tinted with yellow in the throat in June. One of the finest modern introductions to the shrub list and rapidly becoming very popular. (See page 37 for color illustration.)

Each	10	Each	10
2 to 3 ft.	\$1.00 \$9.00	3 to 4 ft.	\$1.25 \$11.00

LESPEDeza - Bushclover

Lespedeza bicolor. *Shrub Bushclover.* 6 ft. A broad shrub with slender arching branches, bearing masses of rich, purple, pealike flowers in long, open clusters during July and August. It is fine to plant among evergreens, making a lovely composition when in flower.

Each	10
2 to 3 ft.	\$0.60 \$5.00

L. formosa. *Purple Bushclover.* 4 ft. A very desirable plant for its long, drooping racemes of rosy purple flowers in September. The top of the plant dies to the ground in winter, but restores itself rapidly during the summer, producing flowers late in the season at a time when showy flowering shrubs are extremely scarce.

Each	10
3 years	\$0.60 \$5.00

LIGUSTRUM - Privet

There is No Substitute for the Popular "Trimmed Privet Hedge"

Everybody knows what handsome hedges and screens this valuable group of plants can make when properly planted and trimmed. They grow vigorously in almost any situation, even in fairly dense shade and places where the soil seems always dry and barren.

The plants of the varieties Ibota, Regelianum, and Vulgare are frequently used as shrubs in borders of flowering shrubs and are very effective.

Flowers are not usually conspicuous, being in very small white, lilac-like clusters. Privet also bear decorative black berries which persist into late fall and winter, creating a fine contrast when seen against the snow.

†**Ligustrum amurense.** *Amur Privet.* 12 ft. A tall growing, upright shrub with dark green, lustrous leaves. Perfectly hardy. This plant has been used for hedges to a tremendous extent in the past few years and has given general satisfaction. It also forms an excellent quick-growing screen.

Each	10	100
2 to 3 ft.	\$0.30 \$2.25	\$15.00
3 to 4 ft.40 3.00	22.50
4 to 5 ft.60 5.00	

†**L. ibolium.** *Ibolium Privet.* 8 ft. (L.) This very hardy Privet is a hybrid between Ibota and California Privet, having the rich, glossy green leaves of the latter and the bushiness and hardiness of the former. It is becoming more popular for hedge planting each year, and makes an excellent specimen, almost evergreen shrub in some locations.

Each	10	100
18 to 24 in.	\$0.25 \$1.50	\$10.00
2 to 3 ft.30 2.00	12.00
3 to 4 ft.35 2.50	18.00

†**L. ibota.** *Ibota Privet.* 8 ft. (L.) One of the hardiest and most graceful sorts. It has spreading, curving branches, grayish green leaves, and fragrant white flowers in June, followed by black berries. Useful for specimens or hedges.

Each	10	100
2 to 3 ft.	\$0.35 \$2.80	\$22.50
3 to 4 ft.45 3.50	27.00

†**L. ibota regelianum.** *Regel Privet.* 5 ft. (M.) A low, absolutely hardy shrub, with almost horizontal branches. It is graceful and sufficiently dense for hedges without trimming, or makes an excellent specimen plant.

Each	10	100
18 to 24 in.	\$0.60 \$5.00	\$42.00

LIGUSTRUM - Privet (Continued)

Ligustrum ovalifolium. California Privet. 10 ft. Of narrow habit with glossy oval leaves. A bit tender here.

	Each	10	100
18 to 24 in.	\$0.25	\$1.00	\$5.00
2 to 3 ft.30	2.00	8.00

LONICERA - Bush Honeysuckle

Graceful shrubs with interesting foliage and habit, charming flowers which in many cases are very fragrant, and delightful berries. The climbing Honeysuckles will be found under *Lonicera* in the section devoted to Vines and Climbing Plants.

Lonicera alpigena. 10 ft. Pairs of yellow flowers tinged with red borne along arching branches in May, and followed by scarlet fruit.

	Each	10
2 to 3 ft.	\$0.75	\$6.50

§*L. fragrantissima. Winter Honeysuckle.* 8 ft. (M.) This strong growing bush reaches a height of 8 feet, with very fragrant, creamy white flowers in early spring.

	Each	10
2 to 3 ft.	\$0.60	\$5.00

§†*L. morrowi. Morrow Honeysuckle.* 12 ft. (L.) A shrub with wide-spreading branches and leaves which are dark green above and grayish beneath. The creamy white flowers in May and June are followed by bright red fruits ripening in August and lasting until late in the fall. Very decorative.

	Each	10	Each	10
2 to 3 ft.	\$0.50	\$4.00	3 to 4 ft.	\$0.60 \$5.00

§†*L. ruprechtiana. Manchurian Honeysuckle.* 12 ft. (L.) A grand shrub of dense, upright habit with wide spreading branches bearing creamy yellow flowers in June, followed by lustrous red berries. Excellent for masses of color in the shrub border or in large, informal screen plantings.

	Each	10	Each	10
3 to 4 ft.	\$0.50	\$4.00	4 to 5 ft.	\$0.60 \$5.00
			5 to 6 ft.75 6.00

§†*L. tatarica. Tartarian Honeysuckle.* 10 ft. (L.) A big, graceful bush that bears a profusion of pink flowers in June, which show up well against the foliage. These are followed by an abundance of light red berries. It flourishes in partial shade.

	Each	10	Each	10
2 to 3 ft.	\$0.50	\$4.00	3 to 4 ft.	\$0.60 \$5.00

§†*L. tatarica alba. White Tartarian Honeysuckle.* 10 ft. (L.) Similar to *L. tatarica*, but has large, pure white flowers followed by an abundance of crimson fruits.

	Each	10	Each	10
3 to 4 ft.	\$0.60	\$5.00	5 to 6 ft.	\$0.90 \$8.00
4 to 5 ft.70	6.00	6 to 7 ft., heavy	1.75 15.00

Ligustrum ibota regelianum—
Regel's Privet

Philadelphus coronarius—Sweet Mockorange

Lonicera tatarica—Tartarian Honeysuckle

LYONIA

Lyonia ligustrina. He-Huckleberry. 6 ft. Native, densely branched shrub bearing waxy white flowers from May to July.

	Each	Each
12 to 18 in.	\$0.50	3 to 4 ft. \$1.25
2 to 3 ft.90	

MYRICA

§†*Myrica carolinensis. Northern Bayberry.* 4 ft. (M.) A low, spreading native shrub which thrives in sandy places. It is a sub-evergreen, much admired for its glossy, dark green, fragrant foliage. The flowers are inconspicuous, but are followed by charming, light gray, waxy berries, used for making aromatic candles. This is a desirable and decorative plant for group plantings or used as effective specimens.

	Each	10	Each	10
15 to 18 in. ...	\$0.70	\$6.00	2 to 2½ ft. ...	\$1.00 \$9.00
18 to 24 in.80	7.00		

NEMOPANTHUS

†*Nemopanthus mucronatus. Mountain Holly.* (L.) An ornamental, upright shrub grown for its attractive fruit. It produces inconspicuous whitish flowers in May and June and velvety, bright crimson fruit on slender, drooping stalks in August and September.

	Each	10	Each	10
3 to 4 ft.	\$1.00	\$9.00	5 to 6 ft.	\$1.75 \$15.00
4 to 5 ft.	1.25	11.00	6 to 8 ft.	2.50 20.00

PHILADELPHUS - Mockorange

The Mockorange or Sweet Syringa has been a familiar plant in gardens for many years, the newer hybrids only intensifying the fragrance and beauty of the older varieties. They vary in habit from low, arching bushes to lofty, upright shrubs, but all bear glistening white flowers with a delicious fragrance.

†*Philadelphus coronarius. Sweet Mockorange.* 10 ft. (L.) This tall-growing shrub, with upright branches, has a great profusion of pure white, delightfully fragrant flowers in June, and handsome, dark green foliage. It makes a tall hedge even in partially shady places; a group of them is fine in the mixed shrub border or an individual plant is showy as a specimen.

	Each	10	Each	10
3 to 4 ft.	\$0.50	\$4.00	4 to 5 ft.	\$0.60 \$5.00

†*P. grandiflorus. Big Mockorange.* 10 ft. Upright shrub producing heavy clusters of large white flowers in June.

	Each	10	Each	10
3 to 4 ft.	\$0.60	\$5.00	5 to 6 ft.	\$0.90 \$7.50
4 to 5 ft.75	6.50	6 to 8 ft.	1.25 10.00

Every Garden Needs the Unforgettable Fragrance of the "Mockorange"

HYBRID MOCKORANGES

The Finest of the Hybridizer's Art

These comprise some of the finest highly developed sorts that are great improvements over the old types, and need only to be better known to be universally admired.

Philadelphus, Avalanche. 6 ft. (M.) A very handsome shrub, with slender, drooping branches covered almost the whole length with showy white flowers, whereby it justifies its name.

Each	10	Each	10
2 to 3 ft.	\$0.60 \$5.00	3 to 4 ft.	\$0.70 \$6.00

P., Bouquet Blanc. 5 ft. Large, fragrant flowers.

Each	10
2 to 3 ft.	\$0.60 \$5.00

P. Lemoinei. 6 ft. This original hybrid produces fragrant pure white flowers in clusters in June.

Each	10
18 to 24 in.	\$0.50 \$4.00

P., Mont Blanc. 4 ft. (D.) Charming dwarf sort, with very large, fragrant flowers, produced in great abundance. This would be a good variety with which to begin a collection of Philadelphus.

Each	10
2 to 3 ft.	\$0.60 \$5.00

†P., Virginal. (See color illustration page 38.) 8 ft. A handsome, erect shrub which covers itself with very large, semi-double flowers in June and continues to bloom at the tips of the new shoots all summer and fall. Next to the fragrant, old-time *P. coronarius*, it is the favorite of all lovers of these beautiful shrubs. We do not hesitate to recommend this variety to everyone.

Each	10	Each	10
2 to 3 ft.	\$0.60 \$5.00	3 to 4 ft.	\$0.75 \$6.50

PHYSOCARPUS - Ninebark

Physocarpus intermedius parvifolius. Dwarf Ninebark. 5 ft. Of densely branched, upright habit, bearing small bright green leaves. Small white flowers borne in June.

Each	10
4 to 5 ft., bushy	\$0.75 \$6.50
5 to 6 ft., bushy	1.00 9.00

P. opulifolius. Ninebark. 10 ft. A quick-growing, upright shrub with light green leaves and small white flowers in June. Useful for screen plantings.

Each	10	Each	10
4 to 5 ft.	\$0.75 \$6.50	5 to 6 ft.	\$1.00 \$9.00

P. op. aureus. Goldleaf Ninebark. 10 ft. This variety has showy yellow foliage which turns a bronzy yellow in the fall, making a decided contrast when planted among other green-foliaged shrubs.

Each	10	Each	10
3 to 4 ft.	\$0.60 \$5.00	5 to 6 ft.	\$1.00 \$9.00
4 to 5 ft.75 6.50	6 to 8 ft.	1.50 12.50

PRUNUS

The Lovely Flowering Plum - Cherry - Almond

This is a group of delightful early-flowering shrubs and small trees beaming with beauty and cheerfulness. Their earliness commends them to all discriminating planters. Certain tree-forms will be found under "Flowering Trees".

Prunus besseyi. Bessey Cherry. 5 ft. Of spreading habit with narrow gray foliage, showy white flowers in May followed by edible, purple fruit in August.

Each	10
2 to 3 ft.	\$0.60 \$5.00

P. glandulosa alba. Double White Almond. 8 ft. Small, very double white rosettes produced abundantly along the stems in late April and early May.

Each	10
2 to 3 ft.	\$1.00 \$9.00

P. glandulosa rosea. Double Pink Almond. 8 ft. (M.) Produces very double, rose-colored flowers in great profusion in the spring. One of the most charming old-fashioned early-flowering shrubs. Our stock of Double Pink Almond is grown on its own roots, thus insuring the vigor and more lasting satisfaction of the plants.

Each	10
2 to 3 ft.	\$0.90 \$7.50

†P. maritima. Beach Plum. 8 ft. (S.) A handsome thorny plant, of picturesque growth and spectacularly beautiful when covered with its billows of glossy white flowers in early spring. Desirable shrub for seaside planting and dry situations. It grows much taller inland, and frequently becomes a small tree in favorable situations. Purple fruits make fine jelly in September.

Each	10	Each	10
18 to 24 in.	\$0.60 \$5.00	2 to 3 ft.	\$0.70 \$6.00

P. tomentosa. Nanking Cherry. 8 ft. (M.) Erect, straight-branched shrub, each twig buried in small white flowers in May. Most showy and attractive. The red fruits which follow are edible.

Each	10	Each	10
3 to 4 ft.	\$0.75 \$1.25	5 to 6 ft.	\$1.25 \$11.00
4 to 5 ft.	1.00		

P. triloba. Flowering Plum. 8 ft. (M.) A vigorous shrub, having broad, pointed leaves and delightful, light pink, double flowers in mid-May.

Each	10
3 to 4 ft.	\$1.00 \$9.00

†P. virginiana. Common Chokeberry. 30 ft. (L.) Bush or small tree, with rough speckled bark. The fragrant flowers appear in the spring with the leaves in long, finger-like racemes, and are followed by reddish black, puckery fruit in late summer.

Each	10	Each	10
2 to 3 ft.	\$0.50 \$4.00	4 to 5 ft.	\$0.70 \$6.00
3 to 4 ft.60 5.00		

RHAMNUS - Buckthorn

§Rhamnus cathartica. Common Buckthorn. 15' ft. (M.) Fine spiny shrub with dark green foliage, white flowers and small fruits. An excellent hedge plant that thrives in partial shade.

Each	10	Each	10
2 to 3 ft.	\$0.50 \$4.00	3 to 4 ft.	\$0.60 \$5.00

R. dahurica. Dahurian Buckthorn. 6 ft. Spreading, rounding. Excellent for low hedge or specimen use in sun or shade. White flowers, black berries.

Each	10	Each	10
2 to 3 ft.	\$0.75 \$6.50	3 to 4 ft.	\$0.90 \$7.50

R. frangula. Glossy Buckthorn. A handsome shrub or small tree, 15 feet high, with dark glossy foliage and glittering red fruit which later turns black.

Each	10
5 to 6 ft.	\$0.60 \$0.70
6 to 8 ft.	\$0.70

RHODOTYPOS

†Rhodotypos kerrioides. Jetbead. 5 ft. (M.) A bushy shrub from Japan, bearing snowy white flowers in May, followed by shining black berries. It strongly resembles *Kerria Japonica* in all but the color of its flowers. Grows in all soils and in shady places.

Each	10	Each	10
18 to 24 in.	\$0.40 \$3.00	3 to 4 ft.	\$0.60 \$5.00
2 to 3 ft.50 4.00	4 to 5 ft.70 6.00

RHUS - Sumac

A family of coarse-foliaged shrubs, with large, irregular branches. They deserve notice wherever boldness and decisiveness of effect are wanted. Their display of autumn colors is unequalled.

†Rhus canadensis. Fragrant Sumac. 5 ft. (M.) A spreading shrub with clusters or short spikes of small, yellow flowers before the leaves. The thick, fragrant foliage turns crimson in autumn. This Sumac is valuable for planting on embankments or slopes to prevent erosion.

Each	10	Each	10
18 to 24 in.	\$0.70 \$6.00	3 to 4 ft.	\$0.90 \$8.00
2 to 3 ft.80 7.00		

R. copallina. Shining Sumac. 8 ft. (M.) A large shrub or small tree with compound, dark, glossy foliage and dense clusters of scarlet fruits in autumn. Succeeds on dry banks, and is very handsome.

Each	10	Each	10
2 to 3 ft.	\$0.60 \$5.00	3 to 4 ft.	\$0.70 \$6.00

R. cotinus. Smoke Tree. 12 ft. (L.) A much admired shrub for its clouds of purplish misty flowers borne in early June. In the fall the leaves change to brown, red and yellow.

Each	10
3 to 4 ft.	\$1.25 \$11.00

*Sambucus canadensis*—American Elder**RHUS - Sumac (Continued)**

†*Rhus glabra*. *Smooth Sumac*. 10 ft. (L.) This large shrub has smooth bark and attractive crimson seeds and foliage in autumn. Excellent for group plantings and mass effects.

	Each	10	Each	10
4 to 5 ft.	\$0.50	\$4.00	5 to 6 ft.	\$0.70 \$6.00

R. typhina. *Staghorn Sumac*. 20 ft. (L.) A bold tree-like shrub with velvety, hairy stems and tropical-looking foliage which turns brilliant scarlet in the fall. Its pointed heads of crimson berries persist all winter. Thrives in poor, rocky soil. Especially fine for hillside planting.

	Each	10	Each	10
2 to 3 ft.	\$0.40	\$3.00	5 to 6 ft.	\$0.75 \$6.50
3 to 4 ft.50	4.00	6 to 8 ft.	1.00 9.00

ROBINIA

Robinia hispida. *Rose-Acacia*. 6 ft. (M.) Highly ornamental shrub, bearing drooping clusters of beautiful rose-colored flowers, like pea-blossoms, on long stems during May and June. Especially attractive in large masses. Will grow in any soil.

	Each	10	Each	10
18 to 24 in. ...	\$0.60	\$5.00	3 to 4 ft.	\$1.00 \$ 9.00
2 to 3 ft.75	6.50	4 to 5 ft.	1.25 11.00

ROSA - Wild Roses or Rose Species

The Wild Roses surely merit the attention of everyone. Their delicate fragrance and the fragile beauty of their flowers are among the most beautiful things in nature. They vary widely in their habits, from erect, almost climbing plants, like *Rosa setigera* to flat, almost evergreen creepers like *R. wichuraiana*. The Rugosas are especially fine for bold masses, even on the seashore; many have attractive red "hips" in late summer and fall.

§*Rosa blanda*. *Meadow Rose*. 5 ft. (M.) A slender, erect, red-branched, almost thornless variety, with thin, pale green foliage and single flowers of bright pink, in clusters in May. The stems and red berries are very bright against the winter snow. Prefers damp soil.

	Each	10
18 to 24 in.	\$0.70	\$6.00
2 to 3 ft.90	8.00

R. hugonis. *Father Hugo Rose*. 6 ft. This handsome, arching shrub, with spiny stems and delicate foliage, blooms very early in May in long garlands of bright yellow, single flowers which are followed by red, translucent fruits. The best single yellow Rose for shrub use, especially in the background of the rock garden. Give it a warm, sunny exposure to induce it to flower early. The plant is perfectly hardy.

	Each	10
2 to 3 ft.	\$0.75	\$6.50

§†*R. lucida*. *Virginia Rose*. 4 ft. (D.) A dwarf native variety, with prickly stems, dark green leaves, and single, rosy pink flowers about 2 inches across. It does well on poor soil, and is often used for roadside edging.

	Each	10	Each	10
18 to 24 in. ...	\$0.70	\$6.00	2 to 3 ft.	\$0.80 \$7.00

ROSA — Continued

†*R. nitida*. *Bristly Rose*. 2 ft. One of the dwarfest of our native Roses, with glittering, glossy green leaves and deliciously scented, dark rose-pink flowers in June and July. Useful for roadside or rock garden, and thrives well near the seashore.

	Each	10
18 to 24 in.	\$0.70	\$6.00

§†*R. rugosa*. *Rugosa Rose*. 5 ft. (L.) A stout, upright shrub, 5 feet high, densely covered with prickles, and having bold, wrinkled foliage, immune to insects and disease. The flowers are very large, single, rose-red, and very fragrant, followed by crimson-scarlet fruit. Excellent near the seashore.

	Each	10	100
18 to 24 in.	\$0.60	\$5.00	\$45.00

§†*R. rugosa alba*. *White Rugosa Rose*. 5 ft. (L.) The habit and foliage are similar to the preceding, but the fragrant flowers are pure white. Makes a splendid hedge, particularly at the seashore.

	Each	10
18 to 24 in.	\$0.80	\$7.00

†*R. setigera*. *Prairie Rose*. 8 ft. (L.) Large, single flowers of deep rose color. It is a straggly climber, and when trained over fences and stone walls, it makes a beautiful display.

	Each	10
2 to 3 ft.	\$0.70	\$6.00

R. spinosissima. *Scotch Rose*. 3 ft. A low-growing, very spiny bush, covered in spring with a mass of small, single white flowers.

	Each	10
18 to 24 in.	\$0.70	\$6.00

R. spinosissima altaica. *Altai Rose*. 3 ft. A vigorous shrub Rose with glistening white flowers, larger than the preceding.

	Each	10
2 to 3 ft.	\$0.90	\$8.00

†*R. wichuraiana*. *Memorial Rose*. (D.) Of wide-spreading, creeping habit, and used extensively for covering embankments and stonework, as it creeps rapidly over the surface, forming a mat of glossy foliage. The flowers are pure white, borne in clusters late in the season.

	Each	10
2-yrs.	\$0.60	\$5.00

SAMBUCUS

†*Sambucus canadensis*. *American Elder*. 8 ft. (L.) A well-known, very hardy native shrub with big, light green foliage, flat heads of creamy white flowers of the utmost daintiness and charm in June and July, followed by reddish-purple berries which are excellent for pies and wine.

	Each	10	Each	10
3 to 4 ft.	\$0.60	\$5.00	4 to 5 ft.	\$0.70 \$6.00

SPIRAEA - Spirea

A vast and important family of extraordinarily beautiful shrubs. All have great charm of foliage and the profusion of flowers they produce is remarkable. The Spireas fall into two main groups: (1) medium and large sorts with white flowers, ranging from April to July; (2) dwarf sorts with red, pink, or white flowers in July and August. The spring flowers are borne all along the branches; the summer flowers in small heads at the ends of the branches. The spring-flowering sorts thrive in all soils; the summer-bloomers like lime.

†*Spirea arguta*. *Garland Spirea*. 8 ft. (M.) The best early-flowering Spirea, producing in May sheets of minute flowers like drifts of snow. Very hardy and beautiful, we consider it one of the best of the very early-flowering shrubs.

	Each	10
2 to 3 ft.	\$0.45	\$3.50
3 to 4 ft.50	4.00
4 to 5 ft.65	5.50

†*S. bumalda*. *Bumalda Spirea*. 3 ft. (D.) A dense, bushy, dwarf plant with large, flat heads of rosy pink flowers in great profusion from July until frost. Especially good for low masses.

	Each	10
18 to 24 in. ...	\$0.50	\$4.00
2 to 2½ ft. .	.60	5.00

*Spirea trichocarpa*

SPIRAEA - Spirea (Continued)

†*Spiraea bumalda*, Anthony Waterer. *Anthony Waterer Spirea*. 3 ft. (S.) An improved form of *S. bumalda*. A very free-blooming, compact shrub with bright crimson flowers in broad, flat heads. The foliage is often variegated with crimson, white, and yellow, especially in spring, and sometimes tinted with pink. Makes a desirable low hedge.

Each	10	Each	10		
18 to 24 in. ...	\$0.50	\$4.00	2 to 2½ ft. ...	\$0.60	\$5.00

S. fortunei (*S. callosa rosea*). *Fortune Spirea*. 4 ft. A dwarf shrub of dense, compact habit with pale pink flowers late in summer.

Each	10	Each	10		
2 to 3 ft.	\$0.50	\$4.00	3 to 4 ft.	\$0.60	\$5.00

†*S. froebeli*. *Froebel Spirea*. 4 ft. (S.) Similar to Anthony Waterer but grows taller and less compact, bearing bright crimson flowers over a long period. An effective plant for broad, low masses of bright color.

Each	10	Each	10		
18 to 24 in. ...	\$0.50	\$4.00	2 to 3 ft.	\$0.60	\$5.00

S. henryi. *Henry Spirea*. 10 ft. A shrub of loose, wide-spreading habit, wreathed with broad clusters of white flowers in early June. It makes a fine individual specimen or a large arching hedge.

Each	10	Each	10		
2 to 3 ft.	\$0.50	\$4.00	3 to 4 ft.	\$0.60	\$5.00

†*S. japonica ovalifolia*. *White Japanese Spirea*. 3 ft. (D.) This delightful, dwarf shrub is of bushy, symmetrical form, suitable for hedges or borders. White flowers in June and July.

Each	10	
18 to 24 in.	\$0.50	\$4.50

S. reevesiana. *Reeves Spirea*. 6 ft. (M.) Dark green, narrow foliage, pale, bluish green beneath, and large pure white flowers. Similar to *S. Van Houttei* except that its leaves turn scarlet in the autumn.

Each	10	Each	10		
3 to 4 ft.	\$0.60	\$5.00	4 to 5 ft.	\$0.70	\$6.00

S. superba. *Striped Spirea*. 4 ft. (D.) Quite dwarf with striped, dark brown stems and pinkish white flowers through June and July.

Each	10	Each	10		
18 to 24 in. ...	\$0.50	\$4.00	2 to 3 ft.	\$0.60	\$5.00

S. thunbergi. *Thunberg Spirea*. 5 ft. (M.) Of especially graceful habit, growing about 5 feet tall, and bearing hundreds of small white flowers in May. Extensively used in shrub borders because of its very early bloom and its fine feathery foliage which turns orange and scarlet in autumn.

Each	10	Each	10		
2 to 3 ft.	\$0.50	\$4.00	4 to 5 ft.	\$0.70	\$6.00
3 to 4 ft.60	5.00	5 to 6 ft.80	7.00

†*S. trichocarpa*. *Korean Spirea*. 6 ft. (L.) A wide bush of compact, rounded habit, with outer branches gracefully arching to the ground. The flowers are borne abundantly, in showy, dome-shaped clusters, transforming the branches into swaying wands of blossoms, in June and July. It is a choice contribution to our gardens from Korea, extending the flowering season, as it does, nearly 3 weeks after *S. Van Houttei*.

Each	10	Each	10		
2 to 3 ft.	\$0.50	\$4.00	4 to 5 ft.	\$0.70	\$6.00
3 to 4 ft.60	5.00	5 to 6 ft.80	7.00

†*S. Van Houttei*. *Bridal Wreath*. 8 ft. (L.) Van Houttei Spirea is the variety commonly called Bridal Wreath, and is much superior to the true Bridal Wreath, *S. prunifolia*, which we no longer list. Its gracefully arching branches are covered at Memorial Day with large clusters of beautiful white flowers. Even when not in flower, its handsome, blue-green foliage makes it very desirable either as a specimen in the shrub border or in an informal, unclipped hedge.

Each	10	Each	10		
2 to 3 ft.	\$0.40	\$3.50	5 to 6 ft.	\$1.00	\$ 9.00
3 to 4 ft.50	4.00	6 to 8 ft.	1.50	12.50
4 to 5 ft.60	5.00			

STEPHANANDRA

Stephanandra flexuosa. *Cutleaf Stephanandra*. 4 ft. Slender, drooping branches with deeply cut leaves and small clusters of white flowers. It is valuable for planting in front of large, upright shrubs, and its foliage is attractive when it turns reddish purple in autumn.

Each	10	
2 to 3 ft.	\$0.70	\$6.00

SYMPHORICARPOS

†*Symphoricarpos chenaulti*. *Pink Snowberry*. 5 ft. A bushier variety than the common snowberry, covered with light pink berries in summer and autumn. The foliage is extremely graceful, and the habit so neat that it will make a charming hedge without shearing or pruning. It retains its foliage until late in the fall.

Each	10	
2 to 3 ft.	\$0.50	\$4.50

†*S. racemosus*. *Common Snowberry*. 5 ft. (M.) A fine, bushy shrub with decorative leaves and slender branches which bend gracefully under a load of white, waxy berries in autumn. It flourishes in partial shade.

Each	10	Each	10		
2 to 3 ft.	\$0.50	\$4.00	3 to 4 ft.	\$0.60	\$5.00

†*S. vulgaris*. *Coralberry*. 5 ft. Very arching, drooping branches and small, dark red berries. A secondary set of viny branches, trailing and matting on surface of ground makes this the best shrub to keep banks from eroding. Will grow in sun or partial shade.

Each	10	Each	10		
2 to 3 ft.	\$0.50	\$4.00	3 to 4 ft.	\$0.60	\$5.00

A Hedge of Common Purple Lilac—So Characteristic of New England

Bring Your Garden up-to-date with New Shrub Plantings

SYRINGA — Lilac — *The Favorite Shrub of New England*

Perhaps the common Lilac is one of the best known plants in the world, and certainly it has gained the affection and attention of New England planters for years. However, the entire family includes many choice species and delightful hybrids whose merits should be better known, to prolong the blooming season of the family, and for the value of their colorful variety.

The heart-shaped, clean, green foliage makes them desirable, not only as specimen plants, but also as screen hedges. The species Lilacs are particularly worth while and should be found more commonly in gardens.

Syringa chinensis. Chinese Lilac. 12 ft. (M.) A large shrub with slender, arching branches resembling the Persian Lilac in its open heads of violet-blue flowers which appear in June. One of the finest Lilac species.

	Each	10		Each	10
3 to 4 ft.	\$0.85	\$ 7.50	5 to 6 ft.	\$1.65	\$15.00
4 to 5 ft.	1.10	10.00			

S. japonica. Japanese Tree Lilac. 25 ft. This lilac grows as a large shrub or narrow headed small tree, splendid to vary the height of the shrub border. It is an excellent specimen for planting at summer places as it is one of the last trees of the late spring to flower. In late June and early July it produces large, ten-inch panicles of creamy white to light yellow flowers which give off a heavy fragrance.

	Each	10		Each	10
5 to 6 ft.	\$2.00	\$17.50	8 to 10 ft. ...	\$3.00	\$27.50
6 to 8 ft.	2.50	22.50	10 to 12 ft. ...	5.00	45.00

S. josikaea. Hungarian Lilac. 12 ft. (L.) A sturdy, vigorous shrub of tree-like growth, with dark, shining leaves, and bluish purple flowers in June. It is especially valuable for its late bloom which prolongs the Lilac season.

	Each	10		Each	10
2 to 3 ft.	\$0.60	\$5.00	3 to 4 ft.	\$0.80	\$7.00

S. persica. Persian Lilac. 8 ft. (M.) One of the most graceful Lilacs with arching branches and very fragrant, lavender-blue flowers in rather loose, broad panicles, opening late in the spring.

	Each	10
3 to 4 ft.	\$0.90	\$8.00

†S. villosa. Late Lilac. 12 ft. (L.) A stoutly-branched shrub with bright green foliage like that of the White Fringe tree. The flowers, which are borne in panicles, are light purple in bud, rosy white when open, and very fragrant. It is worth while for its shapely, good looking form and its late period of June flowering.

	Each	10		Each	10
2 to 3 ft.	\$0.60	\$5.00	4 to 5 ft.	\$0.90	\$8.00
3 to 4 ft.70	6.00			

†S. vulgaris. Common Lilac. 12 ft. (L.) The best known of all Lilacs. It is a strong, vigorous, upright shrub, with rich dark green foliage and large panicles of very fragrant purplish flowers in late May. A desirable plant for a flowering hedge or large masses.

	Each	10		Each	10
2 to 3 ft.	\$0.50	\$4.00	4 to 5 ft.	\$0.75	\$ 6.50
3 to 4 ft.60	5.00	5 to 6 ft.	1.25	11.50

†S. vulgaris alba. Common White Lilac. 12 ft. (L.) Similar, yet more slender than *S. vulgaris*, with white flowers a week earlier than those of any other variety. It is also desirable for a flowering hedge or bold clump.

	Each	10		Each	10
2 to 3 ft.	\$0.65	\$5.50	4 to 5 ft.	\$1.10	\$10.00
3 to 4 ft.85	7.50	5 to 6 ft.	1.50	

THE FRAGRANT HYBRID LILACS

To those of us who are familiar with only the common white and purple Lilacs of old dooryards, the hybrid varieties, which have come from the crossing of the common Lilac with other Lilac species, seem too splendid to be true. They bear huge trusses of single or double florets, many intensely fragrant. Unlike the preceding varieties, they bloom when very young, and grow to moderate size so that they may be planted in fairly limited space. It is a tiny garden indeed that cannot find room for a really representative collection of these glorious hybrid Lilacs.

Prices are:	Each
2 to 3 ft.	\$1.50
3 to 4 ft.	2.00
4 to 5 ft.	2.75

Buffon. Single, reflexed flowers of light mauve-pink.

Charles Joly. Double, dark purple-red flowers.

Charles the Tenth. Single, glowing reddish purple flowers.

Hugo Koster. Single, deep reddish purple.

Marechal Lannes. Semi-double, bluish violet, tinged with white.

Marie Legraye. Single, pure ivory-white.

Michel Buchner. Double, pink buds opening to pale lilac-blue.

Mme. Casimir Perier. Double, white, creamy in bud.

Mme. Lemoine. Double, snow-white compact clusters.

Pascal. Single, lilac flowers in long, narrow clusters.

President Grevy. Double, soft lavender-blue.

Reaumur. Single, violet-carmine.

Rubra de Marly. Single, rich rosy purple.

Wm. Robinson. Double, violet-pink, red buds.

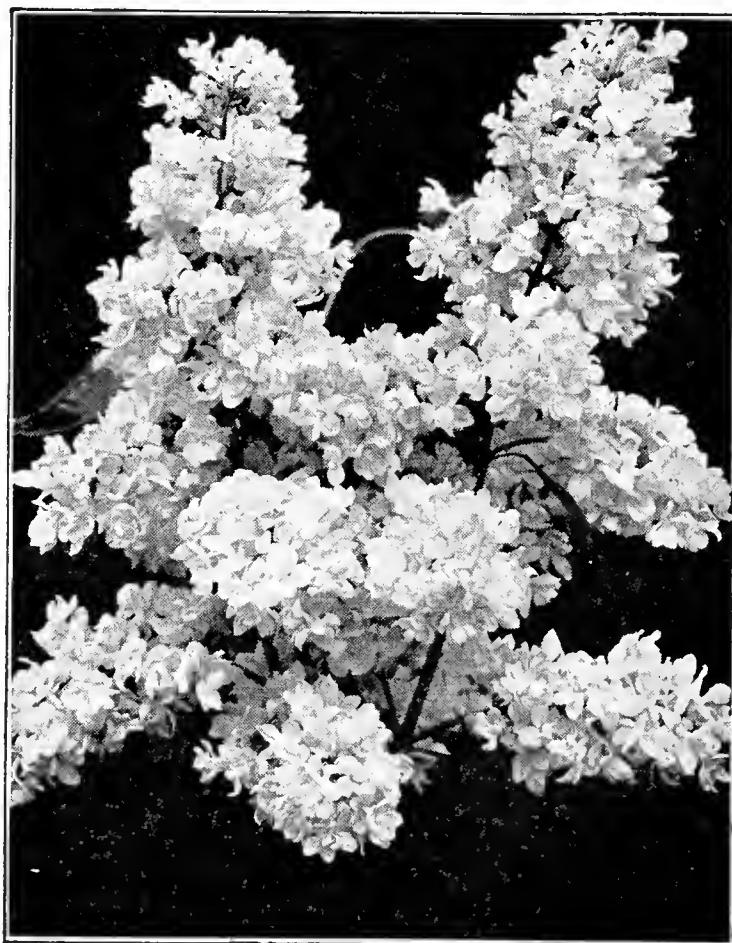

TREE FORM HYBRID LILACS

We have the following varieties of Hybrid Lilacs in tree form, with the trunk about 3 feet high. The heads are heavy and well developed.

Charles The Tenth. Single, reddish purple.

Hugo Koster. Single, dark reddish purple.

5 to 6 ft., B&B	Each	\$4.50	6 to 7 ft., B&B	Each	\$6.00

Plant Your Lilacs NOW and Let the Years Enhance Their Value

The New Beauty Bush

Kolkwitzia Amabilis

Beauty Bush grows to a height of 6 to 10 feet, is dense in form and growth, very unusual foliage, making it very attractive both before and after blossoming. It is completely covered with beautiful cameo-pink flowers during June and July. This magnificent shrub was discovered by the late Dr. "Chinese" Wilson of the Arnold Arboretum during one of his many trips in the mountains of northern China.

Price: 2-3 ft., \$1.00 each; 5 for \$4.50. 3-4 ft., \$1.25 each; 5 for \$5.50.

Red-Leaved Japanese Barberry

(*Berberis Thunbergi Atropurpurea*)

Extremely hardy—unusually attractive. The foliage is of a rich, lustrous bronzy red becoming more brilliant as the season advances, turning to shades of red, orange and scarlet in the fall. This variety is exactly like the Japanese Barberry, except the foliage is dark red. A sunny exposure is necessary to bring out and retain its full red color. Prices: 18-24 in., 50c each; \$4.50 for 10. 2-3 ft., 75c each; \$6.50 for 10; \$55.00 per 100.

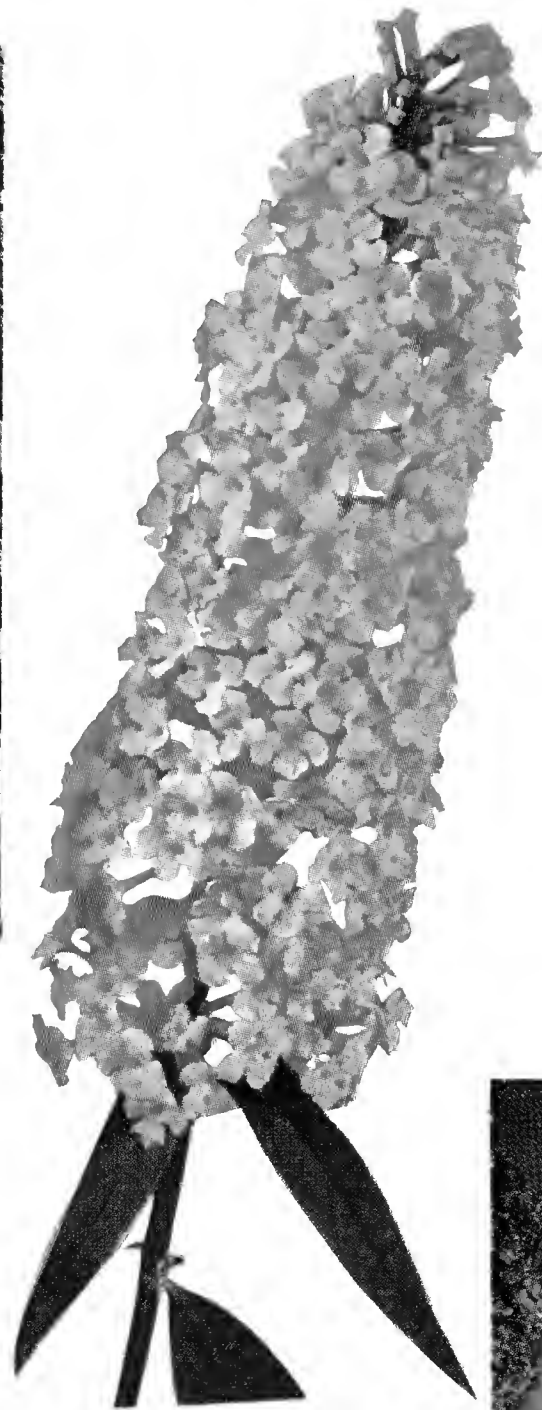

Shrubs of Distinction

FOR FOUNDATION PLANTING
or INDIVIDUAL GROUPS

KERRIA JAPONICA - Globe Flower

A green-branched shrub with cut leaves and abundant double button golden yellow flowers in summer. Price: 18 to 24 in., 75c each; 5 for \$3.50.

Now *A New* *Buddleia* **PINK CHARMING**

Beautiful long flower spikes attractive to butterflies. (See page 26 for full description.) Available in pots only. Flowering size, 75c each; 5 for \$3.25.

VITEX - Negundo Incisa

Cut-Leaf Chaste Tree. An excellent cut flower for early fall. Use in border collection. Neat foliage. 2-3 ft. plants, each, 75c; 5 for \$3.25.

PHILADELPHUS, Virgina!

The lovely sweet-scented semi-double "Mock Orange." 3 to 4 ft., each, 75c; 5 plants, \$3.25.

CYDONIA JAPONICA - Flowering Quince

A valuable well-known shrub remembered for its large, handsome orange-scarlet flowers --- excellent for hedges. 18 to 24 in., 50c each; 5 for \$2.00.

VACCINIUM

†**Vaccinium corymbosum.** *Highbush Blueberry.* 8 ft. A handsome native shrub of real character, much valued for its large, blue-black berries of excellent flavor but favored even more for its brilliant colored fall foliage which gives a distinct naturalistic effect and for the bright red color of the twigs during the winter months.

Nursery-grown plants:

Each	10	Each	10

4 to 5 ft., B&B 1.50	12.50	6 to 7 ft., B&B 3.50	32.50

For collected plants, write for special quotations.

VIBURNUM

Here is a group of interesting shrubs embracing a great variety, from the old-time beauty of the Snowball to the fascinating delicacy of the lacelike *Viburnum tomentosum*, which some think has the loveliest flower of any shrub or tree. Most of them are prolific bloomers, do well in semi-shade, and follow their flowers with a profusion of handsome fruits of varying colors. This is a group that no one interested in shrubs, and especially in native shrubs, can afford to be without.

Viburnum acerifolium. *Mapleleaf Viburnum.* 4 ft. A good shrub for dry soil under trees. Flowers yellowish; foliage interesting and maple-like; fruits blackish. This is the cock-mackie of northeastern North America whose foliage is so handsome in late autumn.

Each	10	Each	10
2 to 3 ft. \$0.80	\$7.00	3 to 4 ft. \$1.00	\$9.00

†**V. americanum.** *American Cranberry Bush.* 12 ft. This very decorative native shrub is of open habit, with attractive flowers and bunches of berries which begin to turn red in July, remaining on the plant until the following spring.

Each	10	Each	10
3 to 4 ft. \$1.00	\$7.50	4 to 5 ft. \$1.25	\$11.00

†**V. cassinoides.** *Withe-rod.* 12 ft. (M.) Slender, upright growing, well furnished with dull green, smooth foliage. It has creamy white flowers in June, followed by clusters of dark blue fruit in autumn. Fine for waterside planting or shrub borders, and makes a desirable tall, narrow hedge.

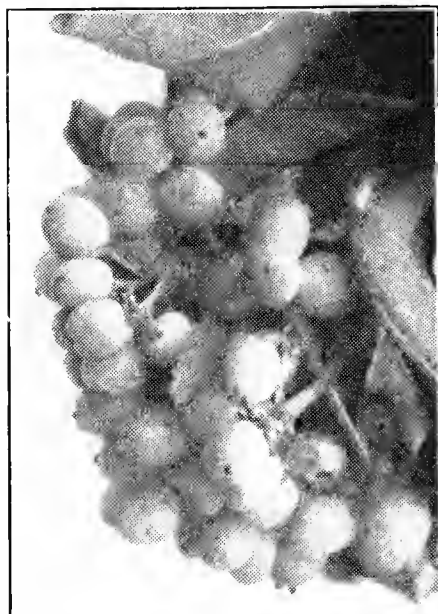

Each	10	Each	10
2 to 3 ft. \$0.65	\$5.50	5 to 6 ft., extra heavy \$2.50	\$22.50
3 to 4 ft.80	7.00	6 to 7 ft. 2.00	18.00
4 to 5 ft. 1.00	9.00	6 to 8 ft., extra heavy 3.50	33.00
5 to 6 ft. 1.50	12.50		

†**V. dentatum.** *Arrow-wood.* 12 ft. (L.) A very handsome, native shrub with glossy green foliage and white flowers in June, followed by crimson berries which turn blue in autumn. Like the other Viburnums, it will flourish in partial shade.

Each	10
3 to 4 ft. \$0.75	\$6.50
4 to 5 ft. 1.00	9.00
5 to 6 ft. 1.25	11.00
6 to 7 ft. 1.50	12.50
6 to 7 ft., extra heavy 3.00	27.00
8 to 10 ft., extra heavy .. 4.50	42.00

V. lantana. *Wayfaring Tree.* 15 ft. (L.) Of robust growth, having large foliage which is silvery underneath. It produces clusters of white flowers in May followed by red fruit, turning black in autumn. Especially good on dry, limestone soils.

Each	10
2 to 3 ft. \$0.65	\$ 5.50
3 to 4 ft.75	6.50

Viburnum cassinoides in fruit

†**V. lentago.** *Nannyberry.* 20 ft. (L.) A vigorous shrub which may become a small tree. It has creamy white, very fragrant flowers, light glossy green foliage, and bluish black fruit.

Each	10	Each	10
2 to 3 ft. \$0.75	\$ 6.50	6 to 8 ft. \$1.75	\$15.00
4 to 5 ft. 1.00	9.00	8 to 10 ft. 2.50	22.50
5 to 6 ft. 1.25	11.00		

V. molle. *Kentucky Viburnum.* 10 ft. (M.) While this is a native shrub, it is quite rare and is seldom seen. It resembles *V. dentatum*, but has broader, darker foliage, and larger fruits.

Each	10	Each	10
2 to 3 ft. \$0.65	\$5.50	4 to 5 ft. \$1.00	
3 to 4 ft.75	6.50	5 to 6 ft. 1.25	

†**V. opulus.** *European Cranberry Bush.* 10 ft. (L.) One of the best shrubs for general planting. It has white flowers in panicles and red berries, resembling cranberries, which remain until early winter. The foliage is large and seldom attacked by insects.

Each	10	Each	10
3 to 4 ft. \$0.80	\$7.00	4 to 5 ft. \$0.90	\$8.00

V. opulus sterile. *Common Snowball.* 10 ft. (L.) A large shrub, producing large, snowball-like flowers in late May and early June.

Each	10
2 to 3 ft. \$0.75	\$6.50

V. sieboldi. *Siebold Viburnum.* 12 ft. (M.) This vigorous growing plant has unusually large, rich green foliage, and white flowers in clusters. Berries pink, turning blue-black.

Each	10	Each	10
3 to 4 ft. \$0.80	\$7.00	4 to 5 ft. \$1.00	\$9.00

V. tomentosum. *Doublefile Viburnum.* 8 ft. (M.) A most beautiful Viburnum, with glossy green foliage and large, showy single white flowers borne profusely in two ranks along the entire length of the branches. The showy red berries turn bluish black in fall.

Each	10	Each	10
3 to 4 ft. \$0.80	\$7.00	4 to 5 ft. \$1.00	\$9.00

V. tomentosum plicatum. *Japanese Snowball.* 8 ft. (M.) Handsome leaves and globular heads of pure white flowers in June. Better than the Common Snowball in foliage and flower but a little later.

2 to 3 ft. Each \$0.75	3 to 4 ft. Each \$0.90
-----------------------------	-----------------------------

VITEX

Vitex negundo incisa. *Cutleaf Chastetree.* (See colored illustration on page 38.) 6 ft. Big, palmate leaves borne on slender stems. Branching spikes of attractive lavender-blue flowers in September when there are few shrubs in flower. This is a fine new addition to the limited list of autumn-blooming shrubs and is a welcome specimen plant.

Each	10	Each	10
2 to 3 ft. \$0.75	\$6.50	3 to 4 ft. \$0.90	\$8.00

WEIGELA

A decorative family of small shrubs bearing bell or trumpet-shaped flowers 1 to 1½ inches long. Very beautiful but somewhat tender; in our acid soils the use of lime seems to partially overcome this tenderness.

Weigela candida. *White Weigela.* 7 ft. A fine white variety with unusually large and attractive flowers in June. Very pretty for cutting.

Each	10	Each	10
2 to 3 ft. \$0.60	\$5.00	3 to 4 ft. \$0.70	\$6.00

W., Eva Rathke. 4 ft. Perhaps the most showy of all, with dark brownish red flowers, brightened by a light center. Flowers profusely nearly all summer.

Each	10
2 to 3 ft. \$0.60	\$5.00

W. floribunda. *Crimson Weigela.* 7 ft. Well known and attractive leafy shrub with an abundance of tubular crimson flowers in June.

2 to 3 ft. Each \$0.60; 10 \$5.00
--

W. rosea. *Pink Weigela.* 6 ft. A very free-flowering shrub somewhat similar to the preceding with larger, bright pink flowers.

2 to 3 ft. Each \$0.60; 10 \$5.00
--

ZANTHORHIZA

Zanthorhiza apiifolia. *Yellow Root.* 2 ft. (D.) Native shrub of low, slender growth, bearing cloudy sprays of plum colored flowers, like tiny black stars, in April. Valuable for its foliage and dwarf habit, and much used for ground cover. Very hardy and desirable. In autumn the foliage becomes a mass of gorgeous golden yellow.

Each	10	Each	10
12 to 15 in. .. \$0.40	\$3.00	15 to 18 in. .. \$0.50	\$4.00

Superior Roses with the BAY STATE Recommendation

GOLDEN DAWN EVERBLOOMING ROSE
Lovely in appearance. Sturdy, tall, not afraid of the toughest winter. The yellowest of all yellow Roses.

EDITOR McFARLAND EVERBLOOMING ROSE
Charming deep pink blooms, moderately fragrant, very hardy.

MEVROUW G. A. VAN ROSSEM
An importation from Holland, lovely rich orange with yellow and red shadings, and veinings that make it most pleasing.

Your Responsibility

Roses, like any living thing, tell a story of success if given care.

Fertile soil, sun and water, and cultivation reward you with healthy growth, abundant bloom.

Any **6** of These Everblooming Hybrid Tea Roses \$ **4.20**

Price: Dormant plants, \$1.50 each; \$12.50 for 10. Potted plants, \$1.75 each; \$15.00 for 10.

F. J. GROOTENDORST (Rugosa Rose)

An extra hardy shrub Rose that withstands the coldest climates. This free-flowering red rugosa will make an excellent protective hedge, that will live for a long time.

Price: 60c each; 5 for \$2.50.

ROSES — Every Variety a Standard of Quality

SOME of the finest rose gardens in the United States are in New England, proving for once and all that an abundance of beautiful roses may be had by anyone who is willing to give them a little space and reasonable care.

We have chosen the varieties carefully for beauty of bloom, health, and vigor of growth. The ground in which they are to be planted should be prepared as for a good crop of vegetables, although extra deep spading and fertilizing will be an advantage if especially fine specimen blooms are desired. During the first year little attention will be necessary beyond constant cultivation and protection from their enemies, but the second year and after, they should be fertilized regularly.

Hybrid Tea Roses

Many Varieties Bloom From June Until Frost

These are the everblooming roses which produce the beautiful, long-stemmed flowers everyone so much admires. They should be planted about 15 inches apart in rather narrow beds and in lots of not less than three, and preferably a half-dozen or more, of one kind.

Dormant plants for early spring. .60c each; \$5.00 per 10

Potted plants for late spring 75c each; \$6.50 per 10

We will furnish (in roses only) 10 assorted plants at the 10 rate.

Betty Uprichard. A vigorous and dependable rose of carmine and salmon. Good sized buds open to salmon suffused with orange on the inside, coppery carmine on the outside of petals. Makes a showy bloom worthy of being called an exhibition flower.

Catherine Kordes. A splendid and popular rose with long, pointed bud of glowing cerise opening to brilliant crimson-scarlet. Fairly double and of beautiful form, a healthy growing plant producing myriads of blooms.

Charles K. Douglas. A scarlet-crimson rose, producing many large, semi-double blooms of bright red. A heavy, bushy plant with good foliage and a color which never becomes tiresome.

Condesa de Sastago. Spectacular rose of fiery copper on the inside and yellow on the reverse. (Color illustration, page 40.)

Dame Edith Helen. An exhibition and cut flower rose, with large ovoid buds, opening to extremely double flowers of brilliant solid pink with a true rose fragrance. (Color illustration, page 40.)

Edith Nellie Perkins. Buds long and pointed, petals cream and blush and salmon-pink shaded to golden orange at base.

Editor McFarland. A clear unfading brilliant pink rose lasting longer than any that we know of. Very vigorous in its growth, and its abundant green foliage sets off the flowers to perfection. (Color illustration, page 40.)

Etoile de Hollande. A brilliant red rose of magnificent size, perfect in bud, with an incomparable velvety sheen when open. Free blooming and hardy, it is our choice as "All-America" in red garden roses.

Golden Dawn. Rich straw-yellow in bud, opening to a clear sunflower-yellow, making this rose incomparable in the yellows. Rarely out of bloom, almost free from disease, dense in foliage and a prize in any garden. (Color illustration, page 40.)

Glowing Carmine. Appropriately named as to color. A continuous, fragrant bloomer with double, carmine flowers representing splendid color and long-lasting qualities.

Grenoble. Clear, unfading, long-stemmed scarlet-red blooms make this rose admirable for cutting. Fully double, of large size, a majestic new rose, its tall, willowy plants giving many blooms. (Color illustration, page 41.)

Joanna Hill. Clear lemon-yellow, deep yellow center.

Kaiserin Auguste Viktoria. The standard white for 40 years. Pearly color, splendid in form, exquisitely perfumed, still number one in its class.

Margaret McGredy. Orange-vermilion, with golden sheen.

McGredy's Scarlet. Large flowers of brilliant rose-red with scarlet sheen.

For Best Results Plant Three or More of One Kind

Mevrouw G. A. Van Rossem. (Color illustration, page 41.) Lovely rich orange with yellow and copper shadings and veinings that make it most charming. Very beautiful.

Mme. Jules Bouche. Another remarkable white rose, distinctive because of its peach-pink tinged center. Erect stems carry many delicately formed blooms throughout the season.

Mrs. Charles Bell. A spot of radiant pink. Clear shell-pink blooms, but distinctive in color. A new rose but exceptional in its class.

Mrs. E. P. Thom. A strong, healthy yellow rose of better form than most yellows. Rich lemon flowers, very sweet scented and with dark green, heavy foliage. A front-liner by reason of its color.

Mrs. Pierre S. Dupont. A gold medal rose of golden yellow. Buds rather small but exquisitely formed, opening to the richest yellow known in roses.

Pink Dawn. Extra long buds of glistening rose-pink, excellent for cutting. Heavy bloomer.

President Herbert Hoover. Multi-colored. Buds borne on long, strong stems open to dark pink and rose, orange streaked with red, shadings of salmon and apricot. Its vigorous growing qualities bring it to the head of the list.

Radiance. The old reliable original pink rose. The best all around rose for beginners. Sparkling pink blooms on strong, vigorous plants bring perfect rose satisfaction.

Souvenir de Claudius Pernet. A bright unfading yellow rose with shining foliage and vigorous habit. The standard of yellows.

Talisman. Multi-colored. For all-round performance this multi-colored rose is the winner. A combination of orange, yellow, rose-red and scarlet, making the finest garden rose for cutting.

Ville de Paris. A buttercup-yellow rose of unfailing popularity, pointed in bud and fairly large in bloom. Long stemmed and willowy, it is fairly profuse in blossoms.

Wilhelm Kordes. Very showy, salmon and flaming orange shades mingle in the lovely, firm, curled petals. Best in cooler weather but very variable, and lovely at all times.

Guaranteed-to-Bloom Collection
6 HYBRID TEA ROSES
 Guaranteed to Bloom This Summer
 One each of six varieties — 6 different colors — or any six Hybrid Tea Roses from our list, for **\$4.20**
 12 for \$7.80
 Carefully potted—ready to transplant

Polyantha Roses

Excellent for Center Entrance Planting, Lovely for Shrubbery, Paths, Borders and Edgings, Beds, etc.

The name means "many-flowered." They bear small flowers in big clusters steadily throughout the summer, and make dwarf, bushy plants suitable for edging beds of Hybrid Perpetuals, paths, fountains, pools, or shrubbery borders. Undoubtedly the most continuous blooming type of roses.

Habit of Growth of Polyantha Rose

Potted Plants, 75c each; \$6.50 per 10.

Chatillon. Brilliant pink, semi-double flowers in giant clusters very freely produced. This variety has a liveliness of color and a persistency in blooming unsurpassed by any sort.

Else Poulsen. Full flowers of bright rose-pink, clustered on plants not more than 18 inches high. Suitable for a hedge.

Ideal. The best dark red Polyantha. The flowers are freely produced in large clusters. Ideal for bed or border.

Triomphe Orleanais. Finest of the rich, cherry-red Polyanthas. Holds color well, admirable for a continuous-blooming, two-foot hedge.

Hybrid Perpetual Roses

Massive June-Blooming Varieties

These Roses are bigger, stronger, and harder than the Hybrid Teas. They are essentially cold country Roses, and delight in cool weather in spring and summer. Their magnificent blooms are produced in early summer and again in late fall, surpassing all other Roses in brilliance of color and in fragrance.

60c each; \$5.00 per 10.

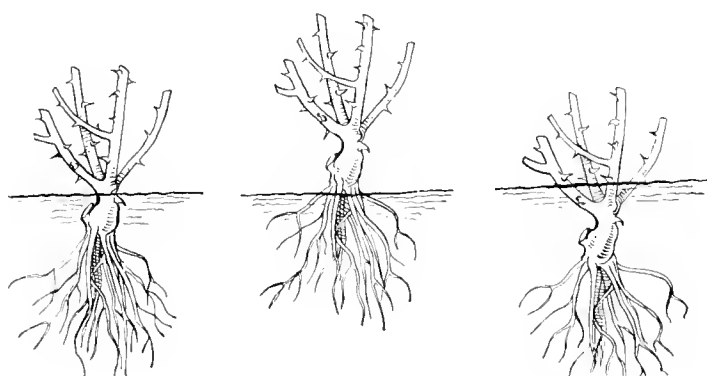

Frau Karl Druschki. The most famous white rose in existence. Buds are pinkish, but the delightfully shaped flowers are pure, snowy white. Continuous bloom and beauty make its lack of fragrance unnoticeable.

Habit of Growth

Mrs. John Laing. Symmetrical, smooth flowers of soft, glowing pink, deliciously sweet. It blooms very dependably from early summer until late fall and is always one of the loveliest things in the garden.

HOW TO PLANT ROSES

Correct planting depth. Planted too shallow. Planted too deep.

Polyantha Rose, Else Poulsen

Climbing Rose Creations

Rambler Type

Perhaps there is no one group of plants that is so useful and so beautiful in so many different ways as the Climbing Roses. They are suitable for all uses to which most climbers may be put, and surpass almost all of them in the massed splendor of their flowers. They are delightful when trained over a stone wall or grouped to form a hedge-fence, when trained upon a rustic arbor, over a pergola, at the corners of a porch, or over a trellis about the windows of the house. They may adorn garden arches, gateways, fence-corners, or they may be tied to slim posts or pillars where they will make splendid spires of beauty throughout the garden. The range of color is almost limitless, and the flowers vary from tiny clustered rosettes to big blooms for cutting, borne on fine long stems.

PRICES OF CLIMBING ROSES, EXCEPT AS NOTED:
 Dormant Plants for Early Spring . . . \$0.60 each; \$5.00 per 10
 Potted Plants for Late Spring75 each; 6.50 per 10

Climbing Type

American Pillar. A very lusty climber with bold, waxy foliage, bearing tremendous clusters of large, sparkling pink, single flowers with a round white eye and bright golden stamens.

Climbing American Beauty. A moderate growing pillar Rose which blooms very early, producing very large flowers of delightful shape and a rare shade of light rosy crimson unlike any other.

Dorothy Perkins. Immense clusters of tiny, exquisitely formed little roses of rich shell-pink in varying shades of softness and intensity. One of the very best climbers in vigor and abundance of blooms.

Doubloons. (Plant Patent No. 152.) Undoubtedly the best yellow climber as yet introduced. It has long, heavy canes of glossy, lustrous foliage and produces, over a long season, large clusters of cup-formed, crocus-yellow blossoms. (Illustrated in color on page 41.)

	Each	10
Dormant plants	\$1.50	\$12.50
Potted plants	1.75	15.00

Dr. W. Van Fleet. A vigorous, shining-leaved climber which produces beautiful roses of the Hybrid Tea type on long stems suitable for cutting. It blooms with the greatest profusion rather late in the season. The flowers are of the palest possible shade of pink, with a slightly darker center.

Excelsa. Similar to Dorothy Perkins in all respects except that the flowers are bright, light crimson.

Gardenia. A strong climber with beautiful foliage and rich yellow buds opening to creamy white flowers with soft yellow centers. One of the hardiest of the yellow climbers.

Jacotte. Large, semi-double flowers of coppery yellow, tinted a coppery red. The foliage is especially handsome and resistant to disease.

Mary Wallace. Another large-flowered climber of the type of Dr. W. Van Fleet, except that the blooms are brilliant pink with a yellow undertone and are borne in big clusters. It is a very fine variety, extremely popular for arches and pergolas.

Paul's Scarlet Climber. Brilliant scarlet flowers of large size on a moderate growing plant suitable for tying to a post or pillar. One of the showiest of Climbing Roses.

Silver Moon. A very strong climber with beautiful waxy green foliage and very large, pure white, semi-double flowers with golden centers.

Spanish Beauty. *Mme. Gregoire Staechelin.* A vigorous grower with long crimson buds, opening to large, fragrant pale pink flowers.

HYBRID RUGOSA AND OTHER ROSES

Large, strong growing shrubs with handsome foliage and an abundance of flowers produced more or less frequently throughout the season. They are excellent for border plantings, hedges, naturalizing and rough ground, and many of them are especially adapted for planting along the ocean. In fact, handsome specimens have been grown in the pure sand of the Cape Cod dunes.

PRICES OF MISCELLANEOUS BUSH ROSES:

Dormant plants: 60c each; \$5.00 per 10, except as noted.

Agnes. Fragrant; double, yellow, amber center.

F. J. Grootendorst. 6 ft. A perfectly hardy everblooming shrub rose suitable for hedges, specimens or border planting. The plant is similar to the vigorous Rugosa Rose in growth, with large, glossy foliage which is seldom attacked by insects or disease. The flowers are small, fringed like little carnations, and are borne unceasingly from early summer until late autumn. (Color illustration, page 41.)

Grootendorst Supreme. An improved Grootendorst with darker red blossoms and a bushier habit of growth. 75c each; \$7.00 per 10.

Harrison's Yellow. 6 ft. A big, bushy Briar Rose, common in old-time gardens, where it blooms in great billows of bright yellow very early in the season. Undoubtedly the finest hardy yellow rose there is, and it should be freely planted for specimens, borders, and hedges.

Pink Grootendorst. 6 ft. A charming, bright shell-pink variation of the scarlet F. J. Grootendorst, like it in all other respects and equally valuable. We find it very popular with those who do not care for the hard brilliance of the red variety.

See page 34 for rose species.

Jacotte

The newer Climbers are distinctly different — flowers are much larger

RHODODENDRONS

The Showiest and Most Beautiful of Evergreen Shrubs

Beyond doubt, the showiest and most beautiful evergreen shrubs, with large, permanent, glossy green leaves and lovely flowers in early summer. They should have partial shade, although they do well in full sunlight, and a north exposure is especially adapted to them. It will pay well to go to some trouble to prepare beds for them as they demand an acid soil entirely free of lime or fresh manure. Groups of Rhododendrons planted in foundation plantings, borders, or under trees give untold returns in the all-year beauty of their foliage and their lovely flowers in early summer.

All Rhododendrons are balled and burlapped (B&B) without additional charge.

Rhododendron carolinianum. *Carolina Rhododendron.* 6 ft. One of the very finest broad-leaved evergreens, perfectly hardy in Massachusetts, even in the intensely cold winter of 1933 and 1934. It has handsome dark green leaves, blossoming in mid-May nearly three weeks ahead of other varieties, thus extending the season considerably. The densely-clustered flowers, varying from pale to deep pink, although smaller in size than those of some Rhododendrons, make up in profusion of bloom what they lack in size.

Each	10	Each	10
15 to 18 in. . .	\$2.75 \$25.00	2 to 2½ ft. . .	\$4.25 \$40.00
18 to 24 in. . .	3.25 30.00	2½ to 3 ft. . .	5.50 50.00

R. carolinianum album. *White Carolina Rhododendron.* 6 ft. A delicately chaste white-flowering form of the Carolina Rhododendron. Very charming in itself and especially delightful when used to relieve the pink masses of other Rhododendrons in bloom at the same time.

Each	10	Each	10
18 to 24 in. . .	\$3.25 \$30.00	4 to 5 ft.	\$8.00 \$75.00
2 to 2½ ft. . . .	4.00 37.50	5 to 6 ft.	11.00 100.00
3 to 4 ft.	6.00 55.00		

R. catawbiense. *Catawba Rhododendron.* 6 ft. This is the parent of most of our best hybrids, and is distinctly valuable. The flowers, borne profusely in very large, round trusses, come in various shades of dark, rosy lilac, the early part of June. It thrives best in partial shade and is very hardy.

Each	10	Each	10
12 to 15 in. . .	\$1.80 \$16.00	2 to 2½ ft. . . .	\$4.50 \$40.00
15 to 18 in. . .	2.20 19.00	2½ to 3 ft. . . .	5.50 50.00
18 to 24 in. . .	3.50 32.50	3 to 3½ ft. . . .	7.50 70.00

R. maximum. *Rosebay Rhododendron.* 10 ft. This is the handsome Great Laurel or Rosebay of the Appalachian Mountains. Flowers white to blush pink, produced in late June and July. Foliage very smooth and glossy, and twice as large as that of any other sort. Handsome for big, bold masses, creating a landscape effect of dignity and elegance.

Each	10	Each	10
18 to 24 in. . .	\$2.25 \$20.00	3 to 3½ ft. . . .	\$5.00 \$45.00
2 to 2½ ft. . . .	3.00 27.50	3½ to 4 ft. . . .	6.50 60.00
2½ to 3 ft. . . .	4.00 37.50	4 to 4½ ft. . . .	8.00 70.00

For extra heavy specimen clumps we will quote on request.

R. minus. *Piedmont Rhododendron.* 8 ft. Another native of the southern mountains. Of loose, open habit with handsome foliage and charming rosy pink flowers spotted yellow-green within, blooming in mid-June.

Each	10	Each	10
2 to 2½ ft. . . .	\$2.40 \$22.50	2½ to 3 ft. . . .	\$3.00 \$27.50

R. Wilsoni. *Wilson Rhododendron.* 4 ft. spread. An Alpine Rhododendron of low rounding habit of growth, glossy leaves, and small, deep rose flowers in late June and early July. Especially good in front of other Rhododendrons or with other broad-leaved evergreens.

Each	10	Each	10
15 to 18 in. . .	\$3.00 \$27.50	2 to 2½ ft. . . .	\$5.00 \$45.00
18 to 24 in. . .	4.00 37.50		

SEED-GROWN HYBRID RHODODENDRONS

We can supply Hybrid Rhododendrons, as mixed seedlings raised from the finest named varieties. The colors range from delicate pale pink to medium and deep pink; pale, medium and deep lavender to purple; a fair percentage of rosy reds, a small proportion of all medium and dark reds. They are the most showy and beautiful of all Rhododendrons with glossy, green foliage. The individual flowers are 1 to 3 inches in diameter, the clusters from 4 to 8 inches across. Inasmuch as these stocky plants are on their own roots, they are hardier and longer-lived than grafted stock—but we cannot guarantee the individual colors.

Each	10	Each	10
15 to 18 in. . .	\$2.25 \$20.00	2 to 2½ ft. . . .	\$3.75 \$35.00
18 to 24 in. . .	3.00 27.50	2½ to 3 ft. . . .	4.75 45.00
		3 to 3½ ft. . . .	7.00 65.00

VINCA - Myrtle

Vinca minor. *Common Periwinkle.* 8 in. A handsome evergreen ground cover with showy bright blue flowers borne freely in early spring and at intervals throughout the summer and autumn. It is perfectly hardy and does splendidly under trees or where it makes a dense mat.

Each	10	100	1000
Pot-grown and field-grown	\$0.25	\$2.00	\$15.00 \$130.00

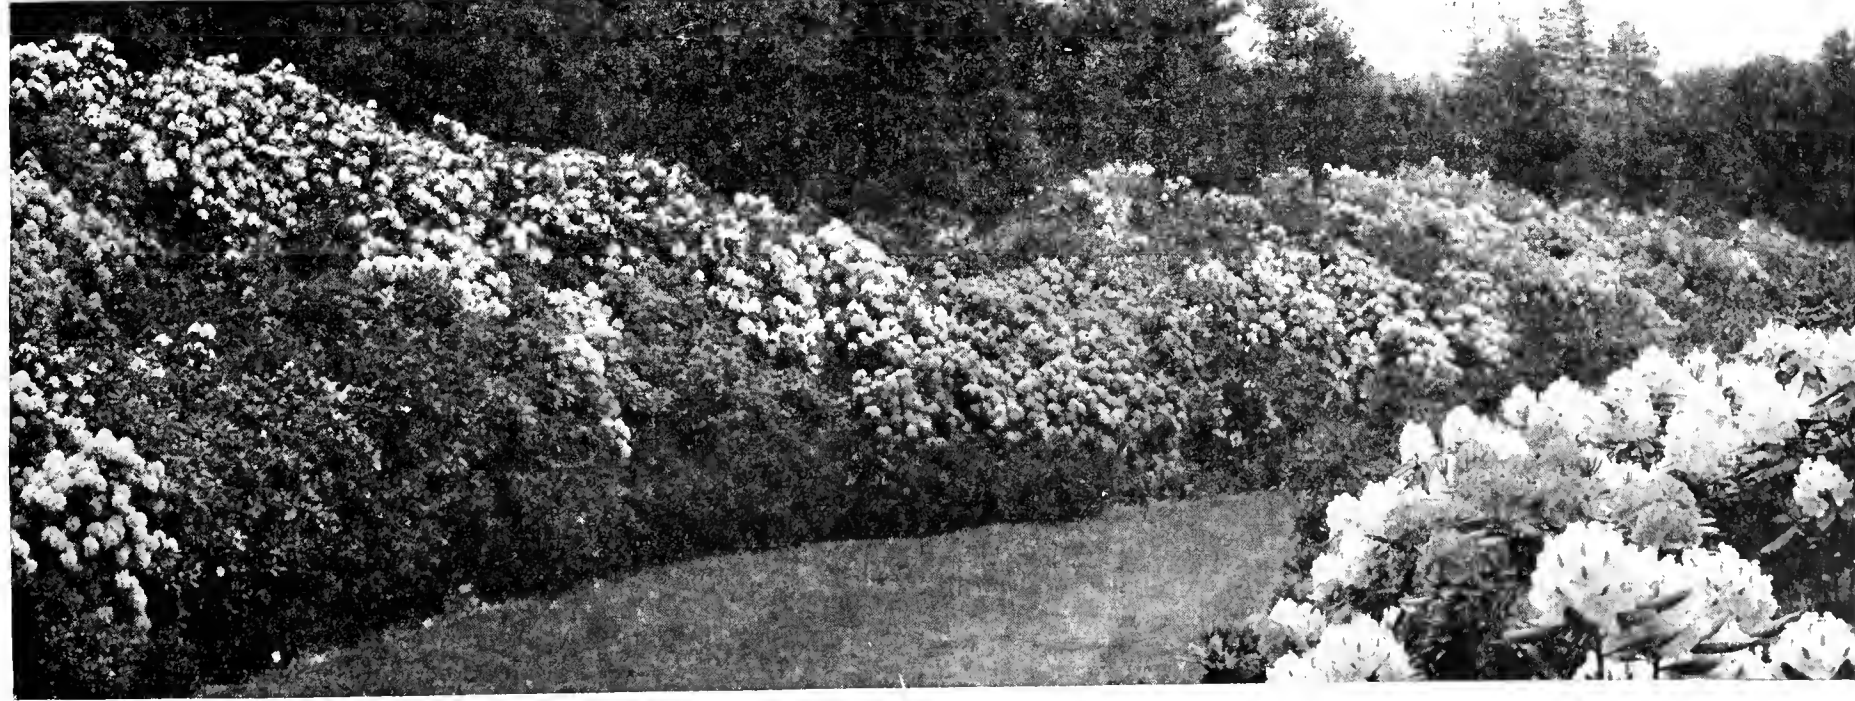

V. minor alba. *White Periwinkle.* The white-flowering form of preceding, which has not been plentiful in recent years. We have propagated a wonderful stock of this grand variety which is most effective when planted in combination with the blue forms.

Each	10	100	1000
Pot-grown	\$0.40	\$3.50	\$25.00 \$225.00

V. minor, Bowles' Variety. An excellent variety of recent introduction with broad, somewhat crinkly, glossy green leaves. Flowers large, of a deep, rich blue color, borne in remarkable profusion. An unsurpassed ground cover.

Each	10	100
Pot-grown	\$0.40	\$3.50 \$25.00

25 will be furnished at 100 rate; 250 at 1000 rate.

Rhododendrons in Masses are an Inspiring Sight

Evergreen Shrubs

BOXWOOD—HOLLY— RHODODENDRONS, ETC.

The evergreen shrubs contribute greatly to the gardens of the eastern United States because there are a multitude of varieties for almost every conceivable purpose from edgings and ground covers to the mass effects such as the Mountain Laurels and the great tree-like Rhododendron maximum provide.

These shrubs are especially handsome grouped in the thin shade of deciduous trees or at the edges of woods and thickets. They make splendid borders along the foundations of houses, especially valuable on the north side and in shady places where the coniferous evergreens are less likely to succeed.

Many of them combine beautifully in plantings with evergreens. The different textures of their foliage make a delightful contrast and combine to give a pleasing effect.

In addition to having their year 'round foliage, many of the varieties are valuable because of their flowers.

CALLUNA - Heather

Handsome small shrubs of easy culture, well adapted to borders of evergreen shrubberies and for dry slopes and sandy banks; also growing well in ordinary soils. The varieties listed here are hardy and bloom continuously from July to September.

Calluna vulgaris alporti. *Alport Heather.* 15 in. A vigorous grower with flowers of rosy carmine.

	Each	10
6 in.	\$0.65	\$6.00

C. vulgaris hammondi. *Hammond's Heather.* 15 in. A fine type of pink-flowering Heather of desirable vigorous habit and proportion of bloom.

	Each	10
4 to 6 in.	\$0.65	\$6.00

C. vulgaris nana. *Moss Heather.* 15 in. Most attractive for its dark green mossy foliage, forming a small tuft or compact clump. Flowers are small and while not showy, form a dainty appearance.

	Each	10
4 in.	\$0.65	\$6.00

CHAMAEDAPHNE

Chamaedaphne calyculata. *Leatherleaf.* 2½ ft. Graceful, arching shrub for rocky or edge of shrub border. Heavy, evergreen leaves and slender, leafy racemes of drooping, wax-white flowers. Enjoys rich soil and plenty of moisture.

	Each	10
18 to 24 in. B&B	\$2.00	\$17.50

DAPHNE

Daphne cneorum. *The Sweet-Scented Rose Daphne.* (See color illustration on page 2.) 18 in. A dwarf evergreen shrub with dark blue-green foliage; each shoot tipped with delightfully fragrant pink flowers in May and June, and on and off the rest of the summer. It is an ideal rock plant, succeeding best in full sunlight in a well-drained soil.

	Each	10
9 to 12 in. B&B	\$1.00	\$ 9.00
12 to 15 in. B&B	1.50	12.50
15 to 18 in. B&B	2.00	17.50

EUONYMUS - Wintercreeper

The Euonymus family includes several distinctly handsome evergreen shrubs and vines as well as the showy deciduous shrubs which are listed elsewhere. They are of great value in gardens since the shrubby types make excellent specimens or dwarf evergreen hedges, while the vines have intrinsic merit for covering walls, tree trunks, or banks with a cloak of shining green throughout the summer and winter. They are extraordinarily easy to grow because they are satisfied with any soil in sun or shade.

Euonymus radicans. *Wintercreeper.* A low, procumbent shrub, having small leaves, dull green above, with whitish veins. It will climb over a wall or cling closely to masonry or stucco.

	Each	10		Each	10
2-year	\$0.50	\$4.50	3-year	\$0.60	\$5.00

E. radicans carrieri. *Glossy Wintercreeper.* Stronger grower than *E. radicans*, with larger and more glossy, pointed green leaves. It is half bush and half vine in its habit of growth, and if given support, makes a very fine covering for a building or a wall. If occasionally sheared into shape it forms an attractive little hardy evergreen hedge.

	Each	10		Each	10
2-year	\$0.50	\$ 4.50	18x18 in. B&B	\$2.25	\$20.00
15x15 in. B&B	1.65	15.00			

E. radicans coloratus. *Bronze Wintercreeper.* A viny, spreading variety with bright red foliage during winter. Good as a ground cover, making a most handsome color effect in the winter landscape.

	Each	10		Each	10
3-year	\$0.40	\$3.50	5-year	\$0.60	\$5.00
4-year50	4.50	6-year75	6.50

E. radicans variegatus. *Variegated Wintercreeper.* Similar to *E. radicans* with leaves mottled silvery white, often becoming pinkish in the fall.

	Each	10
2-year	\$0.50	\$4.50

E. radicans vegetus. *Big Leaf Wintercreeper.* A trailing or climbing evergreen shrub with round, glossy, green leaves. Produces an abundance of orange-scarlet berries in the fall. Splendid for use as a ground cover, or may be trimmed into bush form. This is the best fruiting form of Euonymus.

	Each	10		Each	10
2-year	\$0.50	\$4.50	4-year	\$0.75	\$6.50
3-year60	5.50	5-year90	7.50

HEDERA - Ivy

Hedera helix. *English Ivy.* Glossy, dark green foliage, making a vigorous climber or excellent ground cover in shade. Somewhat tender here.

	Each	10
2½-inch pots, 18-in. tops	\$0.50	\$4.50
3-inch pots60	5.00

H. helix baltica. *Hardy English Ivy.* Leaves a little smaller, darker, and richer than above. Much hardier, and may be used as a ground cover even in sun. Far superior to the ordinary English Ivy in our New England climate.

	Each	10	100
2¼-inch pots	\$0.50	\$4.50	\$35.00
3½-inch pots60	5.50	45.00

Kalmia latifolia—Mountain Laurel

ILEX - Holly

Ilex crenata convexa. Box Leaf Japanese Holly. 6 ft. A spreading shrub with an abundance of glossy leaves one-half inch in length which make it very attractive. It fairly glistens in the sunlight and brightens up a planting that might otherwise appear too sombre. Has been very satisfactory with us and we suggest your planting some—you'll not be disappointed. Each 10

18 to 24 in. spread B&B	\$3.00	\$27.50
I. glabra. Inkberry. 4 ft. A dense, upright shrub with dark, glossy foliage; small white flowers and a profusion of shiny black fruit in the fall; one of the best and hardiest of native evergreens growing successfully in sun or shade. Specimens are frequently used in New England in place of Boxwood. It is appreciated more each year as its merits regarding its good foliage, its hardiness, and its adaptability to sun or shade become known. Each 10		
15 to 18 in. clumps B&B	\$2.50	\$22.50
18 to 24 in. clumps B&B	3.00	27.50

4½ to 5 ft., B&B	10.00	95.00

LEUCOTHOE

Leucothoe catesbaei. Drooping Leucothoe. 4 ft. A low, spreading evergreen shrub with arching branches, useful in front of other evergreens, in shade. The leaves are heavy, shining green in summer, and assume a beautiful bronzy red tint during the fall and winter. The showy, fragrant, white flowers are borne in clusters hanging from the base of each leaf. Each 10

12 to 15 in., B&B	\$1.50	\$13.50
15 to 18 in., B&B	2.00	17.50
18 to 24 in., B&B	2.50	22.50

Pachysandra terminalis

PACHISTIMA

Pachistima canbyi. Canby Pachistima. 8 in. A dwarf, trailing evergreen shrub of fine texture, suitable for edging or in the rock garden, remaining a dark, glossy green even in full sun. It is a hardy and attractive low, matlike plant, better than Pachysandra in sunny locations. Wonderful border in front of evergreen plantings. Each 10 100

3 to 4 in., field-grown	\$0.50	\$4.50	\$36.00
-------------------------------	--------	--------	---------

PACHYSANDRA

Pachysandra terminalis. Japanese Pachysandra. 8 in. Low growing evergreen plant with short spikes of white flowers in May and June. A splendid evergreen ground cover, with attractive dark green leaves which make a rich mat of foliage in shady places where grass will not grow. A good border for beds of evergreens. 10 100 1000

3-inch pots	\$2.00	\$16.00	\$140.00
-------------------	--------	---------	----------

250 or more will be supplied at 1000 rate.

PIERIS - Andromeda

Like the Rhododendrons and Laurels, the Andromedas are sour-soil plants and thrive in partial shade. They provide charming color variations in their glossy foliage and ruddy winter buds and are very graceful when in flower.

Pieris floribunda. Mountain Andromeda. 4 ft. White flowers like the Lily-of-the-Valley, in large, drooping clusters open in late April and bloom for 4 to 5 weeks in mid-spring. The buds are produced in the fall and through the winter months, giving the appearance of being in flower. The plant makes a dwarf, round and compact shrub, excellent in the foundation planting. Each 10

12 to 15 in. spread, B&B	\$1.80	\$16.00

3 years	\$0.40	\$3.00
5 years	\$0.70	\$6.00
4 years50	4.00
6 years90	8.00

Vines are an important class of plants, as they contribute a lasting appeal in the positions to which they may be assigned. As climbers, they cling and cover blank wall space of brick, stucco or stone, while others grow over architectural features such as trellises, arches or pergolas, providing delightful backgrounds of color or casting welcome shade. Some will trail over rocks, or rough slopes, softening the harsher outlines. Those types which will cling to walls are marked with the letter (C); those types which require some support to twine about or grow onto, are marked with the letter (T); while some which are used mainly for trailing over rocks or banks are marked (R).

CELASTRUS

Celastrus orbiculatus. *Oriental Bittersweet.* 15 ft. (TR.) Ordinarily this plant a tall and vigorous climber. It has bright green leaves will make a tall and vigorous climber. It has bright green leaves and crimson fruit which is handsome in fall and winter.

	Each	10		Each	10
3 years	\$0.50	\$4.50	5 years	\$0.75	\$6.50
4 years60	5.00			

C. scandens. *American Bittersweet.* 15 ft. (TR.) A native climber, with glossy leaves which turn bright yellow in autumn, and big, showy clusters of orange and crimson fruit.

	Each	10		Each	10
3 years	\$0.60	\$5.00	4 years	\$0.75	\$6.50

HEDERA

Hedera helix. *English Ivy.* See Evergreen Shrubs.

HYDRANGEA

Hydrangea petiolaris. *Climbing Hydrangea.* 50 ft. (C.) June, July. A very beautiful, rather rare variety of Climbing Hydrangea, with overlapping, mosaic-like leaves and round, flat clusters of white flowers. Will cling to brick or masonry. Very hardy.

	Each	10
3-inch pots	\$1.00	\$9.00

LONICERA

Lonicera japonica halliana. *Hall Japanese Honeysuckle.* 25 ft. (TR.)

A vigorous grower with fragrant yellow and white flowers from midsummer until frost. This makes a good ground cover, in sun or shade and is an excellent plant to prevent erosion of rough slopes.

Climbing Hydrangea (Hydrangea petiolaris)

Vines are the Final Touch That Blends Architecture Into the Landscape

Climb and Trail

CLEMATIS

Clematis montana rubens. 15 ft. May, June. Dark rich foliage with rosy red flowers expanding to a clear deep pink, 1 to 2 inches across. Remove dead wood only. Each 10
2 years, from 6-inch pots\$1.25 \$11.00

C. paniculata. *Sweet Autumn Clematis.* 20 ft. (T.) By far the showiest of the fall-blooming species. It thrives best in sunny situations, making a luxuriant grower with lustrous foliage. The flowers are medium sized, pure white, borne, in late summer and autumn, in feathery masses, with a rich vanilla-like fragrance.

Each 10
2 years\$0.50 \$4.00 3 years\$0.60 \$5.00

C. virginiana. *Virgin's Bower.* 20 ft. (T.) This rampant native variety produces clouds of white flowers in August, followed by feathery seeds which are decorative in winter. Each 10
3 years\$0.60 \$5.00

LARGE-FLOWERING HYBRID CLEMATIS

(T.) These magnificent hybrid varieties offer a new and novel group of vines to the enthusiastic gardener. Not only are their flowers (3 to 8 inches across) striking in size and color range, but they have a sturdiness of growth and delicacy of form which makes them objects of rare and unusual beauty. Trellises, pergolas, arches, wire supports, fences, or old stumps make desirable supports of these extraordinary flowers. Their cultural requirements are simple, as they thrive best in a rather light, but rich and well drained garden soil to which some lime and bone meal have been added. A partially shaded location is ideal, although they succeed in full sun if the lower stems are shaded by perennials to keep the Clematis roots cool and moist. *Do not give them manure.*

Henryi. 8 ft. Huge creamy white flowers often 8 inches across, in July and August. Each 10
2 years, from 6-inch pots\$1.25 \$11.00

Jackmani. 10 ft. Large, velvety, violet-purple flowers borne profusely throughout the summer. Each 10
2 years, from 6-inch pots\$1.25 \$11.00

Mme. Edouard Andre. 7 ft. A profuse bloomer during mid-summer with rich purplish red flowers of extraordinary texture. Each 10
2 years, from 6-inch pots\$1.25 \$11.00

Ramona. 8 ft. Lavender-blue accentuated by a darker disk of central anthers. Blooms abundantly during the summer months. Each 10
2 years, from 6-inch pots\$1.25 \$11.00

Polygonum auberti

Wisteria sinensis

POLYGONUM

Polygonum auberti. *Chinese Fleece Vine.* 50 ft. (T.) A tall growing, hardy vine with bronzy young leaves which turn green. The tiny white flowers are borne abundantly in feathery sprays from August to October. Makes tremendous growth in one season; the best hardy vine for immediate effects.

Each 10
4-inch pots ...\$0.75 \$6.00 6-inch pots ...\$1.00 \$8.50

SCHIZOPHRAGMA

Schizophragma hydrangeoides. *Japanese Hydrangea-Vine.* (C.) 30 ft. Bright green foliage and loose clusters of fragrant white flowers.

Each 10
3-inch pots\$1.00 \$9.00

VITIS

Vitis aestivalis. *Summer Grape.* 30 ft. (TR.) A tall climber with large foliage and small, black, tough-skinned grapes. Each 10

Each 10 4 years\$0.70 \$6.00
3 years\$0.60 \$5.00 5 years80 7.00

V. berlandieri. *Winter Grape.* 30 ft. (TR.) Large green leaves on a rugged vine, excellent for covering exposed slopes. Large clusters of small purple grapes in fall. Each 10

4 years\$0.60 \$5.00

V. cordifolia. *Frost Grape.* 50 ft. (TR.) A very vigorous wild grape, attaining majestic size with age and providing abundance of foliage for shade. Black fruit, very good after it has been frosted.

Each 10
3 years\$0.60 \$5.00

WISTERIA

Wisteria sinensis. *Purple Chinese Wisteria.* 30 ft. (T.) Hardy, tall growing climber, with long clusters of purplish pea-shaped flowers in May. Best planted over a trellis or pergola so that the flowers can droop down.

Each 10

3-year, grafted vines\$2.00 \$18.00

Its Real Economy to Buy Five or More Plants of One Kind at the Ten Rate

Hardy Garden Perennials

No experienced flower-lover needs be told about the importance of Hardy Perennials in successful gardens. Beginners should understand that these plants are long-lived, permanent plants, growing larger and finer from year to year, and if the soil is well and deeply prepared for them at the start, they need not be reset for several seasons. They comprise most of the showiest and the strongest-growing flowers, forming the foundation of any garden.

Perennials in Variety and Color

They exist in infinite variety, ranging in size from the tiniest edging material to tall, robust plants suitable for massing as a background, and in color through all the shades of the rainbow and a lot more.

A Garden of Lovely Flowers

A garden wholly of perennials is possible, and it is a delightful game to plan its arrangement so that one variety may succeed another in bloom, and provide a season-long procession of different flowers, in ever-varying forms and colors.

Plant in Clumps or Masses for Best Effects

For best effect, it is essential to plant in clumps, masses, or drifts of one kind. Such masses should be large enough to do justice to the flowers. The bigger the plants grow, naturally, the fewer are required to make a proper display. Generally, however, at least five or six are required, even of the largest kinds, and the smaller sorts should be planted by the dozen or even hundred.

PRICES

Unless otherwise indicated, the price of Hardy Perennials is 30c each; \$3.00 per dozen. Six or more plants of one kind will be sold at the dozen rate. Twelve plants of different kinds, such as 12 different varieties of Asters, will not be sold at the dozen rate. The lower rate applies only when SIX or MORE plants of ONE VARIETY are ordered.

PRICES

ACHILLEA - Yarrow

The Achilleas are a large family and provide many useful garden plants. They vary immensely from flat, matlike forms to tall, bold plants. As they delight in dry, sunny locations, they are useful in many difficult places in the garden or border. Most of them have pungent, aromatic foliage.

Achillea filipendula, Parker's Variety. 2 ft. An improved variety with finely cut foliage and brilliant yellow flowers in large, flat heads the size of a silver dollar. Effective in the garden and even better as a cut flower. Will remain in a compact clump. 35c each; \$3.50 per doz.

A. millefolium rosea. Pink Yarrow. 18 in. June to October. Rosy pink flowers in dense heads. Effective on edge of shrubbery or in border.

A. ptarmica, Pearl. 2 ft. July to October. Small heads of pure white flowers borne in great profusion on strong wiry stems. It is of great value for mixing with other cut flowers.

***A. tomentosa.** Woolly Yarrow. 5 to 6 in. July to September. Dense mats of finely cut foliage bearing short heads of bright yellow flowers. Excellent for edging and rockeries.

ACONITUM - Monkshood

Aconites provide the rare and highly prized blue color late in the season, when there is a predominance of yellow and red, and make an excellent substitute for delphiniums which are past flowering when the Aconites begin. Then too, they seem to be indifferent, more or less, to location, thriving well in the shade. Contrasted with Helianthus and Rudbeckias, or the white *Chrysanthemum maximum* and *Anemone japonica*, they are especially pleasing. They require several seasons to get their best form and should, therefore, be disturbed as infrequently as possible.

Aconitum autumnale. Autumn Monkshood. 4 to 5 ft. September to frost. Large spikes of dark blue, curiously hooded flowers. Especially good for shady places. 40c each; \$4.00 per doz.

A. fischeri. Azure Monkshood. 18 to 24 in. September and October. Short spikes of large, clear blue flowers and bright, glossy foliage. One of the finest for late flowers. Good in sun, but succeeds well in shady spots. 40c each; \$4.00 per doz.

A. fischeri wilsoni. Violet Monkshood. 5 to 6 ft. September. Of strong, stately habit, with light violet-blue flowers. This is an extremely rare and lovely variety, producing a profuse display of handsome light blue at the time this color is rarest and most appreciated in the garden. 40c each; \$4.00 per doz.

A. napellus. Aconite. 3 to 4 ft. July and August. Long spikes of large, dark blue flowers. One of the oldest and best liked varieties. 40c each; \$4.00 per doz.

A. napellus bicolor. 3 ft. July and August. Blue and white flowers on upright, single spikes. 50c each; \$5.00 per doz.

A. napellus, Sparks'. Sparks' Aconite. 3 ft. July and August. Very dark blue hooded flowers. One of the finest Aconites because of its free-blooming qualities, making a fine display for a long time. 40c each; \$4.00 per doz.

ACORUS

Acorus calamus. Sweet Flag. 2 ft. June and July. A bog or water plant with slender, sword-like leaves and greenish flowers. 25c each; \$2.50 per doz.

Bay State Superior Perennial Plants

We have grown perennials successfully for a number of years, and our acreage has been extended from year to year to supply the increasing demand for them.

Large Collection of Best Varieties

We add new and choice sorts every year, and our stock includes an unusually large variety. In our descriptions we have indicated the height each plant attains and the months when the flowers appear.

A Succession of Bloom All Season

By consulting the following list, one can plan a garden or border which will produce a succession of bloom from early spring until late in the autumn. Almost all our plants are strong, field-grown sorts, except a few species which transplant better if they are grown in pots.

Rock Garden Varieties

Those marked with (*) are particularly adapted to the rock garden.

ACTAEA - Baneberry

Actaea alba. White Baneberry. 2 ft. May and June. An erect plant with showy spikes of white flowers and china-white berries on red stems. Very decorative. Best in shady places.

A. rubra. Red Baneberry. 2 ft. May and June. Similar to White Baneberry, but the flowers are followed by handsome clusters of red berries.

AJUGA - Bugle

Dwarf, creeping perennials, with rich, showy leaves. Excellent plants for edging or carpeting bare spots in sun or shade.

***Ajuga genevensis.** Geneva Bugle. 6 to 8 in. May. Showy spikes of bright blue flowers rising from the mats of bright green foliage. They will sparkle in your spring rock garden.

***A. genevensis rosea.** 6 to 8 in. May. Dense spikes of rosy pink flowers, borne profusely.

***A. metallica crispa.** Curly Bugle. 5 in. May, June. Curled, metallic, glossy blue flowers in dense, upright spikes. 35c each; \$3.50 per doz.

***A. reptans alba.** White Carpet Bugle. 4 in. May, June. Clear white spikes of flowers standing in upright formation above the mats of glossy green foliage. A more rapid grower that will cover considerable area the first year after planting.

***A. reptans rubra.** Purple-leaved Bugle. 3 to 4 in. Early May to mid-June. A dense, creeping plant with dark, reddish leaf and numerous purplish blue flowers on erect spikes. Good for carpeting areas where small bulbs, such as Crocus or Snowdrops, are planted.

ALTHAEA - Hollyhock

Althaea rosea. Hollyhock. Like Roses, no one needs an introduction to the Hollyhocks. They are familiar, friendly flowers which have that home-like, old-fashioned air so desirable in the garden. Especially effective against a fence or stone wall, massed in corners, or clustered against a gate, they are also splendid at the back of the flower border, or wherever a tall, slender, but self-supporting plant is desired. Their color range is almost limitless, blue and golden yellow alone being missing. They flower during July and August, doing best in full sun. Hollyhocks are true biennials but often persist or reseed themselves in the border.

A., Double Varieties. Pink, salmon, yellow, red, white, and mixed. (Color illustration, page 61.) 25c each; \$2.50 per doz.

Single Varieties. Pink, salmon, yellow, white, red, and mixed. 25c each; \$2.50 per doz.

A., Indian Spring. New. Producing flowers of bright rose and rosy carmine shades. Double and semi-double. 35c each; \$3.50 per doz.

AMSONIA

Amsonia tabernaemontana. Willow Amsonia. 2 to 3 ft. Late May and early June. Small light blue flowers in panicles, but the beauty of the plant is in its stiff willow-like foliage which remains in perfect condition all season. Fine for the hardy border or among shrubs.

"And he is happiest who has power to gather wisdom from a flower"—(Howett)

ALYSSUM

The Alyssums are useful as edging plants, or for the rock garden or dry wall. The perennial sorts offered here bloom very early in the season, providing low edging plants particularly for bulb gardens at a time when most annual edgings are not yet in flower. They require no special treatment, although they like plenty of sunlight.

- ***Alyssum argenteum.** *Silver Alyssum.* 15 in. June to August. The yellow flowers come in dense clusters above soft, silvery gray foliage, giving a peculiarly beautiful effect.
- ***A. rostratum.** *Yellow-head Alyssum.* 1 ft. June, July. Bright golden yellow flowers in dense heads.
- ***A. saxatile citrinum.** Lovely, pale yellow flowers, excellent combination with pink or lavender flowers of early spring. (Color illustration, page 61.) 35c each; \$3.50 per doz.
- ***A. saxatile compactum.** *Dwarf Goldentuft.* 1 ft. Mid-April to June. A very showy spring plant for the rockery or border, having fragrant yellow flowers in clusters, above large mounds of a silvery foliage. 25c each; \$2.50 per doz.
- ***A. serpyllifolium.** 5 in. May, June. A very dwarf variety with loose racemes of pale yellow flowers above the rough gray foliage. Charming for the rock garden.

ANCHUSA - Bugloss

A very variable but useful group of plants, providing much-desired blue flowers over a long season. They do well in borders in full sun, but the Dropmore variety seems to prefer a little shade.

- Anchusa italica Dropmore.** *Dropmore Bugloss.* 4 to 5 ft. June. An improved variety of the preceding, with tall spikes of rich gentian-blue flowers, opening intermittently all summer. One of the most desirable perennials for the wide border. (Color illustration on page 61.)
- A. Morning Glory.** 4 ft. An new English variety with lovely gentian-blue flowers in great quantities which cover the fine pyramidal plant in early spring and summer. By cutting back branches which have flowered a succession of bloom can be maintained all summer. 35c each; \$3.50 per doz.
- ***A. myosotidiflora.** *Siberian Bugloss.* 10 to 12 in. May, June. A distinct, dwarf perennial variety with clusters of charming clear blue flowers resembling forget-me-nots, above large, heart-shaped, bright green leaves, which maintain an attractive appearance all summer. An effective rock plant for shady places, as well as a plant of true merit for the hardy border, where it contributes a long season of gay color. It is especially fine in combination with yellow spring bulbs or perennials, such as Alyssum and Doronicum. 35c each; \$3.50 per doz.
- A. sempervirens.** *Evergreen Bugloss.* 3 ft. July. Rough, broad, almost evergreen leaves and spikes of lavender-blue flowers intermittently all summer.

ANTHEMIS - Camomile

These are very hardy bushy plants with daisy-like flowers and strongly scented, pungent foliage. They are excellent and enduring subjects for the perennial border and require only ordinary soil and full sunlight.

- Anthemis, Moonlight.** 2½ ft. All summer. Hundreds of pale lemon-yellow flowers about 2½ inches in diameter literally cover the plant and are excellent for cutting. This is a fine compact and upright-growing variety for the hardy border. 50c each; \$5.00 per doz.
- A. nobilis.** *Common Camomile.* 18 in. June, July. Single, white-rayed, daisy-like flowers on a bushy plant, with fernlike foliage. Well-known medicinal herb. 25c each; \$2.50 per doz.
- A. Sancta Johannis.** A new and improved variety with rich glowing orange flowers. 35c each; \$3.50 per doz.
- A. tinctoria kelwayi.** *Kelway Camomile.* 2 to 3 ft. June to October. Large, lemon-yellow flowers similar to the preceding. Good for cutting and for the border, succeeding in the poorest soils. (Color illustration on page 61.)
- A. tinctoria kelwayi alba.** 2 to 3 ft. All summer. Large, pure white, daisy-like flowers excellent for cutting.
- A. tinctoria, Perry's Variety.** 20 in. June to October. Yellow flowers above bright green, fern-like foliage.

Anemone japonica, Whirlwind

Alyssum saxatile citrinum

Anchusa myosotidiflora

ANEMONE

There are two distinct classes of Anemones. The early sorts are mostly dwarf, and are choice plants for woodland or rockery. The Japanese sorts bloom in late summer and fall, are much taller, and form fine big clumps that have an artistic grace unequalled by any other flower at this season. They look especially well against a background of evergreens, yet are equally effective in the middle of the perennial border. Anemones require a good, well-drained soil with plenty of water in dry weather.

- Anemone canadensis.** *Meadow Anemone.* 1 ft. May. White, cup-shaped flowers an inch across, borne in a cluster of three large leaves. One of the best of our native Anemones, and adapted to shady positions where it makes a fine growth. Fine for naturalizing. 25c each; \$2.50 per doz.
- A. hupehensis.** *Chinese Anemone.* 18 in. Early August to frost. It produces an abundance of pleasing mauve-rose flowers about 1½ inches across, on erect stems. A good cut flower. Transplants best in the spring. 35c each; \$3.50 per doz.
- A. hupehensis, September Charm.** 2 ft. September. Extremely free-flowering with large blooms of delicate silvery pink, shaded rose and mauve. Fine for cutting. Flowers earlier than the Japanese types. 35c each; \$3.50 per doz.
- A. japonica alba.** *White Japanese Anemone.* 3 ft. September, October. Glistening single white flowers with yellow centers, useful for cutting. 35c each; \$3.50 per doz.
- A. japonica, Prince Henry.** 3 ft. September, October. Double red flowers. 35c each; \$3.50 per doz.
- A. japonica, Queen Charlotte.** 3 ft. September, October. Large, semi-double, deep pink flowers produced in abundance and desirable for cutting. Good in combination with the blue Aconites. 35c each; \$3.50 per doz.
- A. japonica, Whirlwind.** 3 ft. September, October. Large, semi-double, snowy white flowers with a whorl of green around base of petals. 35c each; \$3.50 per doz.
- ***A. pulsatilla.** *European Pasque Flower.* 8 in. April, May. Cup-shaped, violet-purple flowers appearing before the lacy, deep green foliage, and followed by feathery seed-pods which add to its attractions. Early-flowering. Very hardy. Likes shade but will do well in sun. 35c each; \$3.50 per doz.
- ***A. pulsatilla rubra.** *Red Pasque Flower.* 6 in. April, May. A form of *A. pulsatilla* with reddish purple flowers. 35c each; \$3.50 per doz.
- ***A. sylvestris.** *Snowdrop Anemone.* 15 in. May to July. Large creamy white flowers on nodding stems with deeply cut foliage. Fine for the cool, moist locations. 35c each; \$3.50 per doz.

ANTHERICUM - St. Bernard Lily

- Anthericum liliago.** *St. Bernard Lily.* 3 ft. May, June. A very decorative specimen of border plant with slender, ribbon-like leaves and tall stems bearing loose spikes of starry white flowers tipped with green. 35c each; \$3.50 per doz.

ARABIS - Rockcress; Wallcress

Edging plants of the highest quality, producing a mat of white flowers very early in the season, and providing a soft, grayish green carpet throughout the rest of the season. Splendid both for rockwork and edging borders.

- ***Arabis albida fl. pl.** *Double Wallcress.* 8 in. Flowers are much more showy and last far longer than the single. Good in the rock garden because it is very shallow-rooted. 35c each; \$3.50 per doz.
- ***A. alpina.** *Alpine Rockcress.* 9 in. April, May. Flowers smaller but similar to the former variety and produced in even greater profusion. One of the best rock plants.

ARENARIA - Sandwort

- ***Arenaria montana.** *Mountain Sandwort.* 6 in. May, June. Very desirable evergreen trailing plant, forming a dense carpet of foliage and covered with large white flowers. Splendid for the rock garden.
- ***A. verna caespitosa.** *Moss Sandwort.* 1 to 3 in. June. A compact, mossy plant with small flowers on thread-like stems which creeps along the ground. Excellent for the rock garden or between flagstones; good for covering rocks.

AQUILEGIA - Columbine

The Columbines are among the best-known of the old-fashioned plants, thriving, as they do, under many adverse conditions of sun, shade, and varying soil. They are especially good at the edge of a shady border or as a ground cover beneath densely foliated trees. For rock gardens the native canadensis is superb. In flower borders they are persistent perennials with a wide color range, especially among the newer hybrids, and all excellent for cutting. Their lacy, blue-green foliage is particularly attractive throughout the year.

- **Aquilegia alpina*. *Alpine Columbine*. 12 in. May, June. Pure, deep blue flowers with short uncurved spurs.
- **A. alpina atrovioacea*. *Violet Alpine Columbine*. 12 in. June. A violet-purple form of the above.
- **A. caerulea*. *Colorado Columbine*. 12 in. May to July. Lovely, long-spurred flowers with bright blue outside petals and white throats.
- **A. canadensis*. *American Columbine*. 2 ft. May, June. Our well-known native species, with scarlet sepals and bright yellow petals. One of the gayest of all flowers and most useful for rock gardens.
- A. chrysantha*. *Golden Columbine*. 3 ft. June to August. Numerous fragrant and showy golden yellow flowers with long, slender spurs.
- A. chrysantha alba*. 3 ft. June to August. Showy white flowers with long, slender spurs.
- A. Dobbies Imperial Hybrids*. 3 ft. These new long-spurred Columbines are unequalled for range of colors and sturdiness. 40c each; \$4.00 per doz.
- **A. flabellata nana alba*. *White Fan Columbine*. 12 in. June. Dwarf, compact species with showy ivory-white flowers above gray-blue foliage, excellent for rock gardens.
- A., Mrs. Scott Elliott Long Spurred Hybrids*. 3 ft. June, July. Huge flowers in a wide range of wonderful shades. (Color illustration, page 61.)
- A. vulgaris*. *European Columbine*. 2 ft. May to July. Flowers in all shades of blue, white, red, and purple. Strong, vigorous habit of growth. An effective border plant.
- A. vulgaris alba*. *White European Columbine*. 2 ft. May, June. Large, pure white flowers valuable for cutting.
- A. vulgaris nivea*. *Munstead White Columbine*. 2 ft. May, June. Produces a great profusion of large, pure white flowers.

ARMERIA - Thrift

These are fine rock garden or edging plants, forming dense carpets or rosettes of foliage above which globular flower-heads sway on slender stems.

- **Armeria cephalotes*. 12 in. July, August. Two-inch heads of bright pink.
- **A. cephalotes*, *Bee's Ruby*. 15 in. July to September. Bright, giant fiery-red, clover-like blossoms. 35c each; \$3.50 per doz.
- **A. cephalotes rubra*. 18 in. July, August. Densely tufted plants, with large, rich crimson flower-heads on tall, slender stems. An exceedingly lovely and graceful plant superior to the other Armerias in all respects.
- **A. lauchiana*. 6 in. April to June. Bright rose-colored flowers. Excellent for rock garden or edging.
- **A. maritima*. *Common Thrift*. 6 in. May, June. Valuable for edging. Flowers fine lavender-pink. Foliage grass-like in evergreen mats.

Aquilegia—Long-Spurred Columbines

ARTEMISIA - Wormwood

This family embraces many aromatic and bitter herbs from which various drugs are extracted. Mostly they are used in the garden or herb garden for their beautiful foliage effects, but the White Mugwort is a handsome flowering plant which has attracted considerable attention and has found many decorative uses in gardens. All these plants delight in poor, dry soil and in sunny situations, a fact that gives them unusual importance.

- Artemisia abrotanum*. *Old Man; Southernwood*. 3 ft. Flowers inconspicuous. Foliage deep green and finely cut with a pleasant aromatic fragrance. 40c each; \$4.00 per doz.
- A. absinthium*. *Common Wormwood*. 3 ft. Flowers unimportant. An old-fashioned garden herb from which the bitter wormwood tea is brewed.
- A. dracuncul*. *Tarragon*. 3 ft. Another old-fashioned herb with dark green, pointed foliage. Valuable for sauce, salads, and flavorings. The strain we grow is the true French type. 40c each; \$4.00 per doz.
- **A. frigida*. *Fringed Wormwood*. 18 in. Silvery gray foliage and tiny yellow flowers in loose clusters. 25c each; \$2.50 per doz.
- A. lactiflora*. *White Mugwort*. 4 ft. August, September. Unlike the other varieties, which are grown for their foliage, this introduction from China bears sprays of creamy white flowers on tall, erect stems which are clothed with fine-cut, dark green foliage. It makes a splendid cut flower for mixing with flowers of decided color or form, such as Delphiniums. Fragrant.
- **A. pontica*. *Roman Wormwood*. 12 in. Bushy, erect plants with silvery foliage and whitish yellow flowers in nodding heads. 25c each; \$2.50 per doz.
- A., Silver King*. *Ghost Plant*. 3 ft. July. White, silvery foliage and sprays of mist-like flowers. It is a fine border plant to combine with bright colored flowers.
- **A. stelleriana*. *Beach Wormwood*. 12 in. Silvery, divided foliage. A fine plant for naturalizing, especially in sandy places. 25c each; \$2.50 per doz.

ARUNCUS

Aruncus sylvestris. *Common Goatsbeard*. 4 ft. June. A bold and highly ornamental perennial, resembling the Astilbes, and producing long, feathery plumes of white flowers. Good for shade.

ASARUM

- **Asarum canadense*. *Canada Wild Ginger*. 12 in. April, May. Heart-shaped leaves and small brownish purple flowers close to the ground.

ASCLEPIAS

Asclepias tuberosa. *Butterfly Weed*. 2 ft. July to September. A handsome, low, bushy plant with heads of dazzling orange-colored flowers. Fine plant for naturalizing. Easy to grow in dry soil.

ASPERULA

- **Asperula odorata*. *Sweet Woodruff*. 6 in. May. Erect little plants with fine-toothed leaves in clusters and heads of snowy white flowers. Increases rapidly, and is used for carpeting shady places. A fine scented herb. 35c each; \$3.50 per doz.

ASPHODELINE

Asphodeline lutea. *Common Jacob's Rod*. 2½ ft. July, August. A fine border plant, having tall spikes of very fragrant, bright yellow, lily-like flowers and sword-like foliage. 35c each; \$3.50 per doz.

ASTER - Hardy

Descendents from the Beautiful Wild New England Varieties

A very beautiful group of hardy plants, including a great variety of forms which vary a great deal in time of blooming, size of flowers, and stature. There are several dwarf kinds listed which bloom early and are splendid decorative plants for either rockery or border.

- **Aster alpinus*. *Rock Aster*. 9 in. Late May to June. Large, showy blue flowers, each on good stem for cutting. Desirable for rock garden or border.
- **A. alpinus albus*. *White Rock Aster*. 9 in. White form of above.
- **A. alpinus*, *Goliath*. 10 in. May, June. Large, showy, bluish purple flowers. Indispensable for the rock garden.
- **A. alpinus*, *Star of Eisenach*. (See color illustration on page 62.) 12 in. May, June. This is one of the new, recently-introduced Asters and a most valuable garden plant. Dark lilac-blue flowers with orange centers, 2½ to 3 in. across, produced abundantly on 1-ft. stems. 40c each; \$4.00 per doz.
- A. amellus*. *Italian Aster*. 2 ft. August. Clustered heads of purple, daisy-like flowers, good for cutting.
- A. frikartii*, *Wonder of Staefa*. 2½ ft. Late July to frost. One of the most outstanding of recent introductions with lavender-blue flowers 2 to 2½ inches across on long stems; excellent for cutting. It blooms persistently during the entire summer. No other hardy plant contributes so much to the garden. 40c each; \$4.00 per doz.
- A. hybridus luteus*. 2 ft. July, August. Dense heads of small yellow flowers resembling a glorified goldenrod.
- **A., Mauve Cushion*. 9 in. October, November. A circular, cushion-like plant. The flowers are delicate mauve and are produced so lavishly as to completely cover the plant.
- A. novae-angliae*. *New England Aster*. 4 ft. August, September. Our grandest American species which adorns our Massachusetts hills and fields everywhere with thousands of large violet-purple flowers. 25c each; \$2.50 per doz.
- A. novae-angliae roseus*. *Pink New England Aster*. 4 ft. August, September. A charming rose-pink variety blooming profusely.
- A. ptarmicoides*. *White Upland Aster*. 18 in. August, September. A bushy plant with a multitude of small white and faintly yellow flowers in flat sprays, useful for cutting.
- A. tataricus*. 5 ft. A very tall variety with large blue-violet flowers. The latest to bloom.

NAMED HARDY ASTERS

The Aster family is almost endless, and European hybridizers have produced an amazing number of very beautiful forms, of which we offer the choicest. They abound in shades of lavender, pink, and bluish purple, and produce an indescribably beautiful mass effect at the back of the border or at the edge of shrubbery. They will thrive in poor soil, but to be seen at their best they should be pinched back once in the early summer and staked. All flower during September and October.

Barr's Pink. 4 ft. September, October. A strong, vigorous grower forming shapely plants bearing fine, bright pink flowers. A *novae-angliae* type.

Beechwood Challenger. Medium height, free-flowering. Brilliant crimson-red. 50c each; \$5.00 per doz.

Charles Wilson. 3 ft. A choice and rare variety with large, ruby-red flowers, very rich and effective in combination with the clear blue varieties.

Climax. 5 ft. One of the finest Asters, producing large flowers 2 inches across of clear light blue with golden central disk, on huge pyramidal spikes.

Harrington's Pink. 3 ft. September, October. The first true pink Hardy Aster with no magenta shadings. It completely eclipses all of the older pink varieties and is a grand subject for autumn gardens as well as a fine cut flower. Those who saw it in bloom last year were most enthusiastic about it. A *Novae-angliae* type. (Color illustration, page 61.) 50c each; \$5.00 per doz.

Mt. Everest. 4 ft. By far the finest white. Flowers in abundance, even on the lateral branches, making a pyramidal mound of white right down to the ground. (Color illustration, page 61.) 35c each; \$3.50 per doz.

Peggy Ballard. 3 ft. Large pyramidal sprays of double rose-mauve flowers on compact plants.

Red Rover. 2½ ft. The nearest approach to a true red. Glowing red buds, opening wine-red with golden centers. Of compact habit with immense sprays of flowers. A real acquisition for the fall border and most effective when planted with Mt. Everest.

Skylands Queen. 2½ ft. August to October. Plants of dense, spreading habit completely covered with large, attractive, light blue flowers. (Color illustration, page 61.)

St. Egwin. 18 to 24 in. A charming bright pink Aster produced on dwarf, symmetrical plants.

DWARF HARDY ASTERS

This charming race of really Dwarf Asters is of the greatest value for late summer and early fall color in the rock garden or for the foreground of the hardy border. All are compact, seldom over 1 foot high and densely covered with small, dainty, single blossoms. Perfectly hardy and easy to grow.

***Countess of Dudley.** 9 in. Charming clear pink flowers with yellow eye.

***Lady Henry Maddocks.** 12 in. Clear, light pink flowers.

***Nancy.** 12 in. Pale lilac-pink flowers.

***Ronald.** 12 in. Showy bright lavender-pink.

***Snowsprite.** 12 in. Compact clumps with large, semi-double white flowers.

***Victor.** 8 in. Clear lavender-blue flowers of good size.

ASTILBE

The fluffy plumes of the Astilbes have an airiness and a laciness about them unequalled by any perennial of similar habit. They are not very common in gardens, although they succeed well in ordinary soil, and even in partial shade if they are given plenty of water during growing and flowering season.

They have an indescribable beauty when used as an edging to a border of shrubs or evergreens, or as accent plants in the garden, and the many varieties shade into each other in delicate tints of white, cream, pink, and rose.

Astilbe arendsi, America. 2½ ft. July. A charming, pale pink variety which is very free-flowering. 35c each; \$3.50 per doz.

A., Avalanche. 2 ft. Best of the white varieties. 40c each; \$4.00 per doz.

A., Gloria. 2 ft. July, August. Compact dwarf plants with dense, plummy sprays of deep pink flowers. 35c each; \$3.50 per doz.

A., Marguerite van Rechteren. 4 ft. August. A handsome, tall sort with fringed red flowers tinted with lilac. 40c each; \$4.00 per doz.

A., Pyramidal. 2½ ft. July. Very fine panicles of pure milky white. 40c each; \$4.00 per doz.

A., Salland. 3 ft. August. Rich red. 40c each; \$4.00 per doz.

A. chinensis. *Chinese Astilbe.* 18 in. July-August. Pink flowers and finely cut foliage. 35c each; \$3.50 per doz.

A. japonica, Peach Blossom. 18 in. July, August. Soft pink flowers in erect panicles. 50c each; \$5.00 per doz.

A. japonica, Queen Alexandra. 2 ft. June. A very fine early-flowering variety of soft creamy pink color. 50c each; \$5.00 per doz.

A japonica, W. E. Gladstone. 2 ft. June. Similar to Queen Alexandra, but has feathery plumes of pure white flowers. 50c each; \$5.00 per doz.

AUBRIETIA

They Resemble the Alyssums

Charming little plants closely related to the Alyssums and used for the same purpose, providing a wide range of purple, violet, and pink shades in ideal plants for rock or wall gardens or edging flower borders.

***Aubrietia deltoidea eyrei.** *Trumpet Aubrietia.* 5 in. May to July. Dense mats of gray-green, thickly covered with soft violet flowers.

***A. deltoidea rosea.** 4 in. July. A lovely pink-flowering form.

BAPTISIA

Baptisia australis. *Blue Wild Indigo.* 3 ft. May, June. A handsome plant with deep blue, lupine-like flowers in long, curving racemes and very attractive blue-green foliage. Very effective planted with *Hemerocallis flava*.

BELAMCANDA

Belamcanda chinensis. *Blackberry Lily.* 3 ft. July, August. A loosely formed, iris-like plant with slender, much-branched stems bearing bright orange-yellow, Lily-like flowers, spotted with brown.

BELLIS - English Daisy

The true Daisies make dense rosettes of dark green leaves and bloom profusely early in the spring. They are especially charming edging plants and do well in half shady places in the rockery. They must be kept dry in winter, and should have slight protection.

***Bellis perennis.** *Giant White Daisy.* 6 in. April to June. Densely double flowers of pure white. 25c each; \$2.50 per doz.

***B. perennis.** *Giant Red Daisy.* 6 in. April to June. A rosy red form of the above. 25c each; \$2.50 per doz.

BOCCONIA

Bocconia cordata. *Pink Plumepoppy.* 7 ft. July, August. A big lusty plant with large, bluish green foliage and nodding clusters of creamy flowers which are followed by decorative grayish seed pods. Good in wild gardens or shrubbery and for subtropical effects.

BOLTONIA

A group of plants closely related to the hardy asters and useful for the same purpose. Their stems are stiffer and wirier, requiring less support. They are very easy to grow and take care of themselves when once established.

Boltonia asteroides. *White Boltonia.* 6 ft. September, October. Branching stems, bearing numerous Aster-like white flowers. One of the best late-flowering perennials.

B. latissuama. *Violet Boltonia.* 4 ft. July to October. A handsome plant with large showy heads of pink flowers, tinged lavender. Especially good for cutting and an attractive plant in rough places or in the border.

CALLIRHOE

***Callirhoe involucrata.** *Low Poppy Mallow.* 12 in. June to August. A trailing plant with finely divided foliage and large, saucer-shaped flowers of bright rosy crimson, with white centers. 35c each; \$3.50 per doz.

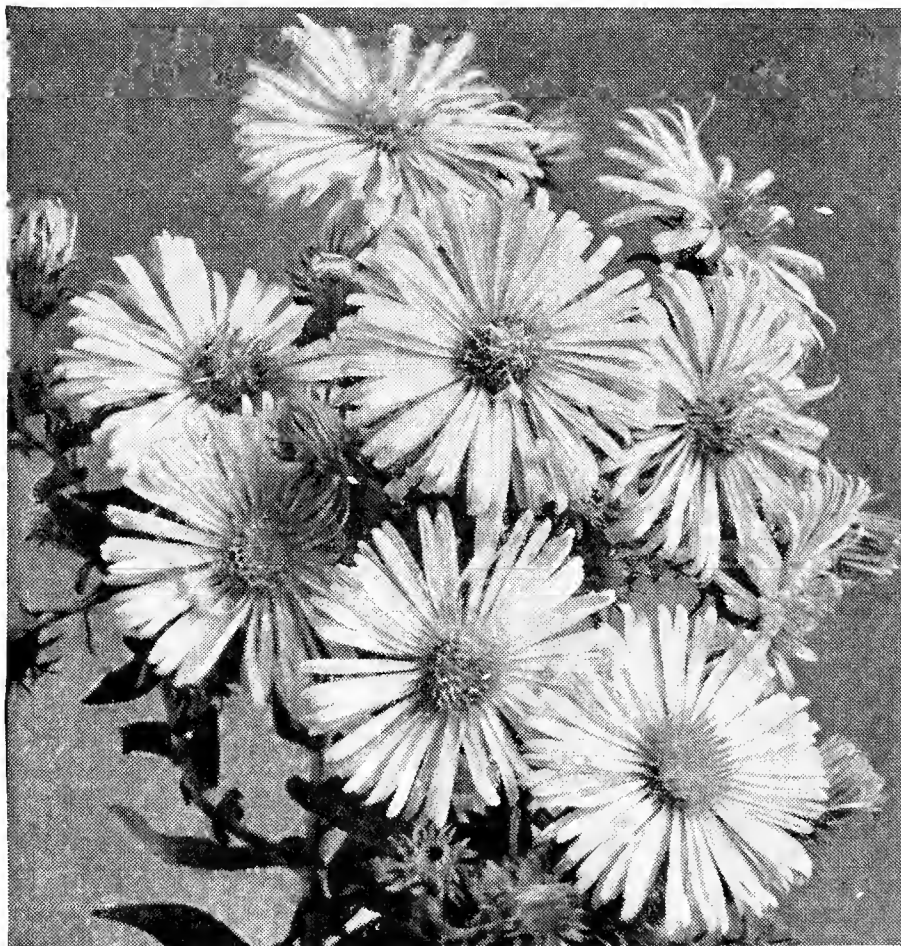

CASSIA

Cassia marilandica. *Wild Senna.* 4 ft. July, August. Light green, pinnate foliage with showy yellow, lupine-like flowers at top of stem. Fine for naturalizing or shrub border.

CATANANCHE

Catananche caerulea. *Blue Cupid's Dart.* 18 in. July, August. Pretty, deep blue, Daisy-like flowers on long stems. An everlasting.

C. caerulea alba. *White Cupid's Dart.* A white form of above.

Aster, Harrington's Pink — The First True Pink Aster

*Campanula carpatice alba**Cimicifuga racemosa**Chrysanthemum, Burbank's Frilled***CAMPANULA - Bellflower**

No one interested in rock gardening can afford to pass by the Bellflowers, while perennial borders rely upon them for some of their finest effects. They form a very large and much-varied family, containing plants of absorbing interest and beauty for every purpose. The taller sorts are indispensable for handsome garden effects, and the dwarfier types are equally at home in the rockery or at the edge of garden beds. Practically all are good perennials except the Canterbury Bells (*C. medium*), which are biennials and need to be planted every year in order to have a steady supply. The Peach Bells (*C. persicifolia*), which are less known than they should be, are equally beautiful for border use and are true perennials.

- **Campanula carpatice*. *Carpathian Bellflower*. 8 in. June to October. A pretty species, growing in compact tufts with clear blue flowers, held erect on wiry stems. Unsurpassed as an edging for a hardy border or the rockery.
- **C. carpatice alba*. *White Carpathian Bellflower*. 9 in. June to Sept. A glistening white-flowered variety, almost indispensable in the rock garden.
- **C. garganica*. *Gargano Harebell*. 4 in. June to Sept. A gem for the rock garden. Forms a low, spreading tuft which is covered with starry, light blue flowers with light eye. Exquisite in the wall garden. 40c each; doz., \$4.00.
- **C. lactiflora*. *Milky Bellflower*. 2 ft. July, August. Bell-shaped flowers of clear blue; does well in light shade.
- C. medium*. *Canterbury Bells*. 2½ ft. June, July. Biennial. Very large, bell-shaped flowers on erect stems; fine for cutting. This is perhaps the most delicately beautiful species of all the great Bellflower family. Pink, blue, white and mixed. (Color illustration, page 79.) 25c each; \$2.50 per doz.
- C. medium calycanthema*. *Cup-and-Saucer Bellflower*. 2 to 3 ft. July. Biennial. The enlarged calyx is of the same color and texture as the flower, giving a cup-and-saucer effect. Pink, blue, white, and mixed. 25c each; \$2.50 per doz.
- C. persicifolia*. *Peachleaf Bellflower*. 2½ ft. June, July. Broad, single, blue, bell-shaped flowers arranged along a tall flower spike. One of the most desirable border plants. 35c each; \$3.50 per doz.
- C. persicifolia alba*. *White Peachleaf Bellflower*. Similar to the above, but has glistening white flowers. 35c each; \$3.50 per doz.
- **C. portenschlagiana*. *Dalmatian Bellflower*. 6 in. June, July. A mat-like, rock or wall garden plant covered with starry, purplish blue flowers. 35c each; \$3.50 per doz.
- C. pyramidalis*. *Chimney Bellflower*. 4 ft. July, Aug. Forms a pyramid of numerous stems, crowded with large, handsome, blue, salver-shaped flowers.
- C. pyramidalis alba*. *White Chimney Bellflower*. Similar to the above, but has white flowers.
- **C. rotundifolia*. *Harebell*. 1 ft. June to August. A delicate plant with clear blue flowers, especially suited for crevices in the rock garden or steep slopes.
- C. trachelium*. *Coventry Bells*. 2 ft. July, August. Sturdy, hairy plant, with drooping, light purple flowers.

CENTAUREA

Bold flowering plants with graceful, fluffy flowers resembling thistle-blossoms. They bloom over a long season and are useful for cutting.

- **Centaurea dealbata*. *Persian Centaurea*. 18 in. June to August. Large, rosy pink flowers on leafy stems, with gray-green divided foliage.
- C. macrocephala*. *Globe Centaurea*. 3 ft. July, August. Perhaps the most showy Centaurea with enormous bright yellow, thistle-like flowers. Useful for cutting, and especially suitable for naturalizing or background work.
- **C. montana*. *Mountain Bluet*. 18 in. July, August. A low, bushy plant with big bluish violet flowers, like enormous Cornflowers. Valuable for cutting, and very effective in the border with pale pink, yellow, or white flowers.
- **C. montana alba*. *White Mountain Bluet*. A white form of the above.

CEPHALARIA

- Cephalaria alpina*. *Yellow Cephalaria*. 5 to 6 ft. July, August. Sulphur-yellow.
- C. tatarica*. *Tartarian Cephalaria*. 6 ft. July, August. Flat heads of showy cream-white flowers on good stems for cutting. Suited for rear of border where bold and striking effects are desired.

CERASTIUM

- Cerastium tomentosum*. *Snow-in-Summer*. 6 in. May, June. Spreading plant with silvery foliage covered with a sheet of small white flowers. Used principally for edging and rockwork. It is especially good in the corners of stone steps and its gray foliage looks well with low pink flowers.

CERATOSTIGMA

- **Ceratostigma plumbaginoides*. *Larpentae Plumbago*. 8 in. August, September. One of the most desirable border and rock plants, of dwarf, spreading habit, covered with deep blue flowers. Comes up very late in spring so the ground should not be disturbed until it appears.

CHEIRANTHUS

- **Cheiranthus allioni*. *Wallflower*. 18 in. May to July. Small plants with erect stems crowned by flat heads of dazzling orange-yellow flowers. One of the finest plants for massing or edging.

CHELONE

- Chelone lyoni*. *Pink Turtlehead*. 2 ft. August, September. Odd plant with showy purplish red flowers sometimes referred to as a hardy Snapdragon. Always arouses comment in fall displays. Good for cutting, for use in dense shade and in wet places.

CHRYSANTHEMUM

Under this name we find many of the daisy-like flowers referred to as Shasta Daisies and Arctic Daisies, as well as the new Korean Hybrids and the typical fall-blooming Chrysanthemums which are so useful for late color in the garden. All of them are of the easiest culture, and certainly no garden is complete without an adequate representation of this marvelous family of flowers.

- **Chrysanthemum arcticum*. *Arctic Chrysanthemum*. 18 in. September, October. This charming plant forms an attractive rosette of dark green foliage, covered with multitudes of blush-white, daisy-like flowers from 2 to 2½ inches in diameter. 25c each; \$2.50 per doz.
- **C. arcticum*, *Astrid*. 18 in. September, October. Single, daisy-like flowers, 3 in. or more in diameter; a lovely shade of shell-pink, warmed with old rose tints, bright yellow center. Dense growing and extremely hardy.
- C. coreanum*. *Korean Chrysanthemum*. 2 ft. September, October. A superb garden plant, coming into bloom before the first frosts. Flowers are single, 2 to 3 inches across, white at first, acquiring a rose-pink tinge with age. Showy in masses and charming when cut. A parent of the justly popular new Korean hybrids.
- C. maximum*, *Avalanche*. 2 ft. July to September. Forms compact bushes, producing large white Marguerites, practically covering the plant.
- C. maximum*, *Burbank's Frilled*. 18 in. July to September. Large, white flowers with waved and frilled petals. 40c each; \$4.00 per doz.
- C. maximum*, *Esther Reed*. 18 in. June to October. Pure white double blooms. Excellent for border and cutting. Finest of double Shasta Daisies. 60c each; \$6.00 per doz.
- C. maximum*, *Mrs. C. Lothian Bell*. 3 ft. Large, single white Daisies, excellent for cutting.
- C. maximum*. *Shasta Daisy*. 2½ ft. July, August. Large, white daisy-like flowers excellent for cutting. 25c each; \$2.50 per doz.
- C. maximum*, *White Swan*. 2½ ft. May, June. A new double white Shasta Daisy like a double Pyrethrum coming into bloom about Memorial Day. Wonderful for borders and for cutting because it will keep well—ten days not unusual. 40c each; \$4.00 per doz.

Named Hardy Chrysanthemums

The glorious hues and tints of the native trees and shrubs form a perfect background for the colorful displays of Chrysanthemums in the fall.

Late in autumn these Hardy Chrysanthemums make the garden gay with color. They should be planted most generously for they are almost the only things in bloom at their season. They may be interplanted with earlier flowers, or moved in to follow such things as Canterbury Bells. They may be moved when in full bloom without interfering with their beauty. They should have a light covering after the ground has frozen.

Those marked (LF) are the large-flowering varieties.

LARGE FLOWERING CHRYSANTHEMUMS

Algonquin. 18 in. (LF). Of dwarf spreading habit with showy, clear yellow, double flowers. In full flower September 10th, and extremely hardy. 35c each; \$3.50 per doz.

Barbara Cumming. (LF). Clear yellow, shading to orange-bronze. Flowers freely from early August on. 25c each; \$2.50 per doz.

Glory of Seven Oaks. (Carrie). (LF). Soft clear yellow masses of bloom. Early. An old satisfactory type.

Jean Treadway. (LF). A lovely sparkling pink with a dark rose-pink center.

October Girl. (LF). Semi-double flowers, opening clear rose-pink, turning to lavender. 25c each; \$2.50 per doz.

Ruth Cumming. 2½ ft. (LF). Rich, reddish bronze, shaded with terracotta.

Ruth Hatton. (LF). Clear ivory-white, changing to delicate lemon-yellow.

Seminole. 1½ ft. (LF). Large, cream-white flowers from September 10th on. Extremely hardy. 35c each; \$3.50 per doz.

Vivid. (LF). Dark, rosy crimson. Extremely vigorous and free-flowering from October 1st on.

White Doty. (LF). Pure white flowers with creamy centers.

BUTTON OR POMPON CHRYSANTHEMUMS

Early Bronze. (Button). Lively, bronzy yellow, flowering freely from late August on. Extremely early.

Judith Anderson. (Button). Large flowers of clear, butter-yellow. 35c each; \$3.50 per doz.

TWO NEW HARDY CHRYSANTHEMUMS

introduced by Bay State for the first time. These are brighter resulting from the crossing of selected plants of *Chrysanthemum corianum* and *C. hortorum*. Both have lived out-of-doors without winter protection for the past three years or more at Dover, N. H., where they were originated. They flourished while other varieties struggled or died. Both grow about 18 inches high.

Orange Glow. Brilliant burnt orange blossoms of duplex type, flowering from late September on. Temperature of 20 degrees F. have not injured these flowers. 75c each; \$7.50 per doz.

Treasure Trove. Clear double yellow blossoms from mid-September. 75c each; \$7.50 per doz.

(See color pictures on back cover.)

CIMICIFUGA

Cimicifuga racemosa. *Cohosh Bugbane*; *Black Snakeroot*. 5 ft. July to September. A stately plant, with fine, long, elegantly twisted racemes of feathery white flowers. Effective against a dark background in a moist, shady corner. Fine for naturalizing.

C. simplex. *Kamchatka Bugbane*. 4 ft. September to frost. Most valuable because of its extremely late flowers. Long dense spikes of white flowers which keep a long time when cut. \$1.00 each; \$10.00 per doz.

CLEMATIS

Clematis coccinea (texensis). *Scarlet Clematis*. 6 ft. June to September. Small, bell-shaped flowers of bright coral-red, produced abundantly. Will climb if given some support. 50c each; \$5.00 per doz.

C. heracleaefolia davidiana. *Fragrant Tube Clematis*. 2½ ft. August, September. Bushy plants with whorls of hyacinth-like, pale blue flowers. Deliciously scented. 40c each; \$4.00 per doz.

C. integrifolia. 18 to 24 in. June, August. Small, nodding, porcelain-blue flowers. 40c each; \$4.00 per doz.

C. recta. *Ground Clematis*. 2 to 3 ft. July, August. Large clusters of fragrant white flowers. 40c each; \$4.00 per doz.

CONVALLARIA - Lily-of-the-Valley

***Convallaria majalis.** *Lily-of-the-Valley*. 8 in. May, June. Large, luxuriant foliage, with sprays of small, white, bell-shaped flowers of waxy texture and most delightful fragrance.

Each	12	100
Heavy clumps	\$0.40	\$4.00 \$30.00
Strong pips	.20	1.80 10.00

CUSHION CHRYSANTHEMUMS

Amelia. *Azaleamum*. (See colored illustration, page 79.) 12 in. Dwarf, compact, cushion-like growth with masses of dark and light pink flowers from September on.

Bronze Cushion. A deep bronze flower.

White Cushion. At opening show a delicate pink turning pure white.

Yellow Cushion. Early flowering, pure golden yellow, brilliant.

KOREAN HYBRID CHRYSANTHEMUMS

2½ ft. September to November.

All of these hybrids are plants of robust and attractive growth with an additional degree of hardiness that is particularly desirable in New England and other sections where over-wintering is a problem. They have a range of lovely pastel and intense shades which defy accurate description. They are compelling for their color effect in the border as well as for their striking decorative uses as cut flowers. Many begin to flower early in October, thus lengthening by several weeks the flowering season of the Hardy Chrysanthemums.

Apollo. Bronze-red and gold; showy and free-flowering.

Daphne. An exquisite blending of daphne-pink with an underlying sheen of lilac-rose.

Diana. Soft rose-pink mingled with lilac-rose and soft salmon-pink.

Hebe. Delightfully fragrant, silver-pink flowers.

Indian Summer. A vivid, glowing orange flower, 3 inches across, somewhat shaggy, but attractive.

Innocence. Of dwarf habit with pure white flowers, changing to soft pink.

King Midas. Early, producing quantities of full, double flowers of soft yellow, tinted with bronze. 40c each; \$4.00 per doz.

Mars. Deep amaranth-red, changing to wine-red, overlaid with a velvety sheen.

Nancy Copeland. Large single flowers, 3 to 3½ inches across, of distinct and beautiful clear red. 35c each; \$3.50 per doz.

Pygmy Gold. A distinct dwarf variety, producing quantities of clear golden yellow flowers from early September on. 40c each; \$4.00 per doz.

Romany. Carmine-red with a bronze tone. 35c each; \$3.50 per doz.

Vulcan. Glowing carmine-red, shading to garnet-crimson.

Chrysanthemum, Large-Flowering, Barbara Cumming

COREOPSIS

Coreopsis delphinifolia. *Larkspur Coreopsis*. 2 ft. July to September. Deeply cut foliage and yellow flowers with dark brown disk. 25c each; \$2.50 per doz.

C. grandiflora. *Big Coreopsis*. 2 ft. May to November. Very large, golden yellow flowers. Superb for cutting. 25c each; \$2.50 per doz.

C. grandiflora, *Mayfield Giant*. 2 ft. Very large butter-yellow blossoms.

C. grandiflora, *Sunburst*. Large, double yellow flowers on strong stems.

**C. rosea*. *Rose Coreopsis*. 1 ft. July, August. Beautiful pink flowers with yellow centers. A fine rock plant. 25c each; \$2.50 per doz.

CRUCIANELLA

**Crucianella stylosa*. *Common Crosswort*. 6 in. May to July. Masses of dainty green foliage with clustered heads of rosy pink flowers.

CYPRIPEDIUM

**Cypripedium acaule*. *Pink Ladyslipper*. 10 in. May, June. A hardy native Orchid, with curious pocket-like flowers of rose-pink. It does best in a dry, acid soil in open places in the woods, or in a half-shady border.

**C. pubescens*. *Yellow Ladyslipper*. 10 in. May. Large, yellow flowers. Requires rich soil, with leaf-mold, in well-drained shady spot. 40c each; \$4.00 per doz.

**C. spectabile*. *Showy Ladyslipper*. 15 in. May. Several large, roundish leaves borne along the stalk, topped by one or two rosy pink and white flowers. Plant with Azaleas or Rhododendrons, or in any shady spot where they will not be disturbed. 40c each; \$4.00 per doz.

DELPHINIUM - Larkspur

More and more we rely upon the Hardy Larkspurs for the wonderful tints and shades of blue, lavender, and purple, which they provide. They should be well cared for, given a good soil and an occasional taste of lime, which will improve their foliage and color.

Delphinium belladonna. 2 ft. June to Sept. Pale blue flowers, in spreading sprays. This is especially good near pink Rambler Roses or among Madonna Lilies.

D. belladonna, *Cliveden Beauty*. 3½ ft. June to September. A splendid improved form of the above with large, light blue flowers on tall spikes. 35c each; \$3.50 per doz.

D. belladonna, *Fanny Stormonth*. 5 ft. June to September. Strong and numerous spikes of a lovely bright blue belladonna variety. 35c each; \$3.50 per doz.

D. bellamosum. 2 ft. June to Sept. Dark blue form of *D. belladonna*.

D., *Blackmore & Langdon Hybrids*. 5 ft. Seedlings from the famous prize-winning strain of one of the greatest Delphinium growers in the world. These make tall, sturdy plants of perfect habit, with large flowers in all shades of blue, lavender, violet, and mauve. This strain is famous wherever Delphiniums are grown and always arouses enthusiasm. 35c each; \$3.50 per doz.

D. elatum, *Indigo*. 4 ft. A true, brilliant blue form of the *Bec Larkspur*.

D. Gold Medal Hybrids. (Color illustration on page 79.) 4 ft. June, July. Stately, decorative plants for masses, beds, and clumps. The flowers range in color from light azure to deep blue and from a delicate lavender to purple.

D. grandiflorum chinense. *Slender Larkspur*. 18 to 24 in. June to August. A slender, low-growing type, fine for cutting, with numerous large flowers of varying shades of blue.

D. grandiflorum chinense, *Cambridge Blue*. A fine bright blue form. 35c each; \$3.50 per doz.

D., *Wrexham Hybrids*. 5 ft. Hybrid mixture. 35c each; \$3.50 per doz.

DIANTHUS - Pink

The Dianthus family is extensive and has long been one of the most popular garden flowers, embracing the fragrant old-fashioned Pinks and Carnations, and the charming China Pinks and the beloved Sweet Williams. They like good soil and a situation which will be dry in winter, and should be planted in masses to get the best effects.

**Dianthus allwoodi*. *Allwood Pink*. 15 in. May to October. An ever-flowering race of Pinks, with very fragrant, single flowers on long stems suitable for cutting or garden decoration. The colors run through many shades of white, pink, and crimson.

**D. arenarius*. *Sand-Loving Pink*. 6 in. June to August. White fringed flowers; very fragrant. Fine matlike foliage. An excellent rock plant.

**D. arvernensis*. 4 in. June. A minute, compact form of the Cheddar Pink, *D. caesius*, with tiny, sparkling pink flowers on 2-inch stems. Excellent rock plant.

D. barbatus. *Sweet William*. 18 in. June, July. One of the oldest garden flowers, which perpetuates itself by self-sowing. Flat heads of fringed flowers, many marked with a distinct eye, in separate colors of pink, red, white, Newport Pink and Scarlet Beauty. 25c each; \$2.50 per doz.

D. barbatus, *Dwarf*. Attractive new dwarf variety. Mixed colors.

D. barbatus, *Scarlet Beauty*. A deep rich scarlet. 25c each; \$2.50 per doz.

**D. caesius*. *Cheddar Pink*. 5 in. May to July. Makes close tufts of grayish foliage from which it produces its delicate pink, fragrant flowers. Excellent in sunny place in the rock garden or as an edging. 25c each; \$2.50 per doz.

**D. caryophyllus*, *Grenadin Scarlet*. Fine, double, scarlet, fragrant flowers, splendid for cut flowers. Compact growing. We can also furnish these in double white, yellow and pink shades, in separate colors. 25c each; \$2.50 per doz.

D. caryophyllus, *King of the Blacks*. 25c each; \$2.50 per doz.

**D. chinensis heddewigi*. *Heddewig Pink*. 9 in. June to autumn. Flowers are very large and vary from pure white to richest crimson, many curiously marbled, streaked and fringed.

**D. deltoides*. *Maiden Pink*. 6 in. June, July. Deep pink, small flowers on slender stems. Blooms profusely. Foliage green, in thick mats. Fine for ledges and rock walls.

**D. deltoides albus*. *White Maiden Pink*. A white form of the above.

**D. deltoides*, *Brilliant*. 6 in. June, July. An improved form of above, with crimson flowers.

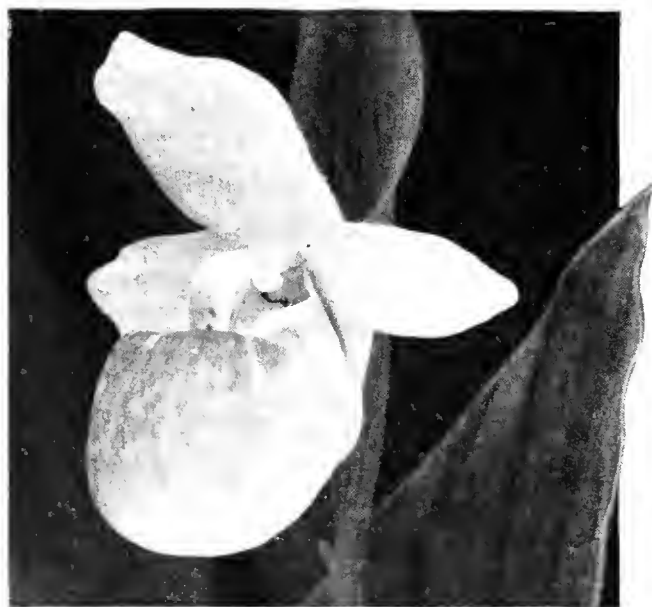

**D. glacialis neglectus*. *Glacier Pink*. 3 in. May, June. Fiery red flowers, borne above compact grassy tufts of foliage.

**D. graniticus*. 5 in. June. Of neat, branching habit with bright red flowers. Resembles *D. deltoides*. 35c each; \$3.50 per doz.

**D. plumarius*. *Grass Pink*. 12 in. June. Fragrant flowers. An old-fashioned favorite much used for edging and bedding. Blooms continuously if flowers are cut when they begin to fade. 25c each; \$2.50 per doz.

**D. plumarius compacta*. 8 in. June to September. Single flowers rising from dense silver-gray tufts of foliage.

**D. plumarius semperflorens*. *Perpetual Pink*. 8 in. Charming pink flowers produced throughout the summer. 20c each; \$2.00 per doz.

Cypripedium spectabile

Pacific Hybrid Delphiniums

Admitted by experts and Delphinium fanciers to be the outstanding hybrids. Blooms throughout the summer on 5-ft. stems.

BLUE SHADES
50c each; \$5.00 per doz.

DOUBLE WHITE
75c each; \$7.50 per doz.

Dicentra spectabilis

Our Hybrid Strain of Delphiniums is Unsurpassed

*HARDY GARDEN PINKS

6 to 10 in. All summer.

This group contains hybrids of many of the preceding species and selected garden strains. All are charming subjects, most of which are delightful when cut, for the delicate poise of the flowers and their delicious fragrance. To enjoy them fully they should be planted in masses. They make compact cushions of gray foliage which is very decorative in the border or when used for edging.

Beatrice. Semi-double flowers of an attractive salmon-pink shade. 35c each; \$3.50 per doz.

Furst Bismarck. A distinct shade of cerise-red, never out of bloom during the summer. 35c each; \$3.50 per doz.

Her Majesty. Large, double, pure white. 35c each; \$3.50 per doz.

Homer. Fine rose. 35c each; \$3.50 per doz.

Mrs. Sinkins. Large, fragrant white. 35c each; \$3.50 per doz.

Rose Unique. Large, clear pink that we think is the best. 40c each; \$4.00 per doz.

Uncle Sam. New. White with dark center. 35c each; \$3.50 per doz.

DICENTRA

***Dicentra eximia.** *Fringed Bleeding-Heart.* 1 ft. All summer. A delicate-looking, plumelike plant with fernlike foliage and drooping racemes of curious rose-colored blooms. Excellent in shady places.

D. spectabilis. *Bleeding Heart.* 2 ft. Late April to July. Large, rosy red, heart-shaped flowers. A fine old-fashioned flower desirable for planting in sun or partial shade. 40c each; \$4.00 per doz.

DICTAMNUS - Gas Plant

Dictamnus albus. *Gas Plant.* 2 ft. June, July. An old garden favorite, with white flowers which will sometimes give a flash of light on a summer evening when a lighted match is held near the base of the flower spike, leaving a strong scent of lemons. A fine permanent border plant which endures for many years. 40c each; \$4.00 per doz.

D. albus ruber. *Purple Gas Plant.* 2 ft. June, July. Similar to the above, but has very fragrant flowers of rosy purple. 40c each; \$4.00 per doz.

DIGITALIS - Foxglove

There is an uncommon dignity and stateliness to the Foxgloves which make them invaluable. They should be planted in bold masses, and are best at the back of the border, or grouped in a little bay in the shrubbery.

Digitalis ambigua. *Yellow Foxglove.* 2 ft. June to August. A hardy plant, with slender spikes of medium-sized yellowish flowers, marked with brown. Effective in groups in wild garden or near pale mauve or magenta flowers.

D. purpurea. *Common Foxglove.* 3 ft. June, July. Biennial. Handsome tubular flowers in tall terminal racemes. The blooms are purple on the outside, marked inside with dark purple spots, edged with white. Adapted to wild garden or border, or for planting among shrubbery.

D. purpurea alba. *Common White Foxglove.* Biennial. A beautiful white form of the Common Foxglove.

D. purpurea gloxiniaeflora. *Gloxinia Foxglove.* 3 ft. June, July. Biennial. A highly improved popular variety, with large flowers ranging from pure white to deep purple.

D. purpurea gloxiniaeflora, Isabellina. A desirable pale buff-yellow form of the above. 35c each; \$3.50 per doz.

D. purpurea gloxiniaeflora rosea. A selected form with charming rose-colored flowers.

D., Shirley Hybrids. 5 ft. June, July. Biennial. A magnificent strain raised by the originator of the famous Shirley Poppies. The plants bear flower spikes 4 feet long, carrying blooms of enormous size, ranging from white to dark rose-purple, handsomely spotted with crimson, maroon, and dark mahogany-brown. (Color illustration on page 79.)

DODECATHEON

***Dodecatheon meadia.** *Common Shootingstar.* 1 ft. May, June. A tufted plant from which arise tall slender stems bearing a cluster of rose-colored flowers like small Cyclamens, with the petals bent backward and the stamens forming a sharp point. A most interesting and beautiful plant for grouping in shady places.

DORONICUM - Leopardbane

Doronicum caucasicum. *Caucasian Leopardbane.* (See colored illustration, page 79.) 1 ft. May, June. Yellow Daisy-like flowers generally borne one to a stem. Succeeds well in ordinary soil and is very good for cutting. 35c each; \$3.50 per doz.

C., Mme. Mason. 2 ft. A new improved form of the above with large, clear yellow flowers. 40c each; \$4.00 per doz.

D. plantagineum excelsum. *Showy Leopardbane.* 2 ft. May, June. Vigorous, bushy plants with showy bright yellow flowers about 4 inches across. This is one of the finest tall perennials for the early border. 35c each; \$3.50 per doz.

ECHINACEA

Echinacea purpurea. *Purple Coneflower.* 3½ ft. July, August. Large, reddish purple, daisy-like flowers that persist unusually long, making this a fine plant for late summer bloom. Showy and vigorous growing. 25c each; \$2.50 per doz.

E. purpurea, The King. Just as showy as *E. purpurea* but with even more attractive blossoms. 40c each; \$4.00 per doz.

ECHINOPS - Globethistle

Echinops humilis cyanea. *Dwarf Blue Globethistle.* 3 ft. July, August. Metallic blue flower heads and steel-gray thistle-like foliage. Makes a good cut flower.

E. ritro. *Steel Globethistle.* 4 ft. July, August. Handsome thistle-like foliage and large, globular heads of blue flowers. A wild-garden plant and looks well combined with yellow Helianthus or Plume-Poppy.

ELYMUS

Elymus glaucus. *Blue Lyme-Grass.* 4 ft. A silvery blue-gray grass much used for contrast in large borders.

EPIGAEA

***Epigaea repens.** *Trailing Arbutus.* 4 in. April, May. Matted, evergreen trailer with clusters of intensely fragrant, delicately pink flowers of exquisite beauty. Give it shade, good drainage, and acid, peaty soil. 50c each; \$5.00 per doz.

EPIEDIUM

Choice plants for the rock garden or as a ground cover in shady places. They belong to the very interesting Barberry family, and all are curious and beautiful, the foliage turning a glossy bronzy green in the fall.

***Epimedium macranthum niveum.** *Snowy Epimedium.* 9 in. April to July. A very pretty plant with leaves in groups of three and clusters of pure white flowers with prominent spurs. One of the finest. 40c each; \$4.00 per doz.

***E. macranthum violaceum.** *Violet Epimedium.* 6 in. June. Showy violet flowers borne in loose clusters. 50c each; \$5.00 per doz.

***E. pinnatum sulphureum.** *Yellow Persian Epimedium.* 8 in. April to July. Yellow flowers hidden among glossy green leaves. 50c each; \$5.00 per doz.

Digitalis - Foxglove

ERIGERON - Fleabane

Perennials of very easy culture, producing Aster-like flowers on slender stems rising from a compact rosette of foliage. They bloom early and are very showy planted in masses in the border for rockery, showing up much better in big clumps than as scattered plants.

***Erigeron glabellus.** *Smooth Fleabane.* 8 in. June, July. Large flowers with small golden eye and very slender rays of violet-purple.

***E. speciosus grandiflorus.** *Oregon Fleabane.* 2 ft. June, July. Large, handsome rosy lilac flowers with yellow centers. Very desirable for cutting.

***E. speciosus hybrids.** 18 in. Showy, semi-double lavender flowers.

ERODIUM - Heronbill

Erodium chamaedryoides roseum. *Pink Heronbill.* Pretty, glossy leaves covered with delicate pink veined flowers. 35c each; \$3.50 per doz.

ERYNGIUM - Eryngo

Eryngium amethystinum. *Amethyst Eryngo.* 2 ft. June to September. The handsome flowers, foliage, and stems are deep amethyst-blue. A useful plant for winter decoration when dried.

E. planum. 4 ft. July. Dark blue variety similar to the above.

ERYSIMUM

***Erysimum pulchellum.** *Rockery Blistercress.* 8 in. May, June. A dwarf rock plant bearing tufts of bright sulphur-yellow flowers. Closely related to the Wallflowers.

EUPATORIUM

Eupatorium aromaticum melissoides (Fraseri). *Melissa Thoroughwort.* 3 ft. August to October. Delicate white flowers in large terminal heads. Useful for cutting and grows well in poor, sandy soil.

E. coelestinum. *Mistflower.* 2 ft. August to October. A very compact, wiry-stemmed plant with many heads of lavender-blue, Ageratum-like flowers that last unusually long as cut flowers.

EUPHORBIA

Euphorbia corollata. *Flowering Spurge.* 18 in. July, August. An erect plant bearing broad clusters of tiny pure white flowers which can be used like Gypsophila for mixing with other flowers.

***E. myrsinites.** 6 in. May, June. A very pretty creeper with thick bluish leaves and yellow-orange flowers.

***E. polychroma.** *Cushion Spurge.* 18 in. Bright yellow flower bracts in May, changing to a rosy bronze shade. Very showy in the rock garden, because of its attractive foliage. 35c each; \$3.50 per doz.

FESTUCA

***Festuca glauca.** *Blue Fescue.* 12 in. An ornamental grass which makes dense tufts of very narrow bluish leaves; excellent in contrast with darker foliage. Desirable for rock garden or edging purposes.

Hardy Ferns

Gypsophila, Bristol Fairy

Helianthus autumnale

HARDY FERNS

The Ferns of New England take as readily to cultivation as the common garden flowers. While flowers require a sunny place, Ferns delight in some shady nook; they also can be grown in boxes on the porch or under trees, any place that is shady.

Price of all Hardy Ferns is 25c each; \$2.50 per doz.

- ***Adiantum pedatum.** *American Maidenhair Fern.* 12 to 15 inches. One of the finest native Ferns. Grows with exceedingly graceful fanlike foliage which produces a handsome effect when massed. Plant 8 inches apart.
- ***Asplenium platyneuron (eboneum).** *Ebony Spleenwort.* 12 in. A splendid Fern for stony places and in dry woodlands, and very desirable for rock garden work.
- ***Athyrium filixfemina.** *Lady Fern.* 2 ft. Finely cut foliage of rich green, making a handsome specimen plant if well grown in moist soil, either in sun or shade.
- ***Dennstaedtia punctilobula.** *Hay-Scented Fern.* 18 in. A good massing Fern, with broad fronds. Increases rapidly and is good for naturalizing in sun or shade.
- Dryopteris goldiana.** *Goldie Fern.* 3 ft. Very stately Fern with handsome fronds 12 to 18 inches wide. Its unusual beauty and grace make it desirable in all Fern plantings.
- ***D. marginalis.** *Leather Woodfern.* 2 ft. An evergreen species with leathery, rather stiff foliage, adapted especially to rocky places.
- D. spinulosa.** *Toothed Woodfern.* 2 ft. Strong evergreen Fern; makes a splendid ground cover under shrubs and deserves a place in any collection.
- Onoclea sensibilis.** *Sensitive Fern.* 1 ft. A rather rough Fern with large, triangular fronds. It likes a moist situation and will grow in places too wet for other Ferns.
- Osmunda cinnamomea.** *Cinnamon Fern.* 4 ft. Very handsome Fern of perfect habit with big fronds in circular clusters. Woolly when young and its big "fiddleheads" are interesting and amusing in the spring. Likes rich, moist soil where it develops noble proportions.
- O. regalis.** *Royal Fern.* 3 ft. This very handsome Fern grows to perfection in thin shade with plenty of moisture. Its spore-bearing fronds rise high above the plant and are most decorative.
- ***Polypodium vulgare.** *Common Polypody.* 8 in. A good evergreen Fern for rockwork and borders, forming mats of durable foliage. Plant in well-drained soil in sun or shade.
- ***Polystichum acrostichoides.** *Christmas Fern.* 1 ft. Very hardy evergreen Fern which is useful in almost all positions, especially in the rockery. Very satisfactory, requiring only common, well-drained soil.
- Pteritis nodulosa.** *Ostrich Fern.* 3 ft. One of the handsomest, with big feathery fronds 6 to 10 inches wide. Good at the background of other Ferns or suitable as a specimen. It needs good soil, and will thrive in the sun.
- Woodwardia areolata.** *Chainfern.* 12 in. A coarsely toothed Fern for moist places.

Price of all Hardy Ferns is 25c each; \$2.50 per doz.

FILIPENDULA - Meadowsweet

These are handsome, Spirea-like flowers blooming in early midsummer. They delight in cool, rich soil, and look especially well at the back of the border, where their fernlike foliage and feathery foamy flowers form an admirable background for the plants in front of them. Plant them in bold, broad masses to give the best effect.

- Filipendula hexapetala (Spiraea filipendula).** *Dropwort.* 2 ft. June, July. This fine perennial bears clusters of rather large, cream-white flowers. It prefers a rather dry situation in full sunlight. 35c each; \$3.50 per doz.
- ***F. hexapetala flore pleno.** *Double Dropwort.* 15 in. A handsome double-flowering form of the preceding. 40c each; \$4.00 per doz.
- F. purpurea elegans.** *Showy Japanese Meadowsweet.* 3 ft. June, July. One of the most useful hardy plants, with dark green foliage, and purple-red stems and branches, passing into the silvery pink of the broad corymbs of flowers which are very freely produced. 40c each; \$4.00 per doz.
- F. rubra venusta.** *Carmine Meadowsweet.* 4 ft. June, July. A vigorous plant for the back of the border with very large heads of rich carmine-pink flowers. Splendid with Aconite, Sparks' variety. 40c each; \$4.00 per doz.

GAILLARDIA

Gaillardia aristata grandiflora. *Common Perennial Gaillardia.* 2 ft. June to November. The blooms are 2 to 3 inches across with brown centers, and orange, crimson, and red rays. 25c each; \$2.50 per doz.

- G. aristata, Dazzler.** 3 ft. Large flowers of bright, golden yellow with rich maroon-red centers.
- G. aristata, Mr. Sherbrook.** 3 ft. June to November. Rich, golden yellow flowers with clear yellow centers on stout stems above the pale green foliage. 40c each; \$4.00 per doz.
- G. aristata, Portola.** 3 ft. June to November. Large flowers of brilliant scarlet overlaid with a coppery hue.
- G. aristata, Ruby.** 2½ ft. June to November. Vivid flowers of brilliant ruby-red, excellent for cutting. 40c each; \$4.00 per doz.

GALEGA - Goatsrue

Galega officinalis. *Common Goatsrue.* 2½ ft. June to September. Slender, bushy plant with lilac-purple, pea-shaped flowers in compact racemes.

G. officinalis hartlandi. 3 to 4 ft. July. Mauve.

GENTIANA

G. andrewsi. 6 in. July to October. Flowers deep blue. Prefers moist places.

GERANIUM - Cranesbill

***Geranium sanguineum.** *Blood-red Cranesbill.* 18 in. May to October. The plants are of compact habit, with bright blood-red flowers. Good for wild garden, rock garden, or border.

GYPHOPHILA

Essential plants in every garden, not so much for their own flowers as for the assistance they render by contrast of color and form to showier plants. No satisfactory substitute exists for the feathery, airy grace of Baby's Breath in bouquets of showier, heavier flowers.

- Gypsophila acutifolia.** *Green Gypsophila.* 2½ ft. July, August. Pale pink flowers that are larger than those of *G. paniculata*. The plant is more open in habit and greener.
- G. paniculata.** *Baby's Breath.* 2½ ft. July, August. A very popular, graceful plant good in the border, where it has a charming, misty, soft gray quality. Flowers small, white, in large, loose panicles, excellent for cutting, and mixing with other flowers.
- G. paniculata flore pleno, Bristol Fairy.** 3 ft. June to October. A highly improved double white form, with flowers two to three times as big, beginning to bloom two weeks earlier and continuing throughout the season, blooming on the tips of new side shoots. 40c each; \$4.00 per doz.
- ***G. repens.** *Creeping Gypsophila.* 6 in. June, July. This trailing, spreading plant is fine for steps and rock garden, with myriads of tiny, white flowers in graceful panicles. 35c each; \$3.50 per doz.
- ***G. repens Bodgeri.** 15 in. Early June on. A new pink double flowering dwarf form of Gypsophila of compact habit. Blossoms appear two weeks earlier than any other double form. 40c each; \$4.00 per doz.
- G. repens, Rosy Veil (Rosenschleier).** 2 ft. June to frost. Graceful, blue-green foliage covered with loose clusters of showy, double pink flowers. One of the outstanding Gypsophilas, with a pink more pronounced than *G. Bodgeri*. 40c each; \$4.00 per doz.

Combine Baby's Breath With Other Cut Flowers to Enhance Their Beauty

GEUM - Avens

- Geum chiloense, Fire Opal.** 2 ft. May, October. Dazzling rich scarlet with orange sheen, often 3 inches across. Absolutely hardy! 35c each; \$3.50 per doz. (Color illustration, page 62.)
- ***G. chiloense, Lady Stratheden.** 18 in. July, August. Deeply crimped, semi-double, pure golden yellow flowers. (Color illustration, page 62.)
- ***G. chiloense, Mrs. Bradshaw.** 15 in. June to September. A very choice variety with large, double brilliant scarlet flowers.
- ***G. chiloense, Princess Juliana.** 2 ft. June, July. Large, double, pure orange flowers. 35c each; \$3.50 per doz.

GLOBULARIA - Globe Daisy

- Globularia trichosantha.** *Syrian Globe Daisy.* 6 to 8 in. Small, globular, blue heads rising from evergreen mats in May and June.

HELENIUM - Sneezeweed

An important group of late summer and autumn flowers, bearing some resemblance to the rather common daisy-like type of flower, but distinguished by curiously reflexed rays and a profusion of massed bloom which is quite distinct. The colors are warm and lively, and combine well with other autumn flowers to give color and comfort to the late season. For best effect, of course, they should be planted in broad masses against the shrubbery, and in particular they look well with some of the misty lavender hardy Asters.

- Helenium autumnale.** *Common Sneezeweed.* 4 ft. August, September. An elegant autumn plant with showy golden yellow flowers borne at the top of branching stems. Suitable for planting among shrubbery.
- H. autumnale, Chippersfield Orange.** 4 ft. August, September. A fine new variety with large, showy heads of copper and gold blooms. 50c each; \$5.00 per doz.
- H. autumnale pumilum magnificum.** 18 in. July to frost. A very fine and vigorous plant which produces throughout the summer a continuous supply of splendid, soft, pale yellow flowers. A very free-flowering type useful for borders. 35c each; \$3.50 per doz.
- H. autumnale, Riverton Beauty.** 4 ft. August to October. Its flowers are of a rich lemon-yellow with a large cone of purplish black.
- H. autumnale, Riverton Gem.** 4 ft. August to November. The flowers on opening are old gold suffused with bright terra cotta, changing as they mature to mahogany-red.
- H. hoopesi.** *Orange Sneezeweed.* 18 in. May to August. A fine border plant with very showy, bright orange-yellow flowers. Especially useful for cutting.

HELIANTHEMUM - Sunrose

The suprising beauty of the Sunroses astonishes everyone who is not familiar with them. The wiry little plants form dense, springy tufts which are covered by the dainty, rose-like flowers in great variety of delicate shades of pink, copper, and yellow. The various kinds are much alike in habit but are most variable in the color of the flowers, many of which come double at times. It is an indispensable rock or wall garden plant, especially good for planting on dry banks.

- ***Helianthemum chamaecistus (vulgare).** *Common Sunrose.* 8 in. June, July. An almost shrubby evergreen plant having narrow, rather wiry foliage with a silvery sheen, making a low, thick carpet. Flowers yellow, like small single roses.
- ***H. chamaecistus, Fireball.** 8 in. June to August. A dazzling double red variety with rich green foliage.
- ***H. chamaecistus, Sudbury Gem.** 8 in. June to August. A beautiful silvery gray variety with large, single, rose-pink flowers.
- H. chamaecistus cupreum (hyssopifolium).** 8 in. June to August. A variety with glossy narrow leaves and large, copper-colored flowers. It is especially fine in a dry, sunny position in the rock garden.
- ***H. chamaecistus macranthum.** 8 in. June, July. Pure white flowers of exquisite texture, blotched with yellow at the base of the petals.
- ***H. chamaecistus mutabile.** *Fickle Sunrose.* 8 in. June to August. Dense mats covered with clear rose flowers.

HELIANTHUS - Sunflower

This group is composed of showy plants suitable for bordering woodland paths or massing in a naturalistic fashion along streams or before shrubbery. Their beauty is in the mass of color they make, and they should be used generously for bold effects.

- Helianthus mollis.** *Ashy Sunflower.* 3 ft. July to September. Large, single, lemon-yellow flowers and velvety white foliage. 25c each; \$2.50 per doz.
- H. scaberrimus, Miss Mellish.** 5 ft. August, September. Vigorous plant with large, graceful yellow flowers. 25c each; \$2.50 per doz.

HELIOPSIS - False Sunflower

This family of False Sunflowers is closely related to the preceding group, and may be used for the same purpose, supplying lower, denser-growing subjects than in Helianthus.

- Heliopsis scabra excelsa.** *Rough Heliopsis.* 3 ft. July to October. Chrome-yellow flowers borne abundantly. 25c each; \$2.50 per doz.
- H. scabra incomparabilis.** Add to your garden to fill the gap during the hot summer months. The beautifully shaped semi-double golden yellow blossoms are 3 to 4 inches across, produced in great profusion throughout the summer. 60c each; \$6.00 per doz.

HEMEROCALLIS - Daylily

Much attention has been paid of late to improving the Daylilies, and now a proper selection of varieties will enable one to have them in flower the greater part of the season. They are very decorative, with their ribbon-like foliage and their beautiful Lily-like flowers, especially when grown in clumps at prominent places in the border. The pale lemon types are lovely with light blue flowers such as belladonna Delphiniums, and soft magenta or mauve tones find a happy combination with darker blues and purples. They are very hardy, persistent, versatile plants, succeeding well under practically any soil conditions. They transplant readily and soon establish large and permanent clumps.

- Hemerocallis citrina.** *Citron Day Lily.* 3 ft. June, July. A broad-leaved sort with very fragrant, long flowers of pale sulphur-yellow, borne on tall, graceful stems. Highly desirable for cutting.
- H. dumortieri.** *Early Day Lily.* 18 in. May, June. Rich cadmium-yellow buds and reverse of petals bronze-yellow. 25c each; \$2.50 per doz.
- H. flava.** *Lemon Day Lily.* 3 ft. May, June. Flowers clear lemon-yellow and very fragrant. Fine for cutting. Charming in masses on the banks of streams or in clumps in borders. This is an old New England favorite of spreading type whose sweet scented flowers are borne early and heavily.
- H. fulva.** *Tawny Day Lily.* 2 ft. June, July. Handsome foliage with trumpet-shaped flowers of dusty orange with darker, almost crimson shading. Attractive in semi-wild spots on the edge of water. A very vigorous and persistent plant. 25c each; \$2.50 per doz.
- H. gracilis.** *Dwarf Day Lily.* 15 in. Early May to July. Distinct grass-like foliage; lemon-yellow flowers. The first to bloom. Does well in sun or shade.
- H. thunbergi.** *Japanese Day Lily.* 3 ft. July. Rich, clear buttercup-yellow; sweet-scented flowers.

HYBRID HEMEROCALLIS

2 to 4 feet

These are all highly improved sorts, with purer color and flowers of higher finish than the species. Very splendid garden pictures can be made by placing them in appropriate locations. They look especially well near pools, although they are in no sense water plants. These varieties greatly extend the blooming season of Day Lilies so that continuous bloom may be secured all summer. Of the many varieties introduced in recent years, we believe the following varieties are the best for vigor, color, and landscape value.

- Bay State.** Tall variety with deep yellow blossoms with a wavy edge. A persistent bloomer from early July to middle August.
- Cressida.** A lovely deep reddish orange with narrow band across center. It is of medium height, with heavy foliage, and blooms from the middle of July to middle of August.
- D. D. Wyman.** Light golden yellow at first, with a tawny splash across center of petal, becoming paler with maturity. Late July.
- Goldeni.** A bushy sort with heavy foliage and deep orange flowers on short stems in June and July.
- Highboy.** 5 ft. Pale lemon-yellow from late August through September. 50c each; \$5.00 per doz.
- Hyperion.** 40 in. Immense pale lemon-yellow flowers. A plant of great vigor and beauty, producing its fragrant flowers throughout July and early August. 75c each; \$7.50 per doz.
- J. A. Crawford.** Very open, apricot-yellow blossoms appearing early in July.
- Lemona.** A splendid pale lemon-yellow which grows about 4 feet high and blooms in late July and into August.
- Margaret Perry.** 3 ft. Brilliant orange-scarlet with a conspicuous yellow line through each petal. July, August.
- Mikado.** June. Yellow with large blotches of mahogany red. 50c each; \$5.00 per doz.
- Modesty.** Medium to large, pale yellow blooms on slender stems from middle to late July. Extremely graceful and flowers abundantly produced.
- Mrs. W. H. Wyman.** A wonderful sort and one of the very last to bloom. About the same height as Lemona, but just a shade lighter. Blooms from mid-July to latter part of August. 50c each; \$5.00 per doz.
- Ochroleuca.** 3 ft. Erect habit of growth. Clear citron-yellow flowers in July and August. Flowers heavily.
- Royal.** July. Large flowers of uniform clear yellow.
- Wau-Bun.** July. 3 ft. Large clear yellow flowers. 50c each; \$5.00 per doz.

HEPATICA

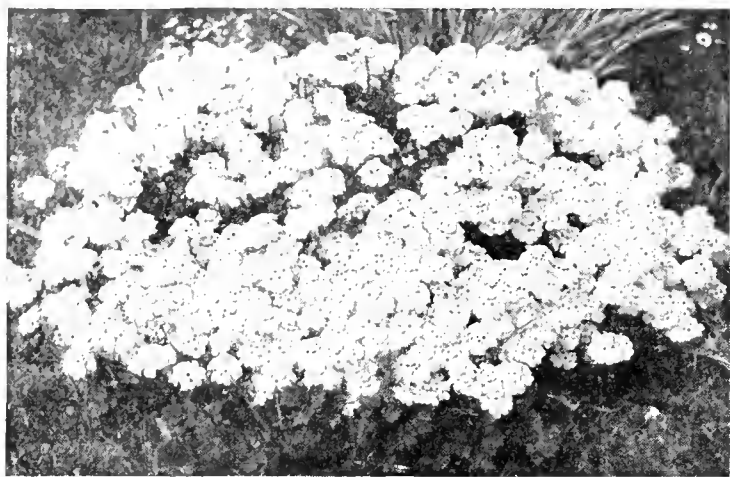

- ***Hepatica triloba.** *Round Lobe Hepatica.* 6 in. April, May. Flowers white, dark rose, or purple. Good for eastern and northern exposures in the rock garden and shady places generally. 25c each; \$2.50 per doz.

HERBS

(See pages 70 and 71)

HESPERIS - Rocket

- Hesperis matronalis.** *Dame's Rocket.* 3 ft. June, July. Fragrant rosy lavender flowers in showy spikes. Desirable for wild garden, shrubbery, or mixed border. 25c each; \$2.50 per doz.
- H. matronalis alba.** *White Dame's Rocket.* Same height and season as above, but showy terminal spikes of white flowers. 25c each; \$2.50 per doz.

*Iberis sempervirens***HEUCHERA - Alumroot**

Abroad, these pretty perennials are called "Fairy Lanterns", a name they deserve for their delicacy and grace. They make handsome rosettes of good looking leaves from which rise slender, swaying stems bearing showers of tiny bells. They look well about a sun-dial, at the edge of a pool, or planted among rocks, or at the edge of the perennial border. They flower throughout the summer.

- ***Heuchera brizoides**, *Pink Bells*. 15 in. June to August. Pale pink flowers on slender red stems, rising from green mats.
- ***H. sanguinea**, *Coralbells*. 18 in. June to September. A splendid border or rock plant with big rosettes of leaves from which rise clusters of slender stems bearing showers of tiny crimson bells.
- ***H. sanguinea alba**, *White Coralbells*. A variety of the above having white flowers.
- ***H. sanguinea**, *Edge Hall*. 15 in. June to September. Bright apple-blossom-pink flowers.
- ***H.**, *Pluie de Feu*. 15 in. June to September. A lovely, bright coral-red variety, and a vigorous grower.
- H.**, *Rosamundi*. 15 in. June to September. A very strong grower, producing an abundance of tall, strong stems crowned with intense coral-pink flowers in great profusion. Finest of the pink varieties.

HIBISCUS - Mallow

- Hibiscus moscheutos**, *Marvel Mallows*. *Common Rosemallow*. 4 ft. August, September. Robust plants with giant flowers often 6 to 8 inches in diameter. Useful in shrub border to give color when the shrubs are out of flower, but highly decorative in any situation. They do well in almost any location, but enjoy moisture at the root. Red, white, and pink, in separate colors. 40c each; \$4.00 per doz.
- H. moscheutos**, *Mixed Colors*. 25c each; \$2.50 per doz.

HOSTA - Funkia; Plantainlily

Shade-loving plants that look well just at the edge of a heavy shrub border, or along shady paths. The flowers are like small, clustered Lilies and rise on tall stems above the big, glossy leaves. Decorative in or out of flower.

- Hosta caerulea**. 2 ft. July-August. Violet-blue.
- H. lancifolia albo-marginata**, *Silveredge Plantainlily*. 2 ft. June, July. A fine foliage plant with handsome white-margined leaves and light blue flowers.
- H. lancifolia undulata**, *Wavyleaf Plantainlily*. 1 ft. June, July. Fine variegated blue-green foliage and blue flowers. One of the best for edging.
- H. ovata**, *Thomas Hogg*. 1 ft. August, September. Rich, large green leaves outlined with a narrow strip of clear silvery-white. Big spikes of trumpet-shaped lavender flowers in profusion. Without doubt, the best of the variegated varieties for edgings in sun or shade.
- H. plantaginea grandiflora**, *Big Plantainlily*. 18 in. August, September. This is the variety found in old gardens and yards, with big ribbed light green leaves and tall stems of waxy white flowers. 35c each; \$3.50 per doz.

HOUSTONIA

- Houstonia caerulea**, *Bluet*. 4 in. April. Compact tufts covered with tiny blue flowers. Prefers a moist, shady location.

HYPERICUM - St. Johnswort

- ***Hypericum moserianum**, *Goldflower*. 12 in. June to October. A free-flowering species. Rich, golden yellow flowers, and conspicuous, crimson-tipped stamens. 40c each; \$4.00 per doz.

IBERIS - Candytuft

Edging and rock plants of much refinement and beauty. They should be planted in broad clumps or long lines, and they like to be left alone when once established.

- ***Iberis gibraltarica**, *Gibraltar Candytuft*. 1 ft. May, June. White flowers tinged rose. One of the most striking and showy sorts and not always obtained easily as the true stock is fairly rare. 25c each; \$2.50 per doz.
- ***I. sempervirens**, *Evergreen Candytuft*. 10 in. May. Of loose, spreading habit and distinctive narrow evergreen foliage. Flowers pure white, completely covering the plant. Splendid for rock garden; good for edging borders.

- ***I. sempervirens**, *Little Gem*. 6 in. May. A miniature form of the above which blooms profusely and makes a splendid little evergreen rock plant or edging.
- ***I. sempervirens**, *Snowflake*. 12 in. Early May. An early-flowering variety, with large, snowy white flowers.
- ***I. tenoreana**, *Tenore Candytuft*. 10 in. June, July. Showy masses of white tinged with lavender.

INCARVILLEA

Incarvillea delavayi, *Trumpetflower*. 18 in. June, July. A hardy, tuberous-rooted plant, and one of the choicest perennials yet introduced. The large, rose-colored, trumpet-shaped flowers are produced in clusters and have unusual lasting qualities. Good border plants for sheltered positions. 35c each; \$3.50 per doz.

IRIS

Irises appeal both to the connoisseur who enjoys their delicacy of texture, beauty of form, and the exquisite colorings, ever modified by the interplay of light, shadows, and reflections within the complexity of the flower, and also to the "quick and easy" back-yard gardener because of their everlasting willingness to grow anywhere and bloom their heads off without any attention at all. They rank among the most important of all plants and share the top of the perennial list only with the Peony.

IRIS SPECIES

There are some very interesting plants among these, many excellent for low masses of bright color in the rock garden, many splendid for naturalizing and others suitable for large, permanent border plantings.

- ***Iris cristata**, *Crested Iris*. 5 in. April, May. A very dwarf species with charming light blue flowers marked with white. Pretty at the edges of borders or on a rock ledge. 25c each; \$2.50 per doz.
- ***I. pumila aurea**. Clear yellow.
- ***I. pumila**, *white*. A large, showy pure white variety.
- ***I. pumila**, *Charmer*. Light blue.
- ***I. pumila**, *Sambo*. 10 in. Dark purple with crimson veins.
- ***I. sibirica**, *Siberian Iris*. 3 ft. June. Erect, lancelike foliage in upright clumps bearing many pale blue flowers. Fine for moist locations. 25c each; \$2.50 per doz.
- I. sibirica**, *Perry's Blue*. 3 ft. June. Vigorous plant of free-flowering habit. Color a beautiful shade of sky-blue.
- I. sibirica**, *Snow Queen*. 3 ft. June, July. Large, exquisite snow-white flowers in great abundance. A gem for border or waterside.

IRIS GERMANICA - German Iris; Tall Bearded Iris

This class of Iris is particularly adapted for the wild garden, shrubbery border or any well-drained garden soil. They bloom early and their variety of color is infinite. Very useful for cutting, the buds opening rapidly in water. They should be planted in full sunlight, in well-drained soil, and it is conceded that a little lime now and then is beneficial.

During the past few years many new varieties of German Iris have been available, many of them good, many without particular merit. We feel that the following list is representative of the better Iris, covering a complete color range and particularly selected for their effectiveness in landscape plantings.

- "S" means Standards. "F" means Falls.
- Ambassadeur**. S. lavender with smoky stains and crystalline texture; F. glorious purple with a silky velvety sheen of glowing crimson. Large flowers on strong, well-branched stems. One of the best.
- Clara Noyes**. 36 in. S. bright apricot, suffused rose-red. F. peach overlaid with copper. A lovely medley of Talisman Rose colors. 35c each; \$3.50 per doz.
- Day Dream**. 38 in. Fine large flowers. S. shimmering pink suffused with pale yellow. F. lilac-pink darker than the standards.
- Dolly Madison**. 36 in. A soft mauve and yellow blend in gigantic flowers of perfect shape on tall, strong stems. 25c each; \$2.50 per doz.
- El Capitan**. 40 in. S. and F. light violet. Well-branched stems carrying a large number of flowers. 35c each; \$3.50 per doz.
- Lent A. Williamson**. 3½ ft. S. soft violet; F. velvety purple with gold beards. 35c each; \$3.50 per doz.
- Pallida Dalmatica**, *Princess Beatrice*. 36 in. Still one of the most attractive varieties as well as most satisfactory. Large flowers of a clear lavender-blue, shading to a pale silvery-blue at the base, and sweetly scented.
- Pink Opal**. 40 in. A uniform pink-toned Iris of exquisite beauty. 35c each; \$3.50 per doz.
- Pluie d'Or**. 40 in. S. and F. clear, intense golden yellow. A hardy and floriferous variety; excellent for landscape planting. 25c each; \$2.50 per doz.
- Pres. Pilkington**. 46 in. S. lustrous buff with faint blue suffusion. F. wide and flaring of lavender-blue with a wide buff margin. A magnificent vigorous and sturdy Iris of outstanding color. 35c each; \$3.50 per doz.
- Primrose**. 36 in. S. deep yellow. F. pale yellow. A handsome flower of fine form and substance.
- Rameses**. 40 in. S. rich rose with a yellow glow at the center.
- Seminole**. 2½ ft. S. and F. rich velvety crimson. Late. 35c each; \$3.50 per doz.
- Souvenir de Mme. Gaudichau**. 3½ ft. S. and F. deep velvety purple. Early. 35c each; \$3.50 per doz.
- Venus de Milo**. 40 in. A superb Iris of rich creamy white with a fine gold beard. Considered one of the best white Iris. 35c each; \$3.50 per doz.

HARDY PERENNIALS

With the finest material now within the reach of every purse, let us make our gardens as beautiful as we can, filling them with flowers of our choice so essential to peace and happiness.

HARDY GARDEN ASTERS

Varieties as follows: Blue, Skylands Queen; White, Mt. Everest; Pink, Harrington's Pink. (See page 53.)

ALTHEA - Hollyhock

Colors: Pink, Salmon, Red, Yellow, White, and Mixed. Price: Single or double, 25c each; \$2.50 per doz.

ALYSSUM Saxatile citrinum

Lovely pale yellow flowers, excellent when combined with pink or lavender. Price: 35c each; \$3.50 per doz.

*"Spend all you have for loveliness.
Buy it and never count the cost;
For one white singing hour of peace
Count many a year of strife well lost."*
—SARAH TEASDALE.

ANCHUSA, Dropmore

An improved variety with tall spikes of rich gentian-blue flowers. Price: 30c each; \$3.00 per doz.

ANTHEMIS Kelwayi

Succeeds in poor soil, excellent for cutting. Price: 30c each; \$3.00 per doz.

AQUILEGIA, Long Spurred

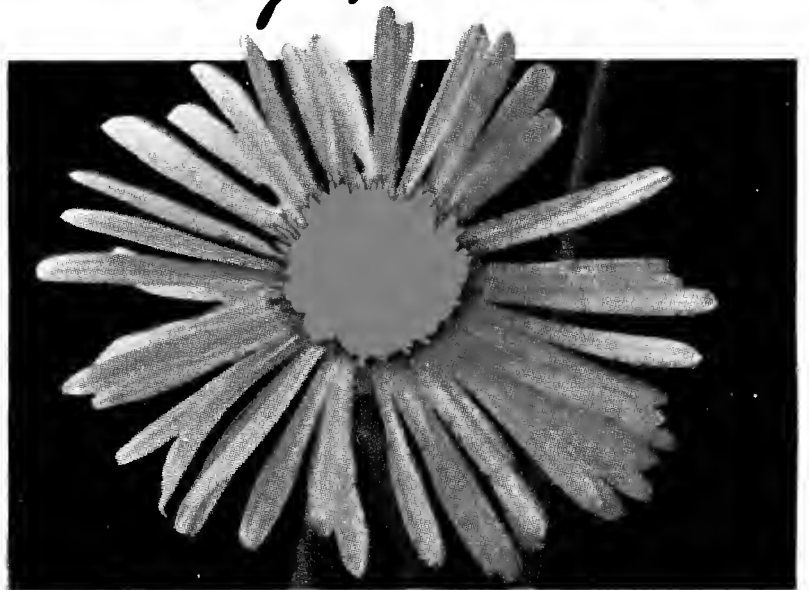

Columbine—available in mixed colors only. Price: 30c each; \$3.00 per doz.

Hardy Perennials

LUPINUS

LUPINUS - The New English Strain Russell Lupine
Available in glorious shades of crimson, scarlet, pink, yellow, and blue. Price: 40c each; \$4.00 per doz.

ASTER - Star of Eisenach

Superior lilac-blue flowers with orange centers. Measuring 2½ to 3 inches in diameter. Price: 40c each; \$4.00 per doz.

GEUM - Avens

Fire Opal. Dazzling orange-scarlet. 35c each; doz., \$3.50.
Lady Stratheden. Rich golden yellow. Price: 30c each; \$3.00 per doz.

PAPAVER ORIENTALE - Oriental Poppies

Enjoy the different shades of color that can be obtained in the Hybrid Oriental Poppies. 35c each; \$3.50 per doz.

IRIS KAEMPFERI - Japanese Iris

Extremely showy plants, bearing enormous, flat, salver-like flowers in many shades of white, lavender, purple, violet, blue, and beautifully veined types. Bloom about one month after the German Iris varieties, usually in mid-July. They like a moist spot and full sun, but do well in dry soil if plenty of water is supplied at blooming time. This is one of the finest groups of perennials; so different from other Iris that they seem to belong to a different family.

Blue Bird. Intense blue throughout.

Gold Bound. Large white flowers, yellow center; 6 petals. 40c each; \$4.00 per doz.

Kagarabi. Lavender-blue.

Mahogany. Dark red, shaded maroon; 6 petals; very distinct. 40c each; \$4.00 per doz.

Manadzuru. White veined with blue; 6 petals.

Norma. Double; shining lavender-pink, tinged blue and gold at center. Large and fine. 40c each; \$4.00 per doz.

Otomenewood. Early and free bloomer; rich royal purple.

Purple and Gold. Rich, violet-purple. Gold center; 6 petals.

Templeton. Red; 6 petals.

Venus. Pure white. A strong grower and free bloomer.

Wase-banri. Lavender.

KNIPHOFIA - Torch Lily; Tritoma

Kniphofia uvaria grandiflora. *Dayglow Torch Lily.* 3 ft. August, September. Large spikes of rich red flowers, changing to salmon, produced on plants with long strap-like leaves.

K. uvaria grandiflora, Salmon. 3 ft. Large numbers of salmon spikes, making a colorful display in late summer. Fine for cutting.

K., Towers of Gold. 3 ft. Large golden yellow spikes. 40c each; \$4.00 per doz.

LAMIUM

Lamium maculatum. *Spotted Deadnettle.* 8 in. May to September. Green foliage with white veins. Curiously hooded reddish purple flowers, not as showy as some but they persist so long and foliage is so good, that we recommend it.

LATHYRUS - Pea

Lathyrus latifolius. *Perennial Pea.* 4 ft. July to September. Clusters of large, bright rosy red flowers on long stems, produced in abundance. Can be used as a tall, bushy perennial, or makes an excellent vine for covering rocks, stumps, and walls.

L. latifolius albus. *White Perennial Pea.* 4 ft. July to September. A white-flowering variety of the above, useful for the same purposes.

L. latifolius, Pink Pearl. 4 ft. July to September. An improved variety with clusters of large pink flowers.

LAVANDULA - Lavender

***Lavandula officinalis (vera).** *True Lavender; English Lavender.* 1 ft. July, August. This is the true Sweet Lavender. Delightfully fragrant blue flowers and gray foliage.

***L. spica.** *Spike Lavender.* 18 in. July, August. A little lighter in color than the preceding, with shorter, denser spikes of flowers and even stronger and more pervasive scent. 25c each; \$2.50 per doz.

LEONTOPODIUM

***Leontopodium alpinum.** *Common Edelweiss.* 6 in. June to August. A famous alpine plant for well-drained, stony soils. The tiny white flowers are surrounded by woolly, silvery gray foliage.

LIATRIS - Gayfeather

Liatris pycnostachya. *Cat-Tail Gayfeather.* 4 ft. August to October. A most striking and desirable plant, with great rocket-like spikes of pale purple flowers. Excellent for the border or among shrubbery. 25c each; \$2.50 per doz.

L. scariosa. 2½ ft. June, July. An early flowering type with good, clear purple flowers.

LIMONIUM

***Limonium latifolium.** *Bigleaf Sea-Lavender.* 2 ft. July, August. A most valuable plant either for the border or for the rockery. It bears tufts of leathery foliage and immense candelabra-like heads of minute, purplish blue flowers, the sprays often 1½ ft. high and 2 ft. across. If cut and dried, the flowers last in perfect condition for months.

LINARIA

***Linaria cymbalaria.** *Kenilworth Ivy.* June to October. A trailing plant or vine with ivy-like leaves and dainty little lavender flowers. A perfect plant for rock crevices, flagstones, or walls. 25c each; \$2.50 per doz.

L. dalmatica. *Dalmatian Toadflax.* 3 ft. Flowers golden yellow. Fine for cutting. 25c each; \$2.50 per doz.

LINUM - Flax

***Linum flavum.** *Golden Flax.* 1 ft. June, July. A neat, bushy plant with numerous yellow flowers.

***L. narbonne.** *Narbonne Flax.* 1 to 2 ft. May-June. Azure-blue flowers.

***L. perenne.** *Perennial Flax.* 18 in. May to August. A desirable bushy little plant with wiry stems and a multitude of large clear blue flowers. Good in the border with oriental poppies.

***L. perenne album.** *White Perennial Flax.* A white-flowered variety.

LILIUM - Lily

The Lilies are a marvelously beautiful group of bulbous plants. They merit a great deal of attention in all perennial plantings. The white kinds are most highly decorative and look best in more or less formal surroundings, while the red and orange kinds are more adapted to the edges of shrubbery or to meadow planting. Most Lilies require a little shade about their roots, and for that reason are best planted among low shrubs or under thin trees. They like good, well-drained soil, but with no manure.

Lilium auratum. *Goldband Lily.* 3 ft. July to August. Pure white with flecks of crimson and a gold stripe through each petal. 35c each; \$3.50 per doz.

L. auratum platyphyllum. *Goldband Lily.* 5 ft. July, August. Gigantic, pure white flowers with tiny crimson spots and a broad gold band through each petal. Especially effective scattered in evergreen beds or massed in generous clumps in the perennial border. Flowers are especially fragrant. 40c each; \$4.00 per doz.

L. candidum. *Madonna Lily.* 3 ft. June, July. The most popular and most beautiful of garden Lilies is the old-fashioned Madonna Lily. Our bulbs are the true Northern France type, very hardy and disease-resistant. They should be planted in quantities in all gardens, to flower with the blue Delphiniums or to display their loveliness against a background of evergreens. The delicious fragrance of the snow-white flowers, arranged like a snowy pyramid about the tapering stem, is not equalled by any other Lily. 35c each; \$3.50 per doz.

L. elegans. 18 in. July. A dwarf sort, bearing clusters of erect flowers varying from orange to deep maroon.

L. giganteum. *Giant Lily.* 8 ft. July, August. The most majestic of Lilies bearing immense, long, white trumpet-shaped, fragrant flowers. Groups of this noble Lily in woodland or wild garden produce a grand effect. Plant very shallow and give an abundance of leaf mold.

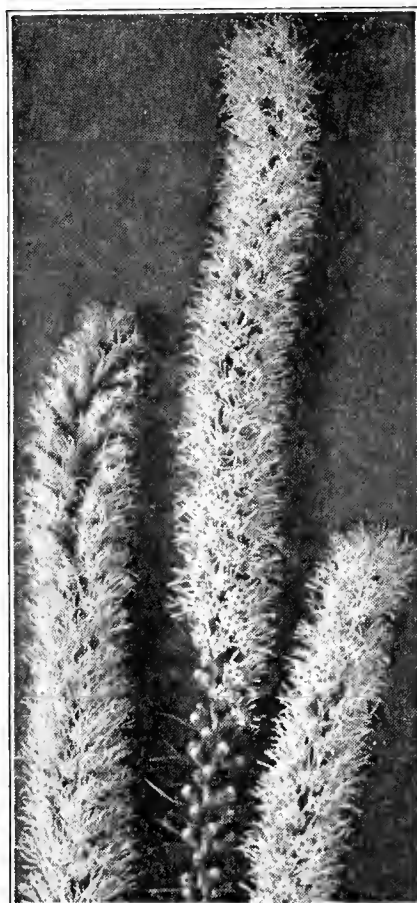

L. henryi. *Henry Lily.* 4 ft. July, August. A very tall, sturdy Lily bearing giant sprays of reflexed, bright apricot-orange flowers somewhat like the speciosums, each marked by a rich emerald-green crease at the base of each petal. Needs shade at the root and sun for the flowers. 40c each; \$4.00 per doz.

L. regale. *Regal Lily.* 3 ft. July. This variety has enormous white flowers, shaded pink or purple, with a canary-yellow center. Undoubtedly the easiest of the white Lilies to grow and will grow almost anywhere, so long as the flowers can reach the sunlight. 40c each; \$4.00 per doz.

L. speciosum album. *White Speciosum Lily.* 3 ft. August, September. Large, pure white, fragrant flowers with reflexed petals. 40c each; \$4.00 per doz.

L. speciosum rubrum magnificum. *Red Speciosum Lily.* 3 ft. August, September. Large, fragrant reflexed flowers of light pink with a crimson stripe and many deep pink dots. Fine for planting among evergreens. 35c each; \$3.50 per doz.

L. tenuifolium. *Coral Lily.* 18 in. July. Slender, narrow-leaved plants with drooping smallish flowers of coral and vermilion. Very pretty and showy.

Liatris pycnostachya

Kniphofia

Except Where Otherwise Noted, Perennials are 30c Each; \$3.00 per Dozen

LOBELIA

Lobelia cardinalis. *Cardinal Flower.* 3 ft. July, August. A very showy plant with long spikes of scarlet flowers and handsome green foliage. Desirable for planting along water's edge, but will grow in other places as well. One of the slowest border plants for summer.

L. syphilitica. *Large Blue Lobelia.* 2 ft. July, August. An interesting plant with dense spikes of showy deep blue flowers. One of the nicest blue flowers for July and August.

LUPINUS - Lupine

The Lupines dominate the garden picture in early June just before the Delphiniums flower. While they have long been grown to a limited extent, we are just beginning to realize the possibilities of these beautiful plants. They delight in deep, well-drained soils in sunny situations and resent being disturbed when once established. One or two plants do not make much of a show; they should be planted by the dozen or hundred.

Lupinus polyphyllus. *Washington Lupine.* 3 ft. June to September. Beautiful plants with handsome leaves and deep blue, pea-shaped flowers in bold, long spikes. Cut off faded flowers to insure continuous bloom. 25c each; \$2.50 per doz.

L. polyphyllus albiflorus. *White Washington Lupine.* 3 ft. June to September. Fine, bold showy plant with white flowers. 25c each; \$2.50 per doz.

L. polyphyllus roseus. *Blush Lupine.* 3 ft. June to September. Very charming sort with rosy pink flowers. A free bloomer. 25c each; \$2.50 per doz.

L., Downer's Hybrids. 2-3 ft. June to September. Blue, purple, pink, and white shades.

L., Russell Hybrids. (See color illustration on page 62.) 5 ft. June to September. A new English strain of extraordinary colors with many shades never before seen in Lupines. Superb spikes closely set with large individual flowers, resembling a round column of sweet peas. 40c each; \$4.00 per doz.

LYCHNIS - Campion

A much-varied family of old-fashioned plants which have been grown under various names—Viscaria, Lychnis, Agrostemma, etc. They are all permanent and pleasing and full of old-time charm. The individual plants are usually small and should be massed to secure showy effect.

***Lychnis alpina.** *Arctic Campion.* 4-in. May to June. Rose-pink.

L. chalcedonica. *Maltese Cross.* 2 ft. June to August. An old and valued plant with terminal heads of very showy orange-scarlet flowers. 25c each; \$2.50 per doz.

***L. coronaria.** *Rose Campion.* 15 in. July. A woolly, branching plant with silver-gray leaves bearing carmine flowers.

***L. coronaria alba.** *White Campion.* 15 in. July. Same as above, but white.

***L. viscaria splendens.** fl. pl. *Double Rose-Pink Campion.* A splendid variety of tufted habit with double rose-colored flowers. Prefers a sunny location.

LYSIMACHIA - Loosestrife

Lysimachia clethroides. *Clethra Loosestrife.* 2 ft. July to September. A pretty border perennial with long, dense spikes of starry white flowers; splendid for cut flowers.

***L. nummularia.** *Moneywort.* 4 in. June, July. A rapid-growing, creeping plant with round, shining leaves arranged in pairs, and small, yellow, bell-shaped flowers. 25c each; \$2.50 per doz.

L. punctata. *Spotted Loosestrife.* 2 ft. June, July. Grows in dense clumps, with light yellow flowers close to stem. 25c each; \$2.50 per doz.

LYTHRUM

Lythrum salicaria atropurpureum. *Purple Loosestrife.* 4 ft. July, September. Very showy purple spikes. For moist soils or at edges of pools or streams. 25c each; \$2.50 per doz.

L. salicaria roseum. *Rose Loosestrife.* 4 ft. July to September. A strong, erect plant with spikes of rosy flowers. Splendid for banks of streams. 25c each; \$2.50 per doz.

L. virgatum. *Wand Lythrum.* 4 to 5 ft. July to September. A more slender plant than *L. salicaria* with smaller flowers but of a deeper, more intense shade of rose-pink and purple. 25c each; \$2.50 per doz.

MALVA - Mallow

Malva moschata. *Musk Mallow.* 2 ft. July to September. Fragrant, rosy tinted, hollyhock-like flowers in clusters. A very pretty and deserving plant which should be massed in borders. 25c each; \$2.50 per doz.

M. moschata alba. *White Musk Mallow.* A white form of the above. 25c each; \$2.50 per doz.

MARRUBIUM

Marrubium vulgare. *Horehound.* 18 in. An aromatic herb with pungent, gray-green foliage. 25c each; \$2.50 per doz.

MATRICARIA

Matricaria, Snowball. *Double Feverfew.* 15 in. July to September. Attractive fernlike foliage covered with small, double, daisy-like flowers. Fine for bedding purposes. 25c each; \$2.50 per doz.

M., Goldenball. *False Camomile.* 10 in. A dwarf, golden yellow border plant for late fall. Flowers like miniature Chrysanthemums. 25c each; \$2.50 per doz.

MELISSA

Melissa officinalis. *Lemon Balm.* 18 in. An herb with lemon scented foliage and inconspicuous yellow flowers. 25c each; \$2.50 per doz.

MENTHA - Mint

Mentha crispa. *Curly Mint.* 18 in. July. Broad, soft green leaves with wrinkled edges and tiny spikes of lavender-blue flowers.

M. piperita. *Peppermint.* 18 in. July. A well-known useful herb with fragrant foliage and lavender flowers. Thrives well in any soil. 25c each; \$2.50 per doz.

M. piperita curtisi. 15 in. July, August. A compact form with blue flowers.

M. rotundifolia. *Apple Mint.* 2 ft. July, August. Purple flowers in dense spikes 4 in. long. 25c each; \$2.50 per doz.

M. spicata. *Spearmint.* 18 in. July, August. Purplish flowers on slender spikes. Foliage has attractive taste and fragrance. 25c each; \$2.50 per doz.

M. spicata anisatus. *Anise-Flavored Spearmint.* 15 in. Small green leaves with delightful anise and mint flavor.

M. tomentosa. *Gray-Leaved Peppermint.* 15 in. July, September. Gray foliage and spikes of light blue flowers. 25c each; \$2.50 per doz.

MERTENSIA

***Mertensia virginica.** *Virginia Bluebells.* 18 in. April to June. A delightful plant that naturalizes perfectly, forming dainty masses and flowering profusely in sheltered, shady borders. Light blue, nodding, bell-shaped flowers changing to pink. The light green foliage disappears in midsummer. 25c each; \$2.50 per doz.

MISCANTHUS - Eulalia

Miscanthus sinensis. *Eulalia.* 6 ft. A fine ornamental grass with very fine leaves, making a big foundation-like clump from which its plummy flowers rise on stiff stems several feet above the leaves. Splendid for specimens and bordering paths or drives. 25c each; \$2.50 per doz.

M. sinensis variegatus. *Striped Eulalia.* 4 to 6 ft. Similar to *M. sinensis* but the leaves are wider with white stripes. 25c each, \$2.50 per doz.

MITCHELLA

***Mitchella repens.** *Partridgeberry.* 3 in. July. A little trailing evergreen which forms mats in shady places and covers itself with tiny white flowers followed by sparkling crimson berries. It likes a very acid and moist but well drained situation.

MONARDA

Bold, native plant much used in landscape work for broad, showy effects. They do well at the back of ordinary borders, in full sun. The flowers have a rich bergamot fragrance.

Monarda didyma. *Oswego Beebalm.* 3 ft. June to September. Showy heads of brilliant scarlet flowers in rich profusion. Very effective.

M. didyma, Cambridge Scarlet. 3 ft. July to September. Heads of brilliant scarlet flowers. An improved variety.

M. didyma hybrids. 2½ ft. July, August. Showy clumps in varying colors; white, lavender, purple.

M. didyma salmonea. *Salmon Beebalm.* 2 ft. July to September. A rather uncommon sort with flowers of soft salmon-pink. It likes a moist situation, and is beautiful in large groups. 35c each; \$3.50 per doz.

MYOSOTIS

Finest of all edging plants for borders of spring-flowering bulbs, the forget-me-nots are equally good for informal rock gardens. These are among the prettiest and showiest of flowers, especially fine when planted in combination with pale pink or creamy yellow flowers.

***Myosotis alpestris.** *Alpine Forget-Me-Not.* 8 in. April, May. A dwarf, compact form with fine, sky-blue flowers. 25c each; \$2.50 per doz.

***M. scorpioides semperflorens.** *Perpetual Forget-Me-Not.* 8 in. June to September. Bright blue flowers in clusters, each one lit with a bright yellow eye. A very charming edging or rock garden plant. Fine for ponds and streams, growing well even in the water. 25c each; \$2.50 per doz.

NEPETA

Nepeta cataria. *Catnip.* 18 in. July, August. Gray-green foliage and pale blue flowers. 25c each; \$2.50 per doz.

***N. hederacea (glechoma).** *Ground Ivy.* 4 in. May, June. A low plant with pretty, round foliage and light blue flowers. As it creeps extensively, it is desirable for covering banks or under trees, spreading rapidly. A terrific weed if permitted to get into flower beds, it should be rigorously kept to dry shady corners where nothing else will grow. 25c each; \$2.50 per doz.

***N. mussini.** 12 in. May to September. An excellent plant for any position, but especially useful in the rock garden. It is compact, forming dense, gray-green tufts with masses of small, light violet-blue flowers.

N. nervosa. 12 in. May to September. Vivid, light blue flowers above neat, dark green foliage. 25c each; \$2.50 per doz.

N., Six Hills Giants. 15 in. May to September. A neat, compact plant producing larger and finer flowers than *N. mussini*, and foliage a more silvery gray. Makes a fine show in the border or as an edging to paths in dry, sunny locations, and the flowers are excellent for cutting. 40c each; \$4.00 per doz.

N., Souvenir d'Andre Chaudron. 20 in. June to August. A distinct, upright-growing plant with silvery gray foliage and large mauve-blue flowers. Requires a dry, sunny position. Quite distinctive from *N. mussini*, and better adapted for the mixed border, flowering from mid-summer on. 35c each; \$3.50 per doz.

NIEREMBERGIA

- ***Nierembergia caerulea.** *Blue Caps.* 8 in. Produces an abundance of showy, small cup-shaped blooms of clear lavender-blue all summer above mats of fine needle-like foliage. 25c each; \$2.50 per doz.
- ***N. rivularis.** *White Cup.* 3 in. July to September. Beautiful dwarf alpine plant with large, creamy white, cup-shaped flowers. A very adaptable and extraordinarily persistent plant for dry borders or rock gardens.

OENOTHERA

- Oenothera fruticosa major.** *Bush Sundrops.* 2 ft. June to September. A strong-growing plant, forming a dense bush bearing deep yellow flowers in profusion.
- O. fruticosa youngi.** *Young's Sundrops.* 2 ft. June to August. Strong, stocky, large-leaved plant with firm, shiny foliage and numerous bright lemon-yellow flowers.
- ***O. missouriensis.** *Ozark Sundrops.* 10 in. June to August. Low-branched, almost prostrate plants, bearing a profusion of large, bright yellow, solitary flowers often 5 inches across.

ORIGANUM

- Origanum majorana.** *Sweet Marjoram.* 18 in. July. An herb with fragrant leaves and tiny white flowers. 20c each; \$2.00 per doz.
- O. vulgare.** *Wild Marjoram.* 18 in. July. Aromatic foliage and tiny pink flowers. For herb gardens. 25c each; \$2.50 per doz.

PACHYSANDRA

- Pachysandra terminalis.** *Japanese Spurge.* 8 in. May, June. Low-growing evergreen plant with short spikes of white flowers. A splendid evergreen ground cover, with attractive dark green leaves which make a rich mat of foliage in shady places where grass will not grow. A good border for beds of evergreens.

Nepeta mussini

PAEONIA - Peony

There is no question that Peonies are one of the most important of the hardy perennials. The plants grow easily, are beautiful in foliage all season long, become larger and finer year by year, and are superbly beautiful when in flower, either for garden decoration or cutting. The numbers following the names of the varieties indicate the rating of their merit upon the basis of 10 as perfection, as determined by a symposium among the members of the American Peony Society.

- Baroness Schroeder.** 9.0. Very large white flowers sometimes tinted pale pink, fragrant and floriferous. 60c each; \$6.00 per doz.
- Duchesse de Nemours.** 8.1. Beautifully cupped, pure white flowers of medium size, with lemon-yellow tints in the depths of its petals and green base. 50c each; \$5.00 per doz.
- Edulis Superba.** 7.6. Splendid, early flowers of rich rose-pink, with a fluffy center of lighter shades; fragrant. 60c each; \$6.00 per doz.
- Felix Crousse.** 8.4. Rich satiny crimson flowers with round, ball-like centers. Stems good; plant very floriferous. One of the very best crimson Peonies. 60c each; \$6.00 per doz.
- Festiva Maxima.** 9.3. An old variety which carries a very high rating because of its superb, enormous, pure white flowers with occasional crimson flakes, its tall stems, and abundant blooming habit. Early. 60c each; \$6.00 per doz.
- Karl Rosenfield.** 8.8. Double, light crimson flowers of shapely form with distinctly waved and curled petals. Vigorous, floriferous plants with tall, strong stems. As an early red it has no equal. 60c each; \$6.00 per doz.
- Mons. Jules Elie.** 9.2. An extra fine early variety with a high mounded center clasped by an enveloping circle of wide, undulating guard petals, all shimmering, silvery pink. 60c each; \$6.00 per doz.
- Officinalis Rubra.** Brilliant, glowing, deep crimson. Early. This is the old-fashioned red Peony. 75c each; \$7.50 per doz.
- Primevere.** 8.6. Deep creamy yellow with center petals sulphur-yellow. \$1.25 each; \$12.00 per doz.
- Therese.** 9.8. Very large flowers with long, crisp petals of translucent old-rose-pink, spreading wide as it opens, disclosing a lovely rosebud center. Plant bushy, not tall, and very floriferous. \$1.25 each; \$12.00 per doz.
- Tourangelle.** 9.4. A delightful variety with pale creamy flowers tinted with apple-blossom-pink, deepening to shell-pink at the center. There is probably no Peony of greater delicacy of color and refinement of shape. \$1.25 each; \$12.00 per doz.
- Walter Faxon.** 9.3. Glowing pink of extraordinary brilliance, almost salmon-pink at times. Midseason. \$1.25 each; \$12.00 per doz.

PAPAVER - Poppy

- ***Papaver nudicaule.** *Iceland Poppy.* 1 ft. June to September. Graceful flowers all summer. Good for massing in border or rock garden. Orange, white, or yellow.
- P. nudicaule, Red Cardinal.** 2½ ft. New red form of above. 35c each; \$3.50 per doz.

HYBRID ORIENTAL POPPIES

Unrivalled in their barbaric splendor of color, ranging from silvery white, soft pink, and salmon to dark blood-crimson and black-maroon. They are very hardy and are one of the most permanent features of the garden. As they thrive in any good garden soil, they can be easily transplanted during their dormant season. In the spring we ship pot-grown plants only.

All varieties: 35c each; \$3.50 per doz., except as noted.

- Beauty of Levermere.** 4 ft. Enormous flowers of dark blood-red, sometimes a foot in diameter, with crimped petals and glittering black center.
- Fairy.** A lovely delicate Poppy with pure, pale pink blooms of medium size. Fine for small gardens. (Color illustration, page 62.)
- Mahogany.** 2½ ft. Mahogany-red.
- Mrs. Perry.** 3 ft. Beautiful shade of salmon-pink. One of the finest.
- Orange Beauty.** 2 ft. Brilliant orange-scarlet.
- Peggy Joyce.** 3 ft. Clear salmon-rose.
- Perry's White.** 2½ ft. Enormous flowers of pure satiny white with a striking crimson base. Extremely effective in masses. 40c each; \$4.00 per doz.
- Wurtembergia.** 4 ft. A striking flower of great size and abundance, of brilliant glowing rose-red. 40c each; \$4.00 per doz.

PENTSTEMON

Attractive, showy plants for the hardy border or rock garden, allowing great range for choice in color and habit. The species are among the most permanent and hardy plants. They like full sunshine, but the ground must not be too dry, or they are likely to disappear within a season or two.

- Pentstemon barbatus, Pink Beauty.** 2 ft. July, August. Clear bright shell-pink flowers on good spikes. Perfectly hardy and make a beautiful cut flower or garden subject. Very effective with Gypsophila.
- P. barbatus torreyi.** *Torrey Pentstemon.* 3 ft. July. Tall, loose spikes of scarlet flowers. Will bloom constantly if flowers are cut.
- ***P. hirsutus (pubescens).** *Eastern Pentstemon.* 2 ft. Spikes of violet flowers shading pink. Excellent for hot dry exposures in border or rock garden.
- P. laevigatus digitalis.** *Foxglove Pentstemon.* 3 ft. June, July. Large spikes of long, pure white flowers, with purple spotted throats. Excellent for planting in shrubby border.

PHALARIS

- Phalaris arundinacea variegata.** *Ribbon Grass.* 18 in. An old-fashioned ornamental grass for bedding, specimens, or edging streams and ponds. The leaves are striped lengthwise with yellowish white.

PHLOX

About the most satisfactory of all perennials is the Phlox. It deserves a good place in the hardy garden or border. The best effects are obtained by planting masses of each color, not less than six, and even as many as two dozen or more of one kind together. They begin blooming in midsummer and continue until frost. Keep in mind that while descriptions are often similar, the varieties have distinct characteristics and usually bloom at different periods. Our collection includes the finest sorts to be found in this country.

The Phlox family is very large and varies widely in habit and time of blooming. While the large varieties are fine, showy border or massing plants, there are dwarf, early-flowering types which are splendid ground covers, edging plants and rock plants.

PHLOX PANICULATA - Garden Phlox

- Annie Cook.** Flesh-pink.
- B. Comte.** 3 ft. Tall-growing variety with large heads of glowing, satiny amaranth-red flowers. One of the last Phlox to flower.
- Beacon.** 3 ft. Brilliant cherry-red; one of the best of this color.
- Blue Hill.** The nearest to blue in Phlox colors. 35c each; \$3.50 per doz.
- Boule de Feu.** 2½ ft. Early. Cherry-red, medium-sized flowers in unusually large trusses.
- Camillo Schneider.** 2½ ft. Robust plants carrying well-shaped trusses of pure brilliant scarlet-red.
- Count Zeppelin.** 2½ ft. Pure white with vermilion-red eye. A striking "calico" type, free-flowering and robust.
- Daily Sketch.** 3 ft. Extra large trusses and individual flowers make it outstanding. A clear satin-pink with a faint red eye. 40c each; \$4.00 per doz.
- E. I. Farrington.** 2 ft. Splendid variety of erect habit and vigorous growth. Large heads of beautiful, bright salmon-pink flowers, shading to soft pink. Always attractive and good for cutting.
- Enchantress.** Bright salmon-pink with dark red eye, rich, glossy foliage. An improvement over Elizabeth Campbell, and a much better grower.
- Firebrand.** 2½ ft. Showy orange-scarlet with vermilion shadings.
- George Stipp.** A new and outstanding Phlox of deep, glowing salmon with lighter salmon eye. Does not fade. 40c each; \$4.00 per doz.
- Jules Sandeau.** 15 in. Large individual flowers of good pure pink on compact, robust plants.
- Leo Schlageter.** 3 ft. Huge, pyramidal trusses of scarlet-carmine, with dark eye, seeming to glow with fire. The best red Phlox. 40c each; \$4.00 per doz.
- Le Mahdi.** Large heads of deep velvety purple.
- Mia Ruys.** 12 in. Pure white blooms on dwarf, compact plants. 40c each; \$4.00 per doz.
- Miss Lingard.** 2 ft. The best early white Phlox, flowering throughout summer, with splendid, narrow, dark green foliage.

Except where otherwise noted, perennials are 30c each; \$3.00 per dozen

PHLOX — Continued

- Morgenrood.** 2½ ft. Excellent strong plants producing large individual florets in huge heads of bright rose with deeper eye. 35c each; \$3.50 per doz.
- Mrs. Jenkins.** 2½ ft. Late and free-flowering pure white, splendid for planting and masses.
- Mrs. Milly van Hoboken.** Bright pink suffused with delicate mauve shadings. One of the best pinks.
- Rheinlander.** Salmon-pink with claret-red eye.
- Rosenburg.** Dark purple with a red eye.
- Victor Heurlin.** Large heads of bright salmon-pink.
- Widar.** Bright reddish violet with conspicuous white eye.

PHLOX SPECIES

- ***Phlox divaricata.** *Wild Blue Phlox.* 1 ft. April, May. The flat heads of large, fragrant, lilac-blue flowers are borne on slender, erect stems. One of the most delightful flowers of spring. Beautiful with pale yellow Tulips or in large drifts in open woodlands. 25c each; \$2.50 per doz.
- ***P. divaricata laphami.** 1 ft. May, June. Darker blue flowers in wide-spreading heads. A splendid variation, blooming over a much longer period.
- ***P. subulata.** *Moss Pink.* 4 in. May, June. Forms a carpet of mosslike foliage, covered with pink flowers. A superb ground-cover and rockery plant. 25c each; \$2.50 per doz.
- ***P. subulata alba.** *White Moss Pink.* 4 in. A form of *P. subulata*, equally valuable, with charming white flowers. 25c each; \$2.50 per doz.
- ***P. subulata atropurpurea.** *Crimson Moss Pink.* 4 in. A brilliant crimson form of the above. Striking in large masses. 25c each; \$2.50 per doz.
- ***P. subulata camlaensis.** *Canula Phlox.* Flowers salmon-pink. Blooming both spring and fall. Foliage much more attractive. 40c each; \$4.00 per doz.
- ***P. subulata, G. F. Wilson.** 6 in. Soft lavender-blue.
- ***P. subulata lilacina.** 4 in. Soft light lilac flowers. A charming companion for early pale yellow flowers. 25c each; \$2.50 per doz.
- ***P. subulata, Vivid.** 3 in. Clearest bright pink. Makes a very bright and pretty showing free from the magenta tones which many object to. A compact grower with dark green foliage; very fine.

PHYSOSTEGIA - False-Dragonhead

Splendid for naturalizing and make good border plants, quickly forming broad, permanent clumps. In borders where rare things are likely to be crowded out by them, it is wise to dig them up every spring and reset them.

Physostegia virginiana. *Virginia False-Dragonhead.* 3 ft. July to September. Spikes of showy dark pink flowers. 25c each; \$2.50 per doz.

P. virginiana alba. *White False-Dragonhead.* 3 ft. July to September. Erect plants with small slender spikes of beautiful white flowers. 25c each; \$2.50 per doz.

***P. virginiana grandiflora, Vivid.** 15 in. September, October. A wonderful little plant, with unusually large flowers of glowing mauve-pink. Flowers at the same time as Dwarf Asters. 25c each; \$2.50 per doz.

PLATYCODON - Balloonflower

As soon as the bells of *Campanula medium* have faded, the Platycodons open their handsome, saucer-like flowers and take up the burden of carrying on the beauty of the Bellflower race.

Platycodon grandiflorum. *Balloonflower.* 2 ft. June to October. Large, showy, deep blue flowers.

P. grandiflorum album. *White Balloonflower.* White-flowered form of above.

***P. grandiflorum mariesi.** *Maries Balloonflower.* 12 in. July to September. A beautiful dwarf species with broad, thick foliage and large, deep violet-blue flowers.

***P. grandiflorum mariesi album.** *White Maries Balloonflower.* 12 in. July to September. A fine form of the above with glistening white flowers.

Plumbago. See *Ceratostigma*.

POLEMONIUM

***Polemonium caeruleum.** *Greek-valerian.* 18 in. June to September. Long, fernlike foliage, surmounted by clusters of bell-like blue flowers.

***P. caeruleum album.** *White Greek-valerian.* A handsome pure white-flowered form of the above.

***P. reptans.** *Creeping Polemonium.* 8 in. April to June. Dwarf, compact plant of graceful growth, with showy blue, bell-like flowers. Foliage attractive throughout the summer. 35c each; \$3.50 per doz.

***P. richardsoni.** *Dwarf Polemonium.* 18 in. June to August. Very bushy plant with persistent foliage, handsome all season long, and fine curved clusters of ruffled, blue, bell-like flowers.

POTENTILLA - Cinquefoil

***Potentilla grandiflora.** *Alpine Cinquefoil.* 12 in. June to September. These good border plants have an abundance of single bright yellow flowers borne in showy masses above the foliage.

***P. nepalensis (formosa).** *Nepal Cinquefoil.* 1 ft. July-August. Purplish red.

***P. nepalensis, Miss Willmott.** 9 in. Bright cerise.

***P. tridentata.** *Wineleaf Cinquefoil.* 6 to 12 in. June to August. A splendid ground-cover for dry banks and rockeries, with evergreen foliage and small clusters of white flowers.

PRUNELLA

***Prunella grandiflora.** *Great Selfheal.* 10 in. June, July. A pretty little border or rock plant with large heads of dark violet-blue flowers.

Primula polyantha, Munstead's Strain

PRIMULA - Primrose

Primroses, Cowslips, and Oxlips are among the plants of song and story. They are none too common in American gardens, chiefly because they do not like hot, dry situations and need the moist, deep ground along a stream-bank or the deep shade of deciduous trees or shrubs. Given the locations they like, and a few leaves scattered over them in autumn, even the fine hybrid strains thrive in a wonderful fashion.

***Primula auricula.** *Auricula.* 10 in. May, June. Attractive rosettes of thick leaves often covered with a mealy down. The flowers are large and round, borne in a cluster on the top of short, erect stems, and come in many shades. They are very fragrant.

***P. cachemiriana.** *Kashmir Primrose.* 8 in. June. Clusters of leaves which are heavily dusted with meal on the under side. Flowers large, purple-blue with a golden eye, clustered on an erect stem. Rare and handsome.

***P. japonica.** *Japanese Primrose.* 2 ft. June, July. Strong, handsome plants for rich soil in shady places, producing fine clusters of flowers of light pink and cream shades on the top of slender but strong, erect stems. Plant in moist soil near a bog or stream, if possible.

***P. polyantha, Munstead Strain.** 10 in. May, June. A splendid strain of the popular Polyanthus, comprising flowers of many charming shades of yellow, cream, and dark orange. Prefers shade but not moisture like *P. japonica*.

***P. polyantha, Red Shades.** 10 in. May, June. Sturdy plants with flowers of varying shades of red and crimson.

***P. polyantha, Sutton's Giant Mixed.** 10 in. May. A vigorous English strain of mixed colors.

***P. polyantha, Sutton's Giant White.** One of the best strains. Large flowers of pure white.

***P. polyantha, Sutton's Giant Yellow.** A similar clear yellow type. Very fine.

P. veris. *Cowslip.* 6 in. April, May. The clustered, drooping flowers range in color from crimson to deep yellow and pure white.

***P. vulgaris (acaulis).** *English Primrose.* 6 in. May, June. A delightful plant forming tufted rosettes from which rise slender stems bearing charming light yellow flowers. Fine for the rock or woodland garden or in combination with *Myosotis*.

PULMONARIA - Lungwort

***Pulmonaria angustifolia azurea.** *Azure Lungwort.* 10 in. May, June. Often confused with *Mertensia*, this vigorous, dwarf plant with long, rough leaves produces a profusion of pink clusters that open to the purest blue. A good foliage plant, best in partial shade. 35c each; \$3.50 per doz.

***P. saccharata.** *Bethlehem Lungwort.* 15 in. May, June. *Mertensia*-like flowers and pretty spotted foliage that lasts all summer. A shade-loving plant. 35c each; \$3.50 per doz.

PYRETHRUM

Pyrethrum roseum. *Painted Daisy.* 2 ft. May to July. Very hardy perennial with attractive fernlike foliage and large Daisy-like flowers; excellent for cutting or for the garden border. 25c each; \$2.50 per doz.

VARIETIES

Album. White.

Atrosanguineum. Rich fiery red shades.

Carneum. Flesh.

James Kelway. Large vivid scarlet.

Rubrum. Red.

For a charming effect, grow the dainty Primulas

RANUNCULUS

Ranunculus acris flore pleno. Tall Double Buttercup. 2 ft. May to September. Flowers deep glossy golden yellow and double. Leaves coarsely cut.

ROSMARINUS

Rosmarinus officinalis. Rosemary. 2 ft. May, June. A woody plant with narrow, dark green, pungent leaves and tiny spikes of bright blue flowers.

RUDBECKIA - Coneflower

These very showy plants are found in most gardens as they are easy to grow, and very persistent. The single-flowered varieties fit splendidly into any naturalistic planting. They are really good only in masses, except such as Golden Glow, which is best grouped in clumps of four or five together for some emphatic point in the garden.

Rudbeckia laciniata, Golden Glow. 5 ft. July to September. A very popular hardy perennial, with masses of double bright golden yellow flowers. Fine for screening. 25c each; \$2.50 per doz.

R. purpurea. See *Echinacea purpurea*.

R. speciosa (newmanni). Showy Coneflower. 2 ft. July to October. Large yellow or orange-yellow flowers 3 to 4 in. across, with dark centers. Fine for cutting. 25c each; \$2.50 per doz.

RUMEX

Rumex acetosa. Garden Sorrel; Green Sorrel. 3 ft. Tart green leaves, used in soups and salads. 25c each; \$2.50 per doz.

RUTA

***Ruta graveolens.** Common Rue. 18 in. July. Panicles of small, yellow flowers and divided blue-green leaves. An old-time medicinal herb of value in herb gardens or in the perennial border. 25c each; \$2.50 per doz.

SALVIA

The showy, red annual Salvia should not be confused with these hardy varieties which are excellent border plants and which produce masses of color, blues predominating, throughout the summer and early fall.

***Salvia argentea.** Silver Sage. 2 to 3 ft. June. Large silvery gray, woolly foliage and white flowers.

S. azurea angustifolia. Azure Sage. 3 ft. September, October. Delicate spikes of dark blue flowers on slender stems.

S. azurea grandiflora (pitcheri). 3 ft. September, October. Shrubby branching habit, with large flowers of rich gentian-blue. This is a very handsome and showy variety which we highly recommend.

S. officinalis. Garden Sage. 18 in. June, July. Aromatic whitish, somewhat downy leaves, used for herbs and flavoring. Flowers come in whorls, varying from blue to white.

***S. pratensis.** Meadow Sage. 2 ft. May to July. Useful plant for borders, with violet-blue flowers in showy spikes.

S. sclarea. 3 ft. July to September. A fine graceful plant with slender spikes of clear pink or lavender-pink. Pretty with Madonna Lilies.

S. sclarea turkestanica. 18 in. August, September. Decorative silvery foliage and showy whorls of white flowers surrounded by pale pink bracts.

SANGUINARIA

***Sanguinaria canadensis.** Bloodroot. 8 in. April, May. Delicate, starry, pure white flowers on soft, red stems, followed by tall, broad, gray leaves. One of the most beautiful native wild flowers. 25c each; \$2.50 per doz.

SANGUISORBA - Burnet

Sanguisorba canadensis. Wild Burnet. 3½ ft. July to September. Hardy herb with bronzy green cut foliage and small spikes of white flowers. Described by one man as "the poor man's *Cimicifuga simplex* and it makes twice the show." 25c each; \$2.50 per doz.

S. minor. Salad Burnet. 2 ft. Gray-green foliage and greenish white flowers in dense heads. 25c each; \$2.50 per doz.

SANTOLINA

***Santolina chamaecyparissus.** Lavender-cotton. 1 ft. July. Evergreen perennial, with attractive silver-gray foliage and yellow flowers. It is useful as a rock or border plant or may be used for a trim hedge in herb gardens.

S. viridis. Green Lavender-Cotton. 8 in. Dwarf plants with gray-green foliage, excellent for edgings.

SAPONARIA

***Saponaria ocymoides.** Rock Soapwort. 6 in. May to August. A half-trailing plant, useful for rock or wall gardens, with bright pink flowers in loose, broad cymes. Very showy and effective. 25c each; \$2.50 per doz.

SATUREIA - Savory

***Satureia alpina.** Calamint. 6 in. Fragrant matlike plants with tiny spikes of rich purple flowers. Used for ground-cover in dry, sunny spots.

***S. montana.** Winter Savory. 12 in. A dwarf, woody herb with fragrant, evergreen leaves. Can be used like *Teucrium* for an edging.

SAXIFRAGA - Saxifrage

***Saxifraga cordifolia.** Heartleaf Saxifrage. 15 in. May, June. A strong-growing species with large, waxy bronzy-green leaves and clusters of bright rose-colored flowers on the tips of tall stems very early in the spring. Fine among large rocks or ledges, or at the sides of rough steps.

S. macnabiana. 1 ft. May, June. Numerous clusters of white flowers heavily speckled with pink. Stiff rosettes of gray-green foliage, fine for wall gardens or crevices in the rock garden. 35c each; \$3.50 per doz.

SCABIOSA

These are handsome, bushy plants suited to any good border, thriving in sunny locations and producing great quantities of beautiful flowers on fine cutting stems. They should be grown in quantity for their excellent decorative effect.

Scabiosa caucasica. Caucasian Scabiosa. 2½ ft. June to September. Vigorous, handsome border plant with large, soft lilac-blue flowers on long stems, useful for cutting.

S. caucasica alba. White flowered form of the above.

S. caucasica, House's Hybrids. Flowers very large, ranging in color from light azure-blue and lavender to deep blue and silvery white. 35c each; \$3.50 per doz.

S. japonica. Japanese Scabiosa. 3 ft. July to September. This variety has beautiful blue flowers in great abundance.

SEDUM - Stonecrop

Of easiest possible culture, the Sedums will thrive apparently in some of the most inhospitable places. They will not endure dampness, however, and should always be planted so that their roots are high and dry. Ideal for rockeries, cracks between stones, covering bare sandy patches of sterile ground, and for innumerable places where hard-luck plants are needed.

***Sedum acre.** Goldmoss. 4 in. May, June. A little, low, tufted plant with pulpy light green leaves and masses of yellow flowers. Good for edging and covering ledges. 25c each; \$2.50 per doz.

***S. album.** White Stonecrop. 4 in. July, August. Very pretty creeping variety, with small foliage and tiny white flowers on pinkish stems. 25c each; \$2.50 per doz.

***S. ewersii.** Ewer Stonecrop. 6 in. September, October. Little clumps, with broad, glaucous leaves and lavender-pink flowers. 25c each; \$2.50 per doz.

***S. kamschaticum.** Orange Stonecrop. 6 in. July, August. Pulpy, bright evergreen foliage, with golden flowers in flat clusters. 25c each; \$2.50 per doz.

***S. lydium.** Lydian Stonecrop. 2 in. July, August. Forms a dense carpet of bright green, turning red in winter. Pure white flowers on short stems. 25c each; \$2.50 per doz.

***S. maximowiczii.** Amur Stonecrop. 1 ft. June, July. A good border and rock plant, with heads of orange-yellow flowers; green foliage. 25c each; \$2.50 per doz.

***S. maximum.** Great Stonecrop. 1 ft. September, October. A vigorous, bushy border plant with pinkish white flowers. 25c each; \$2.50 per doz.

***S. maximum haematodes (atropurpureum).** Redtip Stonecrop. 18 in. September, October. Metallic brown foliage and red flowers. Very effective for borders. 25c each; \$2.50 per doz.

***S. reflexum.** Jenny Stonecrop. 8 in. July, August. Trailing habit with erect flower stems bearing yellow flowers. 25c each; \$2.50 per doz.

***S. sexangulare.** Hexagon Stonecrop. 3 in. June, July. Very slender-stemmed plant, similar to *S. acre*, but with bronzy foliage. 25c each; \$2.50 per doz.

***S. sieboldi.** Siebold Stonecrop. 6 in. August, September. This variety has broad, bluish gray foliage, margined with showy pink, and rose-pink flowers.

***S. spectabile.** Showy Stonecrop. 18 in. September, October. An erect-growing plant with broad green foliage and large heads of handsome rose-colored flowers. One of the best plants for rock gardens or borders of shrubbery beds.

***S. spectabile, Brilliant.** 18 in. September, October. A more richly colored form of the above, being a bright amaranth-red.

***S. stoloniferum.** Running Stonecrop. 4 in. July, August. A trailing plant with flat, fleshy leaves and pink flowers. 25c each; \$2.50 per doz.

SEMPERVIVUM - Houseleek

A most interesting group of plants suitable for dry walls, rockeries, and edgings. All of them form firm, fleshy rosettes of foliage with smaller offsets, from which they derive their common name of "Hen and Chickens." Most of them bloom in June and July, and they are attractive for their very curious habit and amusing form.

***Sempervivum arachnoideum.** Spiderweb Houseleek. 3 in. A lacy network of fine threads spreads from tip to tip of leaves, giving a cobweb effect. The flowers are bright red. 25c each; \$2.50 per doz.

***S. globiferum.** Globe Houseleek. 6 in. Flattish rosettes of gray leaves with small yellow flowers. 25c each; \$2.50 per doz.

***S. soboliferum.** Hen-and-Chickens. 6 in. Compact little tufts with many loosely attached offsets which roll away and make new colonies. Pretty silvery foliage, lightly tinged bronze. Flowers yellow, in dense, fleshy spikes. 25c each; \$2.50 per doz.

***S. tectorum.** Roof Houseleek. 8 in. Broad rosettes of green leaves with reddish tips and light red flowers. 25c each; \$2.50 per doz.

SHORTIA

***Shortia galacifolia.** Oconee Bells. 8 in. June. A rare little evergreen plant with round, glossy green, leathery leaves from which rises a slender stem bearing fringed, nodding white flowers about half an inch across. A very dainty thing which wants acid soil and shade.

SIDALCEA

Sidalcea, Rosy Gem. Prairiemallow. 3 ft. July, August. Erect-growing, branching plants covered with bright rose-colored flowers.

SILENE - Catchfly

A very pretty family of plants related to the Pinks. They make showy little edgings and have very attractive flowers and foliage. Most of them are deep-rooting and will endure rock garden conditions.

Silene orientalis. *Oriental Catchfly*. 2½ ft. July. Masses of dark rose flowers.

**S. schafta*. *Shafta Catchfly*. 4 in. June to September. Cushion-like plant with clusters of rose-pink flowers on stems springing from the rosettes of leaves. Beautiful for rock garden or edging.

**S. virginica*. *Firepink*. 1 ft. July, August. Bright red clusters of showy flowers.

SILPHIUM

Silphium perfoliatum. *Cup Rosinweed*. 6 to 8 ft. July to September. Showy heads of yellow, Daisy-like flowers. 20c each; \$2.00 per doz.

STACHYS - Betony

**Stachys grandiflora*. *Big Betony*. 1 ft. June, July. A fine border plant, with heavily veined leaves and pretty spikes of rosy pink flowers.

**S. grandiflora rosea*. *Mauve Betony*. 18 in. July to September. Spikes of rosy purple flowers. Fine for shrubbery border.

**S. lanata*. *Woolly Betony*. 1 ft. July. A very useful plant for edging because of its dense, attractive, silvery white foliage which is particularly effective in showing off the small, delicately tinted, purple flowers. 25c each; \$2.50 per doz.

STOKESIA

**Stokesia laevis (cana)*. *Stokes' Aster*. 1 ft. July to October. A charming plant, with very large, lavender-blue flowers resembling the Centaureas. Of great value for border and cutting.

**S. Blue Moon*. 12 to 18 in. Summer and autumn. Vigorous-growing and free-flowering. 50c each; \$5.00 per doz.

TANACETUM

Tanacetum vulgare. *Tansy*. 2½ ft. Fernlike leaves and yellow flower heads. 25c each; \$2.50 per doz.

TEUCRIUM

**Teucrium chamaedrys*. *Chamaedrys Germander*. 1 ft. July to September. Terminal spikes of light rose to reddish purple flowers and dark green, shiny evergreen foliage. Planted in the rock garden or border it furnishes spots of deep green all the year round, yet its greatest value lies in the fact that it can be trimmed as a low evergreen hedge, 1 foot high and fully as broad, or may be clipped to any desired height under 1 foot. It is being used widely as a substitute for dwarf boxwood edgings and proving to be exceptionally satisfactory. 30c each; \$3.00 per doz; \$20.00 per 100.

THALICTRUM - Meadowrue

Unusually graceful plants, beautiful both in flower and foliage, which remain attractive throughout the whole season. The showy part of the flowers is usually the long, threadlike stamens which are very delicately colored, giving a most airy, foamlike quality to the bloom. Beautiful either as specimens or masses, but they look best in masses at the edge of shrubs or at the center or rear of the borders, depending upon the height of the varieties chosen.

Thalictrum aquilegifolium. *Columbine Meadowrue*. 3 ft. May to July. A very graceful border plant with heads of feathery cream-colored flowers. Its finely cut foliage resembles that of the Columbines. This will do well in shade. 35c each; \$3.50 per doz.

T. aquilegifolium album. Pure white form of the above.

T. aquilegifolium purpureum. *Purple Columbine Meadowrue*. Similar to the preceding but with showy purple stamens, giving a soft misty beauty to the flowers.

T. dipterocarpum. *Yunnan Meadowrue*. 4 ft. August, September. Flowers violet-mauve with lemon-yellow stamens. A very graceful, showy, and beautiful plant. 40c each; \$4.00 per doz.

T. glaucum. *Dusty Meadowrue*. 4 ft. July. Very graceful, steel-blue foliage, resembling a tall Maidenhair Fern. Heads of pale yellow, fragrant flowers. Will thrive in dense shade. 35c each; \$3.50 per doz.

T. paniculatum. *Yellow Meadowrue*. 3½ ft. June, July. Delicate sprays of dainty yellow flowers above blue-green foliage.

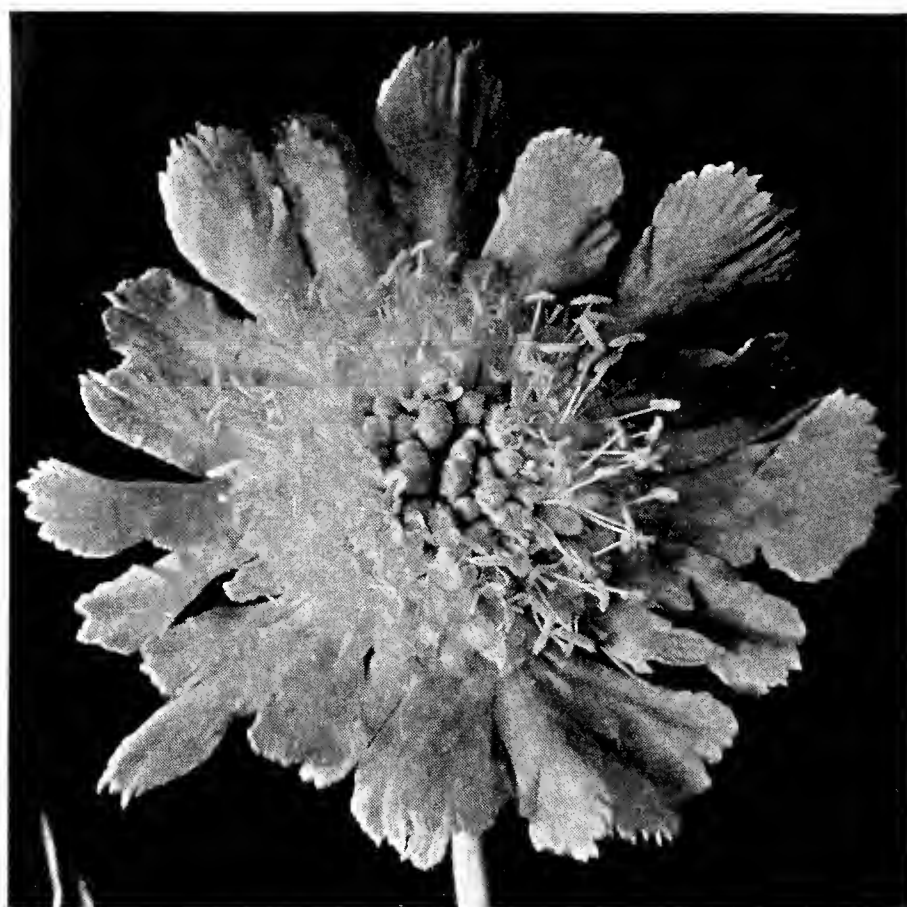

THERMOPSIS

Thermopsis caroliniana. *Carolina Thermopsis*. 4½ ft. June, July. A tall plant with bright yellow, pea-shaped blossoms like yellow Lupines and bright green, clover-like foliage. The merit of this splendid native has never been fully appreciated. Fine for wild garden or half-shady places in the shrubbery, but it is even better introduced among the lighter shades of Delphiniums, making an interesting and striking contrast with them.

TRADESCANTIA

Tradescantia virginiana. *Virginia Spiderwort*. 2 ft. July, August. An old garden plant, with grasslike foliage and violet-blue flowers. 25c each; \$2.50 per doz.

T. virginiana alba. *White Spiderwort*. White-flowered form of the above. 25c each; \$2.50 per doz.

*Scabiosa caucasica***THYMUS - Thyme**

Tiny, old-fashioned sweet herbs valuable for edging, stone work, and low carpet bedding. *Thymus serpyllum* is usually evergreen. Splendid for steps and walks for fragrance exhaled when plants are brushed or bruised.

**Thymus serpyllum*. *Creeping Thyme; Mother-of-Thyme*. 6 in. July. Creeping, evergreen plant with tiny lilac flowers and fragrant leaves used for seasoning.

**T. serpyllum albus*. *White Mother-of-Thyme*. 4 in. June to August. A bright green, matlike plant with little white flowers.

**T. serpyllum citriodorus*. *Lemon-Scented Thyme*. 4 in. July, August. Very similar to the Creeping Thyme, with tiny pink flowers and sweet foliage. 25c each; \$2.50 per doz.

**T. serpyllum coccineus*. *Crimson Thyme*. 4 in. Similar in form to preceding with bright crimson flowers.

**T. serpyllum lanuginosus*. *Woolly Thyme*. 4 in. August. Downy gray foliage and lavender flowers. Effective for carpeting and edging.

**T. vulgaris*. *Common Thyme*. 12 in. June, July. The small lilac or purplish flowers are borne in terminal, interrupted spikes. Foliage very fragrant.

TRILLIUM

**Trillium grandiflorum*. *Snow Trillium*. 9 in. May. The large, white, 3-petaled, Lily-like flowers nod at the center of a cluster of three big leaves and change to rosy pink. Plant in shade. 25c each; \$2.50 per doz..

TROLLIUS

Very showy flowers of globular shape, resembling giant Buttercups. They like damp places, not necessarily shaded as some of them develop their best colors only in sunlight. They are splendid for massing along water courses for display, and are equally good in the garden for cut flowers.

Price of all Trollius: 35c each; \$3.50 per doz., except Orange Globe.

Trollius europaeus, *Eleanor*. 18 in. May to August. Large, globular clear yellow flowers on long stems, with handsome foliage.

T. europaeus, *Orange Globe*. 2 ft. June to August. A strong, sturdy grower, with large, globular flowers of a rich, deep glowing orange. Free blooming. 40c each; \$4.00 per doz.

T. ledebouri. *Ledebour Globeflower*. 2 ft. July, August. Flowers orange-yellow, spread open more than other sorts.

T. ledebouri, *Golden Queen*. 2½ ft. June to October. Large, rich golden yellow flowers nearly 4 inches in diameter. A splendid new early-flowering variety of strong-growing habit. Flowers excellent for cutting.

Price of all Trollius: 35c each; \$3.50 per doz., except Orange Globe.

TUNICA

**Tunica saxifraga*. *Saxifrage Tunicflower*. 6 in. July to October. A dwarf, tufted rock plant with pinkish flowers and most delicate foliage. 25c each; \$2.50 per doz.

**T. saxifraga alba*. A white-flowered form of the above. 25c each; \$2.50 per doz.

VALERIANA

Valeriana officinalis. *Garden Heliotrope*. 4 ft. June. Numerous trusses of pinkish lavender flowers with a delicate vanilla fragrance. Excellent for rear of borders. Loves a moist spot.

VERBASCUM - Mullein

The Mulleins are bold, showy plants, very effective in naturalistic planting and for emphatic effects in the wilder part of the garden. Foliage is striking and makes a beautiful contrast with brighter leaves of other perennials. **Verbascum longifolium pannosum.** *Golden Gate Mullein.* 4 ft. July, August. A very vigorous, woolly plant with tall, showy spikes of sulphur-yellow flowers.

V. olympicum. *Olympic Mullein.* 6 ft. July. A stately variety, with large, woolly, silvery white foliage and bright yellow flowers in branching spikes.

V. phoeniceum. *Purple Mullein.* 18 in. Flat rosettes of crinkly leaves from which rise slender spikes of beautiful mauve-purple and rosy violet flowers.

V., Miss Willmott. 6 ft. July and August. A very beautiful variety with large, pure white flowers produced on picturesque plants over a long season.

VERONICA - Speedwell

A large and very interesting family varying from creeping rock plants to husky shrubs. They all do well in rather moist soil and half shade, but prefer the full sunlight. In masses they make a vivid splash of rich blue in their season, and the foliage of all of them is attractive.

***Veronica gentianoides.** *Gentian Speedwell.* 6 in. May. One of the earliest and most valuable border plants. It has attractive pale blue flowers. 25c each; \$2.50 per doz.

***V. incana.** *Woolly Speedwell.* 1 ft. July, August. A white woolly plant with numerous blue flowers. It is of good appearance both in and out of bloom.

V. longifolia, Blue Jay. 18 in. July to September. A handsome variety with glorious blue-violet spikes of flowers.

V. longifolia subsessilis. *Clump Speedwell.* 2 ft. July to September. One of the handsomest blue-flowering plants. It is perfectly hardy and increases in strength and beauty each year. Spikes completely studded with beautiful deep blue flowers. Fine for cutting. 35c each; \$3.50 per doz.

V. longifolia subsessilis, Blue Spire. 2 ft. A worthy and outstanding improved variety with showy spikes of lovely deep blue flowers above bright green foliage. Excellent for cutting. 35c each; \$3.50 per doz.

***V. prostrata.** *Harebell Speedwell.* 4 in. May, June. Bright green mats covered with tiny spikes of lavender-blue flowers.

***V. repens.** *Creeping Speedwell.* 4 in. May, June. A useful rock or carpeting plant with light blue flowers, as it covers bare spaces rapidly. It prefers a moist situation but does well in dry soils. This and *Arenaria verna caespitosa* are outstanding for planting between stepping stones.

***V. rupestris.** *Rock Speedwell.* 4 in. May, June. An excellent plant for carpeting rockeries or bare spots. Dense spikes of blue flowers.

***V. rupestris, Heavenly Blue.** 3 in. May, June. Light blue form, regarded by many as the best of the rock types. 35c each; \$3.50 per doz.

V. spicata. *Spike Speedwell.* 18 in. June, July. Long spikes of violet-blue flowers. One of the best plants for a sunny border. 25c each; \$2.50 per doz.

V. spicata alba. *White Speedwell.* A similar variety with long spikes of snowy white flowers. 25c each; \$2.50 per doz.

V. spicata rosea. Rose-pink form of the above. 25c each; \$2.50 per doz.

***V. spuria (amethystina).** *Bastard Speedwell.* 12 in. May, June. A slender, upright, leafy plant, with many narrow spikes of dark blue flowers. One of the best varieties for rock gardens.

V. virginica. *Culver Physic.* 3 ft. August, September. An erect plant with terminal spikes of pale blue flowers. Good for wild gardens. 25c each; \$2.50 per doz.

V. virginica alba. 4 ft. A similar form with erect spikes of white flowers. 25c each; \$2.50 per doz.

VERNONIA

Vernonia noveboracensis. *Common Ironweed.* 6 ft. July to September. One of the noblest and showiest of our native flowers. A tough and rather coarse plant with beautiful heads of violet and purple blooms. Contrasts well with groups of Helianthus or Eupatoriums. 25c each; \$2.50 per doz.

VINCA - Myrtle

***Vinca minor.** *Common Periwinkle.* 6 in. June to September. A handsome evergreen ground cover with showy bright blue flowers borne freely in early spring and at intervals throughout the summer and autumn. It is perfectly hardy and does splendidly under trees or in shady nooks where few plants will thrive. Pot grown and field grown: 25c each; \$2.00 per 10; \$15.00 per 100; \$130.00 per 1000.

***V. minor alba.** *White Periwinkle.* The white-flowering form of the preceding which has not been plentiful in recent years. We have a wonderful stock of this grand variety which is most effective when planted in combination with the blue forms. Pot grown: 40c each; \$3.50 per 10; \$25.00 per 100; \$225.00 per 1000.

***V. minor, Bowles' Variety.** A recently introduced variety with rich, glossy green, crinkly foliage and large, deep blue flowers borne abundantly. Pot grown: 40c each; \$3.50 per 10; \$25.00 per 100.

***V. minor variegata.** A striking variety with good-length runners with bright striped foliage. 40c each; \$3.50 per 10; \$25.00 per 100.

Twenty-five of one kind will be furnished at the hundred rate; two hundred fifty at the thousand rate.

VIOLA

Violas are especially good for edging in rather moist, half-shady places, excellent at edge of Rose beds and at the edge of low-growing shrubs.

***Viola blanda.** *Sweet White Violet.* 6 in. May. White with a blue eye.

***V. cornuta alba.** (Type.) *White Tufted Pansy.* Large white-flowering variety. A constant bloomer. 25c each; \$2.50 per doz.

V. cornuta, Hybrids. *Tufted Pansies.* 8 in. May to September.

Admiration. Deep blue.

Arkwright Ruby. Ruby-red suffused with mahogany.

Blue Perfection. Mauve.

Chantreyland. Apricot-yellow. An improvement on Apricot.

***V. cucullata.** *Blue March Violet.* 8 in. April, May. Dark blue flowers, freely produced on long stems. Fine for planting in shade. 25c each; \$2.50 per doz.

***V., Jersey Gem.** 8 in. May to September. The best Viola of all. A compact grower with lovely large violet-blue blossoms on 6-in. stems. If kept trimmed back severely after first flowering, it will produce a succession of bloom from May throughout the summer to early fall.

***V. odorata, Double Russian.** 8 in. May to October. A lovely double Violet with large blue fragrant flowers. Fine for shady or sunny spots. Has good stems for cutting. 35c each; \$3.50 per doz.

***V. odorata, Rosina.** 8 in. April and September. Deep pink flowers with an intense and delicious fragrance, produced early in spring and again in the autumn. It thrives best in the partial shade of evergreens or small shrubs. Has good stems for cutting.

***V. odorata, Single Russian.** *Sweet Violet.* 6 to 8 in. May to October. Fine single blue flowers of rich fragrance.

V. odorata semperflorens. 8 in. Fragrant blue flowers produced all summer.

***V. pedata.** *Birds-foot Violet.* 6 in. One of the best wild flowers and one of the earliest. Deep purple with fine cut leaves. 25c each; \$2.50 per doz.

YUCCA

***Yucca filamentosa.** *Common Yucca.* 4 to 5 ft. June, July. Sword-like foliage and tall spikes of fragrant, drooping, bell-shaped, creamy white flowers. A showy plant for bold effects. Heavy plants. 35c each; \$3.50 per doz.

Teucrium chamaedrys

Except where otherwise noted, perennials are 30c each; \$3.00 per dozen

Herb Plant Varieties

***Anise.** *Pimpinella anisum*. The seeds flavor pastries and confections, while the leaves may be used in salads. 20c each; \$2.00 per doz.

Balm, Lemon. *Melissa officinalis*. A low shrubby herb with small yellow and white flowers loved by bees. Leaves, with the odor and taste of lemon, used in cooling summer drinks, and to flavor tea. 25c each; \$2.50 per doz.

Beebalm. *Monarda didyma*. Tall woody stemmed herb with heads of bright scarlet flowers and fragrant leaves and seeds. The steeped leaves make an aromatic tea. 30c each; \$3.00 per doz.

***Borage.** *Borago officinalis*. An attractive herb about 2 feet high with bright blue flowers. Young plants used as pot herbs with cucumber flavor. Tips of stems and young leaves used in cooling drinks. Flowers are candied. 20c each; \$2.00 per doz.

Burnet, Salad. *Sanguisorba minor*. Crushed leaves have the odor and flavor of cucumbers and are used in mixed green salads or aromatic vinegars. 25c each; \$2.50 per doz.

Burnet, American. *Sanguisorba canadensis*. A native "simple" for the wild garden with attractive white flower spikes. 25c each; \$2.50 per doz.

Camomile. *Anthemis nobilis*. Decorative, finely cut foliage. A soothing tea is brewed from the dried flowers. 25c each; \$2.50 per doz.

Camomile, False. *Matricaria cap. nana*, *Golden Ball*. Useful for dwarf edgings in the herb garden. 25c each; \$2.50 per doz.

Caraway. *Carum carvi*. Seeds are used in pastries and liqueurs. 25c each; \$2.50 per doz.

Catnip. *Nepeta cataria*. A soft gray-leaved, shrubby herb with bluish flowers and aromatic leaves used in medicinal tea. Loved by cats. 25c each; \$2.50 per doz.

Checkerberry. *Gaultheria procumbens*. A 3-inch shrub with creeping stems and shining evergreen leaves, white flowers in early spring and persistent red berries. Whole plant very aromatic and once the only source of winter-green oil. For the wild garden. 30c each; \$3.00 per doz.

***Chervil.** *Anthriscus cerefolium*. A delicately pretty and fernlike little plant with white flowers and leaves turning bronze. Young leaves used in soups, salads, and omelets to give a slightly anise flavor. 20c each; \$2.00 per doz.

Chive. *Allium schoenoprasum*. Small, lilac flower-heads and grasslike leaves make a lovely edging in the spring. Grows in a small bulbous clump. Onion flavor used in cheeses, salads, and vinegars. 30c each; \$3.00 per doz.

***Coriander.** *Coriandrum sativum*. A pretty herb with dainty white umbels of flowers and fern-like leaves, 1 ft. or more tall. Dried seeds used in bread, sausages, and cheeses. 20c each; \$2.00 per doz.

Costmary. *Chrysanthemum balsamita*. (Bible Leaf or Sweet Mary.) Large, light green leaves with minty odor and yellow Tansy-like flowers in late summer. 30c each; \$3.00 per doz.

Cowslip. *Primula veris*. Leaves and flowers flavor wines. For the wild garden, also as edging for the herb garden. 30c each; \$3.00 per doz.

***Dill.** *Anethum graveolens*. A tall herb with attractive blue-green foliage and umbels of yellowish flowers. Young leaves and seeds used as seasoning in salads, and to flavor vinegar or cucumber pickles. 20c each; \$2.00 per doz.

***Fennel.** *Foeniculum vulgare*. Tall, decorative herb with large, finely cut leaves and yellow flowers. Anise-flavored seeds used to flavor liquors, soups, and bread; leaves for garnishing fish. 20c each; \$2.00 per doz.

Germander. *Teucrium chamaedrys*. Plants with small, glossy dark green leaves and rose-lavender flowers in July. Once a medicinal herb, now used only as a choice horticultural asset. Excellent as a dwarf trimmed hedge for herb or perennial gardens. 30c each; \$3.00 per doz.; \$20.00 per 100.

Ghost Plant. *Artemisia*, *Silver King*. Excellent when planted with other herbs for the contrast its white silvery foliage provides. 30c each; \$3.00 per doz.

Ground Ivy. *Nepeta hederacea* (*glechoma*). A trailing, nearly evergreen ground cover, spreading rapidly, makes thick mats of dark green leaves and lovely dark blue flowers in early spring. Loved by bees. Brewed leaves once made a medicinal spring tonic. 25c each; \$2.50 per doz.

Heliotrope, Garden. *Valeriana officinalis*. Fragrant plant of medieval herb gardens. Dried roots used in potpourris. For the wild garden and the border. 25c each; \$2.50 per doz.

Horehound. *Marrubium vulgare*. A low, aromatic shrub with woolly grayish leaves and white flowers. Dried leaves make the well-known candy. 25c each; \$2.50 per doz.

Hyssop. *Hyssopus officinalis*. Nearly evergreen, 2-ft. shrub which may be kept trimmed as a fine low hedge. Blue spikes of flowers in June. Hyssop was once a medicinal "simple." 30c each; \$3.00 per doz.

Plants for

A New World of Forgotten Delights

The rediscovery of herbs has opened up to garden lovers a new world of forgotten delights. The fragrant "nose" herbs, tasty "pot" and "salad" herbs, and soothing "simples", beloved by our great-grandmothers have come at last into their own, reasserting their piquant charms in the modern garden. Native to the warm slopes of the Mediterranean, herbs have been cherished from the dark ages down, and are intimately linked with every activity dear to man. The ancients believed that the plants partook of the essence of the gods, and were endowed with magical properties.

Aromatic Perfumes to Refresh and Inspire

And so indeed they are — instinct with magic and poetry — distilling aromatic perfumes to refresh and inspire, whetting our jaded appetites with tart, fresh flavours and proffering us, in hours of weariness, the steaming cup of healing.

Lavender-Cotton. *Santolina chamaecyparissus*. A low, woody, grayish shrub of pungent odor. A decorative herb in any garden, with small, coral-like leaves and yellow flowers. Fine for the edges in "knot gardens." 30c each; \$3.00 per doz.

Lavender, Spike. *Lavandula spica*. The flowers of this species are less attractive than those of the True Lavender, but they appear later, carrying on the flowering season of this favorite herb. The leaves are longer and grayer and the whole plant less shrubby than the True Lavender. 25c each; \$2.50 per doz.

Lavender, True or English. *Lavandula officinalis*. A low, shrubby herb, entirely fragrant. The stems are thickly set with small, stiff, gray-green leaves and bear at their tips long spikes of charming lavender-blue flowers from early June on. The flowers are dried for potpourris and "sweet bags" as well as for the aromatic tea which is brewed from them. 30c each; \$3.00 per doz.

***Lemon Verbena.** *Lippia citriodora*. A tender, shrubby plant with small white flowers. The leaves are extremely fragrant and are used both green and dried for "tea" and potpourris. 30c each; \$3.00 per doz.

***Marjoram, Sweet.** *Origanum marjorana*. A low-growing, soft-leaved little shrub with greenish knots of flowers. Delicately fragrant leaves used in scent bags and powders. Fresh leaves may be used in salads, dried leaves for seasoning meats, poultry or cheeses. 20c each; \$2.00 per doz.

Marjoram, Wild. *Origanum vulgare*. A charming herb about 2 ft. in height with thick, matted rosettes from which rise slender stems carrying pinkish red and white flower clusters. A decorative herb useful for cutting. Not as aromatic as Sweet Marjoram, but often used in the same way. 25c each; \$2.50 per doz.

"A friendly use for the herbs—a fragrant welcome along the path to the house door, and the herbs are sweet to smell and pinch along the way."

Grow Your Own Herbs and Make the Cook Happy

Herb Gardens

Grow Home-Grown Herbs

A tiny patch, a few plants in the wild garden or rock garden, an elaborate "knot garden" of home-grown herbs—it makes no difference how many or how few—they are a source of constant delight and invigoration. And the herb gardener has always ahead of him the zest of fresh discoveries, pungencies of taste and smell, and of steeping his senses anew in the rich lore of earth.

Herbs for Color in Modern Gardens

The perennial herbs are used more and more frequently as color or form accents and texture in the regular garden, bringing into it the green and gray notes so much needed and also the fragrance which the modern garden so often lacks.

Those varieties marked with an (*) are annual herbs.

MINTS

- Applemint.** *Mentha rotundifolia*. A tall plant 4 to 5 ft., with lovely, gray, woolly, round leaves and spikes of late-blooming lavender flowers. Distinctly apple-scented, fruity flavor, an addition to iced tea. 25c each; \$2.50 per doz.
- Applemint, Variegated.** *Mentha rotundifolia variegata*. Similar to Applemint but with green and white foliage. 30c each; \$3.00 per doz.
- Curlymint.** *Mentha crispa*. Crinkly, heavily veined, broad leaves, excellent in lemonade. Very aromatic foliage. 30c each; \$3.00 per doz.
- Peppermint.** *Mentha piperita*. A decorative, dark green mint with showy, stout spikes of flowers. The whole plant is very aromatic, and used to flavor foods, beverages, candy, and medicines. 25c each; \$2.50 per doz.
- Peppermint, Curtis.** *Mentha piperita curtisi*. A blue-flowered form of peppermint with delicate flavor. 30c each; \$3.00 per doz.
- Peppermint, Gray Leaved.** *Mentha piperita tomentosa*. Attractive, gray-green, aromatic foliage. 25c each; \$2.50 per doz.
- Spearmint or Lambmint.** *Mentha spicata*. Clean, smooth, dark green foliage spreading by root-stalks. Flowers pale lavender, borne in axils of upper leaves and in clusters at tips of tall stems. Most pungent of all mints, used for flavoring in all branches of cookery. 25c each; \$2.50 per doz.
- Spearmint, Anise-Flavored.** *Mentha spicata anisatus*. Faint flavor of anise, used for salads and especially good for iced drinks. 30c each; \$3.00 per doz.
- *Parsley.** *Petroselinum hortense*. Small, fern-like, much-cut leaves. Excellent for a temporary broad, low edge. Leaves used for garnishing meat or fish. 20c each; \$2.00 per doz.
- Pennyroyal.** *Mentha pulegium*. Leaves used medicinally and in seasoning. 25c each; \$2.50 per doz.
- Pimpernel.** *Anagallis*. 20c each; \$2.00 per doz.
- Rosemary.** *Rosmarinus officinalis*. A tender woody shrub with narrow, gray-green leaves, tiny bright blue flowers and spicy, nutmeg odor. An herb well-loved since early days. Used in potpourris, cooking, and medicine. 30c each; \$3.00 per doz.

- Rue.** *Ruta graveolens*. A woody, 3-ft. shrub with lovely bluish green leaves and yellow blossoms. The foliage can be trimmed into a graceful hedge plant. As an accent in the perennial border this "clean" shrubby perennial is invaluable. Leaves used sparingly in cooking. 25c each; \$2.50 per doz.
- Santolina, Green.** *Santolina viridis*. A dwarf compact green plant excellent for edgings. 30c each; \$3.00 per doz.
- Sage, Garden.** *Salvia officinalis*. A gray-green shrubby perennial with very aromatic leaves and blue flowers. Invaluable in cooking. 30c each; \$3.00 per doz.
- Sage, Meadow.** *Salvia pratensis*. Pungent, dark blue, spring-flowering sage. Not of culinary use. 30c each; \$3.00 per doz.
- Savory, Alpine.** *Satureia alpina*. Fragrant, mat-like plants used for ground covers in sunny spots. 30c each; \$3.00 per doz.
- *Savory, Summer.** *Satureia hortensis*. Leaves and young shoots used to flavor soups, stews, and vegetables, especially string beans. 20c each; \$2.00 per doz.
- Savory, Winter.** *Satureia montana*. A woody, dwarf plant with stiff leaves which remain nearly evergreen. Clipped, it makes a good border herb. Flowers white. Not as much used as summer savory in cooking. 30c each; \$3.00 per doz.
- Snakeroot, Black.** *Cimicifuga racemosa*. An old medicinal herb used chiefly as a nerve sedative. Effective in the shady garden. 30c each; doz., \$3.00.
- Sorrel, Garden.** *Rumex acetosa*. A European pot herb frequently used for greens, salads, or soups. Leaves large and tender. Red flowers on long stems ascending from the crown of leaves. 25c each; \$2.50 per doz.
- Southernwood.** *Artemisia abrotanum*. An old time, woody shrub, 4 ft. high with pungent, lacy leaves and insignificant flowers. Dried branches laid in closets will keep moths away. A charming perennial for the hardy border. 40c each; \$4.00 per doz.
- Sweetflag.** *Acorus calamus*. A liliaceous plant decorative around pools or in bog gardens. Pieces of the root-stock, when boiled in sugar syrup, are used as a confection. 25c each; \$2.50 per doz.
- Tansy.** *Tanacetum vulgare*. Tall plant with fern-like leaves and yellow flower heads. The strongly scented, bitter leaves were once used in cooking, medicinally, and as a preserver of flesh. For the wild garden. 25c each; \$2.50 per doz.
- Tarragon.** *Artemisia dracunculus*. Shrubby tender stems and leaves. It does not flower readily, but is reproduced by root divisions. A favorite anise-flavored herb used in salads, to flavor salad dressings and fish sauces. This is the true French strain. 40c each; \$4.00 per doz.

THYMES

- Citron or Lemon Thyme.** *Thymus serpyllum citriodorus*. Mound of bright green leaves with sharp, lemon fragrance, and lavender flowers. 25c each; \$2.50 per doz.
- Common Thyme.** *Thymus vulgaris*. A stiff little shrubby plant with fragrant leaves, much used in cookery when dried. 30c each; \$3.00 per doz.
- Crimson Thyme.** *Thymus serpyllum coccineus*. Crimson flowers covering wide-spreading green mats. 30c each; \$3.00 per doz.
- Mother-of-Thyme.** *Thymus serpyllum*. Lilac flowers in spring rising from creeping mats of bright green. Tea brewed from the leaves beneficial in relieving headaches. 30c each; \$3.00 per doz.

Violet. *Viola odorata*. An ancient medicinal and culinary herb with fragrant pale purple flowers. This is the violet made famous in early English poetry and prose. Interesting for wild gardens. 30c each; \$3.00 per doz.

***Watercress.** *Radicula nasturtium-aquaticum*. A favorite as a peppery "green" for salads or sandwiches. Must be grown in running water or wet mud. 20c each; \$2.00 per doz.

Woodruff, Sweet. *Asperula odorata*. A delicate ground cover with star-like leaves and early white flowers. The green foliage, fragrant when dry, is used in wine drinks to sharpen the aroma. 35c each; \$3.50 per doz.

Wormwood, Common. *Artemisia absinthium*. Grayish finely cut, fragrant leaves. Use a spray in cooking roast goose. A hot tea brewed of dry leaves relieves colds. Useful in flower arrangements, 30c each; \$3.00 per doz.

Wormwood, Fringed. *A. frigida*. Delicate silvery foliage with delicious spicy odor. A charming herb to combine with rose-colored annuals. 25c each; \$2.50 per doz.

Wormwood, Roman. *A. pontica*. A low lacy herb with silvery, cut foliage. It spreads rapidly. Also useful in flower arrangements. 25c each; \$2.50 per doz.

Yarrow, Woolly. *Achillea tomentosa*. Considered by the western Indians, cooling to the skin and much used in their secret ceremonies. 30c each; \$3.00 per doz.

The entrance to the mint garden. We are indebted to the Berkshire Garden Center of Stockbridge, Mass., for both of the herb garden pictures shown here.

*Aster, Star of Eisenach*

TAXUS hatfieldi. *Hatfield Yew.* The popularity of this evergreen is increasing every year, and as it becomes better known will be used in greater numbers. The reasons are evident: A rich green foliage that is almost a black-green without any traces of washed-out or faded green whatever; a very compact habit, making it ideal for hedges; and a rate of growth slower even than that of *T. cuspidata capitata*, the Upright Japanese Yew. There is nothing better for hedges between 2 and 6 feet in height, and equally valuable for use as specimen plants.

	Each	10	100
15 to 18 in., B&B ...	\$3.00	\$27.00	\$250.00
18 to 24 in., B&B ...	4.00	36.00	330.00
2 to 2½ ft., B&B .	5.00	45.00	

PICEA remonti. *Remont Dwarf Spruce.* This is practically the slowest growing evergreen we have in our nursery. It is dark rich green in color. It does not grow conical, but makes a dense hassock-shaped mound of compact growth. It is an ideal plant to use on either side of a terrace, in a cemetery planting, or any other place where you want a good looking evergreen, but one particularly that will not outgrow the situation in many years. The Remont Dwarf Spruce, like several other varieties of Dwarf Spruces we grow, is not one to be used in any old place but for a choice location; it will be greatly appreciated and enjoyed by discriminating buyers who can afford to buy something that is in a class of its own. If you need something slow growing, hardy, compact, of good color, then here is the answer—Remont Dwarf Spruce.

	Each	10
18 to 24 in.	\$ 8.00	\$ 75.00
2 to 2½ ft.	10.00	90.00
2½ to 3 ft.	14.00	130.00
3 to 3½ ft.	17.50	160.00

DAPHNE mezereum. *February Daphne.* This is a flowering shrub and is not to be confused with the low-growing *Daphne cneorum* which has evergreen foliage and fragrant pink flowers in the late spring and summer.

Sixteen Meritorious Plants

The small garden requires material of moderate growth and particular charm. There are many scores of material described in this catalog suitable for just such situations. In order to focus the attention that several of these deserve, we are repeating the listing of the following, some of which are evergreens, some flowering shrubs, and others perennials.

February Daphne is almost the first shrub to flower in the spring, in fact it is frequently in flower while the snow is still on the ground. Just a few warm days in late winter will cause this shrub to burst forth with hundreds of small, lilac-purple blooms, and they are fragrant. It is a compact, low growing shrub that can be tucked in many places but particularly happy when planted beneath other trees, particularly evergreens. Plant February Daphne for early spring color—when nothing else is in bloom.

	Each	10
15 to 18 in.	\$1.00	\$9.00

PACHISTIMA canbyi. *Canby Pachistima.* If you have never seen it, then the name doesn't mean a thing. If you have seen it you will remember that it is a dwarf, trailing evergreen shrub of fine texture. It is perfectly hardy, forming a low, attractive, matlike plant. It will grow in sun or shade, and remains a dark glossy green even in full sun. It is ideal for a multitude of uses. It is unquestionably the finest ground cover material, much better than *Pachysandra* in sunny locations. It is very effective for edging use along walks and particularly for planting in borders in front of evergreens, rhododendrons, and azaleas. Plant some this year and next winter when the ground is bare, its lustrous green will repay you many-fold with its beauty.

	Each	12	100
3 to 4 in.	\$0.50	\$4.50	\$36.00

AMORPHA canescens. *Lead Plant.* This shrub is entirely different from the scores of other varieties we are growing. It is really dwarf, its ultimate height being about 4 feet. Its woolly, white foliage is in contrast to the more familiar green shade and it is topped with showy spikes of small blue flowers in June.

	Each	10		Each	10
2 to 3 ft.	\$0.75	\$6.50	3 to 4 ft.	\$1.00	\$9.00

FOTHERGILLA major. *Large Fothergilla.* One of our native shrubs but little known and extremely scarce. Its charm lays in its bushy, compact habit of growth, which at a glance would perhaps remind one of an azalea. It bears a profusion of creamy white flowers in May borne like buttons on the ends of the stem which give it its chief claim to distinction. In the autumn the leaves turn to a pleasing orange-yellow.

	Each	10		Each	10
2 to 3 ft.	\$2.50	\$22.50	3 to 4 ft.	\$3.50	\$32.50

*Daphne Mezereum*

for the Small Garden

ILEX crenata convexa. *Box Leaf Japanese Holly.* The Japanese Holly is not hardy in most places here in Massachusetts but the Box Leaf Japanese Holly has been entirely satisfactory with us. It is a coming plant. Several years ago we had several thousand but people didn't seem to know it so we rested our propagation for a few years. In the meantime, as the public became better acquainted with its beauty, it began to sell like hot cakes, and we sold completely out of the larger plants in 1938. However, we are in production again and have a good stock for 1940 and the years to follow. Box Leaf Japanese Holly is a shrub-like broad-leaved evergreen that is very decorative when planted in conjunction with rhododendrons, evergreen shrubs and particularly with coniferous evergreens. The texture of its foliage in an evergreen planting takes away that solid heavy look and when the light is shining on it it seems to brighten up the entire scene. It has also been used very effectively as a hedge plant. It is very bushy with box-like foliage of dull green and grows about 4 feet tall.

	Each	10	100
18 to 24 in., B&B	\$3.00	\$27.50	\$250.00

OXYDENDRUM arboreum. *Sourwood.* Here is one of our native trees that still seems to be little known. It is a native to the Alleghenies and has grown well at the Arnold Arboretum on the north side of Hemlock Hill. It forms a small tree ultimately about 25 feet in height. It is slender and graceful as a birch—just ideal to fill a narrow corner or plant at the back of a shrub border to give irregular outline against the sky. Its flowers are its crowning glory, coming in long, curving racemes like drooping bouquets of lily-of-the-valley on the ends of the branches in July and August when no other tree is in flower. Usually it is the very first tree in the autumn to assume its fall coloring and nearly always it is a brilliant scarlet.

	Each	10		Each	10
2 to 3 ft. B&B	\$1.75	\$15.00	5 to 6 ft. B&B	\$5.00	\$45.00
3 to 4 ft. B&B	2.25	20.00	6 to 7 ft. B&B	7.00	65.00
4 to 5 ft. B&B	3.00	27.50			

NEPETA, Six Hills Giant. Nearly every gardener is familiar with *Nepeta mussini* but not so many know Six Hills Giant, introduced in 1939. It has a neat, compact habit of growth but produces larger and finer flowers and the foliage is a more silvery gray. It flowers from May to September and grows about 15 inches tall. It makes a show in the border or is useful as an edging to paths in dry, sunny locations, and the flowers are excellent for cutting. Each, 40c; 12 for \$4.00; 100 for \$27.00.

RUSSELL HYBRID LUPINS have already been well publicized as a new English strain of extraordinary colors with many shades never before seen in Lupines. (See color illustration, page 62.) Superb spikes closely set with large individual flowers, resembling a round column of sweet peas. Spikes are from 3 to 5 feet tall, and all the flowers on the spike open at one time from top to bottom. The plants we offer will flower this year. Each, 40c; doz., \$4.00; \$27.00 per 100.

ASTER, Star of Eisenach. A new variety of *Aster subcaeruleus* which will prove to be a most welcome addition to the border and the rock garden. The two-inch lavender flowers appear in early June on ten-inch stems, making this plant one of the most valuable that we have for cut flowers. Each, 40c; \$4.00 per doz.; \$27.00 per 100.

DELPHINIUM, Pacific White. New strains of white Delphiniums have been many but there have been few that have met with such instant universal approval as the Pacific White. This variety has long spikes of close-set flowers—the purest white that we have yet seen. Each, 75c; \$7.50 per doz.

Russell Hybrid Lupins

VINCA minor alba. *White Periwinkle.* Everyone knows the common Periwinkle with its handsome evergreen foliage and bright blue flowers, hardy and most effective under trees and shady nooks where few plants will thrive. The white Periwinkle is exactly like it with white instead of blue flowers. The white is particularly effective when planted in conjunction with the blue. The comment is frequently made that white is not planted sufficiently in gardens and that it provides a yard stick by which to measure the depth of other colors. We suggest planting some of the white Periwinkle. Our plants are heavy, well established ones growing in 3-inch pots. Each, 40c; 10 for \$3.50; \$25.00 per 100.

VIOLA odorata semperflorens. *Everblooming Sweet Violet.* Those who are familiar with the common *viola odorata* will appreciate what a great improvement was made when the variety *semperflorens* was developed. The flowers are carried well above the foliage, making a much better display and the blooming period has been lengthened so that flowers are present throughout the season. Each, 30c; \$3.00 per doz.; \$18.00 per 100.

Vinca Minor Alba

EPIGAEA repens. *Mayflower or Trailing Arbutus.* This native wild flower is well known to all New Englanders and has been loved by them since colonial days. The delicate pink, fragrant flowers, hiding under leaves, are eagerly sought in early spring. This plant will be happy in the native garden where there is good drainage and plenty of leaf mold. Each, 50c; \$5.00 per doz.; \$40.00 per 100.

PHLOX camlaensis. *Camla Phlox.* We repeat this here because it is one of the newer perennials and an admirable one. It is a creeping type with a very attractive green foliage that doesn't yellow in the summer, and remains a wholesome green throughout the winter, and is neat and compact. Its flowers are large and a salmon-pink color blossoming in May and frequently again from August to October. Each, 40c; doz., \$4.00; \$27.00 per 100.

Bay State Land

We do our work with

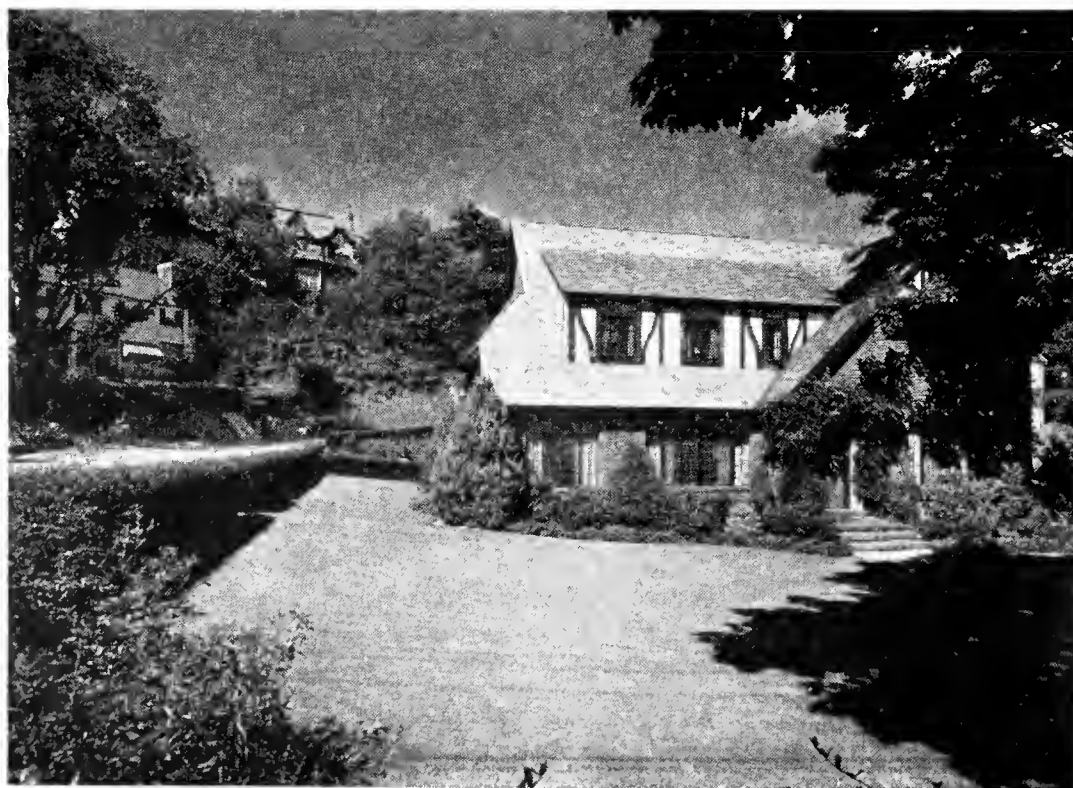

Plans

A great many fine plantings can be produced without a detailed plan by our landscape men. However, if your problem demands a plan, our organization has competent men trained in landscape design and familiar with plant requirements who are equipped to submit a rough sketch and estimate at no charge, or a detailed blueprint and planting list at a moderate cost, telling you in advance, of course, approximately what those charges would be.

If you are considering a complete landscape development to be carried out over a period of years, a plan is not only helpful but absolutely necessary, and experience has shown that in the end it has contributed more than any one thing to the success of the garden, and has been found to be the most economical procedure to follow.

Construction

The complete landscape is our aim, and where necessary, we are prepared to construct walks, terraces, retaining walls, pools, etc. after the correct grades have been established by our engineers.

andscape Department

in a radius of 100 miles

Planting

Our whole planting department is instilled with the idea of planting to make the tree or shrub live. The results of years in producing beautiful plant materials can be spoiled and money wasted by mishandling plants in transplanting them. You may rest assured that if your planting problem is in our hands that it will be handled in a manner that only 40 years of experience in handling trees, shrubs, and plants of all kinds could possibly produce. This means soil tests, the correct fertilizer required, proper pruning of tops and roots, and anything else necessary will be done to not only insure the life of the plants but to make them flourish.

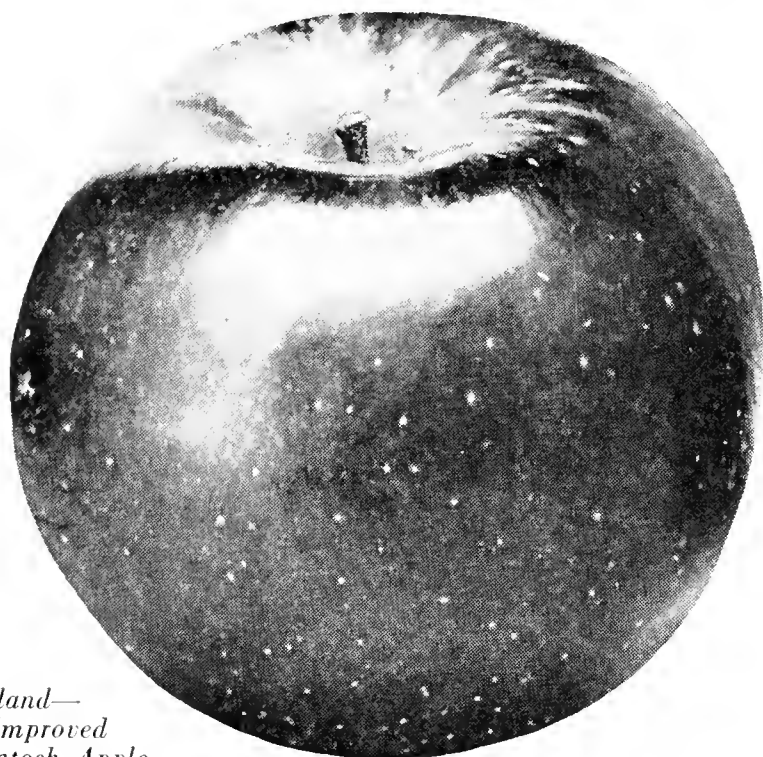

Large Tree Moving

The large tree has come into its own. Most people will no longer wait many years for a small one to grow. The variety of large trees that we have is most complete, and we have the men and equipment to move at the minimum cost.

Let us give you an estimate on one or one hundred.

Bay State Superior Fruit Trees

Cortland—
An Improved
McIntosh Apple

STANDARD APPLES

The trees we offer have all been inspected for trueness to name, although not all individually certified.

	Each	10	100
2-yr., 5 to 7 ft., 11/16 in. caliper	\$1.25	\$11.00	\$100.00
Baldwin. Famous variety which originated near Boston about 1740. Yellow fruits almost completely overlaid with dark red; very crisp, snappy flavor; good for eating and cooking—keeps long and ships well.			
Cortland. A fine new bright red variety resembling the famous McIntosh Red, with the same fine flavor, but keeps in fine condition until late in the winter.			
Delicious. Very popular autumn and early winter variety of superb quality. Fruits large, conical and striped red and yellow.			
Fameuse. From October until mid-winter a splendid bright red eating apple of delicious flavor. Also known as Snow Apple.			
Gravenstein. A delicious red and yellow autumn variety of superb cooking quality.			
Macoun. An improved variety of McIntosh Red.			
McIntosh Red. Very large, firm apples with crisp flesh and wonderfully delicious flavor. For autumn and early winter use.			
Northern Spy. Very large red and yellow striped fruits of rich, juicy quality. One of the best mid-winter apples grown for eating and cooking.			
Red Astrachan. A bright red early apple for summer. Quick growing and early bearing.			
Rhode Island Greening. Very popular, high grade, mid-winter apple, both for cooking and dessert. Fruits green and yellow.			
Wealthy. Large and attractive; quality excellent. Ripens ahead of McIntosh. A good commercial variety, extremely hardy and bearing heavily.			
Yellow Transparent. Bright greenish yellow, early summer apple of good quality for eating and cooking.			

CRAB APPLES

2-year trees, 5 to 7 ft., \$1.50 each; \$12.50 per 10.

- Hyslop.** Dark red or purplish fruits. One of the best known Crabs. Late September and October.
Transcendent. Beautiful red and gold fruits of high quality in August and September.

STANDARD PEARS

2-yr. trees, 5 to 7 ft., \$1.50 each; \$12.50 per 10.

- Bartlett.** Most popular of all pears for dessert and canning. Matures in September. Fine shape and color, and excellent flavor.
Beurre Bosc. A favorite russet-gold pear of elegant shape and exquisite flavor. Makes a handsome tree and bears abundantly, ripens in October and November.
Clapp's Favorite. Equal to Bartlett in appearance and flavor, but matures a week or two earlier.
Seckel. The most delicious of all pears, and popular the country over. Fruits are small, russet-brown, and borne abundantly. Ripens in October.
Sheldon. A handsome, beautifully colored fruit of high quality, ripening in October. Fine for domestic use or home market.

CHERRIES

2-yr. trees, 5 to 7 ft., 11/16 in. cal., \$1.50 each; \$12.50 per 10.

- Black Tartarian.** The favorite black sweet cherry of New England. Early.
Early Richmond. Fine early bright red sour cherry for pies and home use.
Montmorency. The standard sour cherry for home use and market. Extremely productive, hardy, and of excellent flavor. Ripens early.
Napoleon. Beautiful large fruits of excellent flavor; yellow with red cheeks.
Windsor. A firm, free-bearing, dark maroon fruit of excellent quality.

PEACHES

1-yr. trees, 4 to 5 ft. 75c each; \$6.50 per 10; \$60.00 per 100.

- Belle of Georgia.** Very beautiful fruit of fair quality, maturing in midseason.
Champion. A delicious white-fleshed peach for home use. Early midseason.
Crawford Early. Delicious early golden yellow variety of wonderful quality.
Elberta. Most popular of all yellow peaches for its keeping and marketing qualities. Midseason.
Golden Jubilee. Recently introduced variety of good quality, with yellow flesh. Ripens early.
J. H. Hale. A splendid sort, better than Elberta in size, earliness, and flavor.
Rochester. Sweet, yellow flesh; bears heavily and ripens early midseason.

PLUMS

2-yr. trees, \$1.50 each; \$12.50 per 10.

- Abundance.** Pinkish red fruits with golden flesh; very juicy and sweet. Early.
Burbank. Larger fruits and better quality than Abundance, which it resembles in color and shape.
Fellenberg. Large, firm, oval fruits ripening in September. Keeps and ships well and is a fine variety for canning.

QUINCES

4 to 5 ft., \$1.50 each; \$12.50 per 10.

- Orange.** Heavy bright yellow fruits of excellent flavor. Ripens in October.

Better Small Fruits

ASPARAGUS

Martha Washington. 2-yr., 75c per 25; \$2.50 per 100; \$20.00 per 1000.

BLACKBERRIES

90c per 10; \$8.00 per 100.

- Eldorado.** A very early main-crop variety, with large, handsome fruits of exceptionally high quality. Very hardy and much prized for home and local market.
Erie. Extremely large, handsome berries, well flavored if allowed to ripen on plant. Midseason variety.

RASPBERRIES

Strong plants, 90c per 10; \$8.00 per 100.

- Chief.** The best early red variety, vigorous and productive, and of excellent quality.
Columbian. A handsome purple hybrid between the red and black varieties. Large, firm, handsome berries of high quality. Strong plants which do not sucker.
Cumberland. Large "black-cap" fruits of excellent size.
Cuthbert. A popular red Raspberry, adapted to all soils and climates.
Latham. Vigorous, disease-resistant plants producing exceptionally large berries of good quality.
St. Regis. Everbearing, producing berries of large size, sweet and rich.

STRAWBERRIES

Runner plants, 75c per 25; \$2.00 per 100. Except as noted.

- Dorsett.** Early. An extra fine variety producing quantities of large, firm, bright red berries.
Fairfax. Early. Darker colored than Dorsett, and of even superior quality.
Marshall. Exceedingly high flavored, and a good cropper when well cultivated. Midseason.
Mastodon. An everbearing Strawberry of extraordinary size and delicious quality. It bears its bright red fruits in great abundance. Runner plants, \$1.00 per 25; \$3.00 per 100.

Even the small yard can accommodate a few fruiting plants

HYBRID BLUEBERRIES

These shrubs, which bear quantities of delicious fruits, are a recent achievement of skilled horticulturists who have worked for years to improve one of our best native fruits. These plants are not too hard to grow providing you have acid soil. If you do not have this soil condition, create it for them by the addition of woods soil, oak mulch, peat, or aluminum sulphate when you plant them. As ornamental plants for the landscape they are unequaled, their glossy green foliage turning a brilliant scarlet in the fall.

These new named varieties are not self-fertile, consequently, one bush planted by itself will not bear fruit, but where 3 or more plants of different varieties are grown closely together, abundant crops of huge luscious berries will result. For this reason, these Hybrid Blueberries are sold in units of three plants, one each of the following varieties.

Cabot. Good sized berries of excellent flavor, ripening from first to middle of July. Plants low and spreading.

Pioneer. A medium high bush; a good producer of excellently flavored berries. 10 to 14 days after Cabot.

Rubel. A few days later than Pioneer. Tall, vigorous bush producing fruit of good quality.

2-yr. size, B&B, \$3.75 per set of three plants, 1 of each variety.

In lots of 10 or more at \$1.10 each.

GRAPES 3-yr. plants, 50c each; \$4.50 per 10.

BLUE AND BLACK VARIETIES

Concord. The standard American grape. Popular everywhere for all purposes.

Moore's Early. Early form of Concord. Dark blue.

Worden. A handsome black grape, larger and with better flavor than Concord.

WHITE VARIETIES

Green Mountain. Clear green or yellowish fruits in slender clusters. Very fine quality.

Niagara. Large, handsome bunches, similar to Concord, but of delicious flavor and clear greenish white.

RED VARIETIES

Brighton. Delicious, meaty red grape of great beauty.

Catawba. Late ripening red variety of excellent flavor.

*Blueberries Grow In Clustered Bunches as Shown
On This Lovely Decorative Shrub*

TERMS OF BUSINESS—Please Read Carefully Before Ordering

Terms

Our terms are cash. Charge accounts, for 30 days credit, may be opened upon receipt of satisfactory credit references—allowing us time for investigation. All accounts unpaid after due date will be subject to sight draft without further notice. C. O. D. express shipments will be made (with collection charges added to the bill) only when order is accompanied by a deposit of at least 25 per cent of the amount of the bill.

Shipping Directions

In ordering nursery stock our customers are requested to state explicitly the mode of conveyance by which they wish their stock forwarded. We make shipments by express, freight, or motor truck. The price for all our material is at the nursery and does not include delivery. We can make shipment by motor truck at a moderate charge, provided the order is large enough to make a truckload. When no route or method is designated, we exercise our judgment. In no case do we assume responsibility after packages are shipped, except for our own mistakes. When losses occur by detention or mishandling, claim should at once be made on the transportation company by the consignee.

Conditions of Sale

1.—The articles herein listed will be furnished in accordance with the following schedule:

1 to 4 plants of one kind and size will be priced at the each rate.

5 to 24 plants of one kind and size will be priced at the ten rate.

25 or more plants of one kind and size will be furnished at the hundred rate, when hundred rates are given.

250 or more plants of one kind and size will be furnished at the thousand rate, where thousand rates are given.

FROM THIS SCHEDULE WE WILL NOT VARY because of the fact that considerable time is required to assemble an order made up of small lots of kinds that are widely separated over the nursery.

2.—We make no charge for packing orders, EXCEPT on very large evergreens, large shade trees, or other ungainly-shaped plants.

3.—Super-specimen plants, selected by the customer, or by his representative, will be priced according to their individual values.

4.—Prices are subject to change without notice.

Guarantee

We guarantee our plants to be healthy and free from injurious insect pests; to be dug carefully, and packed properly to reach you in good condition. Complaints on this score must be made immediately on receipt of goods.

We guarantee our plants to be true to name; if they are not, we will give you new ones at the first proper planting season after their falsity becomes apparent, or credit you with the amount of the purchase price. In no case do we assume liability for more than the purchase price.

We do not guarantee our plants to live since we have no control over them after they leave our hands. You can guarantee their success by giving them proper care.

We are ready at all times to answer any questions you may have as to their proper culture. If, however, any of our plants die and are so reported within 90 days after date of shipment, we will share your loss and furnish replacements at half price, the customer to bear the cost of transportation and planting.

If you desire to have the plants insured against loss, you can accomplish this by the payment of a premium at the time of purchase. This premium will be quoted, if you will state exactly to what extent and for what period of time you wish to be insured.

All agreements under this guarantee are contingent on the original bill having been paid in full within 30 days after date of invoice.

Hardy Perennial Plants

All perennial plants offered are large enough to flower the first season with reasonably good culture. Prices, except as noted: 30c each; \$3.00 per doz.

CAMPANULA Medium—Canterbury Bells

Pyramidal biennial plants covered with large, bell-like blooms, the edges softly rolled back and fluted.

Bay State Long-Lived Showy Perennials

grow larger and finer from year to year. Plant three or more of one variety.

DORONICUM - Caucasian Leopardbane

A lovely, hardy plant with large yellow flowers $2\frac{1}{2}$ to 3 inches across, which resemble the Marguerite of the florist shop. Price: 35c each; \$3.50 per doz.

CHRYSANTHEMUM, Amelia

An early flowering cushion Chrysanthemum; dwarf, compact, flowers freely from late September on. Good for color mass. 30c each; \$3.00 per doz.

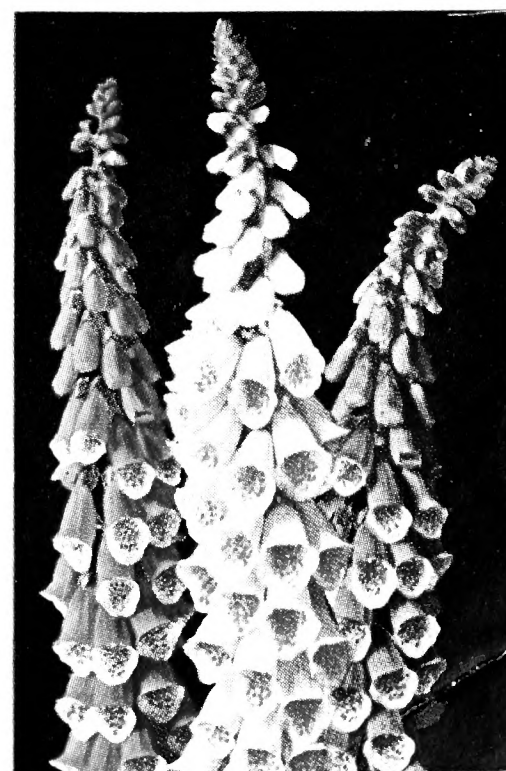

Hybrid Delphiniums

(Gold Medal Hybrids)

These Delphiniums are among the most beautiful and most widely used perennials for garden display and cutting. The regal stateliness of the massive colorful spikes is unequalled by any other flower. Price: 30c each; \$3.00 per doz.

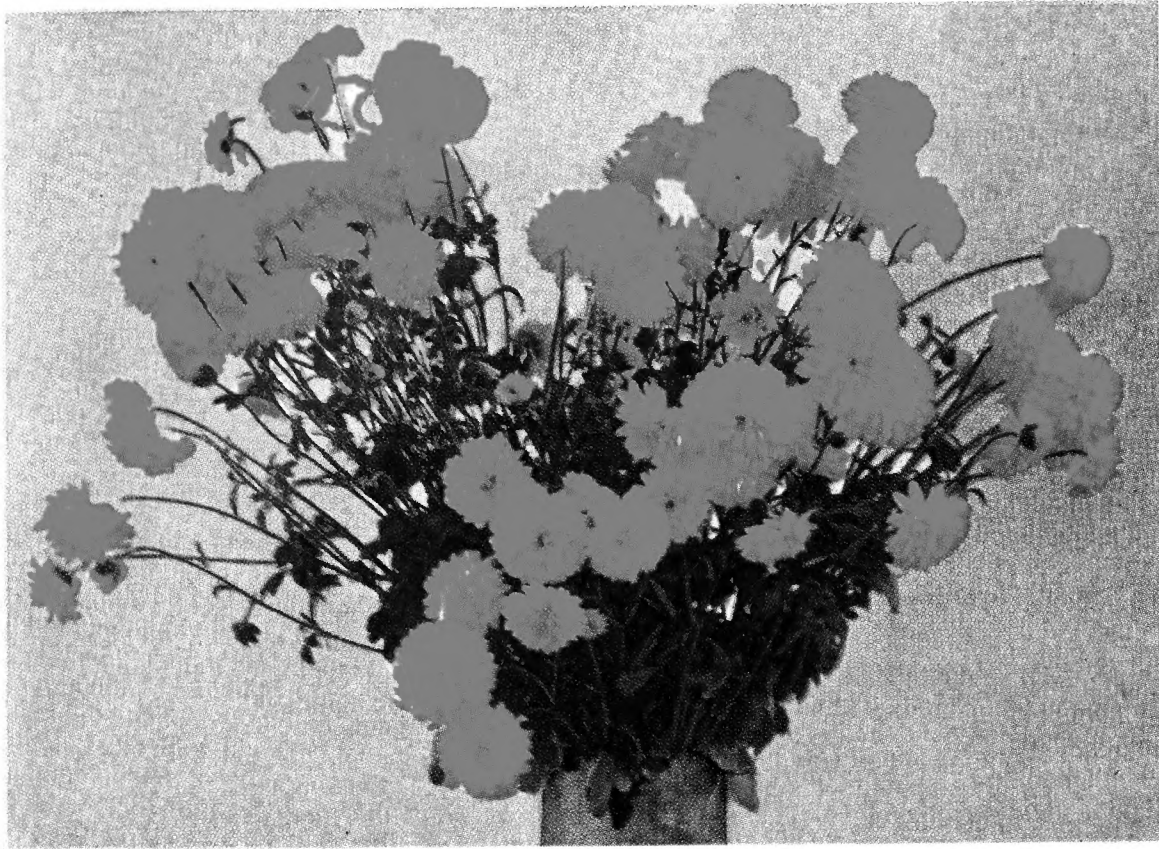

DIGITALIS - Foxglove

Clusters of tall spikes of Foxglove lend a stateliness to a garden better than any other flower we know. The spikes of blooms are 2 to 3 feet tall, pink, rose and white. Price: 30c each; \$3.00 per doz.

Two New Chrysanthemums

THAT OPEN NEW FRONTIERS FOR CHRYSANTHEMUM LOVERS
INTRODUCED BY BAY STATE NURSERIES, Inc.

Treasure Trove

This variety was originated at Dover, N. H., where it has been grown out-of-doors the past four winters **without winter protection**. A beautiful double clear yellow, rich foliage and vigorous growth. 18 inches tall. Flowers mid-September to frost. **Price:** 75c each; \$7.50 per doz.

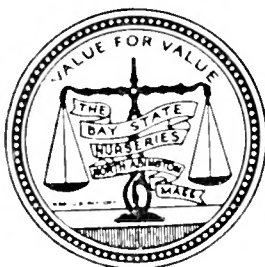

Orange Glow

A duplex type blossom of rich orange that makes a worthy companion to Treasure Trove. This variety has come through the past three winters **without winter protection** in Dover, N. H., with flying colors. It blossoms late September through October. 75c each; \$7.50 per doz.
